ARLINGTON TOWN RECORDS FOR THE MUNICIPAL YEAR 1908.

TOWN MEETING, FEBRUARY 20, 1908.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Thursday, the twentieth day of February, at 8.00 o'clock P. M., then and there to act on the following articles, viz:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the Town will authorize and empower its Board of Public Works, in the name and behalf of the Town, to enter into a contract with the Lexington Peat Company, granting to said Company the privilege of excavating peat from that portion of its water supply area known as The Great Meadows in East Lexington for the purpose of the improvement of said area as a reserve water supply basin for a term of fifteen years on such terms and under such restrictions as the said Board of Public Works may in its discretion impose.

(Inserted at the request of the Board of Public Works.)

Hereof fail not, and make due return of this Warrant, with your

doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this fifth day of February, in the year of our Lord one thousand nine hundred and eight.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,

Selectmen of the Town of Arlington.

MIDDLESEX SS.

Arlington, Feb. 18, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the town, and also by posting an attested copy on the doors of the Town Hall seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

Pursuant to the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, on Thursday, the twentieth day of February in the year of our Lord one thousand nine hundred and eight, and were called to order at eight (8) o'clock in the evening by the Town Clerk, who read the warrant calling the meeting and the return thereon of the constable who served the same upon the inhabitants.

Article 1 taken up. (Choice of Moderator.)

The meeting nominated and chose as Moderator John G. Brackett, who was sworn by the Town Clerk to the faithful performance of his duties.

Article 2 taken up. (Peat from Great Meadows.)

Voted: That the Town authorize and empower its Board of Public Works, in the name and behalf of the Town, to enter into a contract with the Lexington Peat Company, granting to said Company the privilege of excavating peat from that portion of its water supply area known as the Great Meadows in East Lexington, for the purpose of the improvement of said area as a reserve water supply basin, for a term of fifteen years, on such terms and under such restrictions as the said Board of Public Works may in its discretion impose.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3057 and outgoing turnstile No. 3056 respectively, who made a return in writing at the adjournment of the meeting showing that twenty-seven (27) voters

had entered the hall through turnstile No. 3057 and one (1) voter had left the hall through turnstile No. 3056, showing that twenty-six (26) registered voters attended the meeting.

All articles in the warrant calling the meeting having been acted upon it was

Voted: That this meeting be now dissolved.

Meeting dissolved at 8:45 P. M.

A True Record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—MONDAY, MARCH 2, 1908,
AT 6.00 O'CLOCK, A. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX SS.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Monday, the second day of March, at 6.00 o'clock A. M., then and there to act on the following articles, viz:

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To elect by ballot the following town officers—A Town Clerk, for one year; a Town Treasurer, for one year; a Town Collector, for one year; an Auditor, for one year; three Selectmen, for one year; one Assessor, for three years; three members of the School Committee, for three years; one member of the Board of Trustees of the Pratt Fund, for five years; one member of the Board of Commissioners of the Sinking Fund for three years; two Trustees of the Robbins Library, for three years; three Cemetery Commissioners, one being for one year, one for two years, and one for three years; five Constables, for one year; one Park Commissioner, for three years; one member of the Board of Health, for three years; one Tree Warden, for one year; three members of the Board of Public Works, for one year. Also to choose or appoint all the other usual Town Officers, in such a manner as the Town may determine. Also, upon the same ballot to vote "Yes" or "No" upon the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" For these purposes the polls will be opened as soon as possible after the organization of the meeting and kept open until five o'clock, P. M.

ART. 3. To hear and act on the reports of the Selectmen and other Town Officers and Committees heretofore appointed.

ART. 4. To make an appropriation for the Robbins Library for the ensuing year.

ART. 5. To make an appropriation for the Public Schools for the ensuing year, and determine in what manner the same shall be expended.

ART. 6. To determine in what manner the Town ways, highways and bridges shall be repaired the ensuing year.

ART. 7. To determine what sum of money the Town will raise by general tax, to defray Town expenses, interest, debt, and State Aid, and make an appropriation for the same.

ART. 8. To see if the Town will appoint the Selectmen agents of the Town, to institute and prosecute in favor of the Town and appear and defend suits and legal proceedings against or involving the interests of the Town, with power to employ counsel therein, and when necessary, in all other legal matters and business appertaining to Town affairs during the year commencing March 2, 1908.

ART. 9. To see what action the Town will take in relation to the appointment of a Committee of Twenty-one for the ensuing year.

ART. 10. To see if the Town will appropriate the sum of \$275.00 for the proper observance of Memorial Day, the same to be expended under the direction of Francis Gould Post 36, G. A. R.

(Inserted at request of Henry Bradley and others.)

ART. 11. To see if the Town will make an appropriation for suppressing leaf eating insects, other than gypsy and brown-tail moths, or take any action relative thereto.

ART. 12. To see if the Town will appropriate \$7000, in accordance with the vote passed December 6, 1904, for water used for fire hydrants, street watering and public buildings for the ensuing year.

ART. 13. To see what action the town will take in regard to the extension of water mains, make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 14. To see if the Town will make an appropriation for the construction and repair of permanent sidewalks.

(Inserted at request of Board of Public Works.)

ART. 15. To see if the Town will make an appropriation for

the maintenance and extension of the Sewerage System for the ensuing year, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 16. To see if the Town will make an appropriation for the use of the Highway Division.

ART. 17. To see if the Town will make an appropriation for street watering, and determine in what manner the money shall be raised.

(Inserted at request of Joint Board.)

ART. 18. To see if the Town will make an appropriation for street lighting.

(Inserted at request of Joint Board.)

ART. 19. To see if the Town will vote to authorize its Collector of Taxes to use all means of collecting taxes for the year 1908 which a town treasurer may use when appointed a collector of taxes.

(Inserted at request of Collector of Taxes.)

ART. 20. To see if the Town will appropriate the sum of \$165 rental of Lawrence Field, to be used by the school children for athletic purposes, under the direction of the School Committee.

(Inserted at request of School Committee.)

ART. 21. To see what action the Town will take to provide additional school accommodations in the Locke School District; to make an appropriation therefor and to decide in what manner the money for said appropriation shall be raised.

(Inserted at request of School Committee.)

ART. 22. To see if the Town will authorize and empower its Board of Public Works, in the name and behalf of the Town, to release to Frederick R. and George M. Vail all the right, title and interest acquired by the said town by virtue of the taking of land for sewer purposes, in a strip or parcel of land 2 feet in width on Laurel Street, so-called, described as follows :

Beginning at a point on the northerly line of Brattle Street, 223 feet from the easterly line of Massachusetts Avenue, thence at an angle of 90 degrees in a northwesterly direction 173.33 feet to land owned, or supposed to be owned, by Mary R. Dolloff; thence, by land of said Mary R. Dolloff in a northeasterly direction 2 feet; thence, in a southeasterly direction 173.33 feet

to the northerly line of said Brattle Street; thence by said northerly line of said Brattle Street, 2 feet in a southwesterly direction to point of beginning.

The above described strip or parcel of land is shown on plan filed in the office of the Town Clerk, entitled "Plan of House Lots belonging to M. H. Wellington, Arlington, Mass., July, 1901, and approved by the Board of Survey, Sept. 9, 1901.

ART. 23. To see if the Town will accept and establish as a town way the private way known as Sawin Street, extending from Teele Street to Henderson Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

Beginning on the southeasterly line of Teele Street at a point 553.15 feet from the northerly line of Massachusetts Avenue; thence at an angle of 90 degrees a distance of 215 feet to the northwesterly line of Henderson Street at a point 580.75 feet from the said northerly line of Massachusetts Avenue.

The above described line is the southerly side line of Sawin Street and the northerly side line is parallel with and distant 40 feet therefrom, as shown on plan approved by the Board of Survey, December 23, 1907, and filed in the office of the Town Clerk, December 30, 1907.

ART. 24. To see if the Town will accept and establish as a town way the private way known as Summer Street, extending from a certain point east of Grove Street to Pine Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way, as laid out, is described as follows:

Beginning at a point at the westerly end of the curve in the northerly line of Summer Street, as shown on plan approved by the Board of Survey, February 17, 1900, said point being marked "M" on said plan and defined on the ground by a granite monument; thence, north 45 degrees, 40 minutes west by a line shown in red on plan above referred to 605.06 feet to the beginning of a curve on said plan; thence, continuing in a northerly direction by a curved line of 303.11 feet radius a distance of 204.13 feet to a point in the centre of Brattle Street; thence, continuing north 2 degrees, 9 minutes and 55

seconds W. 198.01 feet to an intersection with the southerly line of Pine Street as now accepted by the Town. The above described line is the southerly line of said Summer Street and the northerly line is parallel with and distant therefrom 50 feet. The said street is laid out in accordance with the plan above referred to and said plan is made a part of this laying out.

Further description is shown on plan and profile made by H. S. Adams, C.E., entitled "Plan and Profile of Summer Street, November, 1899," approved by the Board of Survey, February 17, 1900, now on file in the Town Clerk's office.

ART. 25. To see if the Town will accept and establish as a town way the private way known as Wollaston Avenue, extending from Wachusett Avenue to Tanager Street, as laid out by the Joint Board of Selectmen and Board of Public Works under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows :

Beginning at the southeast corner of Wachusett Avenue and Wollaston Avenue as accepted Nov. 13, 1894 ; thence along the southerly line of said Wollaston Avenue extended 304 feet to a stone bound at the southeast corner of said Wollaston Avenue extended and West Street, so-called, thence by a diagonal line in a northerly direction 60.95 feet to a stone bound on the northerly line of Wollaston Avenue extended and at the end of the northerly line of Tanager Street ; thence, in an easterly direction on the northerly line of Wollaston Avenue extended, 325.65 feet to the end of the acceptance of Wollaston Avenue, November 13, 1894 ; thence by a diagonal line across Wollaston Avenue 60.6 feet to point of beginning ; said Wollaston Avenue Extension, as above described, is 60 feet in width, and is in accordance with the plan approved by the Board of Survey, December 23, 1907, filed in the office of the Town Clerk, December, 30, 1907.

ART. 26. To see if the Town will authorize and empower its Board of Cemetery Commissioners, in the name and behalf of the Town, to convey lot 271 in Mt. Pleasant Cemetery to Mrs. Harriet M. Marston, of Somerville, on such terms as the said Board may deem proper.

(Inserted at the request of the Cemetery Trustees)

ART. 27. To see if the Town will make an appropriation for the renewal of cement lined water mains, make an appropriation therefor, and determine in what manner the money shall be raised.

ART. 28. To see if the town will make an additional appropriation, to be expended from Nov. 30, 1907, and for the twelve months next ensuing, for suppressing the gypsy and brown-tail moths, in accordance with the provisions of Chapter 381, Acts of 1905, and amendments thereto, and determine in what manner the money shall be raised.

ART. 29. To appropriate and raise, by borrowing or otherwise, such sum or sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this eighteenth day of February, in the year of our Lord one thousand nine hundred and eight.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,

Selectmen of the Town of Arlington.

Middlesex County.

Arlington, February 29, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, to meet at the time and place, and for the purposes herein named by causing a printed attested copy of the same to be left at every dwelling house in Town, and also by posting an attested copy of said warrant on the door of the Town Hall in said Arlington, seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, in said Arlington, on Monday, the second day of March, in the year of our Lord one thousand nine hundred and eight and were called to order at six (6) o'clock in the morning by the Town Clerk, who read articles one and two of the warrant calling the meeting and the return of the constable who served the same upon the inhabitants.

By unanimous consent the reading of the remaining articles was postponed until the adjourned meeting.

Article 1 taken up. (Choice of Moderator.)

John G. Brackett received three (3) votes and was declared elected Moderator and was sworn to the faithful performance of his duties.

The following ballot clerks and tellers who had previously been appointed by the Selectmen, were sworn to the faithful discharge of their duties and assigned as follows:

Ballot Clerks—Frank Y. Wellington and John J. Mahoney.

Inspectors—George W. Perkins and Frank F. Russell.

At Ballot Box—Horace A. Freeman.

Checkers at Ballot Box—Edgar Crosby and George C. Tewksbury.

Counters—Charles P. Ladd, Jr., Lindsey K. Foster, Arthur L. Bridg-
ham, Frank A. O'Brien, James M. Mead, Maurice P. Ahern, William
D. Grannan.

A sealed package of ballots was then delivered to the Moderator who publicly broke the seal and delivered the ballots to the ballot clerks.

A package of women's ballots was also delivered to the ballot clerks.

Cards of instructions and penalties on voters were posted in prominent places as were also specimen ballots in conformity to law. The ballot box was examined by the Moderator and Town Clerk and was found to be empty with the register set at zero. The box was then locked and the keys delivered into the custody of Constable John Duffy and remained in his custody until the close of the polls.

A list of registered voters, both men and women, was supplied by the Registrars of Voters to the ballot clerks and checkers at the ballot box.

The polls were then declared open for the reception of votes for Town officers under Article 2 of the warrant and remained open until five (5) o'clock in the afternoon, at which time after due notice, they were declared closed.

By unanimous consent the ballot box was opened at various times during the day for the purpose of removing ballots to be counted.

At the close of the polls the ballot box registered five hundred fifty-six (556) votes.

The names checked at the ballot box and those checked by the ballot clerks were counted and found to agree with the number registered by the ballot box, five hundred fifty-six (556).

The ballots not used were enclosed in a package, sealed and delivered to the Town Clerk.

The ballots cast were then canvassed by the Moderator, Town Clerk and Tellers and declaration made thereof at twenty minutes after five o'clock, as follows:

Whole number of men's ballots cast five hundred forty-nine (549). Whole number of women's ballots cast seven (7). Total number of ballots cast five hundred fifty-six (556).

Town Clerk for one year—Thomas J. Robinson had four hundred sixty-two (462) votes and was declared elected. Sworn by the Moderator in open meeting. Blanks 87.

Selectmen for one year—J. Howell Crosby had five hundred six (506) votes and was declared elected. (Sworn March 2, 1908.) Walter B. Douglass had four hundred ninety-seven (497) votes and was declared elected. (Sworn March 2, 1908.) Frederick S. Mead had four hundred ninety-eight (498) votes and was declared elected. (Sworn March 2, 1908.) Blanks one hundred fifty-five (155).

Assessor for three years—Alexander H. Seaver had four hundred seventy-three (473) votes and was declared elected. (Sworn March 3, 1908.) Blanks sventy-six (76).

Treasurer for one year—Myron Taylor had four hundred sixty-four (464) votes and was declared elected. (Sworn March 4, 1908.) Blanks eighty-five (85).

Collector of taxes for one year—Harvey S. Sears had four hundred seventy-nine (479) votes and was declared elected. (Sworn March 5, 1908.) Blanks seventy (70).

Auditor for one year—George McK. Richardson had four hundred seventy-nine (479) votes and was declared elected. (Sworn March 6, 1908.)

Board of Public Works for one year—Henry W. Hayes had four hundred eighty-six (486) votes and was declared elected. (Sworn March 2, 1908.) William N. Winn had four hundred seventy-eight (478) votes and was declared elected. (Sworn March 2, 1908.) Peter Schwab had four hundred sixty-two (462) votes and was declared elected. (Sworn March 2, 1908.) Blanks two hundred twenty-one (221).

School Committee for three years—Frederick A. Bisbee had four hundred fifty-nine (459) votes and was declared elected. (Sworn March 6, 1908.) Othilie Lawson had four hundred forty-six (446) votes and was declared elected. (Sworn March 10, 1908.) Mary C. Hardy had four hundred sixty-five (465) votes and was declared elected. (Sworn March 11, 1908.) Blanks two hundred eighty-four (284).

Board of Health for three years—Alfred H. Knowles had three hundred forty-one (341) votes and was declared elected. (Sworn March 3, 1908.) John S. Lamson had one hundred thirty-eight (138) votes. Blanks seventy (70).

Cemetery Commissioners—Warren A. Peirce for three years had four hundred sixty (460) votes and was declared elected. (Sworn March 9.) George G. Allen for two years had four hundred forty-nine (449) votes and was declared elected. (Sworn March 9.) J. Edwin Kimball for one year had four hundred fifty (450) votes and was declared elected. (Sworn March 9.) Blanks two hundred eighty-eight (288).

Trustees of Robbins Library for three years—Samuel C. Bushnell had four hundred sixty-one (461) votes and was declared elected. (Sworn March 9.) Charles A. Keegan had four hundred fifty-five (455) votes and was declared elected. (Sworn March 9.) Blanks one hundred eighty-two (182).

Commissioner of Sinking Fund for three years—William G. Peck had four hundred forty-four (444) votes and was declared elected. (Sworn March 10.) Blanks one hundred and five (105).

Trustee of Pratt Fund for five years—William G. Peck had four hundred forty-three (443) votes and was declared elected. (Sworn March 10.) Blanks one hundred six (106).

Park Commissioner for three years—William E. Lloyd had four hundred thirty (430) votes and was declared elected. (Sworn March 10.) Blanks one hundred nineteen (119).

Tree Warden for one year—A. Foster Brooks had four hundred sixty-one (461) votes and was declared elected. (Sworn March 5.) Blanks eighty-eight (88).

Constables for one year—Garritt Barry had four hundred forty-one (441) votes and was declared elected. (Sworn March 5.) John Duffy had four hundred twenty-four (424) votes and was declared elected. (Sworn March 5.) Daniel M. Hooley had four hundred fifty-eight (458) votes and was declared elected. (Sworn March 5.) Thomas O. D. Urquhart had three hundred ninety (390) votes and was declared elected. (Sworn March 5.) Thomas F. Priest had fifty-one (51) votes and was declared elected. (Sworn March 5.) Blanks nine hundred eighty-one (981).

On the question "Shall licenses be granted for the sale of intoxicating liquors in this Town?" ninety-seven (97) voted "yes" and three hundred ninety-one (391) voted "no," and declaration was made

that the Town had voted that no licenses be granted for the sale of intoxicating liquors during the ensuing year. Blanks sixty-one (61).

The following officers were then nominated and elected to the office and for the term stated, viz:—

Fence Viewers for one year—Philip A. Hendrick, Henry S. Adams.

Field Drivers for one year—Thomas O. D. Urquhart, Garritt Barry, John Duffy, Daniel M. Hooley, Andrew Irwin, F. Joseph Cahalin, Thomas F. Priest and Edward T. Ryan. (Sworn March 5.)

Measurers of Wood and Bark for one year—Edward I. McKenzie, (sworn March 16); Frank P. Dyer, Patrick F. Brosnahan.

Fish Preserver for one year—Daniel Wyman.

Voted: That when this meeting adjourns it adjourn to meet in Town Hall, Monday evening March 16, 1908, at thirty minutes after seven o'clock.

Voted: That this meeting adjourn.

Meeting adjourned at thirty minutes after five o'clock.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

Arlington, March 3, 1908.

I hereby certify that I have this day appointed Edna C. Pierce Assistant Town Clerk and that she has taken the oath required by Chap. 25, Section 62 of the Revised Laws for the faithful performance of her duties.

THOMAS J. ROBINSON,
Town Clerk.

ADJOURNED MEETING.

ARLINGTON, March 16, 1908.

Pursuant to adjournment the citizens of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, on Thursday evening, March 16, 1908, and were called to order at thirty minutes after seven o'clock by the Moderator, John G. Brackett.

The reading of the articles in the warrant not read at the meeting, March 2, was dispensed with, as the voters were supplied with printed copies.

Article 3 taken up. (Reports of Town Officers and Committees.)

Frederick A. Bisbee presented the report of the special committee to investigate the conditions in the Locke School District in printed form.

Voted: That the report of the special committee appointed to investigate the conditions in the Locke School District be accepted.

George A. Kimball, chairman of the Committee of Twenty-One, to whom had been referred all articles in the warrant calling for an appropriation made a report of said committee in print which had been distributed to the citizens of the Town and said report was accepted.

Voted: That the various articles in the warrant calling for appropriations be taken up, and that the recommendations made by the Committee of Twenty-One in their report under these articles be considered as now before the meeting, to be voted on without further motion, and to be voted on separately and in the order in which they appear in said report.

Article 4 taken up. (Appropriation for Robbins Library.)

Voted: That there be appropriated the sum of three thousand (3,000) dollars, in addition to the dog tax and the receipts for fines and the sale of catalogues, for the maintenance of the Robbins Library for the year 1908, the same to be expended under the direction of its Trustees.

Article 5 taken up. (Appropriation for Schools.)

Voted: That the sum of sixty-three thousand (63,000) dollars be appropriated for the maintenance of the Public Schools for the year 1908 and for the payment of unpaid bills and in addition that the sum of one thousand (1,000) dollars be appropriated for general repairs on school buildings. Said appropriations to be expended under the direction of the School Committee.

Article 10 taken up. (Memorial Day Appropriation.)

Voted: That the sum of two hundred seventy-five (275) dollars be appropriated for the proper observance of Memorial Day, the same to be paid to the Quartermaster of Francis Gould Post 36, G. A. R., to be expended under the direction of the officers of said post.

Article 11 taken up. (Suppressing leaf-eating insects.)

Voted: That the sum of two hundred (200) dollars be appropriated for suppressing leaf-eating insects, other than gypsy and brown tail moths, during the year 1908; said amount to be expended under the direction of the Selectmen.

Article 12 taken up. (Appropriation for use of water for public purposes.)

Voted: That the sum of seven thousand (7,000) dollars be appropriated and paid to the Water Works Department, for water used for fire hydrants, street watering and public buildings during the year 1908.

Article 13 taken up. (Extension of water mains.)

Voted, by a two-thirds vote: That the sum of two thousand (2,000) dollars and the unexpended balance of four hundred nineteen dollars and fifteen cents (\$419.15) be appropriated for the extension of water mains; and for the purpose of raising the \$2,000, there be issued two notes or bonds, each for the sum of \$1,000, the first payable in the year 1913 and the second in the year 1914; said notes or bonds to be signed by the Treasurer and counter-signed by the Selectmen, and to be designated on the face thereof "Water Loan of 1908" and to bear interest at a rate not exceeding four (4) per centum per annum, payable semi-annually.

Article 14 taken up. (Permanent sidewalks.)

Voted: That the sum of three thousand (3,000) dollars be appropriated for renewal and extension of permanent sidewalks and for the payment of unpaid bills, not less than one thousand five hundred (1,500) dollars of that amount to be used for extensions carried out under the sidewalk act, Section 43, Chapter 49, of the Revised Laws.

Article 15 taken up. (Maintenance of Sewerage System.)

Voted: That the sum of one thousand five hundred (1,500) dollars and the unexpended balance of \$352.89 be appropriated for the maintenance and extension of the Sewerage system for the ensuing year.

Article 16 taken up. (Appropriation for Highway Division.)

Voted: That the sum of \$24,178.51 be appropriated for the maintenance and construction of highways during the ensuing year and for payment of unpaid bills of the highway department—that the street railway tax now in the Treasury amounting to \$16,678.51 be applied towards the payment thereof and that the balance, \$7500, be raised by general tax.

Article 17 taken up. (Street Watering.)

Voted, by a two-thirds vote; That in addition to such subscriptions as may be obtained for the purpose, an appropriation of \$3500 be made for street watering, \$1000 of said sum to be raised by general tax, and such balance as may be necessary not exceeding \$2,500, to be raised by note of the Town for a term not exceeding one year, signed by the Treasurer and approved by the Selectmen, and the receipts from the street watering assessments for 1908, be hereby appropriated toward the payment of said note.

Article 18 taken up. (Street Lighting.)

Voted: That the sum of nine thousand six hundred (9,600) dollars be appropriated for street lighting the ensuing year.

Article 20 taken up. (Rent of Lawrence Field.)

Voted: That the sum of \$165 be appropriated for the rental of Lawrence Field, to be used by the school children for athletic purposes, under the direction of the School Committee.

Article 21 taken up. (Additional accommodations in Locke School District.)

Voted: That a committee of five members, with full powers to fill all vacancies, be appointed by the Moderator to report to an adjourned or special Town Meeting regarding a new schoolhouse for the Locke District; and that \$500 be appropriated for plans, specifica-

tions and estimates for such a building, said sum to be expended under the direction of said committee.

Article 23 taken up. (Acceptance and construction of Sawin Street.)

Voted, by a two-thirds vote: that The Town accept and establish as a Town Way the private way known as Sawin Street, extending from Teele Street to Henderson Street as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, and appropriate for the construction of the same the sum of one thousand (1,000) dollars, the same to be borrowed and in payment therefor there be issued a negotiable note or bond for the sum of \$1,000 payable in 1913; said note or bond to be signed by the Treasurer and countersigned by the Selectmen and to be designated on the face thereof "Sawin Street Loan," and to bear interest at a rate not to exceed four per centum per annum payable semi-annually.

Article 24 taken up. (Acceptance and construction of Summer Street.)

Voted, by a two-thirds vote: That the Town accept and establish as a Town Way the private way known as Summer Street, extending from a certain point east of Grove Street to Pine Street as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, and appropriate for the construction of the same the sum of three thousand (3,000) dollars, one thousand (1,000) dollars so appropriated to be raised by general tax in 1908 and two thousand (2,000) dollars to be borrowed and in payment therefor there be issued two negotiable notes or bonds for the sum of one thousand (1,000) dollars each, one payable in 1914 and one payable in 1915; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen and to be designated on the face thereof "Summer Street Loan," and to bear interest at a rate not to exceed four per centum per annum payable semi-annually.

Article 25 taken up. (Acceptance and construction of Wollaston Avenue.)

Voted, by a two-thirds vote: That the Town accept and establish as a Town Way the private way known as Wollaston Avenue, extending from Wachusett Avenue to Tanager Street, as laid out by the Joint Board of Selectmen and Board of Public Works under the provisions of law authorizing the assessment of betterments, and appropriate for the construction of the same the sum of five hundred (500) dollars to be raised by general tax in 1908.

Article 27 taken up. (Renewal of cement lined water mains.)

Voted, by a two-thirds vote: That the sum of seven thousand (7,000) dollars be appropriated for the renewal of main pipes, and that said sum of seven thousand dollars be borrowed, and in payment therefor there be issued seven negotiable notes or bonds, each for the sum of \$1,000, one payable in the year 1913, and one in each of the six succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof as the "Water Pipe Renewal Loan of 1908" and to bear interest at a rate not to exceed four per centum per annum, payable semi-annually.

Article 28 taken up. (Suppressing gypsy and brown tail moths.)

Voted, by a two-thirds vote: That the sum of seven thousand (7,000) dollars be appropriated to be expended during the year ending November 30, 1908, under the direction and control of the Selectmen, in suppressing the gypsy and brown tail moths in the Town of

Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905, and amendments thereto. That \$1,000 of said sum be raised by general tax in 1908, and the balance, \$6,000, be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 7 taken up. (Town expenses, interest, debt and State Aid.)

Voted: That the sum of \$15,000 be appropriated for the Sinking Fund, \$12,000 to be taken from the income of the water works, and \$3,000 to be raised by general tax, the current year, said amounts to be paid to the Sinking Fund Commissioners December first.

Voted: That the sum of \$11,450 be appropriated to meet the notes due in 1908.

Voted: That the sum of \$6,000 (to include payment of unpaid bills) be appropriated for the care of outside poor, in addition to such sums as the Town may receive from individuals reimbursing it for such care.

Voted: That \$11,033.69 of the unexpended balances and amounts in the Treasury otherwise unappropriated, together with the sum of \$3,966.31 be appropriated for the payment of interest during the year 1908.

Voted: That the sum of \$11,479 be appropriated for the maintenance of the Fire Department for the year 1908.

Voted: That the sum of \$300 be appropriated for the work of the Tree Warden during the year 1908.

Voted: That the sum of \$1,768.44 be appropriated to pay the following overdrafts during the year 1907:

Interest	\$356 95
Abatements	300 37
Selectmen's Incidentals	1,075 19
Almshouse Stable Repairs	31 90

Clerk, Board of Health, one hundred fifty (150) dollars.
Voted: That there be appropriated from the income of the Water Department \$13,560 for interest on the Water Debt, \$12,000 for the Sinking Fund, and \$19,500 for maintenance and the Metropolitan water assessments.

Article 3 taken from the table. (Reports of Town Officers.)

Voted: That the reports of the various town officers as presented in their annual reports, with the addition of tables of statistics of the Assessors, be accepted.

Article 6 taken up. (Repairing of Highways.)

Voted: That the Town ways, highways and bridges be repaired during the ensuing year under the direction of the Board of Public Works.

Article 8 taken up. (Selectmen Agents of the Town.)

Voted: That the Selectmen be appointed agents of the Town to institute and prosecute actions in favor of the Town and appear and defend suits and legal proceedings against or involving the interests

of the Town, with power to employ Counsel therein, and when necessary in all other legal matters and business appertaining to Town affairs during the year commencing March 2, 1908.

Article 19 taken up. (Powers of Collector of Taxes.)

Voted: That the Collector of Taxes be authorized to use all means of collecting taxes for the year 1908 which a Town Treasurer may use when appointed a Collector of Taxes.

Article 22 taken up. (Board of Public Works to convey to F. R. & G. M. Vail.)

Voted: That the Town authorize and empower its Board of Public Works, in the name and behalf of the Town, to release to Frederick R. and George M. Vail all the right, title and interest acquired by the said Town by virtue of the taking of land for sewer purposes in a strip or parcel of land 2 feet in width on Laurel Street, so-called, as described in Article 22 of the warrant.

Article 9 taken up. (Appointment of Committee of Twenty-one.)

Voted: That a Committee be appointed consisting of 21 citizens, other than Town officers elected by ballot, to serve throughout the ensuing year and until the end of the annual meeting of 1909. The members of said committee to be selected as follows: Nine from the residents of the Russell School District, four from the residents of the Locke School District, four from the residents of the Cutter School District, four from the residents of the Crosby School District.

To this Committee, when appointed, are hereby referred all articles calling for an appropriation of money in any town warrant issued during its term of office.

Said committee shall, after due consideration of the subject matter of said articles, report thereon in print or otherwise such recommendations as it shall deem best.

Said Committee shall choose its own officers and have power to fill vacancies.

The following citizens were nominated and elected to serve on said committee of twenty-one:

Edward W. Nicoll.....	Clerk.....	10 Montague St.
Bert S. Currier.....	Salesman.....	82 Claremont Ave.
Frank B. Records, Jr.....	Architect.....	179 Westminster Ave.
James F. Tilden.....	Asst. Treasurer.....	101 Hillside Ave.
William H. Murray.....	Grocer.....	47 Mt. Vernon St.
Robert J. Kelly.....	Express Agent.....	15 Walnut St.
Henry Finley.....	Piano Case Maker.....	1125 Mass. Ave.
Oman E. Bennett.....	Farmer.....	Summer St.
George A. Kimball.....	Civil Engineer.....	336 Mystic St.
Arthur D. Hill.....	Farmer.....	253 Pleasant St.
Frank H. Hubbard.....	Salesman.....	361 Mass. Ave.

Henry C. Hoyt.....	Bookkeeper.....	17 Teele St.

Article 29 taken up. (Town Grant.)

Voted: That the several amounts appropriated at this meeting for

the purposes indicated by the various votes, and not otherwise provided for, amounting to \$182,354.27, together with the sum of \$4,500 appropriated at the November meeting of 1907, making a total of \$186,854.27, be raised by general tax the present year.

Article 26 taken up. (Lot in Mt. Pleasant to George W. Marston.)

Voted: That the Town authorize and empower its Board of Cemetery Commissioners, in the name and behalf of the Town, to convey lot No. 271 in Mt. Pleasant Cemetery to George W. Marston of Somerville, on such terms as the said Board may deem proper.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3,057 and the outgoing turnstile No. 3,056, respectively, who made a return in writing at the adjournment of the meeting showing that 179 voters had entered the hall through turnstile No. 3,057 and 53 voters had left the hall through turnstile No. 3,056, showing that 126 registered voters attended the meeting.

All articles in the warrant calling the meeting having been acted upon it was announced by the Moderator.

In accordance with the vote passed under article 21 of the warrant, the Moderator appointed the following citizens to serve on the committee to procure plans, specifications and estimates for a new school building in the Locke School District, and to report at a future adjourned or special meeting:

Frank W. Hodgdon, Frederick A. Bisbee, Joseph C. Holmes, Jacob R. Estabrook and Peter Schwamb.

Voted: That this meeting be now dissolved.

Meeting dissolved at 9.20 P. M.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—WEDNESDAY, APRIL 29, 1908,
AT 8 O'CLOCK, P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Wednesday, the twenty-ninth day of April, current, at 8 o'clock P. M., then and there to act on the following articles, viz:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To hear and act on the reports of any Town officers or committees heretofore appointed.

ART. 3. To see if the town will erect an addition to the Locke School building substantially in accordance with the plans submitted by the committee appointed March 16, 1908, make an appropriation for the purpose and determine in what manner the same shall be raised and expended.

(Inserted at request of Committee on New School House.)

ART. 4. To see if the Town will vote to enlarge the Locke School House lot by purchasing land on the northerly side of the present building and between Park Avenue and the present playground, make an appropriation therefor and determine the manner in which the same shall be raised and expended, or take any other action thereon.

(Inserted at request of Committee on New School House.)

ART. 5. To see if the Town will appropriate forty-four dollars and three cents to meet an unpaid bill contracted in 1906 for drain pipe laid on Town House Site, or take any action thereon.

ART. 6. To see if the Town will appropriate nine dollars and

twenty-five cents to meet an unpaid bill contracted in 1907 for plants and labor in the care of Town House Lot, or take any action thereon.

ART. 7. To see if the Town will vote to carry liability insurance covering the work of any departments of the Town, and make an appropriation therefor, the same to be extended under the direction of the Selectmen, or take any action thereon.

ART. 8. To appropriate and raise by borrowing or otherwise such sum or sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof, fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this fourteenth day of April in the year of our Lord one thousand nine hundred and eight.

FREDERICK S. MEAD,
J. HOWEEL CROSBY,
WALTER B. DOUGLASS,

Selectmen of the Town of Arlington.

Middlesex County.

Arlington, April 28, 1908.

By virtue of this warrant, I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, to meet at the time and place and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the Town, and also by posting an attested copy on the doors of the Town Hall, seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs met in the Town Hall in said Arlington on Wednesday, the twenty-ninth day of April, in the year of our Lord one thousand nine hundred and eight, and were called to order at eight o'clock in the evening by the Town Clerk, who read the warrant calling the meeting and the return thereon of the Constable, who served the same upon the inhabitants.

Article 1 taken up. (Choice of Moderator.)

Frank A. O'Brien and Edwin A. Bailey were appointed tellers to receive, sort and count ballots for Moderator and were sworn to the faithful performance of their duties.

Two (2) ballots were cast, each bearing the name of John G. Brackett, and he was declared elected Moderator and sworn by the Town Clerk.

Article 2 taken up. (Reports of Officers and Committees.)

Frank W. Hodgdon, chairman of the committee appointed March 16, 1908, regarding a new schoolhouse for the Locke School District, presented the report of said committee in print and illustrated the proposed changes to the present building and the additional land proposed to be purchased for playground purposes by means of stereopticon views.

The report of the committee was accepted.

George A. Kimball, chairman of the Committee of Twenty-One, presented the report of said committee in print, and on his motion it was,

Voted: That the recommendations of the Committee of Twenty-One under the various articles in the warrant calling for appropriations be considered as now before the meeting without further motion, to be voted on in their order and to be voted on separately.

Article 2 was then laid on the table.

Article 3 taken up. (New Locke School Building.)

Voted, by a two-thirds vote: That the sum of forty-eight thousand (48,000) dollars be appropriated for the erection and furnishing of an addition to the Locke School Building, substantially in accordance with the plans of the committee appointed by the Town, March 16, 1908, and that the town borrow forty-five thousand (45,000) dollars of said sum, and in payment therefor issue eighteen negotiable notes or bonds, for the sum of two thousand five hundred (2,500) dollars each, one payable in the year 1909, and one in each of the seventeen succeeding years, said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof, "Locke School Addition Loan," and to bear interest semi-annually at a rate not exceeding four per centum per annum; also that the remaining three thousand (3,000) dollars be raised by general tax, and that the committee appointed March 16, 1908, be authorized and empowered to supervise and direct the work of the erection and furnishing of said building, and the expenditure of the sum hereby appropriated.

Article 4 taken up. (Enlargement of Locke School House Lot.)

Voted by a two-thirds vote: That the Selectmen be authorized and empowered, in the name and behalf of the Town, to purchase for the purpose of the enlargement of the Locke Schoolhouse Lot, a certain lot of land bounded and described as follows: Southwesterly by the present Locke Schoolhouse Lot, about 195 feet; northwesterly on Park Avenue about 70 feet; northeasterly on other land of Elizabeth J. Gleason about 183 feet, and southeasterly on a portion of the present playground about 137 feet, and containing about 19,250 square feet; and to pay therefor the sum of \$4,250; that the sum of \$4,250 be appropriated for the purchase of said lot, and that the Town borrow \$4,000 of said sum, and in payment therefor issue eight (8) negotiable notes or bonds, for the sum of \$500 each, one payable in the year 1909, and one in each of the seven succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof "Enlargement of Locke School Lot Loan," and to bear interest, semi-annually at a rate not exceeding four per centum per annum; also that the remaining \$250 be raised by general tax.

Article 5 taken up. (Unpaid bill of 1906 for drain pipe on Town House Site.)

Voted: That the sum of \$44.03 be appropriated to meet an unpaid bill contracted in 1906 for drain pipe laid on Town House site, and that said sum be raised by general tax in 1908.

Article 6 taken up. (Unpaid bill for plants, etc., for Town House Site.)

Voted: That the sum of \$9.25 be appropriated to meet an unpaid bill contracted in 1907 for plants and labor in the care of Town House lot, and that said sum be raised by general tax in 1908.

Article 7 taken up. (Liability insurance.)

Voted: That the sum of \$400 be appropriated to pay for liability insurance covering the work of certain departments of the Town, to be designated by the Selectmen, and that the said sum be raised by General tax in 1908, and be expended under the direction of the Selectmen.

Article 8 taken up. (Amount appropriated and how raised.)

Voted: That the several amounts appropriated at this meeting for the purposes indicated by the various votes and not otherwise provided for, amounting to \$3,703.28, be raised by general tax the present year.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3,057 and the outgoing turnstile No. 3,056, respectively, who made a return in writing at the close of the meeting showing that 117 voters had entered the hall through turnstile No. 3,057 and that 1 voter had left the hall through turnstile No. 3,056, showing that 116 registered voters attended the meeting.

Voted: That this meeting be now dissolved.

Meeting dissolved at 8.35 P. M.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—TUESDAY, NOVEMBER 3, 1908,
AT 6.00 O'CLOCK, A. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX SS.

To either of the Constables of the Town of Arlington, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, qualified, as the constitution requires, to vote in elections and town affairs, to assemble in the Town Hall in said Town, Tuesday, the third day of November next, it being the Tuesday next after the first Monday in said month, at 6.00 o'clock, A. M., then and there to act on the following articles, viz:

ARTICLE 1. To bring in their votes to the Selectmen for sixteen Electors of President and Vice President of the United States, to wit: Two electors at large and one elector for each Congressional District in the Commonwealth; a Governor; a Lieutenant Governor; a Secretary; a Treasurer and Receiver General; an Auditor of Accounts; an Attorney General for the Commonwealth; a Representative of the Commonwealth in the Congress of the United States for District Number Eight; a Councillor for the Sixth Councillor District; a Senator for the Sixth Middlesex District; a Representative in the General Court for the Twenty-ninth Representative District in the County of Middlesex; a County Commissioner for three years; a Register of Probate and Insolvency for five years; a County Commissioner for two years to fill vacancy; an Associate Commissioner for two years to fill vacancy.

All the above to be voted for on one ballot. The polls will be opened immediately after the organization of the meeting and will be kept open until four o'clock and thirty minutes in the afternoon, and as much longer as the meeting directs, provided the time shall not be after the hour of sunset.

Hereof fail not, and make due return of this Warrant, with your

doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this twentieth day of October, in the year of our Lord one thousand nine hundred and eight.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
WALTER B. DOUGLASS,
Selectmen of the Town of Arlington.

Middlesex County.

Arlington, October 30, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs to meet at the time and place and for the purpose named, by causing a printed attested copy to be left at every dwelling house in the Town and also by posting an attested copy on the doors of the Town Hall, seven days at least before said day of meeting.

GARRITT BARRY,
Constable of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, met in the Town Hall in said Arlington on Tuesday, the third day of November, in the year of our Lord nineteen hundred and eight, it being the Tuesday next after the first Monday in said month, and were called to order by Frederick S. Mead, Chairman of the Board of Selectmen of Arlington, at six o'clock in the forenoon. The presiding officer read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants.

Selectman Frederick S. Mead took charge of the meeting and acted as presiding officer. In conformity to the laws of the Commonwealth in relation to elections the Town Hall, was fitted up as a polling place, a space railed off and booths or shelves provided for the use of voters to examine and mark their ballots. Each booth was supplied with suitable facilities for the purpose and with cards of instructions.

The following persons had been appointed by the Selectmen as ballot clerks, tellers and inspectors and were sworn by the Town Clerk to the faithful discharge of their duties, and assigned as follows:

Ballot Clerks, Edgar Crosby and John J. Mahoney.

Tellers, Arthur L. Marston and George C. Tewksbury.

Inspectors, George W. Perkins and Frank F. Russell.

At Ballot Box, Horace A. Freeman and George M. Richardson.

Counters, Frank Y. Wellington, John W. Power, Thomas A. Smith, William D. Grannan, Arthur L. Bridgham, Daniel W. O'Brien, Henry K. Brown, Edward B. Mead, William E. Bunton, Frank A. O'Brien, Frank B. Records, Jr., Charles B. Hurley.

A sealed package containing 2250 ballots supplied by the Secretary of the Commonwealth was then delivered by the Town Clerk to the

presiding officer, who publicly broke the seal and delivered the ballots to the ballot clerks.

Specimen ballots and cards of instructions were posted in conformity to law as were also cards of penalties to voters for violation of the law.

The ballot box was examined by the presiding officer and the Town Clerk and was found to be empty and the register set at zero.

A list of registered voters was supplied to the Ballot Clerks and Tellers by the Registrars of Voters.

At five minutes after six o'clock the polls were declared open for the reception of votes, and were kept open until thirty minutes after four o'clock in the afternoon, at which time, after due notice, they were declared closed.

By unanimous consent the ballot box was opened at 7 o'clock in the morning and at the following periods during the day for the purpose of removing the ballots to be counted:

At 7 o'clock the ballot box registered 226 votes.					
" 8	"	"	"	500	"
" 9	"	"	"	793	"
" 10.30	"	"	"	1000	"
" 12	"	"	"	1200	"
" 2	"	"	"	1400	"
" 3.45	"	"	"	1582	"

At the close of the polls the ballot box registered sixteen hundred forty-eight (1,648) votes.

The keys of the ballot box were delivered by the presiding officer into the custody of Constable Garritt Barry and remained in his possession until the polls closed.

The names checked by the Ballot Clerks and the names checked by the Checkers at the ballot box were counted and found to agree with the number registered by the ballot box, sixteen hundred and forty-eight (1,648).

The unused ballots were enclosed in a package, sealed and delivered to the Town Clerk after being counted and endorsed by the Ballot Clerks. The number was found to be 602, which added to the number cast made the total 2,250, which corresponded with the number received from the Secretary of the Commonwealth.

The election officers canvassed the votes given in and the whole number was found to be sixteen hundred forty-eight (1,648), which were sorted, counted and declaration thereof made in open meeting as required by law at ten minutes after five o'clock by the Town Clerk as follows:

The election returns were then filled in, to be signed by the Selectmen and countersigned by the Town Clerk, and were delivered to the Town Clerk to be forwarded by him to the several places of destination.

All business calling the meeting having been transacted, the presiding officer, at twenty minutes after five o'clock, declared the meeting dissolved.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

Arlington, November 13, 1908.

Pursuant to law, the Town Clerks of Arlington and Lexington met in the office of the Town Clerk of Arlington on Friday, the 13th day

of November, in the year of our Lord one thousand nine hundred and eight, at twelve o'clock noon, for the purpose of canvassing the votes cast on the 3d day of November for a Representative to the General Court of the Commonwealth, to represent the Twenty-ninth Middlesex District.

The canvass showed the following result of the votes cast in Arlington and Lexington:

In Arlington Edwin A. Bayley had eight hundred six (806) votes.

In Lexington Edwin A. Bayley had six hundred three (603) votes. Total in Arlington and Lexington, 1,409.

In Arlington Philip A. Hendrick had seven hundred fifty (750) votes.

In Lexington Philip A. Hendrick had one hundred seventy-seven (177) votes. Total in Arlington and Lexington, 927.

Total votes cast in Arlington, 1,648. Blanks, 92.

Total votes cast in Lexington, 843. Blanks, 63.

The canvass showed that Edwin A. Bayley had a majority of the votes cast in both towns.

Two certificates were filled out, signed by the Clerks of both Towns, one sent to the Secretary of the Commonwealth and one to be delivered to Edwin A. Bayley of Lexington.

A true record. Attest:

THOMAS J. ROBINSON,

Town Clerk of Arlington.

GEORGE D. HARRINGTON,

Town Clerk of Lexington.

TOWN MEETING—MONDAY, NOVEMBER 16, 1908,
AT 7.30 O'CLOCK, P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX SS.

To either of the Constables of the Town of Arlington, in said County,
GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, qualified as the constitution requires, to vote in elections and town affairs, to assemble in the Town Hall, in said Town, on Monday, the sixteenth day of November, current, at 7.30 o'clock P. M., then and there to act on the following articles, viz:

ARTICLE 1. To bring in their votes to the Town Clerk for a Moderator to preside for the transaction of Town business.

ART. 2. To hear and act on the reports of committees heretofore appointed.

ART. 3. To see if the Town will make an appropriation to be expended from November 30, 1908, and for the twelve months next ensuing, for suppressing the gypsy and brown tail moths, in accordance with the provisions of Chapter 381, Acts of 1905, and amendments thereto, and determine in what manner the money shall be raised.

ART. 4. To see if the Town will make an additional appropriation for Town House Account.

ART. 5. To see if the Town will make an appropriation for Military Aid.

ART. 6. To see if the Town will make an appropriation for Soldiers' Relief.

ART. 7. To see if the Town will make an additional appropriation for the Police Department.

ART. 8. To see what action the Town will take towards providing more adequate office and cell conveniences for the Police

Department, make an appropriation for the same and determine in what manner the money shall be raised.

ART. 9. To see what action the Town will take in reference to building an addition to the High School Building, make an appropriation therefor, and determine in what manner the money shall be raised.

(Inserted at request of the School Committee.)

ART. 10. To see if the Town will make an additional appropriation for the Town Clerk's Incidentals.

(Inserted at request of the Town Clerk.)

ART. 11. To see what disposition the Town will make of any sums of money now or hereafter received from the Lexington Peat Company on account of its contract with the Town.

(Inserted at the request of the Board of Public Works.)

ART. 12. To see what action the Town will take in regard to the extension of sewerage mains, make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 13. To see what action the Town will take in regard to the purchase of paving stone, make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 14. To see what action the Town will take in relation to the purchase of land for the use of the Town Departments, make an appropriation for the same and determine in what manner the money shall be raised.

(Inserted at request of the Joint Board.)

ART. 15. To see what action the Town will take relative to the amendment, alteration, repeal or revision of existing by-laws.

(Inserted at request of the Joint Board.)

ART. 16. To see what action the Town will take relative to the enactment of new by-laws.

(Inserted at request of the Joint Board.)

ART. 17. To see if the Town will vote to increase the salary of the Inspector of Plumbing from \$300 to \$500, the same to date from January 1, 1909.

(Inserted at request of Board of Health.)

ART. 18. To see if the Town will make an additional appropriation for the Board of Health.

(Inserted at request of Board of Health.)

ART. 19. To see if the Town will widen Tufts Street from Massachusetts Avenue to Warren Street, make an appropriation for the same, and determine in what manner the money shall be raised, or take any action thereon.

(Inserted at request of the Joint Board.)

ART. 20. To see if the Town will accept and establish as a town way the private way known as Woodland Street, extending from Jason Street to Bartlett Avenue, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows :

Beginning at a point on the northerly line of Jason Street 490.22 feet from the westerly line of Gray Street; thence, at an angle of 97 degrees and 9 minutes in a northerly direction 282.23 feet to the northerly line of Bartlett Avenue at a point 408.77 feet distant from the westerly line of Gray Street, measured on the said northerly line of Bartlett Avenue. The above described line is the easterly line of said Woodland Street and the westerly line is parallel with and distant therefrom 40 feet, as shown on plan entitled "Plan and Profile of Woodland Street, August, 1902, Robert W. Pond, Eng.," approved by the Board of Survey, October 23, 1902, on file in the office of the Town Clerk.

(Inserted at request of the Joint Board.)

ART. 21. To see if the Town will accept and establish as a town way the private way known as Bartlett Avenue, extending from Gray Street to Woodland Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows :

Beginning at a stone bound on the westerly line of Gray Street 304 feet from a stone bound at the northwesterly corner of said Gray Street and Jason Street; thence, at an angle of 90 degrees with the westerly line of Gray Street 122.63 feet to a stone bound; thence, by a curved line of 142.44 feet radius 56.25 feet to a stone bound; thence, continuing in a westerly direction 229.89 feet to a stone bound on the easterly line of Woodland Street, so-called, at a point 282.23 feet from the northerly line of Jason Street. The above described line is the northerly line of said Bartlett Avenue, and the southerly line is parallel with and distant therefrom 40 feet, as shown on plan

entitled "Plan and Profile of Bartlett Avenue, August, 1902, R. W. Pond, Eng.," approved by the Board of Survey, October, 23, 1902, on file in the office of the Town Clerk.

(Inserted at request of the Joint Board.)

ART. 22. To see if the Town will accept and establish as a town way, to be known as Gray street, the private way extending from Walnut street to Robbins road, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows :

Beginning at a point on the easterly line of Walnut street 1354½ feet more or less from the southerly line of Mass. ave., said point being the intersection of said easterly line of Walnut street and the northerly line of Gray street, as shown on plan entitled "Plan and Profile of Gray street extension, Arlington, Mass., December, 1899, H. S. Adams, C. E.," approved by the Board of Survey June 16, 1900, on file in the office of the Town Clerk. Thence northerly 43° 25' west 1006.7 feet to a stone bound on the westerly line of Robbins road 1366.44 feet from the southerly line of Mass. ave. Said described line is the northerly line of said Gray street, and the southerly line is parallel with and distant therefrom 50 feet, as shown on the plan above referred to, also on plan entitled "Plan of Atwood avenue, Arlington, Mass., owned by Robbins Spring Water and Land Associates, H. S. Adams, C. E., March, 1898," approved by the Board of Survey May 28, 1898, on file in the office of the Town Clerk.

(Inserted at request of the Joint Board.)

ART. 23. To see if the Town will authorize the Town Treasurer, under the direction of the Selectmen, to borrow money for any necessary purpose, in anticipation of the collection of taxes for the year 1909, the same to be repaid directly from the proceeds of said taxes.

ART. 24. To see if the Town will make an appropriation sufficient to meet the charges for filling deposited on the park lands adjoining Mt. Pleasant Cemetery, in accordance with the vote passed by the Town, May 5, 1902.

ART. 25. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this second day of November, in the year of our Lord one thousand nine hundred and eight.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
WALTER B. DOUGLASS

Selectmen of the Town of Arlington.

MIDDLESEX COUNTY.

Arlington, Nov. 10, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the town, and also by posting an attested copy on the doors of the Town Hall seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, met in the Town Hall in said Arlington on Monday, the sixteenth day of November, in the year of our Lord one thousand nine hundred and eight, and were called to order at seven thirty o'clock in the evening by the Town Clerk, who read article 1 of the warrant calling said meeting, and the return thereon of the Constable who served the same upon the inhabitants. By unanimous consent the reading of the remaining articles in the warrant was dispensed with, each of the voters present being supplied with printed attested copies.

Article 1 taken up. (Election of Moderator.)

Horace A. Freeman and George A. Smith were appointed Tellers to receive, sort and count ballots for Moderator, and were sworn to the faithful performance of their duties and placed in charge of the check list and ballot box. Five ballots were cast, each bearing the name of John G. Brackett, and he was declared elected Moderator, and was sworn to the faithful performance of his duties.

Article 2 taken up. (Reports of committees.)

George A. Kimball, chairman of the Committee of Twenty-one, to whom has been referred all articles in the warrant calling for an appropriation, presented the report of said committee in printed form and said report was distributed to the voters present.

Voted: That the various articles in the warrant calling for appro-

priations be now taken up, and that the recommendations made by the Committee of Twenty-one in their printed report under those articles be now considered as before the meeting, to be voted on without further motion, separately and in the order in which they appear in said report.

Article 2 was then laid on the table.

Article 3 taken up. (Gypsy and brown tail moth appropriation.)

Voted, by a two-thirds vote: That the sum of five thousand (5,000) dollars be appropriated to be expended from November 30th, 1908, to November 30, 1909, under the direction and control of the Selectmen in suppressing the gypsy and brown tail moths in the Town of Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905 and Amendments thereto.

That forty-five hundred (4,500) dollars of said sum be raised by general tax in 1909, and the balance of five hundred (500) dollars be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 4 taken up. (Additional appropriation for Town House Account.)

Voted: That the sum of two hundred forty (240) dollars additional be appropriated for Town House account, said sum to be taken from the Treasury accounts.

Article 5 taken up. (Appropriation for Military Aid.)

Voted: That the sum of ninety (90) dollars be appropriated for Military Aid, said sum to be taken from the Treasury Accounts.

Article 6 taken up. (Appropriation for Soldiers' Relief.)

Voted: That the sum of three hundred and forty-three (343) dollars be appropriated for Soldiers' Relief, said sum to be taken from the Treasury Accounts.

Article 7 taken up. (Additional appropriation for Police Department.)

Voted: That the sum of six hundred (600) dollars additional be appropriated for the Police Department, said sum to be taken from the Treasury Accounts.

Article 8 taken up. (Police office and cell conveniences.)

Voted: That a Committee of Five be appointed by the Moderator to consider the question of providing more adequate office and cell conveniences for the Police Department and report to the next March meeting. The Moderator appointed the following citizens to serve on said committee: Philip Eberhardt, Rodney T. Hardy, George D. Moore, Deane S. Reynolds and James R. Mann.

Article 9 taken up. (Addition to High School Building.)

Voted: That a Committee of Five be appointed by the Moderator to consider the need for additional High School Accommodations and report to the next March meeting. The Moderator appointed the following citizens to serve on said committee: Theodore Everett, Henry Hornblower, Arthur W. Wood, John W. Bailey, Warren P. Swett.

Article 10 taken up. (Town Clerk's Incidentals.)

Voted: That the sum of fifty (50) dollars additional be appropriated for the Town Clerk's Incidental Account, said sum to be taken from the Treasury Accounts.

Article 12 taken up. (Extension of Sewer Mains.)

Voted: That the sum of fifty (50) dollars be appropriated for the extension of the sewerage system, said sum to be taken from the Treasury Accounts.

Article 13 taken up. (Purchase of paving stone.)

Voted: That the sum of one hundred eighty-seven and 50-100 dollars (187.50) be appropriated for the purchase of paving stone, said sum to be taken from the Treasury Accounts.

Article 14 taken up. (Land for use of Town Departments.)

Voted: That a Committee of Five be appointed by the Moderator, one of whom shall be appointed from the Board of Public Works, one from the Board of Selectmen, and three from Citizens outside these Boards, to investigate regarding the purchase of land for use of the Town Departments, with full authority to procure options therefor, and report to the next March Meeting, that the sum of two hundred and fifty (250) dollars be appropriated for the use of said Committee, and that said sum be taken from the Treasury Accounts. The Moderator appointed the following citizens to serve on said Committee: Henry W. Hayes, Fred S. Mead, Arthur J. Wellington, William E. Lloyd and William A. Muller.

Article 17 taken up. (Increase of Salary of Plumbing Inspector.)

Voted: That no action be taken on this article at this meeting.

Article 18 taken up. (Additional Appropriation for Board of Health.)

Voted: That the sum of two hundred twenty-six dollars 83-100 (226.83) additional be appropriated for the Board of Health, said sum to be taken from the Treasury Accounts.

Article 19 taken up. (Proposed widening of Tufts Street.)

Voted: That no action be taken on this article at this meeting.

Article 20 taken up. (Proposed acceptance of Woodland Street.)

Voted: That no action be taken on this article at this meeting.

Article 21 taken up. Proposed extension of Bartlett Avenue.)

Voted: That no action be taken on this article at this meeting

Article 22 taken up. Proposed acceptance of Gray Street.)

Voted: That no action be taken on this article at this meeting.

Article 24 taken up. (Park Fillings.)

Voted: That action under this article be indefinitely postponed.

Article 11 taken up. (Receipts from the Lexington Peat Co.)

Voted: That any and all sums of money now or hereafter received from the Lexington Peat Company on account of its contract with the Town be turned over to the Sinking Fund Commissioners, in addition to all moneys heretofore appropriated to the Sinking Fund, said sums to be applied by them to the reduction of the water debt.

Articles 15 and 16 taken up. (Revision of by-laws.)

Voted: That the subject matter of these articles be referred to a committee of five; said committee to report at the next March Meeting. The Moderator appointed the following citizens to serve on said committee: Walter B. Douglass, Horace D. Hardy, Horace A. Freeman, Robert W. Pond, and Thomas J. Robinson.

Article 23 taken up. (Treasurer authorized to borrow money.)

Voted: That for the purpose of procuring a temporary loan to and

for the Town of Arlington, in anticipation of the taxes of the municipal year 1909, the Town Treasurer is hereby authorized and directed to borrow on and after January 1, 1909, from time to time, with the approval of the Board of Selectmen, a sum or sums in the aggregate not exceeding one hundred fifty thousand (150,000) dollars, and to execute and deliver therefor the note or notes of the Town, payable within one year from the time the loan is made. Any debt or debts incurred by a loan or loans to the Town under this vote shall be paid from the taxes of said municipal year.

Article 25 taken up and on motion action was indefinitely postponed.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3057 and the outgoing turnstile No. 3056 respectively, who made a return in writing at the close of the meeting showing that one hundred and forty-six registered voters attended the meeting.

All articles in the warrant having been acted upon it was

Voted: That this meeting be now dissolved.

Meeting dissolved at 8.35 o'clock.

A True Record, Attest,

THOMAS J. ROBINSON,
Town Clerk.

REPORT OF THE BOARD OF SELECTMEN.

The Selectmen submit the following report for the fiscal year ending December 31, 1908.

On March 2, 1908, the Board met and organized as follows:

Chairman, Frederick S. Mead.

Clerk, Horace A. Freeman.

STANDING COMMITTEES.

Frederick S. Mead, Fire Department and Public Lands.

J. Howell Crosby, Police Department and State Aid.

Walter B. Douglass, Outside Poor, Town House and Public Buildings.

In view of the Town's prospective indebtedness, the Board considers it advisable to call the attention of the Town at this time to the condition of our fixed debt, the means provided for its payment at maturity, and the necessity of exercising careful discrimination and restraint in making appropriations whether for maintenance, construction, or extension of whatever character, that tend to add to said indebtedness.

It is much easier to spend money than to save it, to wipe out a surplus than to establish one, and to create debts rather than pay them off.

While the Board do not desire lowering the high grade of efficiency which the Town has attained in its various departments, or retard the growth of the Town, it may be the part of wisdom to take a breathing spell and thus give opportunity for the Town to catch up. The future should not be too heavily mortgaged.

TOWN DEBT AND TAX RATE.

On December 31, 1907, the fixed debt was.....\$654,698.64

Added during the year 1908.....\$61,000.00

Paid during the year 1908..... 11,450.00

Net increase during the year..... 49,550.00

On Dec. 31, 1908, the fixed debt is 704,248.64

On Dec. 31, 1907, the sinking fund was..117,976.57

On Dec. 31, 1908, the sinking fund is....139,698.06

Increase during the year\$21,721.49

From the above it appears that the amount added to the fixed debt during the year is \$61,000. This is made up of \$45,000 for the addition to the Locke School, \$7,000 for renewal of cement lined pipe, \$3,000 for new streets, namely, Sawin Street, Summer Street and Wollaston Avenue, \$2,000 for extension of water mains and \$4,000 for additional playground for Locke School.

All of this added indebtedness is in the form of serial notes maturing from 1909 to 1926 inclusive. A part of that spent for new streets will be returned in betterment assessments.

The amount of fixed debt maturing during the year and paid is \$11,450, which subtracted from the amount added during the year leaves a net increase of \$49,550, or a total indebtedness Dec. 31, 1908 of \$704,248.64. If the sinking fund is taken into account, as should be, the net debt will be \$564,550.58.

The tax rate for 1908 is \$19.30 on \$1,000, which is 50 cents greater than it was in 1907.

STATE, COUNTY AND METROPOLITAN TAXES.

	1907	1908	Increase
State Tax	\$12,120.00	\$16,665.00	\$4,545.00
County Tax	10,692.58	10,508.38	184.20*
Metropolitan Sewer Tax .	6,101.25	9,507.36	3,406.11
Metropolitan Water Tax .	14,738.41	16,552.50	1,814.09
Metropolitan Park Tax ...	4,682.75	5,129.49	446.64
	<hr/>	<hr/>	<hr/>
	\$48,334.99	\$58,362.73	\$10,027.64

*Decrease.

From the above it will be seen that the state, county and metropolitan taxes play considerable part in fixing the amount of our tax rate. The increase in these taxes in 1908 over those of 1907 is \$10,027.64. This increase makes a difference of a dollar or more to the tax rate.

STATE TAX. In 1907 the total state tax for the entire state was \$4,000,000. This year it is \$5,500,000., or an increase of \$1,500,000. This increase was occasioned largely by the increased cost in the maintenance of the various state departments, the purchase of armories, and expenditures for new public buildings, mostly for charitable and hospital purposes. The tax is made up by the Tax Commissioner, and is based largely on the number of polls and property valuation.

Arlington is one of the 33 cities and 321 towns in the Commonwealth called upon to pay this tax. This year the Town's

share is \$16,665 and equals \$3.03 for every \$1,000 of the total state tax.

The State Tax having grown to such proportion and destined to still further increase, special attention is being given to the matter of a more equitable distribution, in order that the burden may fall upon those cities and towns best able to bear it.

Various propositions have been suggested, one of which is to take the corporation taxes now distributed to cities and towns.

A tabulation by the State Treasurer shows that if this had been done in 1907 the result would have been a gain to 256 cities and towns over the present plan and a loss to 98 cities and towns. The gain to Arlington would have been \$4,308.27

The solution of the problem will be somewhat in the hands of our representatives to the General Court, hence, the representatives from this district may be called upon to pass judgment.

COUNTY TAX. The total county tax for the county of Middlesex for the year 1907 was \$615,300. This year it is \$604,700, being a decrease of \$10,600. The tax is made up by the Tax Commissioner and is apportioned among the 9 cities and 8 towns of the county, on a similar basis as that of the State Tax.

Arlington's share this year is \$10,508.38, or \$184.20 less than it was last year. During the last three years this tax has been about the same and we know of no special reason for further increase at present.

METROPOLITAN WATER TAX. The Metropolitan Water District comprises 9 cities and 10 towns, of which Arlington is one, having joined the district in 1898. The total tax for the entire district in 1907 was \$2,195,406.71. This year it is \$2,271,151.53, an increase of \$75,744.82 over last year. This increase is occasioned mostly by new construction and extension. The tax is based on property valuation and consumption of water.

Arlington's share this year is \$16,552.50, or an increase of \$1,814.09 over last year.

As the tax is based one-third on valuation and two-thirds on consumption of water it behooves cities and towns to check waste and stop leaks.

The unnecessary and wasteful consumption of water in the district is estimated from one-third to one-half the amount supplied by the water works.

The average daily consumption of water in Arlington in 1907 was 940,775 gallons. This year it is 971,408 gallons.

METROPOLITAN SEWER TAX. Arlington is one of the 9 cities and 8 towns embraced in the North Metropolitan Sewerage District and has been such from the organization of the district. The total tax for the district in 1907 was \$270,448.12. This year it is \$426,267.84, an increase of \$155,819.72. This unusual increase is because of new construction and extension and to some extent is apparent only, as the assessment for 1907 was unusually small owing to certain readjustments in book-keeping accounts made by the State Treasurer. The apportionment of this tax is based on property valuation and population.

Arlington's share this year is \$9,507.36, an increase of \$3,406.11 or 50 per cent. more than it was in 1907, but as is stated above, part of this increase is apparent only.

METROPOLITAN PARK TAX. The Metropolitan Park District embraces 13 cities and 26 towns, of which Arlington is one. Thus far, however, the town appears to have received very little, if any, direct benefit, although the Town has contributed for the district to date about \$33,766.92. In 1907 the total tax for the entire system was \$974,297.81. This year it is \$1,068,100.03, an increase of \$93,902.22 occasioned by additional cost in care and maintenance, and by extension and construction.

Arlington's share this year is \$5,129.49, an increase of \$446.64 over that of 1907.

While the benefit to the Town derived from both the Metropolitan Water and Sewer Taxes is direct and positive, the benefit from the Metropolitan Park Tax is indirect and indefinite, there being until recently no Metropolitan parks or parkways within the borders of the Town, the short stretch along Mystic River now being under construction.

The Alewife Brook improvements, however, anticipate parkways along said brook and adjacent territory, from which the Town is expected to receive considerable direct benefit.

WHEN WILL THE METROPOLITAN TAXES BE LESS? Our Metropolitan Water, Sewer and Park taxes have been gradually increasing and the question naturally arises,—“when will they begin to decrease?”

The gross Metropolitan Water debt May 1, 1908 was \$40,500,000, none of which matures until July 1, 1935.

The gross North Metropolitan Sewer debt May 1, 1908 was \$6,150,000, none of which becomes due until Jan. 1, 1930.

The gross Metropolitan Park debt May 1, 1908, including

boulevards was \$11,957,500, none of which matures until Jan. 1, 1934.

As the larger part of these metropolitan taxes is to meet interest and sinking fund requirements, and as interest and sinking fund charges will continue until the bonds are paid, it appears from the above that no material decrease can be expected until the bonded indebtedness begins to mature, which will not be for many years,—say from twenty-one to twenty-six years.

Pending the maturity of the above indebtedness additional construction and extension will doubtless be demanded and this with probable increased cost in maintenance will still further increase these taxes.

The following shows what part of these taxes paid by Arlington for 1908 was to meet interest, sinking fund and maintenance.

	For Interest	For Sink- ing Fund	Mainte- nance
Met. Water Tax	\$10,447.70	\$3,786.79	\$2,318.01
Met. Sewer Tax	4,534.76	1,293.30	3,679.30
Met. Park Tax	1,952.66	696.04	2,480.79

SINKING FUND. \$546,600 of our fixed debt is on the sinking fund basis. This includes water, sewer, park, high school and town house site loans.

All of these loans were authorized by special Acts of Legislature, and all of these Acts contained provision requiring the establishment of a sinking fund, in each case, sufficient with accumulation to extinguish the debt at maturity, and which funds could not be used for any other purpose.

These provisions, however, were never carried out.

In 1875 a law was passed by the Legislature practically obliging towns to establish sinking funds for municipal indebtedness especially for loans running over 10 years.

In 1878 the Town appropriated \$5,497.97 for the purpose of establishing a sinking fund, and elected three Sinking Fund Commissioners.

At that time the Town debt consisted of about \$300,000 for water and \$140,000 for miscellaneous notes amounting in all to about \$440,000.

Since that time annual appropriations differing in amount have been made to the sinking fund, but not until the last few years have they been sufficient with accumulation to meet the debts at maturity.

Our sinking fund has always been general in character

rather than specific, never having been classified or made up, in full compliance with statute requirements. For this reason when \$217,000 of water bonds became due in 1892 there was only about \$42,000 in the sinking fund to meet said bonds. The result was that \$34,000 only of the bonds were paid and the balance, \$183,000, was refunded as authorized by special Legislative enactment on a basis of 30 years extension, thus putting off to later generations what perhaps properly belonged to a former one to pay.

It ought to be said, however, that the great and unexpected increase in the water debt occasioned especially by claims against the Town for land and mill damages made it hardly possible for the Town to meet all of its liabilities at maturity without unreasonable hardship. The situation, therefore, required relief, which was afforded by the refunding scheme referred to above.

Up to Jan. 1, 1908, nearly \$370,000 have been contributed to the sinking fund and over \$280,000 paid out.

Of the amount paid out \$117,000 was for water debt and \$163,000 to meet debts of a miscellaneous character, which the general character of the sinking fund appeared to allow.

In 1883 nearly all of the sinking fund was drawn out to pay miscellaneous debts.

In 1898 all of the sinking fund was drawn upon to meet water debt then maturing.

At the time the sinking fund was entirely empty the indebtedness of the Town that was on a sinking fund basis amounted to about \$493,100.

On Dec. 31, 1908, the sinking fund amounts to \$139,698.06, and if classified would be apportioned to water, sewer, park, town house site, and high school loans.

This amount is what has accumulated since the fund was empty in 1898 over and above \$25,000 or more paid out for miscellaneous notes not properly on the sinking fund basis.

From 1900 inclusive the Town has followed the policy of contributing to the sinking fund at least \$15,000 annually and this policy is to be commended—for to it is due the excellent condition of the fund to-day. If this policy is continued it will liquidate all present fixed indebtedness of the Town at maturity, except what is provided for by serial notes.

\$91,000 of the water debt becomes due in 1912 and \$64,600, the high school debt, in 1913, both of which will be paid from the sinking fund. From 1922 to 1928, \$224,000 of water debt becomes due which the sinking fund must meet. Later the sewer, town house site and park loans, amounting to \$167,000, mature, all of which are to be paid from the sinking fund.

All departments in whose behalf a loan has been contracted should feel special interest in and contribute, if possible, towards the payment of said loan.

Most departments, having no income, are unable to do this.

The water department, however, is an exception and possibly the sewer department.

From 1873 to 1901, a period of 28 years, the water department contributed nothing to the sinking fund. Since and including the latter date, however, the department has been self-supporting, that is to say, its income has been sufficient to pay for maintenance, interest and sinking fund requirements and the metropolitan water tax. This is what should be and doubtless would have been at an earlier date had it not been for extraordinary expenditures.

Section 21 of the Metropolitan Water Act anticipates this self-support and reads as follows:

APPLICATION OF INCOME.

Section 21. The income received in each city or town from the water works under the charge of its water board, water commissioners or superintendent, shall be applied to the payment of the expenses of maintenance and operation incurred by said water board, water commissioners or superintendent; the interest and sinking fund requirements of all bonds, notes or scrip of the city or town issued on account of the water works of such city or town; the assessment of the city or town to be paid to the treasurer of the Commonwealth as hereinbefore provided; the expenses of the extension of the works; and the balance, if any, as the city or town may determine. If such income in any year shall not be sufficient for said payments the balance required therefor shall be raised by taxation or by loan, as the city or town may determine; and the city or town is hereby authorized to assess such taxes and make such loans without further authority from the Legislature.

During the last eight years the department has contributed \$70,000 to the fund. This speaks well and it is hoped the department will be able in the future to contribute more largely in view of the fact that the water debt is nearly half of our entire indebtedness, and that previous to 1901 no contribution was made by the water department.

SERIAL NOTES. At the present time, Dec. 31, 1908, \$157,648.64 of our fixed debt is on the serial note basis. The loans on the serial note basis are school house except the high school, part of the water and sewer loans, suspense, police signal system and street loans. No part of the serial notes now existing mature later than 1926.

Some of our serial notes cover rather short periods when fully maturing, and the question arises as to the advisability of having all serial notes hereafter issued cover the full period allowed by law; especially should this be the case with loans for water, sewer and school house purposes, etc. This policy will make the annual payments the minimum in amount.

The periods allowed by law for various purposes for which loans may be issued are indicated as follows:

Water loans, 30 years; sewer loans, 30 years; school house and other public buildings and for land, 20 years; parks, 30 years; public playgrounds, 30 years; municipal lighting plant, 30 years; other loans, 10 years.

These periods indicate that future generations should share in the expense of work whose life is co-existent with said generations. This fact should be considered in apportioning payments on the serial note basis.

Section 13 of chapter 27 of the Revised Laws was amended by chapter 341, Acts of 1908 so as to read as follows:

Section 13. A city or town, instead of establishing a sinking fund, may vote to provide for the payments of any debt by such proportionate or other annual payments as will extinguish the same at maturity, so that the amount of such annual payment in any year and the whole interest of such debt payable in the same year shall not altogether be less than the aggregate amount of principal and interest payable in any subsequent year, and thereupon such annual amount shall, without further vote, be assessed under the provisions of section thirty-seven of chapter twelve until such debt is extinguished.

LOOKING AHEAD. A wise administration of town affairs keeps in mind the fixed indebtedness of the Town, the ways and means provided for meeting the same at maturity, and exercises reasonable restraint and discrimination relative to expenditures that tend to increase said indebtedness. The fixed indebtedness of the Town as it stands December 31, 1908, is divided as follows:

Water Loans	\$348,000.00
Sewer Loans	119,000.00
Park Loans	15,000.00
School Loans	157,248.64
Town House Site Loan	52,000.00
Suspense Loan	3,000.00
Police Signal System Loan.....	3,000.00
New Streets Loan	7,000.00
<hr/>	
Total fixed debt.....	\$704,248.64

While we paid \$11,450 of the debt this year and also put in the Sinking Fund \$17,000, making \$28,450 towards the liquidation of the debt we added \$61,000 making a net increase to the debt (counting the Sinking Fund appropriation) of \$32,550 for the year.

It thus appears that our fixed debt is increasing, notwithstanding our liberal payments towards its reduction.

Furthermore, by looking ahead it will be seen that additional demands will need to be met tending to still further increase the debt.

Among these prospective demands may be mentioned the following:

1. Renewal of old cement lined pipe. 20287 feet of this pipe remains to be replaced, the estimated cost of which is from \$30,000 to \$35,000. This money will doubtless be borrowed as heretofore. The renewal of this pipe has been going on for some years although the original pipe has not yet been paid for.

2. Extension of water-pipe. Short extensions will frequently be called for as dwellings extend, and longer extensions needed as new streets open up. These extensions have been met by borrowing.

3. Extension of sewerage system. The same remarks concerning water pipe extension apply to sewer pipe extension.

4. New streets. Considerable development of territory for residential purposes is likely in the near future. This will cause extensive laying out of new streets which when accepted by the Town will require considerable borrowing for construction purposes.

5. School buildings. Additional school facilities will be demanded in the near future. Statistics appear to show that the number of school children in town increases at a much greater rate than population or valuation. To meet these additional accommodations considerable borrowing will be necessary.

6. Alewife Brook Improvements. The Alewife Brook Improvements now in process of construction under the direction of the Metropolitan Park Commission sooner or later will require an annual tax to meet the cost of said improvements. This tax must be sufficient to meet interest and sinking fund requirements on a bonded indebtedness of \$125,000 due in 20 years. Arlington's share is 24 per cent. This tax, however, affects our debt only indirectly as the tax will doubtless be raised by taxation, the same as our Park Tax.

7. Renewal of cast iron water pipe. We have 76,061 feet

of this pipe on the low service and 96,791 feet on the high service. While there is no necessity for immediate renewal of this pipe, it is well to have the matter in mind, so that when renewal takes place, it may be done under such a system and so distributed, as to enable the Town to meet the expense by not overburdening any one year. Some of the pipe has been laid for twenty-five or thirty years, and the life of the pipe is said to be fifty years or more.

UNEXPENDED BALANCES. Appropriations made at the March Meeting are expected to meet the expenses of the current year. This expectation is reasonable because the appropriations are based on the various estimates of departments and the recommendations of the Committee of Twenty-One.

To such an extent of late years have the several departments kept within the March appropriation, the question has arisen as to the advisability of doing away entirely with the November town meeting except for the election of State Officers.

The Board is of the opinion that no town meeting for town business should be held other than the March Meeting, except in case of urgent necessity.

We are glad to report that all departments during the year, with few exceptions, have kept within the March appropriations and report unexpended balances. Those that did not were apparently justified in asking for and receiving additional appropriations in November.

The net unexpended balances available for transfer amount to \$11,430.36, a sum quite material in holding down the tax rate.

The policy of the Town has been to take these unexpended balances for the Sinking Fund, thus encouraging all departments to contribute in a way to this fund.

As suggested elsewhere every department should feel interest in the liquidation of our fixed debt.

The sooner our fixed debt is extinguished, the sooner will larger appropriations be available for department expenditure.

CLASSIFICATION OF EXPENSES. There is necessity of a systematic classification, or summary of expenditures, somewhat uniform in character, for all departments.

An intelligent comparison of one department with another and of one year with another cannot well be made without a clear, definite and somewhat uniform arrangement of expenses. It aids, too, in tracing leaks and waste.

This classification should show clearly what has been expended for straight maintenance, what for construction and

what for extension, and should especially mention items of unusual character in each.

Whether a department is managed with reasonable economy is more easily determined by such a classification.

Estimates for future appropriations are more intelligently made up and more intelligently considered.

The Board are of the opinion that such a classification or summary is businesslike and of advantage both to departments and the town.

It is hoped that the various departments will take this matter under consideration.

Possibly it may come within the jurisdiction of the auditor either to require the same or make the classification himself.

FIRE DEPARTMENT. Nothing unusual has transpired in this department during the year. The high standing of the department heretofore recorded has been sustained and harmony and good-feeling have existed through the year.

Walter H. Peirce has shown that no mistake was made in his election as Chief, and that the confidence the department had in him was not misplaced.

For detail of work during the year attention is called to the Chief's report.

POLICE DEPARTMENT. This department has been under the same force as the year previous, and the high degree of efficiency in its work has been maintained. Cases of murder, or attempt to murder, have demanded much time and labor from the department during the year, and the expenses therefrom called for an extra appropriation of \$600 at the November Town Meeting.

On account of the excellent services of Patrolman Daniel W. Hooley in the past, and especially during the year, he was promoted to the position of Inspector with the rank of Lieutenant, with increase of pay, services beginning May 16, 1908, the date of promotion.

The lack of proper cell room and the unsanitary condition of the same, together with the inconvenient quarters of the present police office, prompted the Board to call the attention of the Town to the matter at the November meeting. At this meeting the matter was referred to a special committee of five appointed by the Moderator, said committee to investigate and report at the next March Meeting with recommendations.

The advisability of using the Robbins House for police quarters should be considered. This will not only provide

ample room for lock-up and office facilities, but will give room in the Town Hall for other departments now somewhat cramped.

The Chief's report gives detail of work to which attention is called.

OUTSIDE POOR. The work of this department differs little from year to year.

While the regular list has required less expense than the year before, and while several families on this list were helped a part of the year from the income of the poor widows fund, the net cost of maintaining the department is larger than the year previous.

This is owing principally to the increased number of sick poor at city and state hospitals, the increased number of families aided elsewhere, but having settlement here, and the care of inmates formerly at the almshouse, but now on the outside poor account.

The number of applications for aid has been larger than heretofore owing doubtless to the recent business depression.

Had it not been for receipts from unpaid bills due the Town from old accounts being in excess of unpaid bills against the town on old accounts and paid, the net cost of maintenance would have been somewhat larger.

It is not always easy to tell when and where to bestow the most effective aid when applicants apply for assistance, although each case is investigated. Recipients are not all equally appreciative of the aid rendered and some are rather inclined to abuse the same, still it is perhaps best for the Town to err on the liberal rather than the penurious side. It is the children who are to be especially considered.

Appearances indicate at present that in 1909 there will be increased application for Town aid.

After Dec. 1, 1908, the State will assume the care and expense of feeble minded and the epileptic.

The financial statement attached gives further detail.

SUPPRESSION OF GYPSY AND BROWN-TAIL MOTHS. The work of this department this year has differed little in character from that of the year previous. Tanglefooting, burlaping, spraying, treating nests and cutting and burning have all been applied as conditions required.

The gypsy moth has been less in evidence during the year as is indicated from the fact that comparatively little creosote was necessary in treating their nests. Two gallons only were needed for the street trees.

The brown-tail moth, however, has largely increased and

much of the time during the fall was taken in cutting off and burning their nests. Swarms of these moths were blown into the Town in August by favorable winds from adjacent or nearby territory that was badly infested. This is likely to happen as long as said territory remains uncleared.

The satisfactory condition of streets, public lands and private residential estates afford more time and expense for thinning out woodland regions. The region between Eastern Avenue and the Belmont line and the woodland near Robbins Road and Oakland Avenue have received special attention. Another year this work will be continued in other parts of the Heights section, and woodlands in the eastern portion of the town will also receive special consideration.

With the woodlands properly thinned out and cleaned it would appear that spraying would be the mainstay in holding our town in satisfactory condition.

The additional allotment by the State of \$1,000, made in November, enabled the Board to purchase from the Frost Insecticide Company one of their best and most powerful Woodland Sprayers, the two Olds Sprayers on hand being included in part payment.

From the many returns from notices sent out by Supt. Bradley, we are glad to record the general confidence of private owners in the character of the work done by this department. The complimentary references made by State Officials as to the work is also very gratifying.

Occasionally an owner feels aggrieved, if charged for work done on his premises by the Town, after the owner has had said premises cleaned.

It must be remembered, however, that whoever does the work, it must be done to the satisfaction of the Local Superintendent; and that if, on inspection, the work is not satisfactory some one must go over the premises again. If this is not attended to by the owner then the Town is obliged to do it. This is where the additional charge comes in.

No charge is made for the inspection of the premises made by the Local Superintendent.

The Board regrets occasion for duplicating the work and causing extra expense, but it is the duty of the department to see that the premises are properly cleaned.

It must be remembered, too, that an inexperienced person may clean premises and believe the work thoroughly done while in reality it may be rather poorly done. An expert in the business knows just where to look for nests and how to treat them most effectively.

The policy of the Board in reducing the number of men to the minimum and adding to the number as occasion requires has been continued. The result is, our employees are generally experienced men, most of them having worked for the Town three years or more.

At this writing the fall and winter work on the streets is completed, and the work on the public lands completed, with the exception of finishing in Menotomy Rocks Park. The fall and winter work on private premises both below and above the snow line is well advanced.

The amount of tanglefooting and burlaping needed in the spring is to be decided. Spraying, however, will be extended and emphasized.

In suppressing gypsy and brown-tail moths this year, \$13,467.26 has been expended, being \$217.48 more than last year. For detail see the financial statement attached, giving location and character of the work.

Since May 8, 1905, when the present law went into effect, over \$52,000 have been expended, of which about \$27,700 have been reimbursed by the State.

Supt. Wm. H. Bradley has continued as Local Superintendent, and James F. Higgins as clerk.

The Town is to be congratulated on having a Local Superintendent so able and efficient. The Town holds high rank in the work of suppressing gypsy and brown-tail moths.

The barren appearance of many of our hills and valleys is a sad reminder of the additional cost in the extermination of these pests.

It is hoped a new growth of trees and shrubbery will follow at an early date, and the former beauties of our Town be at least partially restored.

The liability insurance, heretofore carried by the Town in the work of suppressing moths, was discontinued, as in the opinion of the Attorney General, the Town is not liable for damages caused by work in this department.

TOWN FIRE INSURANCE. As was stated in last year's report the Selectmen petitioned the New England Insurance Exchange for a reduction in the rate of fire insurance. The matter is still pending, as the revaluation of property has not yet been completed. The reappraisal of buildings has been filed, but that of contents only partially taken. The insurance carried, therefore, at the present time is the same as the year previous, namely, \$313,000 on buildings and \$81,000 on contents. This does not include insurance on the addition to the Locke Schoolhouse, as insurance on said addition was placed

by the building committee, neither does it include liability or boiler insurance.

LIABILITY INSURANCE. At the Town Meeting, held April 29, 1908, the Town appropriated \$400 to pay for liability insurance covering work in departments to be designated by the Selectmen.

The insurance was placed with the Maryland Casualty Company, covering public and employers liability policies. As the appropriation was not sufficient to cover all the departments desired, it was placed on certain work in highway, sewer, and water divisions. The policies expire May 23, 1909.

BOILER INSURANCE. The three years policy, covering \$50,000 on 17 boilers, expires Feb. 1, 1909. This insurance is with the Hartford Steam Boiler Inspection and Insurance Company.

The boilers are located in the several schoolhouses, town hall, library, stone crusher, steam roller and steam drill.

PURIFICATION OF ALEWIFE BROOK AND ADJACENT AREAS. At the close of the year, 1907, the Metropolitan Park Commissioners were perfecting and completing plans and securing options and examining titles on lands for the purpose of submitting detailed plans to Mayors of cities and Selectmen of towns for their approval or disapproval.

On February 20, 1908, the authorities of Cambridge, Somerville, Arlington, and Belmont met the Metropolitan Park Commissioners for conference, relative to plans and work in connection with the Alewife Brook region, as contemplated under Chap. 529, Acts of 1907, and conferences and correspondence already held.

On February 24, 1908, the Board of Selectmen approved of said plans, and a formal letter to this effect was signed by the full Board and forwarded to the Metropolitan Park Commissioners.

On October 27, 1908, at a special meeting of the Selectmen, the Board concurred in a taking, under Chap. 288, Sect. 1, Acts of 1894, for Alewife Brook Parkway, and made in connection with the Alewife Brook improvements, said taking being for the purpose of acquiring the land necessary to carry out said improvements.

This concurrence was subscribed to by the Board within the time limit from the taking.

Copies of said takings and plans relative to the the same, and of the concurrence by cities and towns interested, are on file at this office.

Dredging and construction work has already begun, and an-

other year will doubtless see great activity towards carrying out the purposes for which \$125,000 has already been appropriated. This work is under the direction of the Metropolitan Park Commissioners who will install parkway construction in connection with the purification of the brook and adjacent areas contemplated by the State Board of Health.

The Board has reason to believe that when this work is completed the Town will be greatly pleased with the benefits accruing therefrom.

PUBLIC BUILDINGS. The torch-like fixtures with lights on the front, the railings on the steps, the inseting of the front doors, and the necessary repairs and additions to the heating plant in the Town House, together with repair of the roof, called for the extra appropriation granted in the November town meeting.

Some of these changes were required by statute, to which attention was called by the Hartford Steam Boiler Inspection and Insurance Company in their inspection report in July.

The heater in the Robbins House received necessary and thorough repairs, drawing somewhat heavily on the income. Repairs on the heating plant and on the plumbing, together with the renewal of concrete gutters on both sides of the roadway, drew very largely on the income of the Summer Street estate.

Very little expense seemed necessary for the Medford Street estate.

All of these buildings at present appear to be in fair condition, requiring nothing more than ordinary repair.

CONTRACTS FOR FURNISHING COAL TO TOWN DEPARTMENTS. Proposals for furnishing the several departments with coal were invited, and five were received.

The contract was awarded to the lowest bidder, namely Peirce & Winn Co. Their prices were as follows:

Lackawana D. & H., egg, stove and furnace	\$6.24	per ton
Honey Brook egg, or its equivalent	6.74	" "
Lackawana D. & H., stove in ½-ton lots	7.10	" "
Georges Creek Cumberland (best quality)	4.43	" "

The several departments furnished were the schools, library, water department, highway department, fire department, and outside poor department.

The total amount of coal covered 536 tons egg, 15 tons furnace, 123 tons stove, and 215 tons bituminous,—total, 889 tons.

No complaints have as yet been made as to the quality, and it is assumed that it is satisfactory.

PRINTING THE ANNUAL TOWN REPORT. The contract for printing the annual town report for the year 1908 was awarded John F. Biggs & Co., of Boston. Mr. Biggs is a resident of the town, and was with J. A. Cummings' Printing Co. for many years, which company printed our annual reports for several years with very good satisfaction.

It is hoped that the annual report will be ready for distribution at an earlier date than heretofore, and special efforts are being made to this end.

JURY LIST. This list was made up in accordance with the law as amended by Chap. 348 of the Acts of 1907, and copies thereof delivered to the Town Clerk and clerks and assistant clerks of the Supreme, Judicial and Superior Courts. While it was not necessary to make up the list before July 1st, the Board made it up in season to be printed in the annual report for 1907. If the same policy is pursued, the list for 1909 will appear in the annual report for 1908.

MISCELLANEOUS. 1. It reflects very creditably on the Collector's Department, and the Board is glad to mention the fact:—

- (a) That all taxes on property and polls have been collected up to Jan. 1, 1908.
- (b) That all water taxes up to Jan. 1, 1909 have been collected.
- (c) That all unapportioned sewer, sidewalk, and betterment assessments that were due up to Jan. 1, 1909, have been collected.

No previous year appears to have so good a record as the above.

The tax levy committed to the Collector of Taxes for 1908, including additional commitments and reassessments, was \$222,748.95, of which only \$62,657.58 remains unpaid.

2. R. W. LeBaron, Inspector of Wires, is still authorized to cut wires in emergency cases, and in his absence, Thomas O. D. Urquhart, Chief of Police, has the same authority.

3. To know what it cost the Town to administer all of its affairs in full one must look beyond the mere tax levy, or tax rate:—

For instance, the tax levy committed to the Collector of Taxes, this year, was \$219,838.97, while over \$350,000 was expended.

Some of the sources from which the money was taken to meet this expenditure, over and above what was contributed by tax levy, appears to have been as follows:

\$16,176.10 from street railway taxes for Highway Department.

14,497.57 from corporation and bank taxes.

11,033.69 from unexpended balances of 1907.

635.56 from dog tax, for the use of the library.

5,000.00 (approximately) from the various trust funds.

If it were not for such receipts the tax rate would be very much higher.

The \$350,000 above, includes expenditures in Water Department, and for extension and construction purposes, for which money borrowed was available.

4. The borrowing capacity of the Town is \$91,902.74, which is less than it has been since 1905. These figures, however, take no account of the amount in the sinking fund.

SEALER OF WEIGHTS AND MEASURES. Chapter 534 of the Acts of 1907, provides for the appointment by the Governor of the Commonwealth of a Commissioner of Weights and Measures.

From circulars and pamphlets issued by said Commissioner it is evident that a more vigorous enforcement of the laws relating to the sealing of weights and measures, and the giving of false and insufficient weights and measures is to be carried out, and under the new regime this department of Sealer becomes more important than ever.

It behooves the Selectmen therefore to see that the local Sealer fully performs his duties in the premises.

The act relative to giving false weight, etc., is as follows:

CHAPTER 394 ACTS OF 1907.

AN ACT RELATIVE TO THE PENALTY FOR GIVING FALSE WEIGHT OR MEASURE.

Be it enacted etc., as follows:

SECTION 1. Whoever, himself or by his servant or agent or as servant or agent of another person, is guilty of giving false or insufficient weight or measure shall for a first offence be punished by a fine of not more than fifty dollars, for a second offence by a fine of not more than two hundred dollars, and for a subsequent offence by a fine of fifty dollars and by imprisonment for not less than thirty nor more than ninety days.

SEC. 2. All acts and parts of acts inconsistent herewith are hereby repealed. (*Approved May 8, 1907.*)

LICENSES.

Licenses were granted as follows :

VICTUALLERS. C. LaBreque, 606 Massachusetts Avenue; Miss Isabella M. MacDonald, 1406 Massachusetts Avenue; A. O. Sprague, 5 Mystic Street; Charles H. Kimball, 1385 Massachusetts Avenue; N. J. Hardy, 657 Massachusetts Avenue; Elizabeth M. Walsh, 1399 Massachusetts Avenue; Margaret L. O'Brien, 472 Massachusetts Avenue; Thomas F. Lally, Massachusetts Avenue; William J. McGowen, 458 Massachusetts Avenue.

JUNK. Max Rosenfeldt, 1306 Cambridge Street, Cambridge; Joseph Berkman, 319 Elm Street, Cambridge.

POOL TABLE. Joseph W. Ronco, Post Office Building; Raphae D. Guarente, 612 Massachusetts Avenue; Tony Spadaro, 945 Massachusetts Avenue.

AUCTIONEERS. Philip A. Hendrick, 12 Draper Avenue; Frank Y. Wellington, 15 Wellington Street; James H. Shedd, 28 Draper Avenue; Frank V. Noyes, 244 Pleasant Street; George D. Moore, 133 Broadway; F. Alfred Patterson, Arlington Heights; D. W. O'Callaghan, 36 Dundee Road, Winthrop Patten.

INTELLIGENCE OFFICE. Arlington Exchange, Clara T. Blake, Manager, Associates Building; Dow & Giles, 633 Massachusetts Avenue.

TO TRANSPORT SPIRITUOUS OR INTOXICATING LIQUORS UNDER PROVISIONS OF CHAPTER 421, ACTS 1906. George W. McClellan, 7 Webster Street; Wood Bros., 1 Water Street; Arthur M. Curtin, 963 Massachusetts Avenue; Jesse C. Fletcher, 32 Sawin Street; American Express Co., railroad station, Arlington; Joseph Forest, 303 Broadway; Francis E. Horne, 23 Henderson Street; John J. Preston, 319 Massachusetts Avenue.

No sixth class liquor licenses were granted during the year.

Attention is called to the financial statements and comparative tables herewith appended. For further detail of expenditures see Auditor's report.

REPORT OF THE CHIEF OF POLICE.

ARLINGTON, MASS., Jan. 1, 1909.

To the Honorable Board of Selectmen of Arlington:—

GENTLEMEN:—I herein submit a report of the doings of the Police Department for the year ending December 31, 1908:

Number of arrests during the year, 300.

Americans	173	Non-Residents	191
Foreigners	127	Females	8
Juveniles.....	34	Negroes	6
Residents	109	Warrants served	37
Summons served		56	
Officers attended court		288 days	
Amount of fines imposed by the courts		\$1132	

Never in the history of the town have there been so many arrests necessary for offences of a highly serious character.

The nature of the offences committed, divided into three classes, are as follows:—

OFFENCES AGAINST THE PERSON.

Accessory before the fact (in case of assault to murder) ..	1
Accessory after the fact (in case of assault to murder) ...	1
Assault and battery	13
Assault with intent to murder	4
Assault and robbery	2
<hr/>	
Total	21

The above cases were disposed of as follows:—

Two for being accessories before and after the fact were discharged; of the 13 cases of assault and battery, one was committed to the House of Correction, six were fined, one was

placed under bonds to keep the peace, two were placed on probation, one was placed on file, one was defaulted, and one was discharged on account of the complainant withdrawing the charges at court.

Of the four cases of assault with intent to murder, two were arrested and turned over to the officers of a neighboring city and were sentenced to not less than 18 years in State Prison.

Two were local offenders living in the Italian colony, and owing to extenuating circumstances, one was sentenced to serve a year and the other nine months in the House of Correction.

Two cases of assault and robbery were tried and each found guilty and sentenced to serve four years in the House of Correction.

FOR OFFENCES AGAINST PROPERTY.

Attempted larceny (pickpocket)	1
Breaking and entering and larceny	7
Larceny	31
Malicious injury to personal property	2
Receiving stolen property	1
Trespass and larceny	4
	—
Total	46

The above were disposed of as follows:—

In the case of attempted larceny, a fine of \$300 was imposed and paid at the last term of the Superior Court.

Of the seven cases of breaking and entering, one was sentenced to not less than two nor more than five, years in the Massachusetts Reformatory, one was sentenced to two years in the House of Correction, one to one year in the House of Correction, three were placed on probation, and one was discharged on account of the withdrawal of the complaint.

Of the 31 larceny cases, five were fined \$10 each, two were fined \$10 each and appealed, one was fined \$20, one was fined \$25, two were delivered to officers of other cities, two were sentenced to the Lyman School, nine were placed on probation, three were discharged, one was sentenced to the Massachusetts Reformatory, one sentenced to three months in the House of Correction, one sentenced to two months in the House of Correction, one case was placed on file, one complaint was withdrawn, and one was defaulted.

OFFENCES AGAINST GOOD ORDER, CHASTITY AND DECENCY.

Adultery	I
Bastardy	I
Carrying a loaded revolver without license	2
Contempt of court	10
Cruelty to animals	2
Defacing a public building	2
Disorderly conduct	I
Disturbance of the peace	20
Disturbance on a street car	2
Discharging firearms in the street	4
Drunkenness	14I
Having bob-veal with intent to sell	I
Indecent exposure	I
Lewd and lascivious conduct	2
Non-support	6
Safekeeping	6
Selling obscene pictures	I
Slaughtering without a license	I
Suspicion	I
Vagrancy	2
Violation of the automobile laws	12
" " the Board of Health rules	I
" " probation	3
" " the school regulations	I
" " the town by-laws	9
<hr/>	
Total	233

The above cases were disposed of in the following manner:—

In the case of adultery, arrest was made, and prisoner turned over to officers of another town.

The case of bastardy was bound over to the Superior Court.

Two cases of carrying a revolver without license were fined \$25 each.

In 10 contempt cases, one was fined \$1 and placed under bonds to keep the peace for six months, three were placed on probation, two were placed on file, one was fined \$15 and the fine suspended, one was fined \$10, one \$5, and one \$20.

In two cases of cruelty to animals, one was fined \$20 and the other \$10.

For defacing a public building, one was placed on probation and the other on file.

For disorderly conduct, a fine of \$10 was imposed and an appeal taken; case now pending.

For disturbance of the peace, three cases were placed on file, two discharged, three fined \$5 each, three fined \$10 each, one sentenced to two months in the House of Correction, one was placed on probation, and seven were placed on probation by payment of \$15 each, as costs.

For creating a disturbance in a street car, two were fined \$20 each.

For discharging firearms in the street, one was placed on probation, two were fined \$10 each, and one was fined \$5.

The cases of drunkenness were disposed of by 67 cases being placed on file; 31 were released from the station without being taken to court, four were placed on probation, six were sentenced to the State Farm, one was sentenced to the State Farm and appealed, two were fined \$10 each, one was fined \$10 and appealed, 15 were fined \$5 each, one was fined \$3, three were fined \$1, two were sentenced to three months each in the House of Correction, one was sentenced to 30 days in the House of Correction and appealed, four were sentenced to 10 days, and one to 8 days in the House of Correction, one case was defaulted, and one case continued.

For having bob-veal in possession with intent to sell the same, case pending.

One case of indecent exposure was sentenced to two months in the House of Correction.

Four persons were held for safekeeping and released in the custody of friends.

In one case of selling obscene pictures, a fine of \$100 and six months' imprisonment was imposed.

In case of slaughtering without a license, trial is pending.

For non-support, two cases were continued, two were placed on probation, one was discharged, and one was defaulted.

One case of arrest on suspicion was discharged.

For vagrancy one was placed on probation and one sentenced to two months in the House of Correction.

For violation of the automobile laws, one was fined \$20, three \$10 each, three \$5 each, three were defaulted, five were arrested for officers of other places, and one case was placed on file.

For violation of the rules of the Board of Health, one defendant was defaulted.

For violation of their probation, three defendants had their probation continued.

One case of violation of the school regulations was placed on file.

For violation of the town by-laws, six were placed on file and three discharged.

Persons arrested gave as their residence the following places:—

Arlington	109	Lincoln	1
Boston	45	Lowell	3
Boxboro	1	Medford	20
Brockton	2	Malden	2
Belmont	6	No Home	9
Burlington	1	Newton	1

Property recovered	272.60
Patrol wagon calls	11

On the morning of March 28th the body of a woman was found in what is known as Squire's field with her head almost severed from her body.

It afterward proving to be that of Annie Mullins, a domestic employed in a Cambridge family.

On receipt of the news that her body had been found District Attorney Higgins and Deputy Chief Neil of the State police, together with Chief Pullen of Cambridge, offered the services of their respective offices which were accepted.

The case is still under investigation; the members of this department have worked faithfully and conscientiously in the matter and your honorable board have been kept in close touch with all matters pertaining to the case.

At an inquest held at the 3rd District Court, conducted by District Attorney Higgins and presided over by Judge Stone, numerous witnesses were heard and I herein quote the following from the finding of the honorable court at that time:

“At an inquest duly holden before the justice of the 3rd Middlesex court of eastern Middlesex, at Cambridge, in the county of Middlesex, on the 3rd and 29th days of April in the year of our Lord 1908, to inquire into the cause and manner of the death of Annie Mullins, whose dead body has been found lying in Arlington within the judicial district of said court.

“The justice of said court, having been duly notified of the death of the said Annie Mullins and of the circumstances attending the same, by William D. Swan, one of the medical examiners of said county of Middlesex, after hearing the testimony relating to the cause and manner of said death, finds that the said Annie Mullins came to her death at said Arlington on the 27th day of March in the year of our Lord 1908

in consequence of a hemorrhage resulting from incised wounds in the throat.

"The said Annie Mullins was an unmarried woman, about 27 years of age, and at the time of her death was employed at No. 113 Walker Street, Cambridge, by Prof. Hans Carl Guenther von Jagemann as a house servant. She was a native of the province of Newfoundland, but had lived in Cambridge for some time, and was a woman of good character and virtuous life, and so reputed in the community in which she lived.

"She was last seen by her employer's wife in the kitchen of the house on Walker Street at about 7 o'clock on the evening of March 27, 1908. She left the house hurriedly some minutes after this time, without informing anybody of her intention so to do, and in direct contradiction to an intention expressed not more than half an hour previous of not leaving the house upon that evening. Her dead body was found the next morning at about 9 o'clock by two boys, Louis M. Chever and Walter M. Cook, in what is commonly known as Squire's field, in Arlington.

"The body was lying at or near the edge of a depression or ravine in the field which had been formed some years previous by gravel or dirt being taken out in comparatively large quantities.

Although the boys who found the body, and more particularly one John Murphy, an adult whom they summoned to their assistance, showed commendable intelligence in dealing with the situation, the news of its discovery soon caused many people to assemble at the spot, whose curiosity is largely responsible for the difficulty which confronted the police at the outset of an official investigation.

"No knife or other weapon was found either on or near the body. There was evidence that tended to show that the said Annie Mullins had come to this place with some other person, presumably a man. From the medical testimony it appears probable that death took place between the hours of 8 and 10 P. M. on the evening of March 27.

"The position and character of the wounds in the throat indicate that they were inflicted with some sharp instrument by means of slashing blows or cuts, and there is nothing in their position or character to show whether or not they were self inflicted.

From the other evidence in the case, however, including the absence of any weapon at or near the body, the absence of any motive for suicide, the appearance of the deceased, the condition of the ground around where the body was found, and other facts that appeared at the inquest, I do not think

it probable that this was a case of suicide. The inquest occupied two days, 28 witnesses being summoned and examined by John J. Higgins, district attorney for the northern district, who represented the government.

"From all the evidence thus presented to me, I am unable to form an opinion to the identity of the person who is responsible for the death of the said Annie Mullins. I am also unable to form an opinion as to the way and manner in which her death was affected other than is stated above.

"I, therefore, find that the said Annie Mullins came to her death on Friday, March 27, A. D. 1908, at Arlington, through a hemorrhage resulting from her throat being cut by a sharp instrument in the hands of some person or persons to me unknown."

In regard to the illegal sale of intoxicating liquors I can only reiterate what has been said in other years, that no complaint has been left unattended.

The Police Signal System still continues to give unbounded satisfaction; by its use the officer in charge of the station is in constant touch with the officers on their routes and during the year it has been put to some severe tests.

There have been 25,245 duty calls rung in by the officers during the year and 986 telephone calls sent it.

The boxes of the system are located as follows:

- | | |
|---------|--|
| Box No. | 12 at the junction of Mass. Ave. and Henderson St. |
| | 14 at the junction of No. Union and Broadway. |
| | 15 at the junction of Tufts St. and Mass. Ave. |
| | 141 on Mass. Ave., near the Monument. |
| | 21 on Medford St., near the cemetery gate. |
| | 23 on Mystic St., near Fairview Ave. |
| | 31 at the junction of Mass. Ave. and Mill St. |
| | 32 at the junction of Gray St. and Bartlett Ave. |
| | 34 on Pleasant St., near Kensington Road. |
| | 41 on Mass. Ave., near Grove St. |
| | 44 at the junction of Forest St. and Mass. Ave. |
| | 412 near the Arlington Heights car barn. |
| | 413 on Westminster Ave. |

THE LOCKUP. On numerous occasions during the year we have been obliged to put two persons in a single cell, in which there is hardly standing room for one, and in which the ventilation and plumbing is something beyond description.

At the last special town meeting an article was inserted in the warrant to see what action the Town would take in the matter.

A committee of five was appointed to investigate and report at the annual town meeting.

I wish that every citizen of the town would constitute himself a committee of one and personally look into this matter.

I sincerely believe that no intelligent person after so doing can remain unconvinced that common decency demands some of the changes asked for.

This department consists of a Chief, one Inspector with rank of Lieutenant, and six patrolmen.

The year just closed has been a trying one for the members of this department and I take this opportunity to thank them for their earnest effort to enforce the laws and maintain order.

I would recommend that the same amount as last year, namely the sum of \$9,250 be appropriated for the maintenance of this department for the ensuing year.

In closing I wish to thank the citizens who have in any way assisted this department in their arduous duties.

To your honorable board I can but express my deep appreciation for the many timely suggestions made and assistance rendered.

Respectfully Submitted,

THOMAS O. D. URQUHART,

Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

ARLINGTON, MASS., Jan. 1, 1909.

To The Honorable Board of Selectmen of the Town of Arlington:

Gentlemen:—I respectfully submit my annual report of the Arlington Fire Department for the year ending Dec. 31, 1908, giving details of the force, apparatus, record of fires and alarms, with amount of loss and insurance on property endangered, as near as possible to be ascertained, also appropriations and expenditures together with recommendations and suggestions for the best interests of the department and town.

ORGANIZATION. The number of companies are as follows: one ladder company, three hose companies and one chemical engine company which is run in connection with hose company No. 2.

MANUAL FORCE. The force consists of 48 men.

1 Chief Engineer	1 1st. Asst. Engineer
1 2nd Asst. Engineer and clerk	5 permanent drivers
1 Permanent Captain and driver	3 Call Captains
4 Call Lieutenants	28 Privates
4 Substitutes.	

The department has been unfortunate in the loss of one of its oldest members, Mr. A. F. Brooks who passed away Dec. 5 a man who gave the best part of his life to the department and who could always be counted upon to do his duty. We can ill afford to lose such men, but must abide by the will of the Almighty.

SALARIES PAID THE DEPARTMENT.

Chief per year	\$300.00
1st Asst. Chief	100.00
2nd Asst. Chief and clerk	125.00

Permanent Captain and Driver per year	962.00
Permanent Drivers	936.00
Call Captains	85.00
Call Lieutenant	80.00
Private	75.00

APPARATUS. The department has three Hose Wagons, one Relief Wagon, one ladder truck, one Chemical Engine and two Exercise Wagons. There are eight Hand Chemicals distributed on the different pieces of apparatus. The Relief Wagon has been added the past year being a discarded Hose Wagon from the City of Boston Dept. which was purchased for twenty-five dollars (\$25.00) thoroughly overhauled and painted and now used by Hose Co. No. 3 and Ladder Co. No. 1 as Exercise Wagon. The exercise Wagon which has been used by Hose Co. No. 3, sent to Hose Co. No. 1 at Heights, which has always had to use their regular wagon for exercise purposes. Hose 2 and 3, Chemical and ladder truck are all in good order. I recommend that Hose No. 1 Wagon be put in shop and painted this coming year; this Wagon has been used for exercising purposes and therefore is not in as good condition as others and I believe it is good policy to have one wagon painted every year and not have them all come in one year as they did before.

HOSE. There are 7,850 ft. of $2\frac{1}{2}$ in. cotton rubber lined hose in the Dept., 1,300 feet having been purchased the past year. Most of the rest is in good condition excepting a few lengths which are old and therefore more liable to give out. Barring any accident will not need any more this coming year. Six hundred feet of hose which was not fit for use in Dept. was sold to Sewer Dept. and proceeds used for purchase of new hose.

HORSES. There are eleven (11). Horses in the Dept. ten are in active service and one is used as spare horse. They are all in good condition and except for accident will last for a number of years. The Horses have consumed 1,031 bushels Grain, 56,500 lbs. Hay, 4,807 lbs. Straw; at a cost of \$1,300.54 which makes the cost per week of each horse \$2.39.

HOUSES. Outside of ordinary repairs to the buildings except Hose 2 house, in which bath-room has been installed and Hose 1 house, which has been painted, the buildings are in the same condition as last year. The building at the Heights, Hose 1, is in very bad condition, the sills are all decayed and building is settling fast. Do not think it advisable to lay out

any money there but recommend that the town take in consideration the purchase of a new location and erection of building for use of Fire Dept. The building of Hose 3, Broadway, is in fair condition but it is not large enough for the needs of the Dept. Additional room has to be hired at present time. A central Fire Station in the centre of the Town is needed and some movement to that effect should be started; owing to the size of present lot and the inability to purchase additional land, it is not advisable to make any extended repairs on building.

The fuel for Dept. cost \$256.34.

APPROPRIATIONS.

The appropriations for the year ending Dec. 31, 1908.

General appropriations	\$11,479.00
Special appropriation for purchase of Hose.....	625.00
Received for sale of old Hose	133.25
Received for sale of old Junk	7.50
Received for sale of old Manure	12.00
Received for sale of old Harness	15.00
	<hr/>
	\$12,271.75

EXPENDITURES.

Permanent men pay-roll	\$5,539.97	
Call men and Engineers	3,168.75	
Hay and Grain	1,300.54	
Fuel	256.34	
Laundry	62.29	
Light	36.58	
New Hose	755.50	
Rent	35.00	
Repair on Apparatus	212.15	
Blacksmith work	186.58	
Repair on Buildings	313.37	
Incidentals	}	400.63 12,267.70
For details see Auditor's report		
	<hr/>	
Unexpended Balance		4.05

FIRE ALARM. There have been 31 Bell Alarms, 40 Still Alarms and 1 Out of Town Call for help at Chelsea, April 12. The several companies have performed the following Fire Duty: Hose 1 has answered 31 Bell Alarms, 13 of these

covering in at Hose 2; 9 Still Alarms; traveled 74 miles, on duty 29½ hours, laid 1,000 ft. of Hose, used 13 Hand Chemicals.

Hose 2 has answered 31 Bell Alarms, 22 Still Alarms, traveled 95 miles, on duty 40 hours, laid 2350 ft. Hose, used 42 Hand Chemicals, used 935 gal. tanks, used 45 ft. of Ladder, also covered in at Hose 3 during absence at Chelsea fire.

Hose 3 has answered 24 Bell Alarms, 18 Still Alarms, also were sent to Chelsea, April 12, in answer to call for help, on duty there 12 hours, used 700 ft. of Hose (Hose 2 covered in while Hose 3 were away), traveled 69½ miles, on duty 40 5-6 hours, laid 7150 ft. of Hose, used 41 Hand Chemicals. Ladder Company has answered 31 Bell Alarms, 1 Still Alarm, traveled 69½ miles, on duty 26 hours, used 11 Hand Chemicals, used 340 ft. of Ladder, used 100 ft. of lin. Hose.

The alarms were as follows:

- Jan. 14. Box 71, 6.03 A. M. Sylvia Street. Wooden dwelling owned by H. Glueth. Value of building, \$3,250. Insurance on building, \$2,200. Value of contents, \$600. Insurance on contents, \$500. No loss.
- Jan. 19. Still alarm, 6.15 P. M. Menotomy Rocks Park. Grass fire. No damage.
- Jan. 19. Still alarm, 12.26 P. M. Menotomy Rocks Park. Grass fire. No damage.
- Jan. 20. Box 4, 11.27 A. M. On vacant lot near 56 Gray Street. No damage.
- Jan. 22. Still alarm, 11.20 A. M. Harvard Street, land of T. E. Blanchard. Grass fire. No damage.
- Jan. 22. Still alarm, 4.40 P. M. Summer Street Extension, land of H. P. McManus. Brush. No damage.
- Jan. 23. Still alarm, 9.48 P. M. Medford, land of W. H. Jones. Grass and fence. No damage.
- Jan. 26. Box 36, 12.15 A. M. Post Office Building, owned by estate of Warren Sherburn. Fire in rooms of I. Candib. Value of building, \$24,000. Insurance on building, \$20,000. Loss on building, \$290. Value of contents, \$28,210. Insurance on contents, \$20,800. Loss on contents, \$750.
- Jan. 31. Box 61, 5.15 P. M. 49 Claremont Avenue. Wooden dwelling owned by Jas. L. Dow. Value of building, \$2,200. Insurance on building, \$2,000. Value of contents, \$600. No damage.
- Feb. 5. Box 54, 7.23 A. M. 1 Park Avenue. Wooden dwelling owned by estate of John Brady. Value of building, \$3,000. Insurance on building, \$3,000. Loss on building, \$35.
- Mar. 11. Box 21, 9.39 A. M. 88 Decater Street. Wooden dwelling owned by John W. Dacey. Value of building, \$550. Insurance on building, \$600. Loss on building, \$197. Value of contents, \$800. Insurance on contents, \$300. No loss.
- Mar. 16. Box 39, 1.12 P. M. 751 Massachusetts Avenue, on property owned by Mrs. H. Y. Hill. Ash barrel outside of house. No loss.

- Mar. 17. Box 25, 12.11 A. M. Near Franklin Street. Wooden storehouse owned by W. W. Rawson. Value of building, \$800. Insurance on building, \$500. Loss on building, \$200. Value of contents, \$500. Insurance on contents, \$500. Loss on contents, \$240.
- Mar. 21. Box 56, 12.07 P. M. 123 Claremont Avenue. Wooden barn owned by E. H. Bartol. Value of building, \$200. Insurance on building, \$200. Loss on building, \$200. Value of contents, ——. No insurance on contents; total loss.
- Mar. 24. Box 32, 1.34 P. M. 232 Pleasant Street. Wooden dwelling owned by J. S. Pray. Value of building, \$4,500. Insurance on building, \$3,500. Insurance paid, \$210. Value of contents, \$1,500. No insurance. Loss on contents, \$100.
- Mar. 30. Still alarm, 7.04 P. M. Washington Avenue. Grass fire. No damage.
- Apr. 1. Still alarm, 3.15 P. M. In wood off Sumner Street. Owned by Symes Hospital. No damage.
- Apr. 1. Still alarm, 9.37 P. M. Off Robbin Road. No damage. Grass fire.
- Apr. 7. Still alarm, 8.10 A. M. Off Robbins Road. Grass fire. No damage.
- Apr. 7. Still alarm, 1.15 P. M. Rubbish pile near Parmenter School. No damage.
- Apr. 10. Still alarm, 8.20 A. M. Grass fire on land of Lucy A. Whitney on Park Avenue. No damage.
- Apr. 10. Box 71, 4.19 P. M. 1520 Massachusetts Avenue. Wooden dwelling owned by Julia A. Leahy. Value of building, \$1,200. Insurance on building, \$1,000. Loss on building, \$25. Value of contents, \$500. Insurance on, \$500. Loss on contents, \$77.
- Apr. 12. 5.25 P. M., 10 blows. Out of town call for help. Hose 3 sent to Chelsea. On duty 12 hours.
- Apr. 13. Box 35, 8.43 P. M. 13 Addison Street. Wooden dwelling owned by H. S. Adams. Needless. No fire.
- Apr. 15. Still alarm. Brush fire. No damage.
- Apr. 24. Still alarm, 2.25 A. M. Off Chestnut Street, on town dump. Rubbish. No damage.
- May 4. Box 27, 10.33 A. M. Wooden shed on Mystic Street owned by Arlington Gas Light Co. Fire on roof. No damage.
- May 15. Box 35, 1.55 P. M. Arlington Boat Club House on shore of Spy Pond. Value of building, \$7,000. Insurance on building, \$6,000. Loss on building, \$25. Value of contents, \$4,000. Insurance on contents, \$3,000. Loss on contents, \$10.
- May 19. Box 14, 1.48 P. M. 72 Henderson Street. Wooden dwelling owned by Patrick Cashman. Value of building, \$1,000. Insurance on building, \$1,000. Loss on building, \$560. Value of contents, \$500. No insurance. Loss on contents, \$150.
- June 7. Still alarm, 3.25 P. M. Old lumber near ice houses, Linwood Street. No damage.
- June 12. Box 13, 5.21 P. M. Cottage Avenue. Wooden dwelling owned by Geo. D. Lexson. Value of building, \$1,500. Insurance on building, \$1,200. Loss on building, \$25. Value of contents, \$800. Loss on contents, \$25.
- June 11. Still alarm, 3.30 P. M. Lowell Street, corner Bow. Wooden barn owned by estate of John Brady. No damage.

- June 13. Still alarm, 3.30 P. M. 1351 Massachusetts Avenue. Wooden store owned by J. E. Duncan. Value of building, \$3,500. Insurance on building, \$2,600. Loss on building, \$35. Value of contents, \$2,500. Insurance on contents, \$2,500. Loss on contents, \$17.
- June 20. Still alarm, 5.30 P. M. Linwood Street. Grass fire. No damage.
- June 21. Box 47, 10.40 A. M. 23 Forest Street. Wooden dwelling owned by Mrs. Bruce Young. Value of building, \$3,500. Insurance on building, \$2,500. Loss on building, \$40. Value of contents, \$700. No insurance. No loss on contents.
- June 23. Box 27, 9.10 A. M. Wooden drug mill owned by Gould & Bros. Value of building, \$8,000. Insurance on building, \$5,000. Loss on building, \$600. Value of contents, \$5,000. Insurance on contents, \$5,000. Loss on contents, \$1,219.
- June 25. Still alarm, 4.12 P. M. Medford Street. Grass fire. No damage.
- July 3. Box 27, 1.02 P. M. Corner Russell and Mystic Streets. Grass fire. No damage.
- July 3. Still alarm, 10.13. Corner Tufts and Massachusetts Avenue. Rubbish. No damage.
- July 3. Still alarm, 8.30 P. M. Dump at Schouler Court. No damage.
- July 4. Box 46, 1.34 A. M. Corner Brattle and Summer Streets. Wood shed owned by Mrs. A. Sullivan. Value of building, \$50. Insurance on building, \$50. Loss on building, \$25.
- July 4. Box 50, 5.24 P. M. 160 Westminster Avenue. Wooden dwelling owned by Mrs. A. Swadkins. Value of building, \$1,600. Insurance on building, \$1,600. Loss on building, \$125. Value of contents, \$1,000. Insurance on contents, \$1,000. Loss on contents, \$40.
- July 8. Still alarm, 5.03 P. M. Lake Street. Hay stack owned by J. J. Lyons. Small damage.
- July 11. Still alarm, 10.33 A. M. Draper Avenue. Grass fire. No damage.
- July 16. Box 14, 2.35 A. M. J. P. Squire estate, Massachusetts Avenue. Grass fire. No damage.
- Aug. 4. Still alarm, 8.15 P. M. Lowell Street, on land owned by A. Bain. Rubbish. No damage.
- Sept. 16. Box 52, 10.37. False alarm.
- Oct. 3. Still alarm, 4.20 P. M. 1025 Massachusetts Avenue. Chimney fire. Dwelling house owned by Miss Woods. No damage.
- Oct. 17. Box 46, 10.51 A. M. Off Brattle Lane. Wooden barn owned by Geo. H. Hill. No damage.
- Oct. 19. Still alarm, 6.05 P. M. Mill Street. Rubbish on dump of H. L. Frost Co. No damage.
- Oct. 21. Still alarm, 3.00 Park Avenue. Grass fire.
- Oct. 24. Box 23, 9.17 P. M. Broadway. Hay stack owned by M. E. Moore. Loss on hay, \$20.
- Oct. 27. Still alarm, 5.25 P. M. On estate of Mrs. Peck, off Lombard Road. Henhouse. Small damage.
- Oct. 31. Box 43, 1.57 P. M. Summer Street Extension. Grass fire. No damage.

- Nov. 2. Still alarm, 7.12 P. M. Medford Street. Grass fire on land of W. H. Jones. No damage.
- Nov. 7. Still alarm, 10.10. Forest Street. Brush fire. No damage.
- Nov. 7. Still alarm, 12.16 P. M. Oak Street. Brush fire. No damage.
- Nov. 7. Still alarm, 6.50 P. M. Boston & Maine R.R., near the Centre. Railroad ties. No damage.
- Nov. 17. Box 36, 7.48 A. M. Wooden dwelling. Swan Place. Owned by Mrs. N. H. Knickerbocker. Value of building, \$4,000. Insurance on building, \$4,000. No loss. Value of contents, \$600. Insured, \$500. Loss on contents, \$6.
- Nov. 21. Still alarm, 10.25 P. M. 59 Winter Street. Wood dwelling owned by Thos. Coughlin. Needless.
- Nov. 23. Box 25, 12.43 A. M. Wooden boilerhouse on estate of W. W. Rawson, off Franklin Street. Value of building, \$2,000. Insurance on building, \$1,200. Loss on building, \$350.
- Nov. 28. Still alarm, 12.14 P. M. Medford Street, in rear of St. Agnes' School. Grass fire. No damage.
- Nov. 28. Box 47, 2.37 P. M. False alarm.
- Dec. Still alarm, 9.45 P. M. Bartlett Avenue, on land of Hill estate. Brush fire. No damage.
- Dec. 1. Still alarm, 7.20 P. M. Summer Street Extension. Brush fire. No damage.
- Dec. 3. Still alarm, 7.30 P. M. Bow Street. Grass fire. No damage.
- Dec. 4. Still alarm, 10.00 A. M. Massachusetts Avenue, on land of Mrs. G. H. Sprague. Grass fire. No damage.
- Dec. 9. Still alarm, 5.53 P. M. Pond Lane. Grass fire. No damage.
- Dec. 11. Box 23, 5.07 P. M. 106 Broadway. Wooden dwelling owned by estate J. P. Squire. Value of building, \$5,000. Insurance on building, \$4,500. Loss on building, \$50. Value of contents, \$2,500. No insurance. Loss, \$10.
- Dec. 11. Still alarm, 3.40 P. M. Fire in chimney of house owned by W. B. Douglass. No damage.
- Dec. 18. Box 39, 5.21 P. M. 24 Central Street. Wooden dwelling owned by F. S. Breen. Value of building, \$2,200. Insurance on building, \$2,000. No loss. Value of contents, \$1,200. Insurance on contents, \$1,000. No damage.
- Dec. 28. Still alarm, 8.20 P. M. 28 Draper Avenue. Wooden dwelling. Burning lamp. No damage.

Value of buildings endangered.....	\$79,550 00
Insurance on buildings endangered.....	65,450 00
Loss on buildings endangered.....	2,992 00
Value of contents.....	53,110 00
Insurance on contents.....	36,800 00
Loss on contents.....	2,844 00

RECOMMENDATIONS. I recommend the appropriation of \$11,627.00 for the maintenance of the Fire Department for the ensuing year. This sum is necessary in order to maintain the department on its present basis and keep it there.

I recommend the extension of the high water service on Massachusetts avenue, below the present ending. There are quite a number of buildings in this section which, if a fire ever starts, we will need high pressure. I believe it is cheaper for the town to lay pipe and have plenty of hydrants than to buy

a steamer, and by having hydrants well located it also saves in use of hose.

I recommend that some action be taken toward a new building at the Heights. The present building is all out of repair and I do not believe it good policy to spend any amount on present structure. There are a few repairs which must be attended to, regardless.

There has been, of late, a movement started to form a Metropolitan Fire District, which will include Arlington. Nothing definite has been suggested yet. This movement is for the better fire protection in case of a conflagration, and means that a large fire-fighting force can be centered at the desired place in short space of time. It may mean the outlay of a sum of money in the near future, for a fire alarm system connecting the several cities and towns into one large fire district. All that we can do at present is to await developments. I think that it is a move in the right direction and will mean better fire protection in the near future.

CONCLUSION. In closing my report, I respectfully thank your honorable board for the courteous manner in which they have always received me in my official capacity. I also wish to thank all other officials of the town, who have so willingly given their services when called upon. To my assistant, and members of the department, my thanks for the able manner in which they answered all demands made upon them, making the work of the Chief a task of pleasure and great benefit to the town.

Respectfully submitted,

WALTER H. PEIRCE,
Chief.

REPORT OF INSPECTOR OF BUILDINGS.

ARLINGTON, Mass., December 31, 1908.

To the Honorable Board of Selectmen, Arlington, Mass: —

I herewith submit report of the inspection of buildings for the year 1908. Eighty-four permits were issued covering work classified as follows —

	Estimated Cost
Dwellings, one family	29 \$104,700
two families	13 60,000
three families	7 35,000
Additions and alterations	11 10,525
Stables and sheds	17 12,250
Storage Warehouse	1 8,500
Temporary	5 1,550
	<hr/>
	83 \$232,525

One permit transferred on building moved to new location.

The increase in valuation of the Town is indicated, in part, by a comparison of estimated costs of new buildings, additions and alterations for the past five years.

1904	1905	1906	1907	1908
\$112,500	\$212,550	\$279,075	\$181,000	\$232,525

Total for the period, \$1,017,650.

The Revision of the Building Laws in the near future will, I trust, bring about a better understanding of the Regulations both by the builders and the Inspection Department.

Respectfully submitted,

ROBERT W. POND,

Inspector of Buildings.

REPORT OF TOWN PHYSICIAN.

ARLINGTON, MASS., December 31, 1908.

To the Honorable Board of Selectmen : —

GENTLEMEN—I herewith respectfully submit report as Town Physician for the year 1908.

Number of office calls.....	42
Number of visits made.....	30
Emergency calls at police station....	16

Fortunately, but minor troubles have claimed my attention. Only four serious cases stand out among the others, pneumonia, fracture at the elbow, advanced pulmonary tuberculosis, diphtheria (sent to Somerville Contagious Hospital), also two children were operated for adenoids and enlarged tonsils.

Among the emergency cases treated at the police station there was one death from fracture of the skull. A similar case was referred to the Massachusetts General Hospital. Two gun shot wounds were transferred to hospital for operation.

Respectfully submitted,

G. E. SANGER,

Town Physician.

REPORT OF INSPECTOR OF MILK.

To the Board of Selectmen : —

GENTLEMEN—I submit the following report for the year ending December 31, 1908. I have issued fifty registration certificates and twenty-two licenses for selling milk and cream. I have collected this year thirty-six dollars and paid the same to the collector.

I have collected this year seventy-five samples of milk and cream and tested the same and found them up to the state standard.

I have had three complaints reported to me on quality of milk and after testing the same found them of good quality and up to standard. The milk dealers of Arlington are trying to give the Town a good quality of milk.

Respectfully submitted,

FRANK P. WINN,

Inspector of Milk.

REPORT OF SEALER OF WEIGHTS AND MEASURES.

To the Honorable Board of Selectmen : —

GENTLEMEN—I have the honor to submit to you the following report for the year ending December 31, 1908.

The sealer of weights and measures has visited all the places of business in the town and sealed all scales and measures and the work is steadily increasing.

The laws that have been passed during the past year places more work and responsibility on the sealer. In the month of November, he must make a report to the state sealer. He is obliged to visit all stores and make a weighing test ; also to inspect all milk teams to see that the bottles are sealed ; also weigh some of the coal transported through the town and keep a record of the same. The following work has been done during the past year.

Number of weights and measures sealed :

Platform scales that will weigh over 5,000 lbs.....	9
“ “ “ “ “ under 5,000 lbs.....	34
Computing scales.....	15
Slot weighing scales.....	3
All other scales.....	201
Weights.....	508
Dry measures.....	197
Liquid measures other than milk jars.....	103
Milk jars.....	11,880
Linear measures.....	6
Cloth and other measuring machines.....	21
Number of test weighing of coal in transit.....	17
Number of test weighing in stores.....	31
Number of inspections of milk jars in use on milk teams...	21
Number of inspections of scales and measures used by junk collectors, hawkers and peddlers.....	34

Number of scales condemned weighing under 5,000 lbs.	7
Number of computing scales condemned	4
Number of all other scales condemned	16
Number of weights condemned	21
Number of dry measures condemned	23
Number of liquid measures condemned	8
Number of milk jars condemned	331

Respectfully submitted,

CHARLES F. DONAHUE,

Sealer of Weights and Measures.

December 31, 1908.

REPORT OF INSPECTOR OF ANIMALS.

To the Honorable Board of Selectmen of the Town of Arlington :—

GENTLEMEN—I have the honor to submit my annual report as Inspector of Animals for the year ending December 31, 1908.

There have been only two cases of glanders in horses and three cases of rabies in dogs.

In making the regular fall inspection, I have inspected one hundred and fifty one cows, five hundred and seventy-nine hogs, two goats and sixty-two stables in which these animals were stabled. In all cases the proper papers were given to the owners.

Respectfully submitted,

LAURENCE L. PEIRCE, M. D. V.

Inspector of Animals.

REPORT OF THE SCHOOL COMMITTEE.

ARLINGTON, Dec. 31, 1908.

To the Town of Arlington:—

Provided that the schools of a town are running in good order perhaps one of the best tests of the stability and effectiveness of its educational system is a study of the changes in its teaching force during a fixed period. The changes in our schools during the past year were as follows: High School: Arthur Delano, Fannie Myerson, Clara M. Trask, Ruth Tenney and Mary A. Weaver took the places respectively of Alfred L. Morgan, Myrtle C. Dickson, Angelina S. Weeks, Mabel E. Bowker and Ella Somerby.

Ninth Grade: Jennie B. Allyn took the place of Isabella H. Howe.

Russell School: Gertrude A. Woolner took the place of Mac Blackmar.

Cutter School: Charlotte Haliburton in the place of Josephine Davidson.

Crosby School: Ina J. Pearson in the place of Esther G. Hatch.

Locke School: Alice M. Connor, Lillian M. Tinkham and Bessie M. Hartshorn were engaged to take the places respectively of Lura P. Fitch, Philena A. Parker, and Mabel Darrah.

Special teacher in drawing, Fannie E. Fish, now has the position formerly held by Evelyn F. Cross.

From an examination of the above it will be seen that the number of changes among the grade teachers was normal and we are able to say that in nearly every case the change was caused by a final withdrawal from teaching. However, that in the High School was unusually large, and caused because other towns and cities were willing to pay more than we could afford. Because other resignations were about to be handed in by reason of such outbidding, it was found necessary to raise the maximum yearly salary to nine hundred dollars in order to retain some of the re-

maining teachers. It is pleasing to state that in spite of the resignations of these most excellent instructors that the school work has gone on smoothly and well.

William Finlay, who has acted as Janitor of the High School so faithfully for so many years, resigned his position in October. Richard Robbins, who has been appointed in his place, is, however, doing the work most acceptably.

In the spring the schoolhouse fire disaster of the Middle West stirred up the parents of Arlington pupils equally with those of other towns and cities. In order to comply with the expressed feelings of the townspeople as to the safety of our school buildings in the event of a fire, the State Board having this matter in charge was asked in to inspect all of our school property. The inspector of the above Board reported that in the main our buildings complied with the laws. He demanded some minor changes in regard to double bolts on a few outside doors, the painting of exit signs, etc. The only extensive protective measures asked for were the putting in of systems of fire gongs with pull attachments, instead of electric wiring, in all the buildings, and in the Russell School the placing of ground glass partitions with central swinging doors through the centers of the three hallways and the placing of glass panels in all the recitation room doors. After the opening of the schools in the fall, our Secretary was able to report that these demands had been fully attended to.

In passing, note might well be made of the strong sentiment against the Russell School Building among the parents who send their children there. It is not, of course, a modern building and has recitation rooms on three floors, but it will compare very favorably with many of the school buildings in nearby towns and cities, and it has recently been renovated and repaired at a considerable expense. Your Superintendent of Schools has both his own children attending there at the present time, and says that he has no fears whatever for their safety.

At the new Parmenter School a dry rot started in the partitions in the basement, which condition demanded attention during the summer vacation. Dampness and a lack of circulation of air are the causes of such rotting. The former was looked after by concreting outside the foundations and studying the action of the dry wells, and the latter by tearing down partitions. It is too early to state just how effective this work has been, and it may be necessary to under drain the whole building, as it seems the land on which the building was erected is of a springy nature.

Under a most excellent committee's charge the addition to the Locke School is now well under way, and will be ready for occupancy at the opening of the schools the coming September. The

building contains four recitation rooms each on the first and second floors, and there is a very good sized hall on the third floor. The heating plant is placed separately between the old and the new parts.

The new course of study along commercial lines added to the High School courses some four years ago, and the natural growth of the town have at last filled that building to over-flowing. At the last Fall town meeting a committee was named to consider the housing of the ninth grade and to return its findings at the March meeting of 1909. It is well that this committee is a strong one, because the problem that they have to solve for the town is an extremely difficult one. When they bring in their report to the town it should be studied most carefully, for it will probably cover needs for the future as well as for the immediate present.

The new course of study for the grades spoken of in our last report was put into operation September last, and it seems that our Superintendent and grade teachers have done their work most admirably.

The Superintendent is now working out a new course for the High School, which will broaden the electives most fully, and we hope will remove from parents' minds the impression that the classical course of study is being looked after more carefully than the others.

The sub-committee having in charge the course of the Pratt Fund free lectures at Cotting Hall has secured some excellent lecturers during this year, and the parents are especially invited to attend these not only to hear the lectures but also to meet the teachers, as it is well known that there is not as strong a bond between parents and teachers in the High School as there is in the grades. A school can do its best only when there is intelligent and cordial co-operation between teacher, parent and pupil.

The merchants of the town will please take notice that a new order system for supplies has been established by the Secretary of the Board and they should supply nothing to the schools, unless it be in the case of an emergency, without a written order therefor.

Mr. Herbert W. Rawson, because of increased business responsibilities was compelled to resign his position on the Board in the early fall. As yet no one has been found to take his place. This failure to procure a new member is not the fault of the members having the selection in charge. The several men who have been approached on the subject have not been willing to enter upon the work. In addition to this vacancy, other new members must be chosen for another year because of the retiring of present

members. The committee does not like to make the selections, because then the charge is rightfully brought that they are attempting to be a self-perpetuating body, but if they do not act, the selecting may go by default. There must be more attention paid to the choosing of new members for this body and that attention must be given by the whole town.

This present committee stands in the same position in regard to the desirability of establishing small primary school buildings throughout the town as former committees have stood, but it has found that the cost of such is too great per pupil, and the town is not wealthy enough to stand such a burden.

Arlington is facing a most serious school problem at the present time because of the overcrowding of the neighboring cities of Somerville and Cambridge. Apartment houses are being built here and will continue to be built here more than any other style of dwelling, and this will cause the school population to increase far in excess of the taxable property added. There is no doubt that the Crosby School will soon be overcrowded. Further than this the problem of industrial education will soon play a large part in the American educational world, and all new buildings must be built with rooms for those additional courses in view. It has seemed wise at this time to point out some of these larger questions in order that the people may not be taken too much by surprise when they are presented to them for immediate action.

The expense of running the schools the coming year will advance a little more than normally because a male principal and four new teachers must be added to the Locke School force in the Fall and one more male teacher to the High School corps. In addition to this expense must be added the extra outlay for new supplies for the rooms, viz., books of reference, maps, etc., a larger amount of coal than before, and an increase of pay for the janitor. At this time we estimate that the amount to be called for will be about \$66,000.

The Board feels and knows that many people of the town are seriously interested in its work because its leading citizens when called on for advice and help, always seem willing to give such aid most unselfishly. We are searching at all times for intelligent criticisms of our doings whether such criticism be favorable or adverse. No Board does its best when its work meets neither approbation nor censure.

We desire especially to thank the gentlemen of the two committees who are at the present time giving their assistance to the town on the subject of the future housing of its pupils.

We also wish to thank most sincerely the Arlington Woman's Club, which has been doubly generous this year in the amount it

has voted for school decoration. People who do not visit our schools should do so at least to see how beautiful the school-rooms have been made by this excellent organization.

We have tried to be economical but not niggardly in our handling of the appropriation which you have so generously placed in our hands, and hope that for the larger part you may have viewed our work favorably.

Respectfully submitted,

WALTER MOOERS,

Chairman.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of Arlington:—

The rules of the School Committee require that the Superintendent shall prepare and present in January to the Board for publication an annual report of the condition of the schools for the year preceding, together with such suggestions and statistics as he may deem worthy of consideration. In compliance with these rules, I present to the Board the following report for the school year 1907-1908.

Our schools have made commendable progress during the year. The discipline is good in every school, and in general children are well taught. The new course of study of which your chairman has spoken meets with the warm approval of principals and teachers, and is giving a uniformity of effort that is sure to produce good results. New teachers find it a definite guide and old teachers find in its suggestions an inspiration to renewed effort.

This course of study as printed is the result of an outline furnished by the Superintendent as a guide for school work during the year. With this as a basis, grade meetings and conferences to the number of thirty-three were held during the year. In these meetings various phases of the work were considered and fully discussed. Enlarged outlines embodying the points decided upon, including a time schedule, were finished in June. To lay out the work in all subjects in one year proved a serious and difficult task, and I desire to express here my appreciation of the hearty co-operation given by the teachers of the town in this work. That the course is a practical one for our schools was made certain by the trial given it during the year.

To make a good course of study requires a knowledge of the education needed by a child to take its place as an individual and as a useful and happy member of the social world; of the child's environment; of the laws governing child growth and development; of the various branches of knowledge which should be taught; of the principles which should govern the selection of material for the different periods in the child's life; of the relative amount of time which should be devoted to each subject; and of the amount of ground that should be covered in the school year.

A course of study is never complete. It needs constant revision to keep it in harmony with sound educational thought and practice, and with educational progress.

A change which must come in our course of study for the grades is along the line of industrial training. Many boys and girls come to a point in our elementary schools where they fail to find genuine opportunity. They fall short in intellectual processes, and because the school offers no substitute, drop out at fourteen and enter, once for all, low-grade industrial pursuits and lives of social, moral and financial uncertainty. It is industrial education that has brought real opportunity to the negro and the Indian, to our own mentally, morally and physically defective, and especially to our juvenile delinquents and youthful criminals.

Here is the problem which confronts the twentieth century authorities. The school has taken over responsibility for education which it formally shared with the home and the farm. The school has taken over most of the responsibility of preparing the rank and file for the society in which they are to live, but as yet we have not discovered how to supply the important elements of education that, in other days, were provided through activities outside of the school. There is a chasm between our educational systems and our modern industrial life. On the one hand, discouraged boys and girls, abnormals, delinquents, dullards and truants find themselves unable—mentally, socially and physically unable—to continue with credit in our cultural programs. On the other hand science, invention and specialization continue to draw them from the old-time chores, the light jobs, from the fire-side, farm and work-shop, and transplant them behind the closed doors of our factories. The schools so isolate themselves from the industrial world, and receive so little inspiration from the industrial age in which we live, that thousands of boys and girls leave the elementary schools year after year with only the rudiments of book learning, to soon find themselves helpless in the whirl of industrial society, and so drift about from one low-grade pursuit to another, or else become corner loafers.

The time is not far distant when we shall be obliged to introduce into the daily program of the primary and grammar schools a comprehensive system of industrial training, whose graduated activities may be pressed to the highest point of interest and usefulness, but never to routine and drudgery. I believe this will not be accomplished in a school day of five hours, but that added time will be given to the school day, that this may be accomplished without depriving the child of the proper amount of time devoted to the essentials.

There are people who still believe that the course of study contains unnecessary branches which they are pleased to call fads

and frills, but, as I stated in my report one year ago, every addition to the list of studies has been strongly contested at every step by the forces of conservatism and reaction. Only those things have survived which have the strength and vitality born of true worth. Many people seem to think that what has been should continue to be, and that the ways of their fathers are necessarily the best ways. When this course of reasoning is applied to present-day business, it always leads to failure. Some appear not to know that the education of children is receiving, and for some years has received, more careful study and scientific investigation than almost any other field of human activity. Natural development of the child and the best means of training his unfolding powers are better understood today than ever before. Education is much more of a science, and teaching much more of an art, than at any time in the world's history. Many people in Arlington appreciate these facts; most do not.

The special studies, Drawing, Music, Sewing and Physical Training, have never been so efficiently taught in our schools as at present. This is the natural result of the increased training and experience of our teachers. There are many who look upon these special studies as interlopers in our course of study which have gained no right to be there. A century ago the same objections were made to reading, geography and history. The idea seems to possess many critics of our schools that these studies are in the course by the dictum of the school-master rather than as a response to a public demand. But this does not appear to be borne out by the evidence. This matter was under discussion in New York City not long ago, and an attempt was made to get an expression of opinion from parents. One of the newspapers sent out postal cards to parents in one of the sections of New York in which people of the better class live, asking them to state whether, in their opinion, it was desirable to retain the special studies or to drop them from the course. The vote was as follows:

	For	Against
Physical Training	6656	841
Music	6341	1080
Drawing	6267	1068
Sewing	5336	1720

The vote of parents interested was taken under similar conditions in Providence. Postal cards were sent to all parents having children in the grammar grades. Nearly all responded. The results were as follows:

	For	Against
Music	4726	173
Drawing	4663	222
Physical Training	4652	231
Physiology	4117	757
Nature Study	3844	1004
Manual Training	3360	1047

Parents who wish to have Music retained are 96.5 per cent. of the whole number; Drawing, 95.5 per cent.; Gymnastics, 95.3 per cent. If our schools are to be the people's schools, these studies are evidently in the schools to stay. A very common delusion that holds sway in the minds of many people is that the attention given to these studies detracts from the efficiency and thoroughness of the work done in the old-time studies. As I showed in my report of two years ago, this is certainly not true of the schools of Arlington. The enriching of the course of study has been accomplished not only by introducing these new subjects but also by a more scientific teaching of the old subjects.

HIGH SCHOOL. At the present time, High Schools all over the country are under fire. The practical success of our present-day schools is being seriously questioned. The trend of opinion seems to be that outside of the college preparatory work, our schools fail to prepare boys and girls to do work of any kind, especially of the practical kind. Our High School is doing excellent work in the preparation of pupils for college. Last June, 11 took examinations, either preliminary or final, for Harvard or Radcliffe. In all, subjects aggregating 129 points were taken. Every pupil passed every examination taken. Other students entered Dartmouth, Tufts, Institute of Technology, and Wellesley, also well prepared.

This year we shall graduate our first class taking the full Commercial Course, and, unless our experience is different from that of neighboring High Schools which have graduated classes, the graduates will be in immediate demand. At present there are 90 different pupils taking the Commercial Course, arranged as follows: Seniors 10, Juniors 14, Sophomores 21, Freshmen 45. The course has proved to be popular and is keeping many pupils in school who would otherwise have gone to work.

The High School course of study needs revising, and by the end of the school year a new course of study will be presented for your consideration. English, to my mind the most important study in the curriculum, is not placed on the same footing as other subjects. Experience is making it more and more evident that thoroughly adequate work in English, both composition and literature, as well as technical language, means a time allowance

equal to the highest time allowance given to any subject. Latin, in our program, offers twenty periods to pupils taking the college and classical courses, while English in all the courses offers but eleven periods. Students of Latin and Greek get a very valuable incidental training in English, and can therefore get along with less formal English than pupils in other courses. The small number of periods, however, make very long assignments necessary. I believe that five periods a week in English should be prescribed for each year in the Commercial and English Courses, and that the time allowance in the College and Classical Courses should be increased. All of this need not be prepared work; one or two periods may well be done in school under the immediate direction and supervision of the teachers. The State Superintendent of New Hampshire has lately refused to give his approval to a course of instruction in High Schools in which English is not given an amount of time equal to, or greater than, the time given to any other subject.

Two years does not seem to be sufficient time to do thoroughly the amount of German that is now required for college entrance examinations. A course of commercial correspondence in both French and German should prove valuable as an elective in the Commercial Course. Algebra should continue through the first year of the course and geometry be given in the second year. Less required work and more electives should be arranged for the first two years. Various other changes and additions are under consideration.

The modern way of expressing requirements for graduation is by points. One recitation per week for one year counts as one point. A system of credits based on points will be presented for your consideration.

In providing increased accommodations for the High School any plan will be incomplete which does not take into consideration the demand for industrial education. In my last report I spoke at some length on the growth of a popular demand for some forms of industrial training to be grafted on to our present school courses. The Governor of the Commonwealth of Massachusetts, in his inaugural address of a few days ago, spoke of the crying need in this direction. The Boston Herald characterizes the part of his address on industrial education as "the most important feature of a practical inaugural address." The Governor speaks from experience as a manufacturer and an employer, and bases his opinions on actual contact with the problems of unskilled labor. On the part of the individual the demand for an extension of educational facilities along industrial lines is based on the plea that the State's duty to the child is to furnish him with a reasonable educational equipment for life, whether his

vocation is to be along academic or industrial lines. The public school system of the present is devised to meet the academic requirements, however far short of that purpose the results may be. The youth in pursuit of industrial equipment finds comparatively little advantage in the academic courses of the higher grades. Excepting where special industrial courses have been established, he is inclined to drop out of the public school before the course is finished, because of the lack of attraction and incentive to continue. The result is a constantly increasing product of uneducated labor from which industry suffers.

The Governor is of the opinion that the method of education in the Grammar and High Schools can be shaped in such a way as to possess an attractive value for pupils whose life work is destined to be in the trades.

On the other hand, he recognizes the fact that the success of industry demands specialized training, which cannot be provided by incidental courses of manual instruction in connection with existing academic schools. He is firmly convinced of the necessity of special industrial schools, maintained, in part at least, by the State, and providing for the higher industrial education which will furnish the technical workmen needed in industry.

PROMOTIONS. For the last two years, special efforts have been made by most of our teachers to help the slow and immature children along by giving as much time as possible to individual instruction. The number held back has been gradually reduced each year. In 1905-1906, 14.4 per cent. were repeaters. Last year in the elementary grades 13.4 per cent. of the pupils were obliged to repeat the year. In June, of this year, it was found necessary to keep back 12.5 per cent. in the grades, while many were allowed to go into the next grade on trial. The wisdom of promoting on probation is shown by the fact that of 208 children who were given a trial, only 11 failed and were obliged to go back.

It is inevitable that some shall have to repeat the work for the following reasons: Prolonged absence because of sickness, physical defects of sight, hearing, nerves, adenoid growths, etc., abnormal mental ability, natural slowness in all mental operations, outside interests, indifference to school that teachers cannot overcome, studies that fail to attract or interest, lack of ability in some one subject, a curriculum too full for the unscholarly, classes too large to allow individual instruction, and the natural tendencies of teachers to work along lines of least resistance.

No complete remedy can be found for this state of things, but surely everything possible should be attempted by way of relief. A physical examination will show how certain defects may be

remedied by parental action. Outside interests that distract may be controlled by the same authority. In all our classes we should emphasize the essentials and ignore details that now absorb too much attention; teach the fundamental principles without attempting to present every remote application of them. The accepted psychological law that the dull and slow of intellect are stimulated and helped by motor activities can be applied; uniform attainments should not be insisted upon; superiority in one study should be allowed to make up for deficiency in another.

The chief obstacle on the part of the pupils is the natural indifference to all purely mental school interests. The chief obstacle on the part of the system is large classes which are necessary because of conditions. We have many classes with an average of nearly 50 pupils, and at the present time five classes of over 50 pupils. It is evident that mass instruction becomes imperative, and individual instruction well-nigh impossible. Teachers must have time to study the individual child, find his weaknesses, and "get next to him" in order to awaken and develop his latent powers. In the Cutter School, where we have an extra teacher because the fourth grade has 56 pupils, we are this year having the assistant help backward pupils in several of the other classes. It is working admirably, and it would be a great help if other school buildings had a floating teacher whose work would be to assist backward children in any grade. Such a teacher should be a woman of experience and skill, kind and sympathetic, to awaken the ambition of these backward pupils. Such instruction would save many a child the wasteful prolongation of his school course. The two hundred children who are this year repeating at a cost of \$30 each, are costing the town \$6000, enough to pay ten extra teachers.

If every member of the present ninth grade should graduate in June, the statistics of the class will be as follows: Two will have finished the course in seven years, nineteen in eight years, forty-seven in nine years, forty-seven in ten years, eight in eleven years, and one in thirteen years. This means that 17 per cent. will have finished the course in less than the regular nine years, 38 per cent. will have taken one extra year to complete the course, while 6 per cent. will have taken two extra years to complete the course. In all 45 per cent. will have taken more than the regular time for the elementary school work. The average time per pupil amounts to nine years, four months, and the average age is fifteen years. Isn't this too long to spend on purely elementary education? Should we honestly expect the majority of a class of this average age to continue through the High School? Should they not enter the High School at an average age of nearly a year less? These conditions are not peculiar to Arlington, nor is our

experience unusual in this regard. In Somerville last year, the average time was nine years, three months, and the age at graduation was fifteen years. Cambridge has had for years an excellent skipping system which gives every advantage to the brighter pupils, and yet, for the last five years, the time taken by graduates, as a whole, to complete the course averages nine years, one month.

It is coming to be generally recognized that nine years is too long to spend on the elementary school work. Outside of New England an eight-year course is practically universal. Boston, Providence, New Haven, Bridgeport, Portsmouth, Quincy, Milton, and Reading are among the places in New England which have adopted an eight-year elementary course. I have communicated with the Superintendents of all of these places, and without exception they give a hearty endorsement of the plan and its result. I will quote a few of the replies I have received which were included in the answers to a questionnaire which I sent recently to Superintendents and leading educators in New England.

The questions were as follows:

Superintendent _____, _____.

In the schools under your charge, how many grades are there below the High School? (Not including the kindergarten.)

Have you kindergartens?

Has any change in the number of grades below the High School been made in the last ten years?

Are you contemplating any such change?

If you have changed from a nine-grade to an eight-grade system, what were the principal reasons for the change? (Kindly answer on the back of the page.)

Has the eight-grade system proved satisfactory?

If you have nine grades, do you think a change desirable?

Why?

Is your highest grammar grade working in the High School building under High School conditions?

Do you think such an arrangement desirable?

What so-called High School subjects are taught in your upper Grammar grades?

Have you a sub-freshman class in your High School?

In your High School, how many years are given to the following courses: English or General —; Commercial —; Scientific —; Classical —; College —.

What is your opinion of the following arrangement: Eight-year course for Grammar and Primary Schools; High School course comprising four years in the English and Commercial courses, and five years in the college and technical courses?

"I am inclined to favor an eight-year course for the elementary schools. In fact, I argued for it in a Boston report several years ago. They have just come around to it.

"I am not so sure about a five-year course in a Classical High School course. It has seemed to me that a student who ought to go to college ought to be able to prepare in four years."

GEORGE H. MARTIN.

"We changed from nine to eight grades because we believed that the kind of work necessary to be done in the Grammar grades could be done in eight years.

"It is not a fair statement to say that we are trying to do nine years' work in eight years. That is not the problem. Can the pupil of ordinary ability do the necessary work of the elementary grades in eight years and prepare himself thereby to do the required work of the High School? I know he can do it, if he is fortunate enough to have the right kind of teachers."

"Nearly all the Maine cities and towns have nine grades below the High School. A few of the larger towns and cities have separate kindergarten systems. In others, efforts are made to combine the kindergarten work with the lowest primary grade. I do not note any general tendency in the State toward an eight-grade system and, at present, I should not consider a change of that kind to be desirable, save possibly in a few of the most highly organized school systems.

"In a large number of towns and cities the highest Grammar grade carries on its work in connection with that of the High Schools. This arrangement is usually made through necessity rather than because of any educational advantage. It is my opinion, however, that such an arrangement has many advantages. I think we should welcome any change which will tend to emphasize the unity of the school system.

"In nearly all our High Schools four years are given to the several High School courses. With regard to the last question you raise I would say that, under present conditions in Maine, I am not inclined to favor the eight-year course for Primary and Grammar Schools, but I think I might do so provided the school year should be brought to a more nearly uniform length."

"Most of your program seems clear enough. The five years for the college and technical courses would depend on the student. The trouble is that our children get into the High School too late, anyway, and consequently too late in life. This is a serious matter and is a recognized problem. Nobody seems to solve it very

well. Would not a simple solution be to do simply as Dr. Butler recommends and cut down the admissions to the college, making the college work simpler?"

"Essential preparation can be given as well in eight as nine years—often better. Duplication of work is wasteful. The chasm yawns, no matter where the break comes between Grammar and High Schools. Better let the shock come early enough to be eased somewhat before that youthful period arrives when all have a tendency to leave school.

"The wasted money and time are too valuable a loss. School officials need the money cost of that extra year; the pupil is entitled to the time; both often need the room.

"I believe that the six-year elementary course and six-year High School course is ideal. Under such arrangement the whole curriculum would be arranged much to the advantage of the pupil. Our situation, however, is not that. Our eighth grades are in the High School building because there alone have we room for them.

"The colleges must and will get reasonable soon. Sixteen years is enough time to give to a college education. Better give five years to general courses and four to college preparation if any difference is to be made.

"I do not favor the five-year idea. Good schools have no trouble in preparing pupils for college and scientific schools in four years. Why dawdle in this work? Eight years for elementary schools, four for High Schools, and four for college is enough time for a boy to spend in preparing for life."

"We changed from a nine-year to an eight-year system principally for the following reason:

"Our pupils are admitted from the kindergarten into the elementary schools at the age of five years. Approximately fifty per cent. of the pupils have entered grade one in previous years at an average age of five years, while the remaining fifty per cent. averaged about six years. Under the old system the work of grade one was too advanced for many of the former and too simple for the majority of the latter. Undue forcing in some cases and dawdling in others, among other things, were natural. The average child entering school at five years of age has neither the mental development nor the power to do the average work that the child has who enters at six. Under the new system the work of the sub-primary grade will largely consist of extended kindergarten work and will be adapted to those who have not the ability to do the work of grade one in one year, while those who are able

to do the work without injury to themselves will not unnecessarily be held back.

"In general, it may be said that the change provides better opportunities for completing the course of study without dawdling or overworking, and, in the majority of cases, in less time than formerly. Besides, it will make it possible to compare our work, grade by grade, with the large majority of cities and towns in the United States which are working under eight-grade systems, and whose pupils are admitted at the age of six years."

"Some pupils can do the work accepted as elementary in eight years, some require nine, the school is better organized on the basis of the abler pupils. The younger pupils also do better High School work."

In our ninth grades the only purely grammar school work now done is included in a sixteen weeks' review of arithmetic, and the continuation of the work in language and grammar. The High School subjects pursued are: Latin (elective), Algebra (24 weeks), and English History. A half-year's High School work, at the least reckoning, is covered in Grade IX. Why not give pupils High School credit for this work?

The additional work to be done in the first eight grades to complete the grammar school course is small, and may be provided for without additional strain upon the children. This has been anticipated in part by eliminating from the courses in arithmetic and grammar subjects that are not essential in practice, or of great value for mental development. Further eliminations are possible without sacrificing the practical or cultural value of the course. The plan is economically sound. If this change were made, it would mean that the majority of the pupils would complete the work of the elementary schools on an average of a little more than eight years instead of more than nine years as at present, and the Town would thereby save a year's tuition for every child completing the grammar school course. It would bring a still more valuable result in that the boy who is to go to work after completing the High School course may begin his business career a year sooner. This fact should result in keeping many more boys coming from homes of moderate means in the High School until they are graduated.

Moreover, it is the general belief among medical men and students of education that we force children too early into the routine of school life; that, at the age of five, it would be better for them to play about their homes and in the open air than to be subjected to the confinement of the school room. Many people in Arlington have hesitated about sending their children to school

at the age of five, and have done so only because of the feeling that, if they did not do so, they would continue through school a year older than the average of the class. The susceptibility to contagious diseases decreases rapidly as the child grows older, and hence the advisability in many cases of postponing the school life until the balance of advantage is clearly in favor of his going to school. If advisable, the age of entering our schools might be raised to five and one-half or even six years.

The report of the Commissioner of Education of the United States contains, among other statistics, the enrollment in the kindergartens and elementary schools in certain cities of 8,000 population and over for the year 1906-1907. This table records 386 cities, and it is interesting to note that of that number 80 have ninth grades, and that of that 80, 31 are in Massachusetts, and that practically the only places having ninth grades are in New England, New York, and Pennsylvania. Time and money can be saved, I am sure, if our school system is changed from a thirteen to a twelve-years' course. I therefore recommend such action as will give us a system that is in line with the best educational thought of the day.

SCHOOL ATTENDANCE. Special efforts are being made this year to keep pupils from leaving school before graduation. Teachers and principals are doing what they can to prevail upon parents to allow their children to remain in school. Immediate notice is sent to the Superintendent when any child leaves school for other reasons than removal to some other town. The pupil who is poor in his work, who learns slowly, who gets discouraged, or who does not behave himself, is the particular one who needs help to lead him into better ways. The school should give help and encouragement if it would accomplish the work for which it is fashioned. It is perfectly natural for the teacher to wish to be rid of those pupils who are slow or stupid, or badly behaved, but it is almost a crime to encourage such children to withdraw from school and so go out into life handicapped by lack of knowledge and mental development. There are, occasionally, children who have absorbed from the school all that they are capable of getting from it, and further time spent in school would be wasted time. Because we have no motor activities to which such children might devote themselves, and so obtain some mental development, it is perhaps as well that they should leave school. From September to the present time 113 have left school from all the grades. By schools the losses are as follows: High and ninth grade 11, Crosby 33, Locke 21, Cutter 14, Russell 33, and Parmenter 1. The reasons for leaving are: Moved to other cities or towns, 76; to go to work, 11; removed to other districts in Arlington, 13; failed

to pass probationary period, 2; to attend private and parochial schools, 1; sent to truant school, 1; too immature for first grade, 1. Most of those who have left to go to work have done so because the help was actually needed at home.

This does not mean that our membership has diminished 100. New pupils have been coming into the schools so that the membership for the month of December is practically the same as for the month of September.

SCHOOL ATTENDANCE. The daily attendance of the children in our schools continues to be very satisfactory. The slight falling off in the per cent. for this year (.3 per cent.) is due to the epidemic of measles last spring. The per cent. of attendance could be raised considerably if the Superintendent of Schools were more liberal about ringing the no-school signal on stormy days. The question of striking the no-school signal is a difficult one to decide. There are days when there is a heavy rain storm and driving wind, and there are days in winter when there are heavy snow storms and deep drifts, when it is much better for the children to remain at home. On the other hand, it must be remembered that the no-school signal deprives 2000 children of instruction in the public schools. This does not mean, of course, a direct loss, because the work that would have been done on these days, must be done in the regular school course, anyway. I feel, however, that it should not be rung except when the children run risks from exposure to storms. Our New England weather is such a variable quantity that even with the daily weather predictions one cannot be sure in the morning what the weather will be an hour later. One is likely to make a mistake of judgment either way. If the Superintendent does not ring the no-school bell, and the weather proves to be bad when the time for going to school arrives, parents are at liberty to keep their children at home. If, however, the no-school signal is rung, and weather conditions improve, so that it would be best for children to attend school, there is no way of undoing what has been done. Superintendents on this side of the city on stormy mornings usually call each other up by telephone, and try to decide what is the best thing to do, and then work in harmony.

A spirit of hearty disapproval of tardiness and of tardy pupils has developed in most of our schools, and the matter has thereby been taken almost entirely out of the hands of the teachers and looked after by the class. The pupils look upon a tardy pupil as an offender against the good name of the class. They take great pride in the tardiness record of their respective rooms. No punishment except the disapproval of teachers and classmates is meted out. I can find no records back of 1905-1906, but on look-

ing over the registers for the year 1904-1905, I find that with an average membership of 1662 there were 3227 tardinesses, which amounts to almost two for every pupil. In the year 1905-1906 with the average membership of 1719, there were 2170 tardy marks, making an average of 1.27. In the year 1906-1907, the average membership was 1778, and the tardy marks numbered 1827, or 1.03 for each pupil. Last year, while the average membership increased to 1883, the number of tardinesses was reduced to 1418, or an average of $\frac{3}{4}$ of one tardiness for every child in the average enrollment. It may be seen that the improvement has been persistent and steady. The record for this school year to the present time is a great improvement over the corresponding period of a year ago. The Crosby eighth grade has had no tardinesses for the 18 weeks that have elapsed since school opened in September. The Russell fifth grade, the Crosby seventh, and the Cutter eighth have had 16 consecutive weeks without tardy marks. The Parmenter fourth grade has had 14 consecutive weeks, one ninth grade and the Cutter first grade have had 12 consecutive weeks, and the Locke fifth and the Crosby third have had 10 consecutive honor weeks. These results show what can be accomplished when we have team work—teachers and pupils pulling together for one purpose.

HEALTH. One of the chief duties of the modern school is to care for the health of the child. The heating, ventilating, lighting, and care of the building are matters of the greatest importance. Bright, clean rooms with an abundance of fresh air of the proper temperature promote mental effort as well as good health. The causes which occasion disease may be divided into two groups, constitutional and environmental, but we know that men of vigorous constitution do not always succumb to conditions and diseases due to environment, while those who are weak and have a feeble constitution are not only the first to contract the diseases that enter the system from without, but are also the first ones to contract diseases that arise from within. Inasmuch as the children of the public schools represent the weak, as well as the strong, come from homes that may be sanitary or unsanitary, or live in sections that may be active or indifferent to the requirements of public health, it devolves upon the school to take the best of care of the health of the child during the time he is in school. In doing this, we are also educating him in the value of fresh air and clean personal habits.

A breach of discipline is not to be wondered at in a room in which the children cannot get a sufficient supply of oxygen, and therefore cannot concentrate upon the lesson. Inattention, mischief, and insubordination are sure to result. The effect upon

the teacher is equally mischievous, for however amiable and loving she may naturally be, she is likely to become a loveless scold under conditions which render good temper and sane judgment impossible. Most of our rooms are well ventilated and sufficiently heated, but it is easy to understand the difficulty of keeping the air pure in a room containing 50 pupils, many of whom come into the room with unclean clothing, saturated with the odors of a kitchen which is never ventilated. The principals, teachers, and janitors must be ever on the alert and pulling together to accomplish good conditions under such circumstances.

The physical exercises or gymnastics are proving an excellent aid to the good health of our children. In any complete system of education, physical training has an important part, for practically everyone now is coming to realize that in order to develop the strongest mental child it is necessary to develop a strong physical child. During the five hours which the child spends in school on each of the two hundred days of the school year, he must remain in a sitting posture three-fourths of the time. The results of this extended and regularly recurring physical inactivity, during that period of life when the child needs motion to enhance growth and general vigor more than at any other period of his life, are hindered blood circulation and insufficient respiration. The round-shouldered, gaunt-necked, flat-chested and awkward school child needs carefully chosen exercises to correct his physical shortcomings. The continued and often faulty sitting necessitates repeated corrective exercises. Physical inactivity always produces awkwardness, and, therefore, marching and rhythmic exercises, as well as other forms of leg exercise, are valuable in giving ease and grace in handling the body. Not the least valuable feature of our gymnastic exercises is the thorough enjoyment which the children get from them. Visitors from other places frequently remark that our children sit and stand better than they do in most places. With all our efforts here in America, we are still far behind some foreign nations, notably Germany and Sweden, in our care for the physical well-being of school children.

Long before the State law made medical inspection obligatory, Arlington had established an excellent system. The report of the school physician will be found appended. The work proceeds without friction. This is due largely to the good judgment of our inspector in dealing with children. His greatest value lies in his success in discovering incipient cases of contagious diseases, and by removing them from school, preventing disease from becoming epidemic. Through his efforts pediculosis has been practically eliminated, and children come to school cleaner. The public has faith that the school is a safe place for the children to be in.

The law demands that the sight and hearing of every child shall be tested annually. The results following the enforcement of this law have been salutary. To many closely associated with the children of the schools, it seems a pity that the law should not be made to include dental inspection as well. The mouth of one whose teeth have not received proper care is a veritable culture tube for deadly bacteria, which later find their way to other parts of the body.

It has been said that 94 per cent. of school children have decayed teeth, and that not infrequently cases of tuberculosis can be directly traced to this cause. Medical authorities also claim that an impaired condition of the throat, nose, ears and eyes is the result of lack of proper attention to the teeth. The New York bureau of municipal research in its report states that out of 1442 children examined 74 per cent. were in need of proper dental treatment. The fact that dental "cripples" cannot get the full nutritive value of their food illustrates the dangers that are sure to follow a simple case of tooth rot.

Prominent dentists for some time past have noted the alarming growth of disease among young school children, the origin of which could plainly be traced to neglected teeth, and have at last banded for the purpose of correcting the evil before it spreads. We have noticed that at least two-thirds of the children who are backward in their school work have poor teeth. The importance of this matter is being recognized, and in several towns and cities dental inspection has become a reality, and in several foreign countries it is a national requirement. Paul Gardiner White, D.M.D., to the Boston School Masters' Association, says in part:

"Infectious or contagious diseases are now recognized to have their origin in minute vegetable organisms known as bacteria.

"The mouth under the most favorable circumstances, is an ideal incubator for the development of many forms of bacteria. The life-circle of these bacteria demands certain conditions—viz., suitable temperature, moisture, food, and a removal of their waste products sufficient to prevent their own destruction. That all these conditions are found within the oral cavity goes without saying.

"Fermentation, putrifaction and uncleanness in the oral cavity predominate in and about the teeth, consequently these organs need first attention.

"Good health demands thorough digestion; thorough digestion demands sound and healthy teeth.

"Dental, gastric, and acoustic, as well as general neurasthenia may often be ascribed to infection from the oral cavity. It is a most unfortunate thing for this country that nine-tenths of the

people have not the knowledge or the energy to protect the teeth of their children.

"The child is taught to wash his hands, to bathe his body, but the human mouth, the very vestibule of life, is left wholly without intelligent care.

"Nowhere do human beings congregate more closely and constantly than in the school room, and nowhere can contagious diseases be more easily propagated. Light and air and cleanliness of face, hands, and apparel, on the part of our children are now considered indispensable requirements in nearly every public school throughout the country. But the fact is utterly disregarded that a single unclean mouth, despite all superficial precautions, may vitiate the atmosphere of a schoolroom and become fruitful source of disease. What place more appropriate than the schoolroom, therefore, for instilling into the mind of youth the necessity for cleanliness of the teeth and mouth.

"There is not a disease to which the human body is liable that is not aggravated by an unhealthy condition of the mouth, and many are originally caused by neglected teeth. Health is impaired, beauty marred, happiness destroyed, and life shortened by the deplorable ignorance of the hygienic laws governing the preservation of these important organs."

If we accept these statements it is clearly our duty to again be among the leaders in the matter of inspection of our children, and arrange for the systematic investigation of the condition of the teeth of the children in our schools.

PLAYGROUND. It is coming to be more and more recognized that the responsibility of a town for the restraint, control, and education of its children is not limited to the five hours a day in school, or to the 40 weeks of the school year. Much of the waking time of children is spent, as it should be, out of doors. In the absence of useful occupation, and the direction of their sports, and without playgrounds to which they may resort, they roam the streets in aimless idleness. It is not strange that they often get into mischief, that they trespass on the rights of property holders, that vicious habits are formed, and their moral standard falls far below what it should be. For these reasons, school authorities and all others interested in social betterment, are everywhere doing what they can to control and give direction to the activities of children during out-of-school hours and vacation periods. Whatever concerns children, either in school, at work or at play, is the subject of public interest and activity. Just now playgrounds for children are receiving special attention. It has been wisely said "The boy without a playground is father to the man without a job." Play is the normal occupation of childhood. It is a well recognized fact that play properly directed

has an educational and an ethical as well as a hygienic value. Hence there has arisen a widespread movement to provide playgrounds near schools and homes suitably equipped for gymnastics and play, and placed under the direction and control of competent supervisors. Millions of dollars are being spent by municipalities all over the land in fitting out playgrounds. The following act was passed by the General Court of Massachusetts and approved May 12, 1908:

CHAP. 513. ACTS OF 1908.

An act to provide for public playgrounds in certain cities and towns. *Be it enacted, etc., as follows:*

SECTION 1. Every city and town in the commonwealth having a population of more than ten thousand, accepting the provisions of this act shall, after the first day of July in the year nineteen hundred and ten, provide and maintain at least one public playground conveniently located and of suitable size and equipment, for the recreation and physical education of the minors of such city or town, and at least one other playground for every additional twenty thousand of its inhabitants.

SEC. 2. Cities and towns may appoint, and determine the compensation of a qualified supervisor of each playground, who shall direct the sports and exercises thereon.

SEC. 3. In cities and towns where the provisions of this act are not already satisfied, land for the purpose aforesaid may be taken and the money necessary to pay for such land may be raised in accordance with sections nineteen, twenty and twenty-one of chapter twenty-eight of the Revised Laws; and any land owned by the city or town may be set aside by vote of the city council, or of the board of selectmen, for the purposes of this act.

SEC. 4. In cities and towns which have a population of more than ten thousand, and which have not already satisfied the provisions of this act, the following question shall be placed on the official ballot at the next city or town election:—Shall chapter 513 of the acts of the year nineteen hundred and eight, requiring certain cities and towns to provide public playgrounds be accepted by this (city or town)?

SEC. 5. This act shall take effect in any city or town to which it applies upon its acceptance by a majority of the voters voting as aforesaid. (Approved May 12, 1908.)

Through the public spirit and generosity of two citizens of the town, Mr. and Mrs. Henry Hornblower, a playground to be called the Spy Pond Athletic Field is being prepared for the recreation and physical education of the minors of Arlington. It consists of a tract of land containing seven and one-half acres, bounded by the Boston and Maine railroad tracks, Lombard Terrace, Wellington St., Spy Pond and the Arlington Boat Club property. It is an ideal place for a playground, being near the center of the town, easily accessible, and bordering a beautiful lake. The park is laid out with a baseball field, which can also be used for football, a six-lap to the mile running track, a hundred yard stretch, places for jumping and vaulting, tennis courts, and a sand garden for young people. To make the ground suitable for athletic uses, it was necessary to do a great deal of grading. This was finished and seed sown in the early spring, but because of protracted dry weather a firm sod did not form. It is doubtful if the baseball field will be in condition to use next spring. The tennis courts and the running track will doubtless be ready for use. The town is to be congratulated on the prospects of having such a fine place for boys to play and sincere gratitude from the whole town is due those who have made our vision of an ideal playground a reality.

TEXT BOOKS. A phase of school expenditure which requires careful consideration and expert judgment, in the selection of text books for our schools. Several changes have been made since the present Superintendent took charge of the schools. In 1905-1906, because we had in the grades no language books worthy of the name, we adopted the Woodley series and the Webster-Coolley Language books for use in our schools. In the spring of the same year, we adopted the Whitehouse system of copy books in penmanship to supplant the vertical system then in use. In 1907, because the arithmetics which were in use were not fitted for our present method of teaching the subject, we substituted the Southworth and Stone arithmetics. The Aldine Primer and first reader have been added to the list of books for beginners. This year, because of the fact, that the spelling books which have been in use here for twenty years have outlived their usefulness, we have adopted the Alexander spelling books.

It is our policy to select the books best fitted to our needs, irrespective of the claims of publishers. The method of procedure which we have followed when a change of text books is under consideration, is to send word of the proposed change to the various publishing houses which have books of the kind sought, and to request them to send samples to the principals of the various schools and to the Superintendent. After some

months are given to careful consideration, during which time the agents of the publishing houses are requested not to visit the schools for the purpose of urging their books upon the principals, a meeting is held for the purpose of discussing the merits of the various books. Little difficulty is found in arriving at a practically unanimous decision which we feel is based entirely on the merit of the book to meet our requirements. Quality and adaptability are the factors which determine the choice. The book selected is referred to the Committee on Text Books and Course of Study for their consideration and presentation to the School Board.

In the High School the following books have been adopted to supplant unsatisfactory books: Slaught & Lennes Algebra, Morey's Outlines of Greek History, Maxwell & Smith's Writing English, Buehler's Exercises in English, and Bergen's Foundations in Botany.

No change of text book is recommended unless we feel that there is something decidedly superior to offer in its place. Supplementary books for Reading, History and Geography which, because of their adaptability to present day conditions, are superior to those in use will be brought to your attention for adoption. Copies of these books may be bought as our means will allow to replace worn-out books or to add to the supply in schools not well equipped. We should have on our list the very best books on the market.

While teachers are alike in their good intentions, they differ materially in their oversight and care of school books and in their judgment regarding renewal. A system of recording, charging, and inspecting books is being worked out this year, which I believe will prove beneficial and economical.

TEACHERS. There is a saying, "As is the teacher, so is the school." This is indeed true. A good teacher will do good work under whatever conditions she may have to face, while a poor teacher will never do good work no matter how favorable the conditions. The most important work included in the functions of the School Board and of the Superintendent of Schools is the selection of teachers. It is a difficult task to find good teachers and it grows increasingly difficult every year. It is easy to find many applicants for every position, but it is not easy to find teachers who measure up to our standard. Our standard is high, but not too high. No one unacquainted with the practical side of the work can realize the amount of travel and investigation necessary to secure teachers who, we feel assured, can satisfy our requirements. During the last year we have had 13 vacancies to

fill, as stated by your chairman. The investigation of each candidate by the Superintendent includes the following points: Moral character; scholarship; personal appearance; habits and peculiarities; influence in community; grades of school taught; grade of school now teaching; salary; reasons for desiring a change; success as a teacher; success as a disciplinarian; does this teacher possess a true educational spirit; to what extent dependent upon the principal; ability to interest pupils; ability to originate and execute original devices; how receive suggestions from supervising authority; to what extent tactful in dealing with children and parents; to what extent successful with backward and weak pupils; to what extent studious, energetic and progressive; ability to avoid friction with other teachers; most skillful in what line of work; fitness for the particular place to be filled.

The first essential element in a teacher's equipment is a thorough knowledge of the subject matter to be taught—an element that is frequently lacking. To this should be added the knowledge of a few fundamental principles and methods, some knowledge of child nature, an interest in human affairs, a love of the work, and an ambition to succeed. Accurate knowledge of the child's mind is a thing to be hoped for, but it is rarely, if ever, acquired by any of us. Upon this equipment, to which must be added in our schools the desirable element of experience, we can base such training as we can give in our schools.

One of the general means of training teachers, both inexperienced and experienced is the teachers' meeting or conference. Sometimes these are general in nature, according to some pre-arranged plan of the Superintendent; at other times, particular; the subject being suggested by observation made during the work of supervision. They are held for the purpose of helping those teachers that are in need of inspiration, confidence, or knowledge of method. Probably the most effective of these conferences are those arranged by grades. In these the teachers of the classes in the same grade come together and discuss some phase of their work, their difficulties, their expedients for overcoming them, their methods, or the results attained. The teachers themselves take a prominent part in these meetings, the Superintendent guiding the discussion to accomplish the aim desired. There is much enlightenment to be derived from this plan. A discussion of the work in the grade above and the grade below gives perspective and prevents teachers from becoming mere piece workers. To make these conferences effective, the Superintendent must visit the classes subsequently, to see that the points brought out are heeded, and to give suggestions. General meetings and lectures to large bodies of teachers, while sometimes inspirational, are likely to be barren of helpful results.

Another means of training, made use of freely and effectively, is the visit by the teachers to other classes in the school, or to some other school, for the purpose of observing something definitely determined beforehand. It may be to see some special method of teaching, or it may be to get inspiration or a new point of view from the observation of good, regular work. With the younger teachers, this observation is productive of much good. The opportunities to make these visits are sometimes sought by the teacher; at other times, they are suggested to them. In some cases a teacher may be getting into a rut; or, perhaps, it is thought that seeing the greater difficulties under which other teachers labor and do good work will be a source of satisfaction and improvement. By these visits many good things are spread from school to school, or brought in from schools other than our own.

Much may be accomplished in the training of young teachers by the helpful suggestions in their reading. I do not think that reading upon the general theory and history of education is usually very profitable. It should rather bear directly upon their daily work. Teachers are face to face with the problems of learning the art of education, and their efforts should have reference to the acquisition of that art. Standard books on methods and the practice of teaching, good educational magazines well edited and not given to the over-elaboration of trivial things, supply good material. For the purpose of furnishing this help to teachers, I wish to establish here a Teachers' Reference Library containing the best books to be found on education. It will then be possible to refer teachers to some particular book or chapter of a book for the reference which she most needs.

We have some teachers who are wide awake and alert to every thing that is helpful to them in their work. They know of the newest things in teaching and where to find them. They are original and practical. Moreover they love children and love their work. "They live on the sunny side of the street" and know how to say "Come on." They are true leaders. They are like great generals, who, by their personal power, have led their armies to great victories; not like the commanders who have had to drive their men into battle. A good leader is as inspiring to children as is soul-stirring music. The value of such teachers is beyond computation in dollars. Their greatest reward must come from the gratitude of those who have been so fortunate as to come under their influence. It is unfortunate that all are not of this kind. It is a pleasure, however, to report that our teachers, as a body, are competent, conscientious and hard-working. Most of them are giving the best that is in them. They are trying to be-

come better teachers. They do what is asked of them willingly, and cheerfully accept all suggestions that may increase their efficiency. They are worthy of your hearty commendation. They need your sympathetic appreciation and encouragement.

All of which is respectfully submitted.

JOHN F. SCULLY,

Superintendent of Schools.

REPORT OF TRUANT OFFICER.

Mr. John F. Scully,

Supt. of Schools.

Dear Sir:—I herein present my third annual report as Truant Officer of the Town of Arlington, Mass., for year ending December 31st, 1908.

Number of calls	296
Number of truants	26
Kept home by parents	79
Kept home by sickness	135
Kept home for lack of clothes.....	27
No one at home when officer called.....	10
Taken to school	30

On December 5th Thomas Briano was committed to Training School at North Chelmsford as a school offender.

Respectfully submitted,

WM. T. CANNIFF,

Truant Officer.

REPORT OF THE SCHOOL PHYSICIAN.

ARLINGTON, MASS., Jan. 1, 1909.

Mr. John F. Scully, Superintendent of Schools:

I herewith submit my report as school physician for the year ending December 31, 1908.

The total number of pupils examined during the year is 1570. Of these, 289 were examined as to vaccination. A small number were found to be without a satisfactory scar or physician's certificate of unfitness and were required to comply with the law.

The total number of children temporarily excluded from school is 89. Of the contagious diseases, 1 was found suffering from scarlet fever, and 3 who had been exposed to scarlet fever; 3 had been exposed to diphtheria; 7 had measles and 16 had been exposed to measles; 7 had chicken-pox, 8 mumps and 10 whooping cough.

There was one case each of refusal or neglect to be vaccinated, personal filthiness, headache; nausea and alveolar abscess, 5 of impetigo contagiosa, 5 of tonsillitis, and 18 of pediculosis. The daily routine work has gone on as usual.

The problems which concern us are different in some respects from those of a large city or a largely manufacturing community. For instance, the question of free eye-glasses or free breakfasts very seldom comes up in our schools. Of course delay is sometimes experienced in getting a child to an oculist, but this is rarely on account of lack of means. Very few of the pupils are insufficiently fed; very many are unsatisfactorily. This is not due to poverty, but to indifference on the part of parents. Many times on questioning a complaining child as to what he ate for breakfast the reply is "cake and tea." The same cost certainly would have furnished at least a bowl of cereal or bread and butter and a glass of milk. I have it on the authority of an eight-year-old boy and his mother that he habitually drank ten to fifteen cups of tea daily. As far as possible warning and advice is given the children on the matter of diet.

A kindred subject is the care of the teeth. From 60 to 70 per cent. of pupils have markedly defective teeth. Many parents seem to think the temporary teeth are not worthy of care, as they are to be replaced. This is entirely wrong. A mouth full of decaying teeth is an unsavory object, and many a case of malnutrition and chronic indigestion perhaps permanent, originated in de-

cayed, sensitive, aching teeth. In many cases molars, appearing later in childhood, and which are never replaced by Nature, are lost under the mistaken idea that they, too, are renewed.

The contagious diseases in relation to the public schools is a subject of great importance. The idea seems ineradicable among parents that a mild case of contagious disease is very little menace to others. This is not true, and if mild cases are not strictly quarantined, they are a much greater public danger than the patients who are too ill to be about. Another false idea is that whooping cough and measles are trifling ailments. In robust children of school age there may be few deaths from these diseases, but in infants and weakly children the mortality is high.

Occasional cases of whooping cough and mumps have been found during the year. A boy suffering from scarlet fever was found seated in the corridor of one of the schools. He and his brothers were at once dismissed, and the chairs and surrounding floor were at once scrubbed with sulpho-naphthol. The same articles were later scrubbed with a corrosive sublimate solution, and fumigation was carried out by the Board of Health. No cases of the disease followed.

On another occasion it was found that a teacher who had not been feeling well for a few days had diphtheria. Her indisposition was so slight that it was not called to my attention. Her school room and the room occupied by her in a private house were fumigated by the Board of Health and fortunately no secondary cases were reported.

I wish to thank the Teachers, Principals and Superintendent for their assistance and evident desire to co-operate in making the work effective.

Respectfully,

CHARLES F. ATWOOD,

School Physician.

REPORT OF THE JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS.

The Joint Board of Selectmen and Board of Public Works herewith present their fifth annual report for the year 1908:

The Board met March 9, 1908, and organized by electing Frederick S. Mead, chairman, and Horace A. Freeman, clerk. Regular meetings have been held on the second and fourth Mondays of each month, and special meetings whenever called by the chairman. Twenty-two meetings have been held during the year.

STREET WATERING. Bids for street watering for the season of 1908 were received from eight different parties, the bids varying from \$80 to \$90 per month. The parties, to whom the contracts were awarded, were as follows, the price being \$85 per month:

- Route 1. Joseph Pichette.
- Route 2. P. J. Lennon.
- Route 3. W. A. McDonald.
- Route 4. James Wilson.
- Route 5. Timothy J. Ryan.
- Route 6. John Kelly.

The contracts covered the season from May 1, 1908 to November 1, 1908, subject to specifications.

Street watering before May 1st and after November 1st, was generally done by the highway division, chargeable, however, to street watering appropriation.

The cost for the year is \$3693.95, the same being met by an appropriation by the Town of \$1000 by general tax, \$2500.97 assessed on abutters, and an overdraft of \$192.98, the assessment being 2½ cents per front foot. Last year it was 2 7-10 cents per front foot.

STREET LIGHTING. A clause in Article 8, of the new street lighting contract, reads as follows:

"If, during the continuance of this contract, the company's regular prices for arc or incandescent lights furnished to other

municipalities are reduced, a like reduction shall be made in the prices of the arc or incandescent lights herein provided for."

The Edison Electric Illuminating Co., having revised their general street lighting rates, the Board of Selectmen deemed it advisable to take advantage of the fact, and addressed the following letter to the company:—

August 25th, 1908.

EDISON ELECTRIC ILLUMINATING COMPANY,
39 Boylston St., Boston, Mass.

GENTLEMEN:—Application is hereby made for a change in the billing of arc and incandescent lamps furnished the Town of Arlington, to agree with your schedule dated 7-1-'08, the Town being entitled to the lowest price therein, and also for a change in the incandescent lamps from the 32 C.P., now in use, to the 40 C.P., as provided in said schedule.

It being expressly understood that the Town reserves all its rights under and by virtue of the agreement entered into by and between the Town of Arlington and the Edison Electric Illuminating Company of Boston, dated July 1, 1907, and does not hereby waive any of the provisions thereof.

JOINT BOARD OF SELECTMEN AND BOARD OF
PUBLIC WORKS.

By_____

Clerk.

A reply to the above was received as follows:

BOSTON, MASS., August 26, 1908.

JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS,
Arlington, Mass.

GENTLEMEN:—We have your letter of August 25th, and in accordance, therewith, we will proceed to change the lights in the Town of Arlington from the old carbon to the new Tungsten lamps.

The work of changing the lights will be done during the month of September, and the billing will begin from September 1st.

Yours very truly,

THE EDISON ELECTRIC ILLUMINATING COMPANY
OF BOSTON.

By W. H. Lott,

Supt. Right of Way and Street Lighting.

And later the following, notifying the Board that the change had been made:

BOSTON, MASS., Sept. 8, 1908.

JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS,
Arlington, Mass.

GENTLEMEN:—This is to notify you that the street lights in the Town of Arlington have been changed to the Tungsten system, in accordance with your letter of August 25, 1908.

Yours very truly,

THE EDISON ELECTRIC ILLUMINATING COMPANY
OF BOSTON.

By W. H. Lott,
Supt. Right of Way and Street Lighting.

By this change of rate our streets are lighted by lamps of greater candle power at reduced cost, the estimated saving being about \$100 per year.

The rates under the new schedule are as follows:

Incandescent lamps, 40 C.P., \$10.80 per year, 1-4c. per hr. per lamp; incandescent lamps, 80 C.P., \$14.40 per year, 4 4-10c. per hr. per lamp; arc lamp, 425 Watt. A.C., \$36.00 per year, 1 5-10c. per hr. per lamp.

On these prices a discount of 10 per cent. is made. There is also a discount of 1c. per hour per incandescent lamp, and 3c. per hour per arc lamp for outages.

The street lighting during the year, under the new contract, has been satisfactory and has improved under the revised schedule of rates, the candle power of the incandescents being increased from 32 to 40 C.P., while the arcs have about the same candle power as before.

During the year two incandescent lights have been discontinued, and eight incandescents and two arcs have been installed, making a net increase of six incandescents and two arcs. Four incandescent and one arc light have been relocated.

The number of lights in commission Dec. 31, 1908, is as follows:

Arcs, 425 Watts A.C.....	83
Incandescent 40 C.P.....	241
“ 80 C.P.....	1

The Town of Belmont continues to pay for half the cost of the arc at the corner of Lake and Pleasant Streets, and the

Arlington Boat Club for one-half the cost of the arc at the foot of Whittemore Street. As heretofore, the lights are turned on in the early morning when needed by the Highway Department for snow ploughing.

Inspector LeBaron reports the current as having been up to the required standard during the year.

Comparatively few outages have been reported during the year.

In July, one 80-C.P. incandescent lamp was installed at the entrance to Pleasant Street, near the watering trough, and burns all night. The lamp was installed as an experiment and appears to give good satisfaction.

The question as to the advisability of readjusting lights in the centre of the Town and replacing present arcs by incandescent Tungsten lamps of 80 C.P., is worthy of consideration. It may be advisable to do this to the end that the lamps in Arlington Centre burn all night.

Twelve petitions for lights have been received, seven of which were granted and five refused.

It is the opinion of the Town Counsel that the Board has no authority to install lights on private ways, hence petitions for lights on said ways cannot be considered.

PERMANENT SIDEWALKS. Attention is called to the reports of the Town Engineer and the Board of Public Works for extensions and renewal of permanent sidewalks and detail relative to the same.

In accordance with the policy of the Joint Board most of the extensions installed have been of brick.

Sidewalk assessments, as authorized by Chap. 49 of the Revised Laws, to the amount of \$653.66, were committed to the Collector of Taxes. These assessments are for construction of sidewalks on Bacon, Brattle, Gray, Water Streets, Massachusetts Avenue, and Broadway.

Sidewalk assessments are a lien on abutting property, and may be collected in the same manner as taxes on real estate. The lien is good for two years after said assessment is committed to the Collector.

No apportionments of sidewalk assessments are authorized as the statute permitting the same does not appear to have been accepted by the Town.

All permanent sidewalk construction, of whatever character, must be done in accordance with Town specifications and to the satisfaction of the Town Engineer.

The present policy of the Joint Board is to allow abutters, relative to the cost of permanent sidewalk construction:—

For tar concrete, one-half the cost.

For brick, one-half the cost.

For granolithic, 55 cents per square yard.

Three thousand dollars were appropriated in March for permanent sidewalks, not less than \$1500 of this amount to be used for extensions carried out under the Sidewalk Act, Section 43, Chap. 49, of the Revised Laws.

The total amount expended during the year is \$3180.32, of which sum \$2013.53 is for extensions, and \$1166.79 for renewals.

POLE LOCATIONS. Seven petitions for pole locations have been granted to the Edison Electric Illuminating Company of Boston, on four of which hearings were given, as required by law. The three petitions granted without hearings were for purposes of relocating and reconstructing existing lines, hearings not being required.

Three petitions for pole locations were granted to the New England Telephone and Telegraph Co. of Massachusetts, two of them being without hearings.

For further detail as to pole locations attention is called to the report of the Inspector of Wires.

PLANS APPROVED RELATIVE TO STREETS. Plans contemplating the laying out or constructing of streets must be approved by the Board of Survey before said streets can be laid out by the Joint Board. Neither can the Town, nor any other public authority, place any public sewer, drain, water pipe, or lamp, in or do any public work of any kind on a private way open to public travel until the plans of said private way have been approved by the Board of Survey, except in case of a trunk-sewer, water or gas mains as engineering demands may require.

Plans relative to laying out of streets on the Bacon premises on Pleasant Street, and adjacent territory, were executed by the Board of Survey under authority of Sect. 3 of Chap. 249, Acts of 1897, and approved in due form, special study of the territory having been made by Town Engineer Pond as suggested in last year's report.

The Board of Survey also under authority of Sect. 3 of the above Chapter, executed plans contemplating the laying out or constructing of Alpine Street, through Churchill Park, and in due form approved of said plans.

The Board of Survey being of the opinion that the present

and future interests of the public require that streets should be located through territory adjacent to Tanager Street, and Wollaston and Wachusett Avenues, gave a public hearing on the matter April 13, 1908, but have taken no further action on the matter. Further study of this territory will probably be made next year.

Petitions for the approval of plans relative to Lombard Terrace, Park Avenue extension, Oakledge, Belknap and Web-cowet Streets, were received, hearings given, and said plans approved.

Petition for the approval of plans relative to Albermarle Street was received, and hearing given, but the plans were not approved. Petitions for the approval of plans relative to Dow Road, Hilton and Edgar Streets were received, but the petitioners were granted leave to withdraw and advised to confer with the Town Engineer relative to new plans.

Hearing was given on petition for the extension of Schouler Court and the matter laid on the table.

Petition for the relocation of Laurel Street was received and plans relative to the same were approved.

The Joint Board are of the opinion that steps should be taken towards the lay-out of desirable streets through territory adjacent to Mystic and Summer Streets, the extension of Gray Street to Oakland Avenue, the extension of Summer Street to Bow Street, and the extension of Water Street to Mystic Street. To this end a larger appropriation than usual should be made for the Board of Survey in order that careful study of said propositions may be made.

NEW STREETS LAID OUT OR CONSTRUCTED. The following streets were laid out in due form under the provisions of law, authorizing the assessment of betterments:

Sawin Street, from Teele Street to Henderson Street; Wollaston Avenue, from Wachusett Avenue to Tanager Street; Woodland Street, from Jason Street to Bartlett Avenue; Bartlett Avenue, from Gray Street to Woodland Street; Gray Street, from Walnut Street to Robbins Road.

The following streets have been constructed under the Betterment Act, as authorized by the Town and appropriations made for that purpose, namely:

Summer Street, from Grove Street to Pine Street; Sawin Street, from Teele Street to Henderson Street, Wollaston Avenue, from Wachusett Avenue to Tanager Street.

Betterment assessments amounting to \$5,099.88 were made arising from the construction of the following streets under the Betterment Act:

Avon Place, from Mass. Avenue northerly to certain point; Palmer Street, from Broadway to Warren Street; Wyman Street, from Broadway to Warren Street; Tanager Street, from Wollaston Avenue to Wollaston Avenue; Summer Street, from Grove Street to Pine Street; Wollaston Avenue, from Wachusett Avenue to Tanager Street; Sawin Street, from Teele Street to Henderson Street.

These betterment assessments were based on the assessed valuations of the land and in case of all except Summer Street and Sawin Street were equal to one-half the cost of construction; the assessment on Summer and Sawin Streets was equal to one-third of the cost.

Taking plans were executed and accepted by the Board in each of the above cases and awards for land damages voted in the case of Summer and Sawin Streets.

The total cost of constructing these seven streets was \$11,608.57.

For further particulars in the construction attention is called to the reports of the Town Engineer and the Board of Public Works.

TRANSPORTATION.

Further correspondence with the Boston Elevated Railway Company relative to better car service for Arlington people in transit from Boston to Arlington was had in the early part of the year, also additional counts of passengers at Harvard Sq. on cars for North Cambridge and for Arlington were made through the police force.

The Boston Elevated also have taken counts of passengers at different points placing the same in tabulated form to determine just when the over crowded condition of Arlington cars complained of exists and in a communication dated Feb. 24, 1908 say that "we have arranged, commencing as of Thursday Feb. 27, as a means of relieving the conditions complained of, to operate between the hours 4:00 and 6:00 P. M., 10 additional cars per hour between Dudley Street Transfer Station and Arlington Centre. The riding on these cars will be watched very carefully and if it is found they do not afford the necessary relief more trips will be added between Harvard Square and Arlington."

It will be remembered that the Railroad Commissioners in their answer to the petition of this Joint Board rendered in March 1907 said that "It seems unnecessary to say more than that proper accomodation ought to be furnished either in one way or the other, either by granting the transfer which is de-

sired or by providing at Harvard Square a sufficient number of extra cars, and that the company ought to be allowed its option as to which method it adopts."

The above remedy appears to be somewhat in accordance with the instructions of the Board of Railroad Commissioners. Whether the change is affording satisfactory relief we are unable to say at present. Probably another count of passengers will be necessary before knowing how the change works. It should be said, however, that since the change was made we have heard little complaint. It is intimated that if passengers in transit for Arlington should more frequently improve the opportunity of changing cars at Harvard Square they would secure seats on the special cars running from the Square to Arlington during rush hours.

The arrangement of having the Medford Hillside cars come to Water Street and immediately return to Sullivan Square appears to be satisfactory, except the delay, noise and congestion sometimes made in transferring said cars at Water Street from the outgoing to the incoming tracks. An official of the Elevated Company stationed at this point during rush hours shows a disposition on the part of the Elevated to reduce trouble here to a minimum.

The great noise occasioned by the cars of the Boston Elevated in passing over its tracks in the Town of Arlington is exceedingly annoying and from various complaints made to the Board, as well as from the Board's own observation, must be adjudged a nuisance, especially that caused by the semi-convertible cars. This noise is particularly noticeable at curves insufficiently oiled or greased, at railroad crossings, and when cars are moving at high speed. The Board believed this nuisance could and should be abated and to this end on September 10th called the attention of the Boston Elevated to the matter. The Board appears to have authority to make regulations governing the speed limit of cars in the Town, and it may be necessary to do this. The grade of Massachusetts Avenue from the Heights to the Centre, the narrow width of the Avenue, the protection of the public, and the cost to the Company consequent from possible accident, should impel the Boston Elevated to exercise special care towards limiting the speed of their cars on this section of the Town.

Rapid transit cannot be permitted to the sacrifice of all other considerations.

The attention of the Lexington & Boston Street Railway Company has been called to the congestion of that part of Massachusetts Avenue near the car station at Arlington Heights occasioned by standing cars of said company obstruct-

ing travel and endangering life. Officials of this company met the Joint Board on the evening of August 24th and the matter was informally discussed. These officials seemed anxious to relieve the situation and asked that they have further time to consider the matter and confer with officials of the Boston Elevated relative to certain schemes they had in mind, which in their opinion if carried out would greatly help the case. The Board granted this request.

GAS MAINS.

Three petitions were received from the Arlington Gas Light Co. to lay gas mains and the same were granted under conditions covered by agreements filed.

These gas mains were on Mass. Ave., Appleton St., Oakland Ave., Park Ave., Wollaston Ave., Hillside Ave., and Claremont Ave.

The location and laying of said mains were to be to the satisfaction of the Town Engineer.

This Company was also granted permission to run an oil pipe line from the freight yard on Water Street through Water, Russell and Mystic Streets to their works on Mystic Street. An agreement covering conditions was drawn up and signed and placed on file.

HENDERSON STREET EXTENSION. As was intimated in last year's report a hearing was given by the County Commissioners on the petition of this Board to extend Henderson Street across Alewife Brook. This hearing was given Jan. 17, 1908. After the hearing a letter was received from the County Commissioners, who say that while they believe the street should be laid out, the question as to jurisdiction in Somerville would probably not permit the decree to become effective. The petition, however, is continued on the Commissioners' docket.

A committee from the Joint Board has been appointed to confer with Somerville authorities to the end that said extension may be accomplished.

ASSISTANT SUPT. OF WIRES. Special attention is called to that part of the report of the Supt. of Wires when he refers to the need of an assistant.

The present efficiency of the Wire Department is due to the expert character of Mr. R. W. LeBaron in this line of work, and he is too valuable an officer for the Town to lose.

The Board, therefore, recommend the favorable consideration of appointing such an assistant.

POLICY OF THE BOARD. The following votes indicating the policy of the Board have been passed.

(a) *Width of Streets.* At a meeting held Oct. 14, 1907, it was

Voted, That it was the sense of the Board of Survey not to approve of plans for the laying out or constructing of streets less than forty feet wide.

(b) *Crosswalks.* At a meeting held Oct. 28, 1907, it was

Voted, That whenever a sidewalk is changed by the construction of a new street the sidewalk, including the new crosswalk, must be relaid in as good and permanent a form as before the change, the cost to be a charge against the party constructing the street. In case the Town desires a higher cost walk than existed before the change was made the additional cost must be made by the Town in case of permanent sidewalks only.

(c) *Rough Grading of Private Streets.* At a meeting held Dec. 9, 1907, it was

Voted, That after Jan. 1, 1908, no water or sewer pipes shall be laid in streets approved by the Board of Survey until such streets, including sidewalks, have been brought to subgrade satisfactory to the Town Engineer.

FREDERICK S. MEAD,
J. HOWELL CROSBY,

WILLIAM N. WINN,
HENRY W. HAYES,

Joint Board of Selectmen and Board of Public Works.

REPORT OF THE TOWN COUNSEL.

*To the Joint Board of Selectmen and Board of Public Works,
Town Hall, Arlington, Mass.*

GENTLEMEN:—The suit of George Lothrop, to recover a portion of the Great Meadows, on the ground that the Town had abandoned the same, has been settled without expense to the Town by an entry of judgment for the Town.

Under authority of a vote of the Town, on March 7, 1908, a contract was entered into with the Lexington Peat Company whereby the Town is to receive the sum of \$5737.30 for the right to excavate peat from Great Meadows, East Lexington, during the next fifteen years. This agreement was entered into by the Town because of the recommendation of the Board of Public Works and for the purpose of the improvement of the Great Meadows area as a reserve water supply.

The claim made by Frank I. Whittemore for damages to personal property because of a defect in the highway has been settled for \$50.00.

The claims of Mary F. Rockeray and her husband for severe personal injuries received by her on or about June 15, 1908, while a traveller on Henderson Street, by reason of falling into a man-hole, improperly covered, has been settled for \$425.00.

The claim of Catherine Hammall for injuries received at or about the same time and place and under the same conditions has been settled for \$40.00.

The petition by the Selectmen to abolish the grade crossing at Whittemore Street and Avon Place is still pending.

There are no suits pending against the Town.

The legal work of the different departments has been attended to.

Respectfully submitted,

HORACE D. HARDY,
Town Counsel.

REPORT OF THE TOWN ENGINEER AND SUPERINTENDENT OF STREETS.

ARLINGTON, MASS., Jan. 21, 1909.

To the Joint Board of Sclectmen and Board of Public Works:—

GENTLEMEN:—Herewith is respectfully presented a report concerning work under my charge for the year 1908.

The organization and character of work has been the same as last year.

ENGINEERING. There is no separate appropriation for engineering, therefore the expense is charged each week to the Department or Appropriation for which services are rendered.

The classification is shown in the same form as in previous years, so that comparison can easily be made.

Highway Division: For marking all lines and grades, making plans, profiles, estimates, locations, and records of work done and in contemplation by the division	\$508.90
Sewer Division: For all surveys, plans, profiles, lines, grades and records, including superintendence on cleaning and flushing sewers.....	371.66
Superintendence and inspection on sewer construction	34.34
Superintendence and inspection on particular sewer construction	156.68
Water Division: For all lines for new mains and locations and records of gates, hydrants, specials, service boxes, work on registration data and office records, and reading meters.....	556.54
New Streets: For all engineering work required in the construction of new streets by Highway Division under Special Appropriations.....	87.04
Sidewalks: For all lines, grades, measurements of edgestone, concrete, brick and artificial stone walks, data for assessments, etc.....	83.77
Board of Survey: For all surveys, plans and profiles of streets laid out by the Board, and studies in connection with the street locations under consideration by the Board.....	103.97

Cemetery Trustees: For all plans, surveys, grades, etc., in connection with new travelway construction, grading and locating additional areas.....	71.97
Miscellaneous: Copying plans and deeds from Registry at East Cambridge, description of real estate, and tax titles, street numbering plans, work for Park Commissioners, and all miscellaneous work for the various boards and committees.....	117.05
Total	<hr/> \$2,092.12

It should be understood from the above classification, that a large part of the expense charged to engineering is for superintendence in the Sewer Division, and for office work in the Water and Highway Divisions.

BOARD OF PUBLIC WORK: For details of work under the direction of the Board, concerning costs, quantities, etc., reference is made to the statistical tables contained in their report.

HIGHWAY DIVISION. The principal work in this Division is the maintenance of streets and sidewalks, and all matters relating thereto. As explained in former reports, it is the aim of the Division to keep the streets in as good a state of repair as the available funds will permit.

The main through streets are very heavily traveled; consequently, they require the first attention, and the large mileage of sidewalks, which are constructed almost entirely of local material, also require constant attention in the attempt to keep them in a reasonably fair condition.

It is always the case in those sections of a town or city, where development of property is under way, that there is a constant interruption to street surfaces, due to laying of sewer, water, gas pipes, wire conduits, etc., with the result that many sections of the streets which would otherwise be in good condition, require frequent repairs and resurfacing. There seems to be no economical way that this expense can be avoided, until a permanent pavement is constructed, which can be easily repaired where trenches have been excavated.

There were 16,191 sq. yds. of Macadam resurfaced at a cost of about \$0.48 per sq. yd. Of this amount, 13,366 sq. yds. were on Massachusetts Avenue; 800 sq. yds. on Mystic Street; 1,278 sq. yds. on Palmer Street; 747 sq. yds. on Bacon Street. This amount does not include the area of streets where miscellaneous repairs were made, nor about 4,000 sq. yds. of gravel resurfacing on Irving Street, Ravine Street, Gray Street, and Kensington Park.

In the process of resurfacing Macadam streets this year, a machine known as a Scarifier was used with excellent results. This machine is on the principle of a harrow and is drawn by the steam roller. The advantage lies in the fact that only the top of the street is loosened, and the foundation of the street is not disturbed as would be the case if steam roller picks were used. This results in a decreased cost of the work by reason of time and material saved; also a more permanent construction, because the strength of the foundation is not impaired. At least twice as much street surface can be prepared for resurfacing with the Scarifier as could possibly be done with the roller picks in the same time.

In a portion of the resurfacing work, a preparation known as Tarvia was used to obtain approximately a Tar-Macadam construction. The advantages are: greater durability, a more uniform surface, and most important of all, a surface which will not loosen under automobile traffic; also a very considerable lessening of the dust nuisance. There were 1,350 sq. yds. of street resurfaced in this manner, and at the present writing gives evidence of being very satisfactory.

There were 5,007 tons of stone crushed during 1908. In the early part of the year two steam drills were operated at the ledge. As a consequence, very little steam drill work will be required next year, because the amount of stone drilled (but not blasted out), including stone obtained from excavations for other work, etc., will probably be sufficient for the season's work.

In 1909, the following sections of streets,—now of Macadam construction,—should be resurfaced: Massachusetts Avenue, from Pleasant Street to Lake Street, on the Northerly side; from Pleasant Street to Avon Place, on the Southerly side; on both sides, near Park Avenue, and on both sides, near Lexington line. On Mystic Street, near Winchester line; and on the South side, near Glen Avenue; also parts of Water and Warren Streets, and Broadway.

Portions of Franklin Street, Brattle Street, Tufts Street, Hillside Avenue, Claremont Avenue,—now of gravel construction,—should be Macadamized.

Pleasant Street, from Addison Street to Belmont line, at least, should be resurfaced. It is possible that the State Highway Commission may favorably consider aiding in the cost of construction under authority of Chapter 279—Acts of 1908—in this particular case.

The relaying of the Boston Elevated Railway Tracks on Massachusetts Avenue west of Water Street will be necessary at an early date. As suggested in former reports when this work is done the grade of the tracks should be raised six or seven inches

to secure proper dainage of surface water and so reduce the cost of maintenance on this portion of the street.

STORM DRAINAGE. There has been no extension to the storm drainage system during the year, with the exception of two catch basins on Lake Street, near the Railroad crossing; miscellaneous repairs, etc. Therefore, I repeat the recommendations made last year which are: that provision be made for the construction of a drain on Academy Street, from Massachusetts Avenue to Maple Street; a drain on Massachusetts Avenue, from Barnes Lane to Tufts Street; and a storm drainage system, for Hutchinson Road, near Old Mystic Street.

PAVED GUTTERS AND CROSSWALKS. Seven hundred twenty-five sq. yds. of new paving in gutters were laid on Appleton Street, between Florence Avenue and Park Avenue; on Mill Street, West Side, near B. & M. R. R.; Claremont Avenue, near Appleton Street, and Massachusetts Avenue, near Appleton Street. Also 65 sq. yds. of paving were relaid on Massachusetts Avenue, at B. & M. R. R. crossing.

One hundred ninety-four sq. yds. of crosswalks were relaid on Massachusetts Avenue, and at the corner of Mill and Bacon Streets. Crosswalks were removed at Junction of Academy Street and Massachusetts Avenue; also at Jason Street and Massachusetts Avenue,—the Tar-Macadam construction at these points taking their place, and making their continuance unnecessary. It was also possible at these points,—owing to the system of storm drainage which had been installed during previous years,—to do away entirely with the very annoying gutters across these streets at their intercessions with Massachusetts Avenue.

I believe that the placing of granite crosswalks in any Macadam road to be undesirable; that these walks are an annoyance, at least, to all kinds of vehicles, and unless given close attention they may result in a serious defect in the highway.

New concrete crosswalks were laid at the corner of Jason Street and Irving Street; Ravine Street and Irving Street; and Walnut Street and Massachusetts Avenue; and general repairs were made to others where necessary.

The setting of edgestone was finished on Bacon Street. Other edgestone set during the year was in connection with new street construction and sidewalk construction, and will be given in detail in the work under those headings.

SIDEWALKS. Tar concrete sidewalks were resurfaced on portions of the following streets: Bacon, Gray, Jason and Medford Streets, Massachusetts Avenue and Park Avenue, amounting to about 2000 sq. yds. not including miscellaneous repairs.

Brick sidewalks were laid on Massachusetts Avenue, West from Brattle Street, on the Northerly side of the Street. On Brattle Street, Easterly side, between Massachusetts Avenue and Dudley Street. On Water Street, Westerly side, from Massachusetts Avenue, and on Gray Street, near Ravine Street, amounting to 1050 sq. yds., at an average cost of \$1.34 per sq. yd., including grading and resetting of edgestone.

An artificial stone sidewalk was laid on Massachusetts Avenue at the corner of Winter Street, amounting to 164 sq. yds. One-half the cost of brick sidewalk construction is paid by the Town, and 55c per sq. yd. toward artificial sidewalk construction is allowed by the Town.

I again recommend that the Town extend the permanent sidewalk construction, especially along the avenues of through travel. Permanent sidewalks at the present time are urgent, on the Northerly side of Massachusetts Avenue, from Bartlett Avenue to Brattle Street; and on one side of Mystic Street, from Russell Street to Old Mystic Street.

NEW STREETS. Under a Special Appropriation made by the Town in March, 1908, Summer Street, between Grove Street and Brattle Street, was widened to 50 feet, and sub-graded to be later constructed as a Macadam road. In this work 1030 feet of storm drain were laid. Four catch basins were built and edgestone set at the corners of Grove, Pine and Brattle Streets. About 450 cubic yards of ledge were excavated, fences set back to the new lines of the street, etc. The gross cost of the work was \$3,654.78, which gives a net cost of \$2,999.76, after deducting the credits for loam and rock.

Also under a Special Appropriation, the portion of Sawin Street, between Henderson and Teel Streets, was widened to 40 feet and constructed as a Macadam road. Edgestone was set on both sides of the street, and the sidewalk surfaced with stone dust. The subsoil on this street was largely sand, and so it was necessary to use several inches of rock ballast to hold the Macadam. The net cost was \$1,226.38.

The acceptance and construction of this street completes a plan for the improvement of Henderson and Teel Streets which has taken five years to execute.

Wollaston Avenue,—from Tanager Street to Wachusett Avenue,—was likewise accepted and constructed under a Special Appropriation. This portion of street was a connecting link between the accepted portion of Wollaston Avenue and Tanager Street, accepted in 1907. The street was cut down to grade, necessitating the removal of some large boulders, loam and blue gravel. The entire length of the street was surfaced with gravel in a

similar manner to Tanager Street. Edgestone was placed at the corners of Wachusett Avenue and West Street. The net cost was \$469.67.

STREET WATERING. The street watering routes are similar to those of 1907. They are arranged for six carts, for six months' service, from May 1st to November 1st. The routes are too long to give proper service. The total length is about 11 1-2 miles, or about 2 miles per cart.

On Mystic Street, from East of Summer Street to the Winchester line; on Medford Street, East of Lewis Avenue; and on Lake Street, from Cross Street, Easterly, the surface of these streets was beginning to loosen or unravel, and therefore, required immediate attention. Sections of the steets named were difficult to care for with water, on account of being located on the extreme limits of the watering routes, and a remedy of this condition had to be found at once to prevent serious and expensive injury. The trouble was caused largely by automobile traffic, and it seemed best to use a method of repair which would withstand this traffic; accordingly, a preparation known in the market as Tarvia-B was used. This material was put on the surface of the streets in the locations mentioned,—with a covering of sand over the Tarvia to prevent the material from adhering to vehicles. The result was: the surfaces of these streets were held intact throughout the season, and no further injury ensued, and are in a good condition at the present time. I am of the opinion that this method more than repaid the cost of application, for certainly these streets would have been ruined without attention.

From the nature of the material, Tarvia is not an absolute dust layer, but as already stated, the binding qualities possessed by this preparation are most to be desired, and in this respect it is certainly a success. The cost per sq. yd. of the treatment, including cost of preparing streets and application on about 23,500 sq. yds. was 2c per sq. yd., 6,898 gallons of Tarvia being used.

On some sections of Mystic and Medford Streets which had been treated with Tarvia, an application of Terrecolio was used as an additional dust layer. On these sections of street the watering service was discontinued, after July 15th, and the streets remained practically dustless, with only a light application of the material about once in three weeks. On one section of Mystic Street Terrecolio exclusively was used with good results, the street remaining hard and free from dust. The cost of the Terrecolio application was 6-10c. per sq. yd. on 19,420 sq. yds. with 660 gallons of material.

On the Northerly side of Broadway, from North Union Street to the Somerville line, oil was tried as a dust layer. Results were

not satisfactory, because the oil disintegrated the road surface. After the oil had dried out to a large extent, water-gas tar was tried as a combined binder and dust layer, with very fair success.

The results obtained in Arlington and vicinity during the season just closed show that the surfaces of Macadam streets can be preserved by treatment, and that the dust nuisance can be avoided. Also that the cost of these treatments is reasonable and that the results obtained are far more satisfactory than by the use of watering carts.

The cost of street watering for 1908 was about 23-10c. per sq. yd. on 210,000 sq. yds., including the value of water used.

Therefore, I am led to believe and to recommend that the Town do away with the sprinkling of streets with water altogether as soon as practical. Street watering is now obsolete, is expensive, and at best unsatisfactory; and is a decided injury to the streets.

SEWER DIVISION. Very little sewer construction was done during the year. The Brattle Street sewer was put in commission by the installation of an electrically driven pump. This system has proved to be satisfactory and economical,—the cost of electricity ranging from 76c. to \$1.60 per month. The plant has not been accepted by the Department, owing to changes in the electrical equipment which are yet to be installed. Short sewers were laid in Warren Street, at the Junction of Medford Street, and on Westminster Avenue, near Park Place. There has been a less number of sewer connections than in any year since the system was built. Applications for several extensions to the sewerage system are now on file.

EQUIPMENT. The equipment of the Department is in good shape, with the exception of the stone crushing plant. It is a question, whether the present plant should be repaired and remodelled, or whether the further use of the ledge should be discontinued.

The ledge is located near a growing section of the town and in a few years will be a detriment to the community. The present crushing plant is inadequate, the storage bins being entirely too small, the crusher itself is worn out, and is not the proper size to handle stone economically.

A large factor in the cost of producing crushed stone at present is the labor item of reducing the ledge stone to a size which this crusher can handle. It is obvious, therefore, that a large amount of labor could be saved with a machine of greater capacity. The town has appointed a Special Committee to consider the purchase of land for the use of the Town Departments, and the question of the best method of obtaining crushed stone should be carefully

considered in connection with the recommendations of the committee.

A considerable expenditure will be required in the event of the present plant being remodeled. If the Town votes to purchase land for use of the Departments it may prove best to buy stone and erect new storage bins on this land. The Town could then handle what stone is procured from excavations by the several Departments, with a portable crusher, or if a large job in ledge was being carried on, a portable plant could be set up near the site of the work and a large amount of teaming expense saved.

COLLECTION OF OFFAL AND ASHES. Early in 1908, by the building of a new one-horse offal wagon, the collection of offal was placed in the hands of two men, working independently. This method employs the same number of men and horses as formerly. The results have been satisfactory and show the wisdom of the change.

The ashes have been handled in the same manner as heretofore.

About 450 cords of offal; 2700 loads of ashes and 500 loads of paper were collected.

BOARD OF SURVEY. Twelve plans were examined on which hearings for locations and grade were held by the Board. Of this number, five were not approved.

Under section III, of the Board of Survey Act, studies were authorized to be made for the locations of streets through the C. N. Bacon estate between Pleasant and Jason Streets, which the Board approved.

Studies were also made for the development of land in the rear of Tanager Street, and South of Wollaston Avenue. One hearing only has as yet been given, the final plans not being completed.

Three years ago the Board gave a hearing for an extension of Henderson Street to connect with Stockton Street, Somerville, and thus make an inter-Town way between East Arlington and North Somerville. Public necessity and convenience both in Arlington and Somerville demand a connecting street at this point, particularly so that residents may have convenient access to the Boston Elevated Railway lines on both Broadway and Massachusetts Avenue. Recently a committee,—composed of members from the Joint Board of Selectmen and Board of Public Works of Arlington and the City Government of Somerville,—have been appointed to consider the matter, and make recommendations.

Studies have also been authorized for a location of the extension of Summer Street to Forest Street, on which hearings will be given early in the year.

GENERAL. The various highway bridges are in good condition. The River Street bridge was strengthened and replanked.

The placing of soft coal ashes on sidewalks for drainage purposes was continued and a few years more of the same treatment will show a great improvement in sidewalks not of artificial construction.

Fifty-four permits were given to the various public service corporations to open streets for repairs and extension of service.

I again recommend that the question of a permanent pavement on Massachusetts Avenue be considered so that the maintenance of our streets may be carried on economically.

Since my last report, options have been taken by the Metropolitan Park Commission for land on both sides of Alewife Brook from the Mystic River to Spy Pond, for the proposed improvement of the brook, and adjoining lands. It is expected that during the present year the proposed work will be commenced.

New tar concrete walks have been laid across Russell Park from Mystic Street to Chestnut Street, and the surface drainage of the park improved.

At the Town House site, 110 loads of loam from the construction of Summer Street were put on the lot. No other work was done with the exception of mowing, cleaning, etc.

A path across the lot with a small fountain near the centre is under contemplation.

May I again refer to the need of beginning a set of Assessors' Plans, which will show the lines and areas of all real estate in the Town. These plans would be of great value to all departments of the Town service, and if a small appropriation were made for the work each year, the plans could be systematically completed in a short time.

ROBERT W. POND,

Town Engineer and Superintendent of Streets.

TABLE SHOWING THE LOCATION, LENGTH AND WIDTH OF ACCEPTED AND PRIVATE STREETS.

Park Circle at Eastern Avenue (base of standpipe), elevation, feet	377
Crescent Hill Avenue at Park Place, elevation, feet.....	281

The Town and a part of what is now Belmont was set off from Cambridge and incorporated as West Cambridge in 1807. The name was changed from West Cambridge to Arlington in 1867.

Population, estimated.....	10,500
Number of polls	2,755
Number of voters: Men, 1,884; women, 118; total....	2,002
School enrollment: Public, 2,090; Parochial, 181; total	2,271
Area of Town, including that covered by water, 3,520 acres, or 5 1-2 square miles.	

Area covered by water, 237 acres.

Parks: Town, 48.24 acres; Mystic River Reservation, Metropolitan, 17.7 acres.....	65.94
Town Property, exclusive of Parks, acres.....	31.6
Total cemetery areas, acres.....	41.2
Area taxed, tax rate, \$19.30, acres.....	2,698
Valuation, real estate	\$9,742,883.
Valuation, personal property	\$1,337,163.
Public streets and Town ways: Macadam, 10.9 miles; gravel, 22 miles; granite paving, 1-10 mile; total miles	33.0
Private Streets open to travel, miles.....	9.7
Permanent sidewalks: Concrete, 6.1 miles; brick, 1.0 mile; artificial stone, 0.56 miles; total miles.....	7.66
Edgestone, miles.....	8.39
Paved gutters, miles.....	8.98
Storm drain system, miles.....	7.0
Catch basins	213.
Sewerage system, 23.81 miles; local Metropolitan sewer system, 3.47 miles; total miles.....	27.28
Particular sewer system (1,109 connections), miles...	12.68
Number of buildings connected.....	1,138
Water mains: Low system, 18.25 miles; High system, 18.31 miles; total miles.....	36.56

Metropolitan system, miles.....	2
Cement lined pipe in use, miles.....	3.84
Cast iron pipe in use, miles.....	32.72
Fire hydrants	380
Fire pressure at Massachusetts Avenue and Pleasant Street: Low system, 50 lbs.; High system, 90 lbs.	
Water services	1,979
Water meters	992
Fire alarm boxes (Gamewell).....	35
Police signal boxes (Gamewell).....	13
Gas mains, 10 miles, more or less.	
Street lights: Arc, 83; incandescent, 242; total.....	325
Telephone and telegraph conduits, miles.....	4.71
Electric light conduits, miles.....	.76
Steam railroads: Double track, 3.59 miles; single track, 0.24 mile; total miles trackage.....	7.42
Electric railways (double track counted twice), miles.	11.74
Houses, 1,692; other buildings, 812; total.....	2,504
Schoolhouses, 6; churches, 10; post offices, 2; police station, 1; railroad stations, 3; hose houses, 3; chemical engine, 1; hose wagons, 3; ladder truck, 1.	

REPORT OF THE SUPERINTENDENT OF WIRES.

ARLINGTON, MASS., Jan. 20, 1909.

To the Honorable Board of Selectmen and Board of Public Works:—

GENTLEMEN:—I have the honor to submit herewith my ninth annual report as Superintendent of Wires for the year ending December 31, 1908.

At the Annual Town Meeting the appropriations which have in the past been made separately for the Fire Alarm, Police Signal and Inspection of Wires Department were consolidated under one appropriation to be known as the Wire Department. This change was recommended to the Auditor by your Superintendent, to the end that the keeping of the accounts might be simplified, and also to make an expenditure of the appropriation made for the Town's electrical systems more advantageous in the purchasing of supplies direct for one department instead of for three as in the past. This recommendation received the approval of your Auditor, and the electrical appropriations called for were submitted by him to the Committee of Twenty-one as one appropriation for the Wire Department.

The work of the Wire Department may be classified under the following divisions:

1. Inspection of Electrical Wiring in Buildings.
2. Inspection of Electrical Wiring on the Streets.
3. Maintenance and operation of the Fire Alarm System.
4. Maintenance and operation of the Police Signal System.
5. Construction for Fire Alarm and Police Signal Systems.
6. Supervision of Poles and Wires on the Streets.
7. Supervision of Underground Conduits and Wires.
8. Supervision of Street Lighting.

INSPECTION OF ELECTRICAL WIRING IN BUILDINGS. The work of inspecting electrical wiring in buildings has been given careful attention as in the past. Each year shows a very marked improvement in the class of wiring and fittings installed for electric lighting and power. This condition has been brought about by the united efforts of the various insurance, electrical, architectural

and other allied interests, which have approved of the rules and requirements of the National Board of Fire Underwriters governing the installation of electric wiring and apparatus as published in the "National Electrical Code."

The enforcement of these rules and requirements by the various electrical departments, the hearty co-operation given the inspection departments by reliable electrical contractors, with the most excellent work done by the Underwriters' laboratories in the testing and standardizing of electrical wires and fittings manufactured, has brought about a more durable and safe class of construction, and it should be the aim of all property owners to see that proper notifications are given the electrical inspection departments of any new work, or changes made in an electrical installation, to the end that an unsafe installation, which has not been inspected, may mean an electrical fire or probably more serious results.

TABULATION OF INTERIOR WIRING INSPECTIONS.
MADE IN 1908.

Number of applications received.....	210
Number of inspections.....	291
Number of incandescent lights wired for.....	2136
Number of motors installed.....	8
Horse power of motors installed.....	39 5-8
Number of unfinished inspections, Dec. 31st.....	42

PERMITS ISSUED FOR INSTALLING OF METERS.

To Edison Electric Illuminating Company, of Boston....	288
To Lexington Gas & Electric Company, of Lexington...	3
Total	291
Incandescent lights installed on Edison service.....	3683
Incandescent lights installed on Lex'n G. & E. Co., ser...	35
Total	3718
Number of motors installed on Edison service.....	8
Total horse power of motors installed on Edison service.	39 5-8
Arc lights installed on Edison service.....	1 of 3990 watts

The Lexington Gas and Electric Company were given permission to run wires and supply service for lighting and power in buildings on Sylvia and other streets near the Lexington Town

Line, in accordance with the requirements of this Department. Permission being given by the Edison Electric Illuminating Company to the Lexington Gas and Electric Company to establish this service, the Edison Company not having wires in this vicinity.

INSPECTION OF ELECTRICAL WIRING AND SUPERVISION OF POLES, WIRES AND UNDERGROUND CONDUITS IN THE STREETS. Careful attention has been given to the condition of wires on the streets, and notification immediately given to the companies owning wires and poles when the same were found defective, all such notices receiving prompt attention from the various companies. Very little trouble has been experienced with the poles and wires on the streets other than on May 30, at 1:09 P. M., when two hard pine poles on Mystic Street, owned by the New England Telephone & Telegraph Company broke off, and fell into the street nearly opposite the residence of Mr. J. Howell Crosby. The breaking of these poles was in all probability caused by the tightening of the span wires of the street railway several days before. These poles were located on an angle of the street and the strain was very great at this point. As these poles had been inspected and passed as safe several months before, this is a very weighty demonstration of the unreliability of a hard pine pole as a support for wires. The use of hard pine timber for poles has not been permitted by this department for several years, these poles having been set for about eight years. In the breaking of these poles all wires were carried to the street, the poles falling directly across the street, and narrowly missing an electric car that had just passed. The fire alarm wires, including Box 28, telephone wires and trolley wires were all broken, entirely blocking traffic. The breaking of the fire alarm wire gave immediate notification to this department of trouble, which was quickly located. The street was cleared by this department in a short time of all wires and broken poles and, with the assistance of the wire employees of other companies summoned, repairs were made in a very short time to the trolley, thus allowing the electric cars to proceed. Box 28 of the fire alarm system was placed in a new location and cut into commission inside of one hour after the break occurred.

The great value of the Police Signal was given at this time, as Box No. 23 of this system, which was in close proximity, was used to telephone to police headquarters orders to notify the various wire companies of the trouble and a quick response was made by all.

Forty-six (46) old poles were replaced on the highways by the following specified companies: Edison Company, 16 poles; New

England Telephone & Telegraph Company, 25 poles; Atlantic Telegraph by Edison Company, 5 poles.

Seven new poles were set in locations granted as follows:

Petitioner Company.	Street.	Poles.	Date Plan.	Date Granted.
Edison Company.	Paul Revere Road.	2	Jan. 7	Jan. 27, 1908.
" "	Jason St. Cor.			
" "	Brantwood Road.	1	June 15	July 20, "
" "	Cleveland St.	2	" 8	" 20, "
N. E. T. & T. Co.	Brattle St.	2	May 8	May 25, "

Three (3) poles were removed by the Edison Company, and locations abandoned, these poles not being considered necessary by this department. Three (3) poles were changed to new locations, one being too near to a fire hydrant, one for relocation of street light and one at the request of an abutter to allow building of a driveway. Twenty-four (24) permits were issued to the above companies to set, replace and remove poles as specified above. Complete records of pole construction are on file at Wire Department headquarters. The high tension system of wires built by the Edison Company on Broadway, from the Somerville line to Junction of Warren Street and on Mystic Street from Corner of Russell Street to the Winchester Town Line, is a very satisfactory piece of construction, the greatest care being shown in the building of these wires and poles.

All construction for electric lighting and power which has been built during the past year has been very satisfactory, and in all cases care has been shown to do work in accordance with the town requirements. The pole construction as done by another company owning poles on our streets has not in many cases been satisfactory, very poor judgment having been shown in the selection of poles to be set, and also in the manner the work was done, and it has been necessary on several occasions to order poles replaced or reset, which has made much more work than was necessary if this work had been done properly in the first place. More attention will have to be given this question in the future by companies interested, or drastic measures will be recommended to compel a compliance of the requirements governing this class of work.

The Edison Company installed eight thousand five hundred and six (8,506) feet of No. 10 3-conductor lead encased cables in conduits built in 1907, from Broadway opposite Warren Street, through Warren Street to Medford Street, to Chestnut Street, to Mystic Street, terminating at Corner of Mystic and Russell Streets, this cable being installed in two lengths each of three

wires, and being for high tension current, connecting with aerial construction as specified heretofore in this report. This high tension system of wires is used for transmission of electricity for light and power to the City of Woburn and the Towns of Winchester and Stoneham direct from the L. Street Power Station of the Edison Company at South Boston.

The Boston & Northern Street Railway Company have repaired and strengthened wires of their trolley system on Mystic Street, and also insulated all feed and signal wires where passing through trees. The cutoff switch on trolley and feed wires was ordered removed from near Corner of Summer Street, as located in the past, and placed at the Junction of Mystic and Chestnut Streets. This switch is installed for the use of the Fire Department to shut off all power from trolley and feed wires between Chestnut Street and Massachusetts Avenue in case of fire, to the end that live wires shall not impede the work of the firemen.

SUPERVISION OF STREET LIGHTING. The Street Lighting system, as furnished by the Edison Company, has been maintained according to contract during the past year. Tests made at the Street lighting switch board, in Wire Department office, have shown current furnished to have been, at all times, up to contract requirements of six and six-tenths (6.6) amperes. The replacing of all incandescent lamps of thirty-two (32) candle power with the new Tungsten lamps of forty (40) candle power has made a great improvement; the light given from the latter being more brilliant and with the increased candle power has added greatly to the efficiency of the street lighting service.

The following changes and additions have been made in the street lighting system for the year 1908.

NEW STREET LIGHTS INSTALLED.

Street.	Location.	Pole No.	Inc.	Arc.	Date of Installation.
Broadway,	250 ft. west of Alewife Brook,	812-3	1		Feb. 5, 1908.
Broadway,	cor. Marathon St.,	812-8	1		Feb. 5, "
Hillside Av.,	250 ft. east of Wollaston Av.,	837-3	1		Feb. 19, "
Hillside Av.,	225 ft. west of Prospect Av.,	837-18	1		Feb. 19, "
Hillside Av.,	210 ft. north of Florence Av.,	837-9	1		Feb. 21, "
Hillside Av.,	391 ft. east of Florence Av.,	837-14	1		Mar. 10, "
Paul Revere Rd.	215 ft west of Park Av.,	877-10	1		Mar. 17, "
Prescott St.,	75 ft. south of Russell St.,	864-4	1		June 3, "
Mass. Av.,	60 ft. west of Pleasant St.	Tel.pole 1-80c.p.			June 18, "
Jason St.,	Opposite Brantwood Rd.,	839-26	1		Aug. 22, "

STREET LIGHTS REMOVED DURING 1908.

Street.	Location.	Pole No. Inc.	Date Removed.
Broadway,	Cor. of Marathon st.,	812-8	1 Feb. 7, 1908.
Broadway,	250 ft. west of Alewife Brook,	812-3	1 Feb. 5, "
Totals		2	

Seven (7) additional incandescent and one (1) arc lights are to be installed on or about January 1st, 1909, as per vote of the Joint Board of Selectmen and Board of Public Works, Nov. 23d, 1908, as follows:

INCANDESCENT LIGHTS. Henderson Street, 1; Teel Street, 1; Park Avenue, 1; Westminster Avenue, 1; Bow Street, 1; Brattle Street, 1; Gray Street, 1.

ARC LIGHTS. Massachusetts Avenue, near Amsden Street, 1.

SUMMARY OF STREET LIGHTS, 1908.

Total number of lights in use, Dec. 31st.....	325
Incandescent lights, 40 candle power.....	241
Incandescent lights, 80 candle power.....	1
Arc lights, 1200 candle power.....	83
Totals	325

The 80 candle power light specified was installed at the corner of Massachusetts Avenue and Pleasant Street temporarily as an experiment to determine the results given from this class of light on an all-night service. Results have been satisfactory and should

recommend installing five (5) more on Massachusetts Avenue, between Water Street and the Soldiers' Monument. With these additional lights the business district would be greatly benefited and much assistance would be given the Fire and Police Departments after one A. M., when the regular street lighting circuits are shut off.

FIRE ALARM SYSTEM. This system has given good service during the past year, and all alarms were correctly transmitted. But on one piece of line trouble was experienced, that being on May 30, caused by breaking of poles on Mystic Street, as specified heretofore in this report. A thorough system of inspection has been maintained at all times of aerial and underground wires, signal boxes and other appliances of the system to insure perfect service. New construction has been installed as far as possible in accordance with appropriations made for this purpose.

Seventeen thousand, one hundred fifty-eight feet (17,158) or 3 25-100 miles of old bare iron wire was replaced with insulated No. 10 triple braided iron wire. Thirty-two 4-pin cross arms were used in rebuilding of old lines.

The new wire installed was placed on the following specified streets: North Union Street, 2,270 feet; Warren Street, 1,523 feet; Palmer Street, 1,090 feet; Medford Street, from Warren to Chestnut Street, 248 feet; Russell Street, 896 feet; Mystic Street, from Russell Street to Box 28, 4,551 feet; Summer Street, from Box 43 to Brattle Street, 758 feet; Brattle Street, from Summer Street to Massachusetts Avenue, 1,757 feet; Brattle Street to Metropolitan Pumping Station (new), 680 feet; Appleton Street, 2,078 feet; Park Avenue, from Massachusetts Avenue to Hose 1, 628 feet; Henderson Street, 260 feet; Massachusetts Avenue, 419 feet. Ninety (90) feet of No. 14 lead covered duplex cable was installed in conduit from manhole on Massachusetts Avenue, opposite Jason Street, to Junction pole at the corner of Jason Street. Signal boxes Nos. 13, 28, 38 and 43 were placed on new poles, old poles being replaced. The tower bell striker at Hose 2 was provided with a new foundation support for this machine, one of the iron rods to platform in the top of the tower breaking, and temporarily putting bell striker out of commission. Tower striker No. 4, in the Henderson Street District, was also repaired, one of the connecting clamps of the hammer rod breaking. Signal Box No. 4, on Jason Street, was rewired to top of pole with circular loom cable. Hose No. 1 Station was equipped with an automatic fire alarm light switch, and lights were rewired on apparatus floor to operate from this switch. All fire stations are now equipped with these automatic lighting switches.

Forty (40) Type B. T. storage batteries were added to head-

quarters equipment to replace old batteries installed in 1900. One Weston Mil-Ammeter was purchased for testing of signal wires. The Evershed Testing Set owned by this department was sent to the manufacturer, and thoroughly recalibrated to be in perfect working order. The automatic time clock at Fire Alarm Headquarters was cleaned and necessary adjustments made to operate this clock with its electrical attachments. A new air compressor for the fire whistle was purchased in accordance with appropriation made. This compressor was placed in motor vault where old electrical compressor was located.

A new foundation of cement with hard pine wood sub-base was provided; also all wiring for this machine was done in iron conduit. A new slate switchboard for automatic governor, service switch and cutouts were installed and the brick work of vault painted.

This compressor is of the double cylinder pattern, being operated from a 7 1-2 horse power 500 volt D. C. motor, the compressor and motor being enclosed in dust tight iron cases which are mounted on one iron bed plate.

The new compressor was very much needed as the old electrical compressor had given many years of service, and was in a bad condition and costing far too much for repairs. The hydraulic compressor was taken apart and stored in the basement of the Town Hall, the old electric compressor being placed on a new foundation and piped up to air tanks to be held in reserve. With this system the Town is assured of an efficient and economical service for its fire alarm whistle for many years to come and also has a much improved service, as the new compressor is of much larger capacity than the old machine and can restore air to the receivers very quickly after an alarm. The new air compressor was placed in commission on June 12, and has given most excellent service since.

METROPOLITAN WATER WORKS CABLE. Five thousand, five hundred and fifty (5,550) feet of three conductor circular loom cable was installed for the Metropolitan Water and Sewerage Board from the Pumping Station off Brattle Street to the Stand Pipe at the top of Arlington Heights. This system of wires was installed to electrically indicate the height of water in the stand pipe.

Fifty-one (51) cross arms were used to do this work, and cable was run from the Pumping Station, via Brattle Street, to Massachusetts Avenue, to Robbins Road, and from there to Park Avenue to the stand pipe.

Permission was given the Metropolitan Water and Sewerage Board to occupy cross arm space reserved for town wires in the

installing of this cable. The cost of building this line was paid for by the Metropolitan Water and Sewerage Board. The maintenance of the same is under the supervision of the Wire Department of this Town, and all expenses incurred for such maintenance are paid for by the above Board.

POLICE SIGNAL SYSTEM. This system has given excellent results for the year past with very little trouble in operating. Ninety (90) feet of No. 14 lead covered cable was installed on system in underground conduits at the Junction of Massachusetts Avenue and Jason Street, for connection to aerial wires on Jason Street.

All batteries were recharged at Police Station for operating the system, these batteries having given over two years of continuous service since the system was first placed in commission. All signal boxes were provided with new dry batteries for operation of telephones. The entire system is in first-class condition and is a most valuable asset to the town's protective signal systems.

PROPOSED INTERCOMMUNICATING METROPOLITAN FIRE ALARM. Plans are now being formulated by the Fire and Electrical Departments of Boston and thirty-one other cities and towns for the establishing of an Intercommunicating Metropolitan Fire Alarm, to cover an area of about twenty miles from the State House in Boston. This system if installed will make it possible to assemble quickly the largest and best equipped fire-fighting force in the world, which can be summoned all at one time or in relays, as desired. With such a system in operation at the time of the great Chelsea fire, it is very probable that this fire would have been confined to a much smaller area and saved an immense amount of property.

With the proposed system, every fire department headquarters in the thirty-two cities and towns will be kept informed at all times of any fires requiring help from other places, and it will also be possible for any city or town to call help as needed from neighboring municipalities, at the same time keeping all other fire departments informed as to the assistance given, who responded to the call, and will also allow for a proper covering in system of all districts from which apparatus has moved.

The establishment of this proposed fire alarm will have to be done by an act of the Legislature to apportion the expense of building and maintaining the system, and also making it mandatory as to the response to be given by the various fire departments covered by this alarm.

Competent committees are now formulating plans for the establishing of the proposed system, and also as to the best and quickest method of transportation of apparatus to neighboring cities and towns.

The Fire and Wire Departments of the City of Somerville and this town are now considering plans for the connecting of the Central Fire Station in this town with the house of Engine No. 6 at Teel Square (Clarendon Hill). With the proposed system, the Somerville Fire Department will answer on first alarms several boxes in the lower section of our town, and will respond to other sections of the town when needed. The apparatus of this town will respond on first alarm to several boxes in the Clarendon Hill section of Somerville, and will also cover in to Engine No. 6 house in case of a large fire in Somerville, which would uncover that district of apparatus at such a time.

This proposed system of mutual aid will be a very great safeguard to the property in both municipalities, and will allow for the quick concentration of apparatus besides keeping other sections covered by apparatus that would have to move if such an arrangement was not in force.

The details and expense of the proposed system are not as yet thoroughly planned, but will in all probability be submitted to the citizens for consideration at an early date.

RECOMMENDATIONS. I would respectfully recommend that the question of installing additional fire alarm boxes be given consideration, and that annual appropriations be made for this purpose, until all districts are properly protected by the Fire Alarm System.

Additional boxes should be located as follows: Corner of Park and Prospect Avenues (top of the Heights); Wollaston Avenue near Tanager Street; Junction of Park Avenue and Lowell Street; Massachusetts Avenue, between Lowell Street and Park Avenue; Gray Street, between Jason Street and Bartlett Avenue; Mystic Street near Old Mystic Street; Mystic Street near Chestnut Street; Medford Street near Russell School; Broadway near Gardner Street.

The underground systems of wires for the Fire Alarm and Police Signal should be extended as fast as practicable, and the replacement of all bare wires on the Fire Alarm System with insulated wire should be continued until this class of construction is completed.

Once again I would respectfully call your attention to the pressing need of the services of an assistant to your superintendent. The duties involved by this department are increasing so rapidly that such a step has become imperative to the end that the safe and efficient service rendered may be maintained as in the past. A comparison of appropriations made in other cities and towns for the supervision of the electrical departments as against the amount of work done by this department will be convincing that

the merits of this question should be given due consideration by the citizens. When the above is duly considered, and the fact also taken into consideration that all the new construction and engineering required for the past nine years by the various branches of the Wire Department have been performed, and results given that will show for themselves, without the employing of other outside expert labor, it should show if the town wishes to continue on this basis, it will have to make the appropriations sufficient in the future to cover the demand of such services that may be required.

CONCLUSION. Thanking your Honorable Board for the many courtesies shown, and assistance rendered me in the discharge of the duties of this department, I respectfully submit the above for your consideration.

Respectfully submitted,

R. W. LEBARON,

Superintendent of Wires.

REPORT OF THE BOARD OF HEALTH.

The Board of Health respectfully submits the following report for the year ending December 31, 1908:

The Board, composed of Dr. Charles F. Atwood, Dr. Lawrence L. Peirce and Alfred H. Knowles, met and organized March 5th with Dr. Atwood as chairman, and Horace A. Freeman as clerk.

The appointments made by the Board may be found in the list of Town Officials.

The general health of the Town has been good during the year. Aside from a very extensive outbreak of measles during the first half of the year, only a very moderate number of contagious diseases have been reported.

A very important part of the work of the Board is the collection of ashes and offal. Last spring a new offal wagon was purchased, and side boards have been added to the ash wagons. With this improvement in equipment we have been able to do the work in less time and more economically. The appropriation asked for in March proved sufficient to carry out the work in a satisfactory manner and a good unexpended balance remains.

The cost for collection for 1907 and 1908 is compared below:

	1908			1907		
	Labor	Horses	Total	Labor	Horses	Total
Offal	1,620.70	705.31	2,326.01	1,548.29	549.45	2,097.74
Ashes	2,164.56	809.23	2,973.59	2,186.36	689.31	2,875.67
New offal cart.....			225.00			220.00
Repairs and supplies...			270.79			113.39
			<hr/> 5,795.39			<hr/> 5,306.80
Unexpended balance..			89.61			1.20
			<hr/> 5,885.00			<hr/> 5,308.00

Many complaints of nuisances and sanitary defects have been investigated, and where a nuisance was found to exist it was abated.

The Board desires that all complaints be addressed to the clerk in writing, and that parties aggrieved will affix their signatures to the complaint.

No complaints have been received of the slaughtering establishments licensed by the Board. One unlicensed slaughter house has been closed, and the case is still pending before the Court.

The method of garbage disposal will come up before the next Board, as the contract for the town offal expires in July.

Mr. Edwin Mills, who had acted as plumbing inspector for the town for several years, handed in his resignation in June. The vacancy was filled by the appointment of George W. Day.

The Board has felt throughout the year that it has had the hearty support of the Selectmen and the Police Department.

The services of all the appointed officers has been very satisfactory, especially praiseworthy being the work of the sanitary inspector, Mr. Hartwell, and the clerk, Mr. Freeman.

MEDICAL AND SURGICAL APPLIANCES. At a meeting held Nov. 29, 1907, the following list of medical and surgical appliances was approved, the same to be kept and maintained by factories and shops in Arlington in compliance with Chap. 164, Acts of Legislature of 1907.

- 2 Elastic tourniquets (minimum or inches).
- 2 Rolls 1-2 in. zinc ox. adhesive plaster.
- 2 Rolls 2 in. adhesive plaster.
- 4 Dozen gauze bandages, assorted sizes, from 1 to 4 inches. 10 yds.
- 1 lb. Absorbent cotton.
- 1 Yard Sterile gauze.
- 1 Dozen Emergency slings.
- 5 Yards Canton flannel (used with carron oil for burns).
- 1 Pair Surgical Scissors, straight (2 1-2 in. blade).
- 200 Tablets 7 3-10 gr. corrosive sublimate and citric acid.
- 6 Whitewood strips, 40 x 4 x 3-16.
- 2 Pillows.
- 1 Package of Pins.
- 3 Dozen Safety pins.
- 8 Ounces Spt. Ammonia aromatic (rubber stopple).
- 1 Gallon Carron Oil.
- 1 Pint Brandy.
- 1 Basin.

HOME WORK FOR FACTORIES. No home work for manufactories is allowed except by persons receiving a license from Dr. Charles E. Simpson, state inspector of health.

Several persons residing in Town have been granted such licenses, a list of which is on file with this board.

HEALTH DISTRICTS. In accordance with Chapter 537, Acts of 1907, the State has been divided into health districts.

Arlington is in District No. 9, and Charles E. Simpson, M.D., of Lowell, has been appointed state inspector of the district.

The act establishing health districts is as follows:

CHAPTER 537. ACTS OF 1907.

AN ACT TO PROVIDE FOR THE ESTABLISHMENT OF HEALTH DISTRICTS AND THE APPOINTMENT OF INSPECTORS OF HEALTH.

Be it enacted, etc., as follows:—

SECTION 1. The state board of health shall as soon as may be after the passage of this act, divide the Commonwealth into not more than fifteen districts, to be known as health districts, in such manner as it may deem necessary or proper for carrying out the purposes of this act.

SEC. 2. After the division aforesaid has been made, the governor, with the advice and consent of the council, shall appoint in each health district one practical and discreet person, learned in the science of medicine and hygiene, to be state inspector in that district. Every nomination for such office shall be made at least seven days prior to the appointment. The said state inspectors of health shall hold their offices for a period of five years from the time of their respective appointments, but shall be liable to removal from office by the governor and council at any time.

SEC. 3. Every state inspector of health shall inform himself respecting the sanitary condition of his district and concerning all influences dangerous to the public health or threatening to affect the same; he shall gather all information possible concerning the prevalence of tuberculosis and other diseases dangerous to the public health within his district, shall disseminate knowledge as to the best methods of preventing the spread of such diseases, and shall take such steps as, after consultation with the state board of health and the local state authorities, shall be deemed advisable for their eradication; he shall inform himself concerning the health of all minors employed in factories within his district, and, whenever he may deem it advisable or necessary, he shall call the ill health or physical unfitness of any minor to the attention of his or her parents or employers and of the state board of health.

SEC. 4. The state inspectors of health shall be under the general supervision of the state board of health and shall perform such duties other than those hereby imposed upon them as the said board from time to time shall determine. They shall keep a record of their proceedings and observations, shall annually make a report of the same to said board on or before the thirty-first day of October, shall from time to time furnish said board with such information as it may require touching circumstances affecting the public health in their respective districts, and shall in every instance where written suggestions are made by them to the local authorities send copies of such suggestions to said board.

SEC. 5. The state inspectors of health shall, under the direction of the state board of health and in place of the inspection department of the district police, enforce the provisions of section forty-one of chapter one hundred and four of the Revised Laws so far as said section provides that factories shall be well ventilated and kept clean, sections forty-one, forty-four and forty-seven to sixty-one, inclusive, of chapter

one hundred and six of the Revised Laws, chapter three hundred and twenty-two of the acts of the year nineteen hundred and two, chapter four hundred and seventy-five of the acts of the year nineteen hundred and three, chapter two hundred and thirty-eight of the acts of the year nineteen hundred and five, and chapter two hundred and fifty of the acts of the year nineteen hundred and six; and the powers and duties heretofore conferred and imposed upon the members of said inspection department of the district police by section eight of chapter one hundred and eight of the Revised Laws in respect to the foregoing sections and acts, and in respect to all acts in amendment thereof or in addition thereto, and in respect to any other laws, are hereby conferred and imposed upon said state inspectors of health or such other officers as the state board of health may from time to time appoint; provided, however, that neither said board of health nor any inspector thereof shall have authority to require structural alterations to be made in buildings, but shall report the necessity therefor to the inspection department of the district police. Wherever in said provisions of law the words "inspector" or "inspectors of factories and public buildings," "inspection department of the district police," "inspector" or "inspectors of the district police," "district police," "factory inspector," or "inspectors," and "member" or "members of the district police" occur, they shall be taken to mean state inspector or inspectors of health. Whenever the words "chief of the district police" occur, they shall be taken to mean the state board of health.

SEC. 6. The governor, with the advice and consent of the council, shall establish the salaries of said state inspectors of health, having regard in each district to the extent of territory, the number of inhabitants, the character of the business there carried on, and the amount of time likely to be required for the proper discharge of the duties. The salaries thus established shall be paid from the treasury of the Commonwealth monthly.

SEC. 7. There may be expended out of the treasury of the Commonwealth annually, for the purposes specified in this act, for salaries, a sum not exceeding twenty-five thousand dollars, and for other expenses, a sum not exceeding five thousand dollars.

SEC. 8. For the purpose of carrying out the provisions of this act the state board of health may employ from time to time experts in sanitation.

SEC. 9. This act shall take effect upon its passage. [Approved June 19, 1907.]

CIRCULARS OF INFORMATION. Circulars of instruction for the general care of patients, suggesting means for preventing the spread of diphtheria, scarlet fever, typhoid fever, measles and consumption or tuberculosis have been printed, to be sent to families in which any of said diseases occur.

FUMIGATION. A more thorough system of fumigation has been adopted, and on the recovery or death of each case of diphtheria, scarlet fever, and tuberculosis the Board attends immediately to the fumigation of the premises. The expense is met by the Town, except where extra fumigation is requested.

REPORTABLE DISEASES. The Board has adjudged the diseases known as scarlet fever, measles, typhoid fever, diphtheria, small-

pox, membranous croup, cholera, yellow fever, typhus fever, cerebro-spinal meningitis, hydrophobia, malignant pustule, leprosy, trichinosis, tuberculosis, opthalmia of the newly born, actinomycosis, glanders, tetanus, varicella, whooping-cough as infectious or contagious, and dangerous to the public health and safety within the meaning of the Statutes. Physicians are required to report immediately to the Board every case of either of these diseases coming under their care, and postal cards conveniently printed and addressed are supplied to them for this purpose. On receipt of a card from a physician the Superintendent of Schools, Principal of High School, Trustees of Robbins Library, and School Physician are notified. Mr. Charles T. Hartwell acts as fumigator in behalf of the Board.

CULTURE STATIONS. Culture tubes for diphtheria, sputum bottles for suspected tuberculosis, and anti-toxin are provided by the State Board of Health and placed by this Board with H. A. Perham, druggist, for the use of physicians.

MISCELLANEOUS.

BOARD OF INFANTS. The Board has given its approval to applications for licenses to board infants or children as follows: Rosa Simmonds, 32 Appleton Street; S. A. Gilpatrick, 14 Teele Street Place; Margaret Whelply, 81 Westminster Avenue; Martha Priestly, 203 Lake Street; Mary E. Smith, 16 Walnut Place; Mary E. Hallice, 43 Massachusetts Avenue.

HOSPITAL CASES. Two cases of diphtheria were committed to Contagious Hospital at Somerville, and claims against the Town for care of contagious cases by Revere, Boston and Cambridge were paid.

REPORTS OF OFFICERS OF THE BOARD. The reports of the several officers of the Board are appended, to which attention is called.

FINANCIAL. For detail as to expenditures reference is made to the report of the Auditor.

LICENSES.

Licenses have been granted as follows:

STABLES. George Clark, 30 Mystic Street; John Lyons, Bucknam Court; Mary A. Law, Mill Street.

UNDERTAKERS. J. Henry Hartwell & Son, Medford Street; Daniel W. Grannan, and William D. Grannan, 378 Massachusetts Avenue; James P. Daley, 20 Franklin Street.

SLAUGHTERING. Henry R. Borman, rear 27 Broadway; William Borman, rear 27 Broadway.

PLUMBING. Joseph A. Tole, 30 Lewis Avenue; Andrew Bain, 49 Lowell Street; George M. Bruce, Frank E. Gallagher, Charles F. Burton, Mathew H. Rowe.

CHAS. F. ATWOOD, M.D.,

LAWRENCE L. PEIRCE, M.D.V.,

ALFRED H. KNOWLES,

Board of Health.

Attention is called to the following regulations of the Board of Health and extracts from the Revised Laws:

DISEASES DANGEROUS TO THE PUBLIC HEALTH.

From Regulation of Board of Health.

SECTION 3. Upon the outside of every house in which there is a person sick with small-pox, diphtheria, membraneous croup, measles or scarlet fever shall be placed a suitable placard with the name of the disease. The Board of Health may in special cases permit the placard to be placed upon interior apartments only. This placard shall not be defaced or removed by any person without authority of the Board of Health.

SEC. 4. No person shall remove or permit to be removed from any house or apartment upon which a placard has been placed, as provided in Section 3, any clothing, books or other property without a permit from the Board of Health; nor after a house is established as a hospital, under provisions of Chapter 80 of the Public Statutes, shall any occupant of such house take up a residence elsewhere without such permit. No public or circulating library book shall be taken into any house or apartment whereon a placard has been placed, as provided in Section 3, before the authorized removal of said placard. All books, papers, toys and other articles in a room where there is a person sick with scarlet fever or diphtheria which cannot be thoroughly disinfected must be destroyed.

SEC. 5. No person living in a house or interior apartment upon which a placard has been placed, as provided in Section 3, shall attend or visit any school in the Town without a permit from the Board of Health.

SEC. 6. No person who has visited a house in which there was at the time a case of small-pox, diphtheria, membraneous croup, or scarlet fever, shall attend school until the expiration of two weeks from such visit.

SEC. 7. Danger of conveying small-pox, diphtheria and scarlet fever shall not be considered to have passed until two weeks have expired after the rooms occupied by a person who has been sick with either of said diseases, and the articles used by him have been disinfected to the satisfaction of the Board of Health.

SEC. 8. In case of the removal of a child from the house where a person is sick with any of the diseases mentioned in Section 11 of Chapter 496 of the Acts of the year 1898, two weeks must elapse before such child is allowed to attend school.

SEC. 9. No case of diphtheria shall be considered recovered until a negative culture has twice been obtained, at not less than three days' interval, from such patient.

SEC. 10. No case of scarlet fever shall be considered recovered until desquamation is complete on every part of the body.

SEC. 11. No child having chicken-pox or mumps shall be allowed to attend any school in this Town.

EXTRACTS FROM THE REVISED LAWS AS AMENDED.

Contagious Diseases.

[CHAPTER 480 ACTS OF 1907]

An Act to Provide For the Compulsory Notification and Registration of Tuberculosis and Other Diseases Dangerous to the Public Health.

Be it enacted, etc., as follows:

SECTION 1. Sections forty-nine and fifty of chapter seventy-five of the Revised Laws, as amended by chapter two hundred and fifty-one of the acts of the year nineteen hundred and five, and section fifty-two of said chapter seventy-five are hereby amended by inserting after the word "disease," wherever it may occur in said sections, the words:—declared by the state board of health to be,—so as to read as follows:—

Section 49. A householder who knows that a person in his family or house is sick of small-pox, diphtheria, scarlet fever or any other infectious or contagious disease declared by the state board of health to be dangerous to the public health shall forthwith give notice thereof to the board of health of the city or town in which he dwells. Upon the death, recovery or removal of such person, the householder shall disinfect to the satisfaction of the board such rooms of his house and articles therein as, in the opinion of the board, have been exposed to infection or contagion. Should one or both eyes of an infant become inflamed, swollen and red, and show an unnatural discharge at any time within two weeks after its birth, it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the board of health of the city or town in which the parents of the infant reside, the fact that such inflammation, swelling and redness of the eyes and unnatural discharge exist. On receipt of such report, or of notice of the same symptoms given by a physician as provided by the following section, the board of health shall take such immediate action as it may deem necessary in order that blindness may be prevented. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars. Section 50. If a physician knows that a person whom he is called to visit is infected with small-pox, diphtheria, scarlet fever or any other disease declared by the state board of health

to be dangerous to the public health, or if one or both eyes of an infant whom or whose mother he is called to visit become inflamed, swollen or red, and show an unnatural discharge within two weeks after the birth of such infant, he shall immediately give notice thereof in writing over his own signature to the selectmen or board of health of the town; and if he refuses or neglects to give such notice, he shall forfeit not less than fifty or more than two hundred dollars for each offense. Section 52. If the board of health of a city or town has had notice of a case of small-pox, diphtheria, scarlet fever or of any other disease declared by the state board of health to be dangerous to the public health therein, it shall within twenty-four hours thereafter give notice thereof to the state board of health stating the name and location of the patient so afflicted, and the secretary thereof shall forthwith transmit a copy of such notice to the state board of charity.

SEC. 2. This act shall take effect upon its passage. [Approved June 6, 1907.]

VACCINATION.

CHAP. 75, SEC. 136. A parent or guardian who neglects to cause his child or ward to be vaccinated before the child or ward attains the age of two years, except as provided in section one hundred and thirty-nine,* shall forfeit five dollars for every year during which such neglect continues.

CHAP. 75, SEC. 137. The Board of Health of a city or town if in its opinion, it is necessary for the public health or safety, shall require and enforce the vaccination and re-vaccination of all the inhabitants thereof and shall provide them with the means of free vaccination. Whoever, being over twenty-one years of age and not under guardianship, refuses or neglects to comply with such requirement shall forfeit five dollars.

CHAP. 44, SEC 6. [Revised Laws, as amended by Chap. 371, Acts of 1906.] A child who has not been vaccinated shall not be admitted to a public school except upon presentation of a certificate signed by a regular practicing physician that he is not a fit subject for vaccination. A child who is a member of a household in which a person is ill with small-pox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the Board of Health of the city or town, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

Note—Section 139, referred to above, exempts children who present a certificate signed by a registered physician that they are unfit subjects for vaccination. Application for free vaccination, by persons who are unable to pay for it, may be made to the Clerk or Agent of the Board of Health.

REPORT OF THE SANITARY INSPECTOR.

Board of Health :—

GENTLEMEN :— I have the honor to submit my report as Sanitary Inspector for the year ending December 31, 1908.

The work of this office has been the same as that of previous years.

All complaints have been investigated and wherever actual nuisance or unhealthful conditions were found to exist they have been satisfactorily abated or adjusted in every instance.

Respectfully submitted,

CHARLES T. HARTWELL,

Sanitary Inspector.

ARLINGTON, December 31, 1908.

REPORT OF THE FUMIGATOR.

Board of Health :—

GENTLEMEN :— I have the honor to submit my report as fumigator for the year ending December 31, 1908.

Whole number of cases fumigated fifty-four (54).

Twenty-six (26) cases of scarlet fever requiring the fumigation of seventy-five (75) rooms.

Twenty-one (21) cases of diphtheria requiring the fumigation of thirty-six (36) rooms.

Seven (7) cases of tuberculosis requiring the fumigation of fourteen (14) rooms. Halls, stairways and closets fumigated wherever necessary.

Respectfully submitted,

CHARLES T. HARTWELL,

ARLINGTON, December 31, 1908.

Fumigator.

REPORT OF THE INSPECTOR OF PLUMBING.

To the Board of Health of the Town of Arlington : —

GENTLEMEN : — Below please find the report of your Inspector of Plumbing for the period from June 26, 1908 to January 1, 1909.

Total number of calls made.....	166
Total number of applications received for which permits were issued	55
Total number of certificates issued.....	48
Issued on applications on file previous to the time when I took the position.....	7
Number on file on which work has not been completed.....	14

The quality of the work done in the town has generally been first class. That of the mechanics of the town has been especially commendable.

There have been no infractions of the law that were not promptly and properly righted when called to the workman's notice.

Respectfully submitted,

GEORGE W. DAY,

January 1, 1909

Inspector.

REPORT OF INSPECTOR OF SLAUGHTERING.

To the Board of Health : —

GENTLEMEN : — I submit the following report for the year ending December 31, 1908.

Licenses have been granted to the Bowman Brothers to slaughter animals in the Town of Arlington.

They have a well ventilated and well kept house to slaughter in.

Have made one hundred and eighty-five visits to the two houses during the year and have inspected 3779 veal, four cows, thirty pigs and four lambs.

I would recommend that they be granted licenses for 1909.

Inspected veal slaughtered by Herbert Hathaway and condemned and seized seven.

Respectfully submitted,

FRANK P. WINN,

December 31, 1908.

Inspector of Slaughtering.

REPORT OF THE BOARD OF EXAMINERS OF PLUMBERS

The Board of Examiners of Plumbers make the following report for the year 1908.

In accordance with the requirements of Section 3, Chapter 103, of the Revised Laws, the Board of Health on May 29, 1908, appointed Dr. Charles F. Atwood and Alfred H. Knowles to serve on the Board of Examiners of Plumbers, the Inspector of Buildings being a member of the Board ex-officio.

The Board after having suitable forms of examination prepared in accordance with those in general use in this vicinity, examined three applicants, and recommended to the Board of Health that licenses be issued, one in the grade of master plumber and two in the grade of journeyman plumber, the applicants having each passed a very creditable examination in their respective grades.

ROBERT W. POND

CHARLES F. ATWOOD, M. D.

ALFRED H. KNOWLES

Board of Examiners of Plumbers.

BOARD OF PARK COMMISSIONERS.

ARLINGTON, MASS., January 9, 1909

To the Honorable Board of Selectmen of the Town of Arlington:

The Park Commissioners submit the following report for the year 1908:

Meetings have been held during the year, and business brought before the department acted upon. Time has been given to the discussion whereby the Park System can be improved, and how the improvements now being made in Medford will effect Arlington. The Commissioners also find it desirable to have one man look after the different parks, caring for the vines, grass plots, shrubbery, flower beds, etc. On account of the dry summer it has been difficult to keep the grass looking well, as there is no means of keeping the ground sprinkled.

At Menotomy Rocks Park a patrolman has been employed several Sundays during the summer and fall, keeping out undesirable visitors. The hot summer weather brought a great many to the Park where they found it cool and refreshing. It is the desire of the Commissioners to make this place attractive with the least possible expense. A great deal of care was taken with the flowers and shrubbery at the Jason Street entrance, and a fine variety of bulbs have been planted this fall which will flower in the early spring.

In Russell Park concrete cross walks have been laid, also a concrete gutter built in the rear of the Russell school. The dry season has killed the grass somewhat in this Park, but we are in hopes it will show more life in the spring.

Trees and shrubbery should be planted in this Park, also the remaining cross walks concreted, to give a more attractive appearance.

Bills contracted by another department for the care of Wellington Park have been paid by this department, although the Park has not been turned over to the Park Commissioners.

At Meadow Brook Park the usual amount of filling has been done during the year.

The Medford Street triangles have been cared for, grass cut, hollow places filled, and some of the curb raised.

Respectfully submitted,

CHARLES H. GANNETT,
WILLIAM E. LLOYD,
BERT HOUGHTON,

Park Commissioners.

REPORT OF TREE WARDEN.

On December 5, 1908, Mr. A. Foster Brooks, for the past six years Tree Warden of the Town, died at his home on Massachusetts Avenue, after a long illness.

During his illness, which extended for a period of nearly two years, the work of the department devolved to a great extent on me as his assistant.

On December 11th, 1908, I was appointed by the Board of Selectmen to fill out the unexpired term as Tree Warden.

The experience gained while assistant to Mr. Brooks makes me familiar with the work of the department, and enables me to make suggestions and recommendations for the advancement of the work, which would be impossible did I not have this training and experience.

I would, therefore, make the following recommendations for the coming year:

TREE PLANTING. Each year, owing to the change of grade on various streets, a number of trees are removed. These trees should be replaced with young trees in all cases, as failure to do so will in a short time deprive us of our shade trees.

I would recommend for this purpose an appropriation of \$200.00.

TREE TRIMMING. Your attention has been called every year to the necessity of removing the decayed limbs of the trees occasioned by the pruning of the trees in removing the Gypsy and Brown Tail Moths. These decayed limbs are in many cases a menace to the people passing under them and should be removed.

While I believe it would cost at least \$1000 to do this work properly in one year, I would recommend an appropriation of at least \$300.00 this year in order to remove the most dangerous limbs and give a good start for the whole work without putting too much burden on the people in any one year. I, therefore, recommend an appropriation for this purpose for the ensuing year of \$300.00. This amount would also provide guards for small trees where required.

The reappearance of the Elm Beetle in large numbers the past year at one time looked serious, but through the efforts of Superintendent William H. Bradley, of the Gypsy and Brown Tail

Moth Department, in spraying the trees the spread has been checked and our elm trees are in better shape and look better than those of the surrounding towns.

The thanks of the department are extended to the Superintendent of Streets, Mr. Robert W. Pond, for many courtesies received during the year.

For receipts and disbursements I refer you to the Auditor's Report.

JOHN J. DONOHUE,

Tree Warden.

WILLIAM G. PECK,
THEODORE SCHWAMB,
A. D. HOITT,
Sinking Fund Commissioners.

MYRON TAYLOR,
Treasurer.

GEORGE McK. RICHARDSON,
Auditor.

REPORT OF
Commissioners of Cemeteries, Robbins Fund, Soldiers'
Monument Fund, and Samuel C. Buckman Fund.

ARLINGTON, Jan. 15, 1909.

The Commissioners of Cemeteries, Robbins Fund, Soldiers' Monument Fund, and Samuel C. Buckman Fund herewith submit their report for the year ending December 31, 1908.

During the year three sections of driveways within the Cemetery—Linden, Elm and Maple Avenues—were constructed by putting in a base of screened gravel, covering with Tarvia, and surfacing with gravel. The benefit of this method of construction is evidenced by the absence of mud and the rutting of the driveways during the frost period, freedom from weeds, and the prevention of dust.

The rapid sale of single graves and small lots during the past few years necessitated the grading of additional area to meet future requirements and during the past year a large portion of Plot "Q" has been graded, the loam stored for future use, and the excavated gravel carted to the adjoining park lands.

Water mains have been laid during the year in those portions of the cemetery heretofore without water, so that now all sections of the grounds that are laid out are supplied with water.

The following number of lots and single graves have been sold and interments made during the year:

Number of lots sold	24
Number of single graves sold	17
Interments in private lots	83
Interments in public lot	7
Interments in single graves	23
<hr/>	
Total interments	113

REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

To the Town of Arlington:—

The Trustees of the Robbins Library submit their annual report. The circulation of books shows a gain of 624,—45,128 for 1908 as against 44,504 for 1907, and in the Children's Room 12,779 for 1908 as against 10,918 for 1907, a gain of 1861. The average daily attendance in the Children's Room has risen from 22 to 30, a further increase of eight over the gain of three of the previous year; that of the Reading Room shows a loss of four,—55 against 59 in 1907. The stack room has been increasingly used by students and scholars for reference work, no record being kept of the volumes consulted, but this use of the Library may account for smaller number of books taken home for examination,—29,980 as against 30,753 in 1907, and 3,016 periodicals against 3,627 in 1907.

We have continued to keep the same number of books, 30, at Arlington Heights, as well as a small supply for the Arlington Heights Study Club. During 1908 these were called for by 792 individuals.

We have long felt the need of securing better accommodations for the branch library at the Heights, and hope during the current year to realize this desire.

We have recently changed the electric wiring of the Library, where it could be easily done, adding new apparatus and Tungsten lamps, a great improvement, and necessary to the safety of the building. A further expenditure must soon be incurred to make the work complete.

We are glad to report that the policy of open shelves is an increasing success. The stack room has been enriched by a case of birds placed in the northeast corner and loaned by Mr. Warren Freeman. This has attracted much attention and afforded a great deal of pleasure, as well as a Bald Eagle in the Catalogue Room presented by Mr. Bushnell. Among the more notable additions to the Library have been the Catholic and Jewish Encyclopedias, and the Biographies of distinguished citizens of Middlesex County, edited by William R. Cutter. The Library has also

been enriched by gifts of books by Winfield Robbins, the Misses Robbins, Melvin L. Severy, Rev. Geo. W. Cutter, Frank P. Stearns, Miss J. M. Maynard, Arthur J. Willis, Geo. L. Raymond, Charles Bradley, the Washington Elm Chapter of the Daughters of the Revolution, Cambridge, the Massachusetts Society of the Sons of the American Revolution and others.

Congressman McCall has sent us public documents, and arrangements were made for the return of 95 duplicate copies of similar documents which the government was glad to receive.

The Editors of the Advocate have continued to send us a file of that paper.

To show the value and attractiveness of the Children's Room, mention might be made of the efforts of the Assistant, Miss Edith C. Rice, to make the little people feel at home in that part of the Library. This was done by an exhibition of free hand drawing by the pupils of the primary and grammar schools, all the available wall space being used for this purpose, and some of the work being of high merit. Parents who found it difficult to visit the schools could thus easily examine the work of their children. The children were also encouraged to take an interest in current events by writing their names under the pictures of the various candidates for the Presidency, the girls expressing their preference for the lady they would like to see in the White House. Three hundred and thirty-seven votes were thus cast, the smaller children not included. It was also suggested that the children should write letters to their favorite authors, asking for autographs on cards of uniform size. From 64 such letters 55 responses have been received, many expressing their pleasure at being considered the friend of the boy or girl asking these favors. A collection of mosses from four of our Massachusetts beaches was made last summer and placed on exhibition to teach the children the difference in color, form and fragility between the mosses of our north and south shores. Care has been taken to increase the taste of the children for non-fiction books such as history, geography, travel and stories of great men.

The bulletin board has proved very useful in many ways, especially for holidays and birthdays of notable individuals. By these and similar methods the interest of the children in the Library has been greatly increased. The work of the other departments has been carried steadily forward. No adequate idea of the reference work done by Miss Baston could be given without using much space in furnishing subjects, titles, etc. The Trustees desire equally to commend the work of the Librarian and all her assistants.

Exhibitions of photographs, etc., have been given in addition to those hitherto reported.

Respectfully submitted,

ELIZABETH J. NEWTON,

Librarian.

Arlington, December 31, 1908.

REPORT OF BOARD OF PUBLIC WORKS.

The Board of Public Works herewith submit their annual report for the year ending December 31, 1908.

The first meeting of the Board was held on March 2, 1908, the organization resulting in the election of Peter Schwamb as Chairman. Forty-eight regular and one adjourned meetings were held during the year. The former policy of acting as a whole on all matters coming before the Board was continued.

APPOINTMENTS. At a meeting held March 30th, 1908, Thomas Roden was appointed Superintendent of the Water Division, Robert W. Pond, Superintendent of the Sewer Division, and Charles C. Lothrop, Water Registrar and Clerk. All appointments holding for one year.

HIGHWAY DIVISION.

The same policy adopted in the care and repair of streets last year has been continued this year. For details of the work done reference is made to the report of the Superintendent of Streets, with whose recommendations we concur as follows:

Raising grade of Boston Elevated Railway tracks on Mass. Avenue, west of Water Street.

Storm drains and extensions of same.

The elimination of cross walks on the main streets.

The extension of permanent sidewalks on a systematic basis, with a view of obtaining continuous walks on the most traveled sections of our streets.

The crusher plant should have the necessary repairs to enable it to be run another year in view of the probability of securing land for railroad yard, and probable change in method of obtaining crushed stone.

EXPENDITURES. A financial statement, showing a summary of all expenditures and costs is given in Table I, while Table II shows in detail the cost of constructing Tanager and Sawin Streets and Wollaston Avenue, at a total expense of \$4,695.71, giving an overdraft of \$195.11. Table III shows location in details of cost of permanent sidewalks and renewals of permanent side-

Stock on hand, Jan. 1, 1909	44 22
Grand total	\$3064 00	\$3064 00

* Work begun in 1907 at cost of \$265.76. † Reimbursement. A stands for Artificial Stone B stands for Brick. C stands for concrete. E stands for Edgestone,

walks. The total costs have been made to include all indirect expenses in the same manner as formerly.

The value of property controlled by this Division Jan. 1, 1909, amounted to \$16,204.82, classified as follows:

Crusher, roller, scarifier, drills and buildings.....	\$8,690.00
Horses and vehicles.....	4,796.00
Materials	356.22
Tools	2,362.60
Total	<u>\$16,204.82</u>

SEWER DIVISION.

During the year a short extension to the sewer in Warren Street from Medford Street was made.

At the Town Meeting held in November, 1908, an appropriation of \$50 was made for a sewer extension in Westminster Avenue. The cost of this sewer was \$55.49.

Fifty-two connections have been made with the main sewer at a total cost of \$1,714.13.

The necessary flushing and cleaning of the sewerage system has been done at a cost of \$162.56.

A detail statement giving costs of sewers built in 1908 by streets, including also particular sewers, is shown in Table IV.

A financial statement, giving distribution of expenditures, is shown in Table V.

Table VI gives a complete sewer statement to date.

The value of equipment and of materials on hand in the sewer division January 1, 1909, was as follows:

Materials	\$504.12
Horses and Vehicles.....	456.40
Tools, appliances and storehouse.....	1,320.99
Engineering instruments and supplies.....	494.80
Total	<u>\$2,776.31</u>

It is recommended that the sewers be extended wherever it can be shown that they are necessary.

An appropriation of \$1,500 is recommended for general purposes, including maintenance and operation of new pumping plant.

SUMMARY OF SEWERAGE STATISTICS.

(In form recommended by Sanitary Section of Boston Society Civil Engineers.)

For the Year Ending December 31, 1908.

Arlington, Mass.

GENERAL.

Population by census of 1905, 9,668.

Total area of city or town, 5.5 square miles.

Area served by sewerage system, 1.8 square miles.

Collection System

For sewage only, 27.28 miles.*

For sewage and surface water 0 miles.

For surface water only, 7.0 miles.

Method of disposal: Sewerage into Metropolitan Sewer, surface water into brooks.

*Includes 3.47 miles local Metropolitan Sewer.

Balance from 1908 appropriation	166.64
	<hr/>
	\$2,253.87

WATER DIVISION.

EXTENSION OF STREET MAINS. In all there have been laid 543 feet of 8-inch and 1298 feet of 6-inch pipe, to extend the high and low service systems at a total cost of \$2,735.45. Funds were obtained by the issue of notes for \$2,000 by the Town Treasurer and a balance of \$419.15 from the notes issued in 1907, and an overdraft of \$316.30.

RENEWAL OF STREET MAINS. In all 2937 feet of 8-inch and 1666 feet of 6-inch cast iron pipe has been laid to replace cement-lined pipe. The total cost of this work was \$6,090.40. For this renewal there was appropriated \$7000, leaving a balance which was used to purchase cast iron pipe for later renewals, which appears in the increased value of stock on hand.

The total overdraft of this division for the year 1908 was		\$2,158.70
Offsetting this we have the following:		
Credits for 1908 remaining unpaid.....	\$59.74	
Overdraft on extension of mains.....	316.30	
Increased value of stock, that of 1907 being \$5,341.94 and that of 1908 being \$6,561.86.....	1,219.92	
Balance for 1907 not allowed the department as formerly	568.83	
Balance in favor of water division		6.09
	<hr/>	<hr/>
	\$2,164.79	\$2,164.79

The detail costs of extensions and renewals are shown in Table VII, and the distribution of expenditures to construction, maintenance and stock is shown in Table VIII.

MAINS. The lengths and sizes of cement-lined and iron pipe in use January 1, 1909, together with the number of hydrants and gates on both the high and low service systems are shown in the following table:

LOW SERVICE SYSTEM.

	Size, Inches.	Length, Feet.	Hydrants.	Gates.
Cement-lined pipe....	12	8,530		
“ “ “....	6	1,240		
“ “ “....	4	10,521		
Total		20,291	28	19
Iron pipe.....	12	6,771		
“ “ “.....	10	6,977		
“ “ “.....	8	17,781		
“ “ “.....	6	32,738		
“ “ “.....	4	11,794		
Total		76,061	148	126
Total both kinds....		90,352 18.25 miles.	176	145

HIGH SERVICE SYSTEM..

	Size, Inches,	Length, Feet.	Hydrants.	Gates.
Iron pipe.....	12	16,503		
“ “ “.....	10	14,644		
“ “ “.....	8	13,716		
“ “ “.....	6	50,431		
“ “ “.....	4	1,497		
Total.....		96,791 18.31 miles.	204	171

The total of both systems is 36.58 miles of pipe, 380 hydrants and 316 gates. In addition there are 4,448 feet of smaller pipes, 2-inch to 1 1-4-inch laid in places where hydrants were not needed, and the amount of water required was small.

REPAIRS ON MAINS. There have been three leaks in the cast iron pipes, all on the high service, due mainly to the lead starting at the joints. There have been four leaks in the low service system, one in the cement-lined pipe. To repair the latter it was necessary to substitute cast iron pipe, the cement-lined pipe being badly corroded. Had the system been subjected to a pressure

increase as was the case last year doubtless more trouble would have arisen on account of breakage in the cement-lined pipes. It is, therefore, very necessary to push the work of renewal of the cement-lined pipes until all the 4-inch and 6-inch pipes have been replaced. To reduce the pressure fluctuations due to pumping and to render the system less liable to interruptions due to pipe leaks the Metropolitan Force Main has been extended in Massachusetts Avenue from Brattle Street to Robbins Road and connected into our pipe on Robbins Road. This force main is to be eventually extended up Robbins Road to the standpipe.

SERVICES. Sixty-five new services have been added during the year. Forty-two on the high service and twenty-three on the low service system. Nine services have been changed from the low to the high system. There are 1221 services on the low and 792 on the high service system, 65 in use by the sewer division for flushing sewers and 27 services for street watering standpipes.

REPAIRS ON SERVICES. Many complaints have been received of insufficient pressure which upon investigation have been found due almost wholly to rusting of pipes, on the premises of the consumer, which are often too small for the service required.

RESERVOIR. The nests of the brown-tail moths have been removed, the underbrush cleared up, the fences repaired and the brook cleaned.

HYDRANTS. The hydrants have been repaired and all have been oiled and painted, and are now in good condition.

METERS. The following table gives the number of the various sized meters in use during the year and the uses of the water:

WHERE USED.	SIZE.					Total.
	$\frac{5}{8}$ Inch.	$\frac{3}{4}$ Inch.	1 Inch.	$1\frac{1}{2}$ Inch.	2 Inches.	
Church	1	1
Library	1	1
Domestic	772	47	15	834

Factories	1	2	3	6
Hotels	5	1	6
R. R. stations	1	1	1	3
Milk rooms	1	1
Bakeries	1	1
Clubs	3	1	4
Restaurants	1	1
Miscellaneous	11	7	10	2	30
Total	822	91	56	12	11	992

According to an Act passed by the Legislature, viz., Chap. 524, of the Acts of 1907, the department is obliged to meter all new services installed after Dec. 31, 1907, and during each year to meter at least 5 per cent. of the unmetered services in use Dec. 31, 1907. There were in use Dec. 31, 1907, 1094 unmetered services, thus making it necessary to install 55 meters per year, in addition to those for new services.

The water supplied by the Metropolitan Water Board has been of good quality and the quantity used as measured and reported was as follows:

	GALLONS.	
	Per day.	Per capita per day.
January,	759,600	73
February,	893,400	86
March,	767,400	74
April,	835,200	80
May,	927,700	89
June,	1,315,700	126
July,	1,316,500	126
August,	1,024,600	98
September,	1,161,000	111
October,	938,900	89
November,	855,000	81
December,	861,900	82
Average for year,	971,400	93

The per capita consumption is arrived at on a basis of 10,500 consumers.

RECOMMENDATIONS.

RECOMMENDATIONS. We urgently recommend that the renewal of cement-lined pipes, in use since 1872, be concluded as soon as possible and suggest that the pipes in Beacon, Park, Pleasant and Webster Streets be renewed during the coming season.

We also recommend that the use of water meters be extended more rapidly than the 5 per cent. basis now required by law on account of the saving in water consumption thus brought about.

Respectfully submitted,

PETER SCHWAMB,
WILLIAM N. WINN,
HENRY W. HAYES,

Board of Public Works.

ARLINGTON, Dec. 31st, 1908.

TO THE BOARD OF PUBLIC WORKS:

GENTLEMEN:—My report for the year ending Dec. 31st, 1908, is hereby respectfully submitted:

EXTENSION OF MAINS. Mains have been extended on the high service system in Harvard, Linden, West and Oakledge Streets, and in Park Avenue extension, and on the low service in Magnolia Street.

GATES AND HYDRANTS. One 5-inch hydrant has been set in Harvard Street, one 6-inch gate and one 5-inch hydrant in Linden Street, two 6-inch gates and one 5-inch hydrant in Oakledge Street, and one 8-inch gate and one 5-inch hydrant in Park Avenue extension.

RENEWAL OF MAINS. The 4-inch cement pipe in Medford Street, has been replaced by an 8-inch cast iron pipe from Massachusetts Avenue to Parallel Street, three gates and four hydrants have been installed and two gates and four hydrants discontinued. This street from Massachusetts Avenue to the Mystic River is now complete with cast iron pipe.

The 4-inch cement main in Franklin Street between Broadway and Warren Street has been replaced by a 6-inch cast iron pipe, one hydrant set and one removed.

A 6-inch pipe has been laid in Lake Street, between Cross Street, in Belmont, to about one hundred feet east of the Alewife brook to replace the 4-inch cement pipe abandoned, one gate and one hydrant set and one hydrant removed. A cast iron pipe is now laid in Lake Street, the entire distance between Massachusetts Avenue and Pleasant Street.

RESERVOIR LOT. The reservoir lot has been cleared of brush, the brook cleaned out and the fences repaired and put in fairly good condition.

STANDPIPE LOT. The standpipe lot has been cared for as usual the driveways regraveled and raked where the gravel was washed off by the overflowing of the standpipe.

RECOMMENDATIONS. I would recommend that the cement pipe in Beacon, Park, Webster and Hamlet Streets, be renewed the ensuing year and that the high service be extended in Mystic Street, between Summer Street and the high service hydrant opposite the Peirce and Winn Coal yard.

Respectfully submitted.

THOMAS RODEN.

SUMMARY OF STATISTICS.

For the Year Ending December 31, 1908.

In form recommended by the New England Water Works Association.

ARLINGTON WATER WORKS.

Arlington, Middlesex County, Mass.

Population by Census of 1905, 9,668.

Date of Construction, low service, 1872; high service, 1894.

By whom owned, Town of Arlington.

Source of supply, Metropolitan Water System.

CONSUMPTION.

1. Estimated total population at date, 11,500.
2. Estimated population on lines of pipe, 10,600.
3. Estimated population supplied, 10,500.
4. Total consumption for the year, 354,563,920 gallons.
5. Passed through meters, 101,644,170 gallons.
6. Percentage of consumption metered, 28.7 per cent.
7. Average daily consumption, 971,408 gallons.
8. Gallons per day to each inhabitant, 84.
9. Gallons per day to each consumer, 93.
10. Gallons per day to each tap, 490.

DISTRIBUTION.

Mains.

1. Kind of pipe, cast-iron and cement.
2. Sizes, from 4-inch to 12-inch.
3. Extended feet during the year, 1841.
4. Discontinued———feet during year.
5. Total now in use, 36.56 miles.
6. Cost of repairs per mile, \$6.55.
8. Length of pipe less than four inches diam., 4,448 ft.
9. Number of hydrants added during year (public), 4.
10. Number of hydrants (public and private) now in use, 380.
11. Number of stop gates added during year, 7.
12. Number of stop gates now in use, 316.
15. Average pressure on mains at centre of Town, 90 lbs. high system; 50 lbs. low system.

Services.

16. Kind of pipe, cement-lined, galvanized, cast-iron.
17. Sizes $\frac{5}{8}$ inch to 6-inch.
21. Number of service taps added during year, 65.
22. Number now in use, 1,979.
24. Average cost of service for the year, \$17.51.
25. Number of meters added, 157.
26. Number now in use, 992.
27. Percentage of services metered, 50 per cent.
28. Percentage of receipts from metered water (B÷C), 54.3 per cent.
30. Number of motors in use, 4.

REPORT OF REGISTRARS OF VOTERS.

ARLINGTON, December 31, 1908.

The Board of Registrars of Voters herewith submit their report for the year ending December 31, 1908.

During the year the Board held seven sessions, as required by law, arranging them so that there was one meeting in the spring and one in the fall at Arlington Heights.

The total number of registered voters as reported January 1, 1908, was 1892.

Whole number males	1774	
Whole number females	118	
	—	1892

During the year 152 names were stricken from the list for death, removal, or other causes.

At the various meetings held during the year the number added was as follows:

Town Hall, Feb. 5, 1908	6	
Union Hall, Feb. 14, 1908	11	
Town Hall, Feb. 21, 1908	17	
Town Hall, Sept. 16, 1908	29	
Town Hall, Oct. 16, 1908	43	
Union Hall, Oct. 19, 1908	42	
Town Hall, Oct. 24, 1908. . . .	114	
	—	262

Making a total registration for the year of 262.

The list as revised to Jan. 1, 1909, is as follows:

Whole number registered	2002	
Whole number men	1884	
Whole number women	118	
	—	2002

JOHN W. BAILEY,
WINTHROP PATTEE,
EBEN F. DEWING,
THOMAS J. ROBINSON,

Registrars of Voters.

REPORT OF TOWN CLERK.

ARLINGTON, Dec. 31, 1908.

The Report of this department for the year ending December 31, 1908, is herewith submitted :

The full Reports of Town Meetings, Cemetery Commissioners, Registrars of Voters, and Death Statistics, all of which come under the work of this department, may be found under those headings.

BIRTHS AND MARRIAGES REGISTERED DURING THE YEAR 1908.

Total number of births registered	252
Females	134
Males	118
Born in Arlington	229
Born in other places	23

The parentage of the children born was as follows:

Born in the United States, both parties	214
Born in Foreign Countries, both parties	178
Born in United States, one parent	56
Born in Foreign Countries, one parent	56
Born in Arlington, both parents	14
Born in Arlington, one parent	47

MARRIAGES.

Whole number of couples recorded	91
Residents of Arlington	106
Other places	76
Solemnized in Arlington	51
Solemnized in other places	40
Groom, first marriage of	79
Groom, second marriage of	12
Bride, first marriage of	83
Bride, second marriage of	8

HARVEY S. SEARS,

Collector of Taxes.

December 31, 1908.

I have examined the accounts of Harvey S. Sears, Collector of Taxes for the Town of Arlington, Mass., and find the same correct, agreeing with the Auditor's Books.

GEORGE McK. RICHARDSON,

Auditor.

December 31, 1908.

AUDITOR'S REPORT,

For the Financial Year Ending Dec. 31, 1908.

The books of the Treasurer and Collector have been examined and found correct, and the balance of cash on hand as reported. A list of unpaid assessments verified by the Auditor is on file in this office.

The books of the Cemetery Department have been examined and agree with the Auditors.

The Dog License book, kept by the Town Clerk, has been examined, and the proper amount paid to the County Treasurer, and receipted for by him.

The books of the Sealer of Weights and Measures, and the Inspector of Milk, have been examined and amounts paid to the Town Treasurer found correct.

The amounts collected and paid to the Treasurer for rents of Town Hall is correct.

The accounts of the following Trust Funds have been examined and found correct, and the Investments on hand as reported by the Trustees of the various funds:

Elbridge Farmer Fund.

Nathan Pratt Library Fund.

Nathan Pratt High School Fund.

Nathan Pratt Poor Widows' Fund.

High School Income Fund.

Sinking Fund.

Martha M. W. Russell School Fund.

Martha M. W. Russell Poor Widows' Fund.

Mary Cutter Poor Widows' Fund.

Income Poor Widows' Funds.

William Cutter School Fund.

E. Nelson Blake, Jr., Memorial Fund.

Henry Mott Library Fund.

Timothy Wellington Fund.

Julia Fillebrown Fund.

Military Fund.

Citizens Soldiers' Fund.

Soldiers' Monument Fund.

Robbins Fund.

Samuel C. Buckman Fund.

Cemetery Perpetual Care Funds.

Income Cemetery Perpetual Care Funds.

The bequest of C. H. Pattee received in 1907 was paid into the Cemetery Perpetual Care Funds by order of the Board of Selectmen.

OVERDRAFTS. The overdrafts in Abatements, Interest, and Incidentals are due to the fact that payments on these accounts must be made whether the account has a credit balance or not, all legal claims and awards being charged in the Incidental account.

The overdraft in Watering Streets is due to the prevailing custom of anticipating credits. It has been customary for some years to receive a contribution of \$200 for this account, and as it was anticipated this year and contracts made on that basis, payments were made in accordance with the terms of contracts. The contribution, however, has been withheld this year, thus causing the overdraft. The anticipating of credits should be discouraged so far as possible.

The overdraft in Water Division account is due to the fact that in making up the estimated income for 1908, the balance of cash on hand, and stock on hand, were both included, while the cash on hand was appropriated to Interest account, and stock on hand Dec. 31, 1908, shows an increase over the stock on hand Dec. 31, 1907.

No separate account being kept of the Extension of Mains, the Auditor has no control over the expenditures. This cost is certified by the Board of Public Works at the end of the year and a transfer entry made of the amount.

The same statement applies also to Renewal of Main Pipes.

The Auditor would recommend that appropriations be made and accounts kept in such a way as to show clearly the regular cost of maintaining each department, and such charges as go to the Maintenance account should be thoroughly understood when appropriations are made.

FINANCIAL. Attention is called to the Financial Statement by which it will be seen that the borrowing capacity of the Town is now considerably below \$100,000, and the question of further borrowings should receive very careful consideration. No account is taken of the Town's share of the Metropolitan Debts as these are apportioned and paid each year as Metropolitan Taxes. These taxes are made up of Sinking Fund Requirements, Interest, and Maintenance charges. The interest charges paid by the Town on Metropolitan Debts in 1908 amounted to \$16,935.12, which added to the interest paid in Town Debt and Water Debt, shows a total payment of \$45,647.71 for interest in 1908. The increase in Town Debt will add about \$2,000 to the Interest account, and with an increased Metropolitan Debt will carry our Interest account close to \$50,000 in 1909.

The Auditor feels it is his duty to call to the attention of the Town the fact that a contract between the Town and the Lexington Peat Co. calls for the payment of \$2,000 on or before May 1, 1908, and the balance (\$3,737.30) on or before August 1, 1908, the first payment only has been received and the matter is now in the hands of the Town Counsel.

Under the provisions of the act relating to Cemeteries recently accepted by the Town, the receipts from the sale of lots are placed under the control of the Board of Cemetery Commissioners and the Board of Selectmen. As statute law takes precedence over the vote of the Town holding these receipts as funds available for transfer or appropriation, the Auditor would recommend that such receipts be placed to the credit of Cemetery account and no appropriation by taxation be made for this department. A portion of the receipts from sales should be used in establishing a fund, to provide for additional Cemeteries in the future.

A list of unpaid bills for 1908 reported by the several departments is as follows:

HIGHWAY DIVISION.

Dec. 31	Peirce & Winn Co., Grain and Straw.....	\$86.95
Dec. 31	Sewer Division, Cement and Teaming.....	\$106.40

L.. . .

REPORT OF ASSESSORS.

With the appropriation granted us by the Town for the year 1908 we have been able, in addition to our own work, to also make out the tax bills and the bills for street watering for the Town Collector. It seems proper that this work should be done by the assessing department.

There are constant calls for the Assessors, both by the town officials of other departments and by private citizens of our own and other towns. The office should be open all the time.

We have adopted a system of card catalogue for the transfers and it is proving very satisfactory. The poll tax list will also be done by the same system during the year 1909.

With the help of the Supervisors of Assessors, recently appointed by the State, over \$125,000 in personal property was added in December.

We believe that a start should be made towards establishing a block system. This work can be economically done by the Town Engineer and his department, and we would recommend an appropriation of \$300 by the Town to begin the work.

STREET WATERING. We believe the Town should assess the abutters on the streets watered two cents per front foot, the balance to be paid by the Town. We must not forget that the abutters besides their direct tax also have to pay their proportion of the balance. Street watering is largely to protect the surface of the streets and the Town at large should pay for it.

The Assessors are in their office every Thursday afternoon from two to four P. M., and are always pleased to meet any tax payer who has any suggestion or complaint to make.

The Town makes the tax rate; the Assessors are doing their best to apportion the burden fairly and justly.

O. W. WHITEMORE,
L. D. BRADLEY,
A. H. SEAVER,

Assessors of Arlington.

ARLINGTON TOWN RECORDS FOR THE MUNICIPAL YEAR, 1909.

TOWN MEETING—MONDAY, MARCH 1, 1909.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Monday, the first day of March, at 6.00 o'clock A. M., then and there to act on the following articles, viz:—

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To elect by ballot the following town officers:—a Town Clerk, for one year; a Town Treasurer, for one year; a Town Collector, for one year; an Auditor, for one year; three Selectmen, for one year; three members of the Board of Public Works, for one year; one Assessor, for three years; three members of the School Committee for three years, and one member for one year; one member of the Board of Trustees of the Pratt Fund, for five years; one member of the Board of Commissioners of the Sinking Fund, for three years; two Trustees of the Robbins Library, for three years; one Cemetery Commissioner, for three years; five Constables, for one year; one Park Commissioner, for three years; one member of the Board of Health, for three years; one Tree Warden, for one year. Also to choose or appoint all the other usual Town Officers, in such manner as the Town may determine. Also upon the same ballot to vote "Yes" or "No" upon the question, "Shall an Act passed by the General Court in the year 1908, entitled, 'An act to provide for the protection of forest or sprout lands from fire' be accepted by this Town?" Also, upon the same ballot to vote "Yes" or "No" upon the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?"

For these purposes the polls will be opened as soon as possible after the organization of the meeting and kept open until five o'clock, P. M.

ART. 3. To hear and act on the reports of the Selectmen and other Town officers and Committees heretofore appointed.

ART. 4. To make appropriation for the Robbins Library for the ensuing year.

ART. 5. To make an appropriation for the Public Schools for the ensuing year, and determine in what manner the same shall be expended.

ART. 6. To determine in what manner the town ways, highways and bridges shall be repaired the ensuing year.

ART. 7. To determine what sum of money the Town will raise by general tax, to defray Town expenses, interest, debt, and State Aid, and make an appropriation for the same.

ART. 8. To see if the Town will appoint the Selectmen agents of the Town, to institute and prosecute in favor of the Town and appear and defend suits and legal proceedings against or involving the interests of the Town, with power to employ counsel therein and when necessary, in all other legal matters and business appertaining to Town affairs during the year commencing March 1st, 1909.

ART. 9. To see what action the Town will take in relation to the appointment of a Committee of Twenty-one for the ensuing year.

ART. 10. To see if the Town will appropriate the sum of \$275.00 for the proper observance of Memorial Day, the same to be expended under the direction of Francis Gould Post 36, G. A. R.

ART. 11. To see if the town will vote to provide more adequate cell and office facilities for the police department and make an appropriation for the same.

(Inserted at request of Special Committee thereon.)

ART. 12. To see if the Town will appropriate \$7000, in accordance with the vote passed December 6, 1904, for water used for fire-hydrants, street watering and public buildings for the ensuing year.

ART. 13. To see what action the Town will take in regard to the extension of the water mains, make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 14. To see if the Town will make an appropriation for the construction and repair of permanent sidewalks.

(Inserted at request of Board of Public Works.)

ART. 15. To see if the Town will make an appropriation for the maintenance and extension of the Sewerage System for the ensuing year, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 16. To see if the Town will make an appropriation for the use of the Highway Division.

ART. 17. To see if the Town will make an appropriation for street watering, or for the use of treatment for the prevention of dust, and determine in what manner the money shall be raised.

(Inserted at request of Joint Board.)

ART. 18. To see if the Town will make an appropriation for street lighting.

(Inserted at request of Joint Board.)

ART. 19. To see if the Town will vote to authorize its Collector of Taxes to use all means of collecting taxes for the year 1909 which a town treasurer may use when appointed a collector of taxes.

(Inserted at request of Collector of Taxes.)

ART. 20. To see if the Town will appropriate the sum of \$165, rental of Lawrence Field, to be used by the school children for athletic purposes, under the direction of the school committee.

(Inserted at request of School Committee.)

ART. 21. To see if the Town will vote to grade the playground of the Locke School, make an appropriation for the same and determine in what manner the money shall be raised.

(Inserted at request of School Committee.)

ART. 22. To see if the Town will make an appropriation of \$300, to commence the work of establishing a block system for the use of the Board of Assessors, the same to be expended under the direction of the Assessors.

(Inserted at request of Board of Assessors.)

ART. 23. To see if the town will direct the Joint Board of Selectmen and Board of Public Works to lay out and establish as a town way a street to be known as Gray Street, extending from the present westerly end of Gray Street to Oakland Ave., in accordance with the plans showing lines and grades approved by the Board of Survey, now on file in the office of the Town Clerk.

(Inserted at request of Omar W. Wittemore and others.)

ART. 24. To see if the Town will accept and establish as a town way the private way known as Woodland Street, extending from Jason Street to Bartlett Avenue, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

Beginning at a point on the northerly line of Jason Street, 490.22 ft. from the westerly line of Gray Street; thence, at an angle of 97 degrees 9 minutes in a northerly direction 282.23 feet to the northerly line of Bartlett Avenue at a point 408.77 feet distant from the westerly line of Gray Street, measured on the said northerly line of Bartlett Avenue. The above described line is the easterly line of said Woodland Street and the westerly line is Parallel with and distant therefrom 40 feet, as shown on plan entitled "Plan and Profile of Woodland Street, August, 1902, Robert W. Pond, Eng.," approved by the Board of Survey, October 23, 1902, on file in the office of the Town Clerk.

(Inserted at request of Joint Board.)

ART. 25. To see if the Town will accept and establish as a town way the private way known as Bartlett Avenue, extending from Gray Street to Woodland Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

Beginning at a stone bound on the westerly line of Gray Street 304 feet from a stone bound at the northwesterly corner of said

Gray and Jason Street; thence, at an angle of 90 degrees with the westerly line of Gray Street 122.63 feet to a stone bound; thence, by a curved line of 142.44 feet radius 56.25 feet to a stone bound; thence, continuing in a westerly direction 229.89 feet to a stone bound on the easterly line of Woodland Street, so-called, at a point 282.23 feet from the northerly line of Jason Street. The above described line is the northerly line of said Bartlett Avenue, and the southerly line is parallel with and distant therefrom 40 feet, as shown on plan entitled, "Plan and Profile of Bartlett Avenue, August, 1902, R. W. Pond, Engineer," approved by the Board of Survey, October 23, 1902, on file in the office of the Town Clerk. (Inserted at request of Joint Board.)

ART. 26. To see if the Town will accept and establish as a town way to be known as Gray Street the private way extending from Walnut street to Robbins Road, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

Beginning at a point on the easterly line of Walnut Street 1354½ feet more or less from the southerly line of Massachusetts Avenue, said point being the intersection of the said easterly line of Walnut Street and the northerly line of Gray Street, as shown on plan entitled "Plan and Profile of Gray Street extension, Arlington, Mass., December, 1899, H. S. Adams, C. E.," approved by the Board of Survey, June 16, 1900, on file in the office of the Town Clerk. Thence, northerly 43 degrees 25 minutes west 1006.7 feet to a stone bound on the westerly line of Robbins Road 1366.44 feet from the southerly line of Massachusetts Avenue. Said described line is the northerly line of said Gray Street, and the southerly line is parallel with and distant therefrom 50 feet, as shown on the plan above referred to, also on plan entitled "Plan of Atwood Avenue, Arlington, Mass., owned by Robbins Spring Water and Land Associates, H. S. Adams, C. E., March, 1898," approved by the Board of Survey, May 28, 1898, on file in the office of the Town Clerk.

(Inserted at request of Joint Board.)

ART. 27. To see if the Town will make an appropriation for the construction of storm drain to take care of the surface water on Bow Street at junction of Old Bow Street.

(Inserted at request of Board of Public Works.)

ART. 28. To see if the Town will make an appropriation for the renewal of cement lined water mains, make an appropriation therefor, and determine in what manner the money shall be raised.

ART. 29. To see if the Town will make an additional appropriation to be expended from Nov. 30, 1908, and for the twelve months next ensuing for suppressing the gypsy and brown tail moths, in accordance with the provisions of Chapter 381, Acts of 1905, and amendments thereto, and determine in what manner the money shall be raised.

ART. 30. To see if the Town will vote to purchase land for Town purposes, make an appropriation for the same and determine in what manner the same shall be raised.

(Inserted at request of Special Committee thereon.)

ART. 31. To see what action the Town will take in reference to the construction of additional school buildings and additions to existing school buildings throughout the Town, and in reference to increased accommodations for the schools throughout the Town, make an appropriation therefor, and determine in what manner the money shall be raised.

(Inserted at request of Special Committee on addition to High School.)

ART. 32. To appropriate and raise, by borrowing or otherwise, such sum or sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this seventeenth day of February, in the year of our Lord one thousand nine hundred and nine.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
WALTER B. DOUGLASS,

Selectmen of the Town of Arlington.

Arlington, February 27, 1909

Middlesex County:

By virtue of this Warrant, I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections, to meet at the time and place, and for the purposes herein named by causing a printed attested copy of the same to be left at every dwelling house in Town, and also by posting an attested copy of said Warrant on the door of the Town Hall in said Arlington, seven days at least before said day of meeting.

GARRITT BARRY, Constable.

In pursuance of the foregoing Warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, in said Arlington, on Monday, the first day of March, in the year of our Lord one thousand nine hundred and nine, and were called to order at six (6) o'clock in the morning by the Town Clerk, who read articles one and two of the Warrant calling the meeting and the return thereon of the Constable, who served the same upon the inhabitants. By unanimous consent the reading of the remaining articles in the Warrant was postponed until the adjourned meeting.

Article 1 taken up. (Choice of Moderator.)

John G. Brackett received four votes, and this number being all the votes cast, he was declared elected Moderator and was sworn to the faithful performance of his duties by the Town Clerk.

The following ballot clerks, tellers and election officers having been previously appointed by the Selectmen, were sworn to the faithful discharge of their duties and assigned as follows:

Ballot Clerks.—Edgar Crosby and John J. Mahoney.

Inspectors.—George W. Perkins and Frank F. Russell.

Tellers at Ballot Box.—Arthur L. Bridgham and George C. Tewksbury.

In charge of Ballot Box.—Horace A. Freeman.

Counters of Ballots:—Thomas A. Smith, Henry K. Brown, William E. Bunton, Frank B. Records, Jr., William D. Grannan, James M. Mead, Frank A. O'Brien, David T. Dale.

A sealed package of ballots was then delivered to the Moderator who publicly broke the seal and delivered the ballots to the Ballot Clerks.

A package of women's ballots (for members of the School Committee only) was also delivered to the ballot clerks.

Cards of instructions and penalties on voters were posted in prominent places as were also specimen ballots, in conformity to law.

The ballot box was examined by the Moderator and Town Clerk and was found to be empty with the register set at zero. The box was then locked and the keys delivered into the custody of Constable Garritt Barry and remained in his custody until the close of the polls.

A list of registered voters, both men and women, was supplied by the Registrars of Voters, to the ballot clerks and checkers at the ballot box.

The polls were then declared open for the reception of votes for town officers under Article 2 of the Warrant, and remained open until five (5) o'clock in the afternoon, at which time, after due notice, they were declared closed.

By unanimous consent the ballot box was opened at various times during the day for the purpose of removing ballots to be counted.

At the close of the polls the ballot box registered five hundred twenty-three (523) votes.

The names checked at the ballot box and those checked by the ballot clerks were counted and found to agree with the number registered by the ballot box, five hundred twenty-three (523).

The ballots not used were enclosed in a package, sealed and delivered to the Town Clerk.

The ballots cast were then canvassed by the Moderator, Town Clerk and Tellers, and declaration made thereof at fifteen minutes after five o'clock, as follows:

Whole number of men's ballots cast, five hundred twenty-two (522). Whole number of women's ballots cast, one (1). Total number of ballots cast, five hundred twenty-three (523).

Town Clerk for one year.—Thomas J. Robinson had four hundred fifty-seven (457) votes and was declared elected. Sworn in open meeting by the Moderator. Blanks 65.

Selectmen for one year.—J. Howell Crosby had four hundred sixty (460) votes and was declared elected. Sworn March 1. Philip A. Hendrick had four hundred six-two (462) votes and was declared elected. Sworn March 1. Frederick S. Mead had four hundred fifty-eight (458) votes and was declared elected. Sworn March 1. Blanks 186.

Assessor for three years.—Leander D. Bradley had four hundred thirty-two (432) votes and was declared elected. Blanks 90. Sworn March 5.

Treasurer for one year.—Myron Taylor had four hundred twenty-nine (429) votes and was declared elected. Blanks 93. Sworn March 3.

Collector of Taxes for one year.—Harvey S. Sears had four hundred fifty (450) votes and was declared elected. Blanks 72. Sworn March 2.

Auditor for one year.—George McK. Richardson had four hundred twenty-eight (428) votes and was declared elected. Blanks 94. Sworn March 1.

Board of Public Works for one year.—Rodney T. Hardy had four hundred twenty-nine (429) votes and was declared elected. Sworn March 5. Henry W. Hayes had four hundred thirty (430) votes and was declared elected. Sworn March 5. William N. Winn had four hundred twenty-seven (427) votes and was declared elected. Sworn March 5. Blanks 280.

School Committee for three years.—Edward W. Goodwin had four hundred nine (409) votes and was declared elected. Sworn March 8. Alton F. Tupper had four hundred four (404) votes and was declared elected. Sworn March 3. Daniel Wyman had four hundred seventeen (417) votes and was declared elected. Sworn March 8. Blanks 336.

School Committee for one year.—Edward N. Lacey had four hundred three (403) votes and was declared elected. Sworn March 2. Blanks 119.

Park Commissioner for three years.—Harold L. Frost had four hundred fourteen (414) votes and was declared elected. Sworn March 8. Blanks 108.

Board of Health for three years.—Guy E. Sanger had four hundred fourteen (414) votes and was declared elected. Sworn March 3. Blanks 108.

Commissioner of Sinking Fund for three years.—Henry Hornblower had four hundred eighteen (418) votes and was declared elected. Sworn March 9th. Blanks 104.

Trustee of Pratt Fund for five years.—James A. Bailey had four hundred one (401) votes, and was declared elected. Sworn March 9. Blanks 121.

Trustees Robbins Library for three years.—E. Nelson Blake had four hundred seven (407) votes and was declared elected. Blanks 114. Cyrus E. Dallin had three hundred ninety-three (393) votes and was declared elected. Blanks 129.

Cemetery Commissioner for three years.—J. Edwin Kimball had four hundred thirty (430) votes and was declared elected. Sworn March 8. Blanks 92.

Tree Warden for one year.—William H. Bradley had four hundred twenty-two (422) votes and was declared elected. Sworn March 8. Blanks 100.

Constables for one year.—Garritt Barry had four hundred twelve (412) votes and was declared elected. Sworn March 2. John Duffy had three hundred eighty-seven (387) votes and was declared elected. Sworn March 2. Daniel M. Hooley had four hundred seven (407) votes and was declared elected. Sworn March 3. Thomas F. Priest had three hundred seventy-four (374) votes and was declared elected. Sworn March 4. Thomas O. D. Urquhart had three hundred sixty (360) votes and was declared elected. Sworn March 2.

On the question "Shall licenses be granted for the sale of intoxicating liquors in this Town?" one hundred eight (108) voted "Yes" and three hundred forty-six (346) voted "No," and declaration was made that the Town had voted that no licenses be granted for the sale of intoxicating liquors during the ensuing year. Blanks 68.

On the question "Shall an Act passed by the General Court in the year nineteen hundred and eight entitled 'An Act to provide for the protection of forest or sprout lands from fire' be accepted by this Town?" two hundred sixty-seven (267) voted "Yes" and one hundred fifty-nine (159) voted "No," with ninety-six (96) blank votes, and declaration was made that the Town had voted to accept Chapter 209

of the Acts of the year nineteen hundred and eight, said Act being as follows:

“An Act to Provide for the Protection of Forest and Sprout Lands
From Fire.”

Section 1. In a town which accepts the provisions of this Act or has accepted a corresponding provision of earlier laws no fires shall be set in the open air between the first day of April and the first day of December, except by the written permission of the Forest Warden; provided that debris from fields, gardens and orchards, or leaves and brush from yards may be burned on ploughed fields by the owners thereof, their agents or lessees, but in every case such fire shall be at least two hundred feet distant from any forest or sprout lands, and shall be properly attended until it is extinguished. The Forest Warden shall cause public notice to be given of the provisions of this section and shall enforce the same. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars, or by imprisonment for not more than one month, or by both such fine and imprisonment.

Sec. 2. The provisions of the preceding section shall not apply to fires which may be set in accordance with regulations and methods approved by the Superintendent for suppressing the gypsy and brown-tail moths.

Sec. 3. The State Forester shall notify every town in the Commonwealth of the passage of this Act by sending at least three printed copies thereof to the Town Clerk, who shall post the same in conspicuous places.

Sec. 4. The State Forester and Forest Warden may arrest without a warrant any persons found in the act of setting a fire in violation of any provision of this Act.

Sec. 5. The Selectmen of every town shall cause this Act to be submitted to the voters for their acceptance at the next annual meeting of the town after the passage of this Act. The vote shall be taken by separate ballot, and shall be “Yes” or “No” in answer to the following question printed upon the ballot: “Shall an Act passed by the General Court in the year nineteen hundred and eight, entitled ‘An Act to provide for the protection of forest or sprout lands from fire’ be accepted by this town?” A majority vote of the legal voters present and voting at such meeting shall be required for the acceptance of this act; and upon such acceptance the provisions of Section twenty-four (24) of Chapter thirty-two (32) of the Revised Laws shall cease to apply to any town which has previously accepted that section.

The following officers were then nominated and elected to the office and for the term stated, viz:

Fence Viewers for one year.—Max H. Meyer and William H. Murray.

Field Drivers for one year.—Thomas O. D. Urquhart, Garritt Barry, John Duffy, Daniel M. Hooley, Thomas F. Priest, Andrew Irwin, F. Joseph Cahalin, and Edward T. Ryan.

Measurer of Wood and Bark for one year.—Edward I. McKenzie and Frank P. Dyer.

Fish Preserver for one year.—Daniel Wyman.

The above-named officers have each appeared and were sworn to the faithful discharge of their duties.

Voted: That when this meeting adjourns it adjourn to meet in the Town Hall, Monday evening, March 22, at thirty minutes after seven o'clock.

Voted: That this meeting be adjourned.

Meeting adjourned at thirty minutes after five o'clock.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

Arlington, March 2, 1909.

I hereby certify that I have this day appointed Edna C. Pierce Assistant Town Clerk and that she has taken the oath required by Chapter 25, Section 62 of the Revised Laws for the faithful performance of her duties.

I hereby certify that all of the above appointed officials appeared before me and the oath required for the faithful performance of their duties was administered to them.

THOMAS J. ROBINSON,
Town Clerk.

At a meeting of the Selectmen, held March 20, 1909, the following appointments were made for a term of one year, from April 1 1909: Inspector of Buildings, William Gratto; Inspector of Milk Frank P. Winn.

THOMAS J. ROBINSON,
Town Clerk.

ADJOURNED MEETING.

Pursuant to adjournment the citizens of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, on Monday evening, March 22, 1909, and were called to order at thirty minutes after seven o'clock by the Moderator, John G. Brackett.

The reading of the remaining articles in the warrant, not read at the meeting, March 1, was, by vote of the meeting, dispensed with, the voters present being supplied with printed copies.

Article 3 taken up. (Reports of Town Officers and Committees.)

Deane S. Reynolds presented the report of the committee appointed at the November Town Meeting of 1908, to investigate the needs of the Police Department in office and cell conveniences, and said report was received. File No. 639.

Frederick S. Mead presented the report of the committee appointed at the November meeting of 1908, to consider and report on the matter relative to the purchase of land for town purposes, and said report was received. File No. 640.

Voted: That the reports of the various town officers as presented in the printed Town Reports for the year 1908 be accepted.

Theodore Everett presented a report of progress of the Committee on "High School Enlargement," and asked for further time. The report was received and the committee allowed further time.

Voted: That the various articles in the warrant calling for appropriations be now taken up, and that the recommendations made by the Committee of Twenty-One in their printed report, under those articles, be considered as now before the meeting, to be voted on without further motion, separately, and in the order in which they appear in said report. File No. 641.

Article 4 taken up. (Robbins Library Appropriation.)

Voted: That there be appropriated the sum of three thousand five hundred (3500) dollars, in addition to the dog tax, and the receipts for fines and the sale of catalogues, for the maintenance of the Robbins Library for the year 1909, the same to be expended under the direction of its trustees.

Article 5 taken up. (School Appropriation.)

Voted: That the sum of sixty-six thousand (66,000) dollars be appropriated for the Public Schools for the year 1909; one thousand (1000) dollars to be expended for general repairs on school buildings, and the balance to be expended for the maintenance of said schools and in the payment of unpaid bills; the same to be expended under the direction of the School Committee.

Article 10 taken up. (Memorial Day Appropriation.)

Voted: That the sum of two hundred and seventy-five (275) dollars be appropriated for the proper observance of Memorial Day, the same to be paid to the Quartermaster of Francis Gould Post, and to be expended under the direction of the officers of Francis Gould Post 36, G. A. R.

Article 11 taken up. (Police Department improved facilities.)

Voted: That the sum of eight hundred (800) dollars be appropriated to provide more adequate cell and office facilities for the Police Department, the same to be expended under the direction of the Selectmen.

Article 12 taken up. (Appropriation for water for public purposes.)

Voted: That the sum of seven thousand (7000) dollars be appropriated and paid to the Water Works Department for water used for fire hydrants, street watering and public buildings during the year 1909.

Article 13 taken up. (Extensions of water mains.)

Voted, by a two-thirds vote: That the sum of two thousand dollars (2000) be appropriated for the extension of water mains; and for the purpose of raising the two thousand (2000) dollars there be issued four notes or bonds, each for the sum of five hundred (500) dollars, one payable in the year 1910, and one in each of the three succeeding years; said notes or bonds to be signed by the Treasurer, and countersigned by the Selectmen, and to be designated on the face thereof "Water Loan of 1909," and to bear interest at a rate not exceeding four per cent. per annum, payable semi-annually.

Article 14 taken up. (Construction of Permanent Sidewalks.)

Voted: That the sum of three thousand (3000) dollars be appropriated for the renewal and extension of permanent sidewalks, not less than \$1500 of that amount to be used for extensions carried out under the Sidewalk Act, Section 43 of Chapter 49 of the Revised Laws.

Article 15 taken up. (Extension of Sewerage System.)

Voted: That the sum of one thousand nine hundred (1900) dollars be appropriated for the maintenance of the Sewerage System for the ensuing year.

Voted, by a two-thirds vote: That the sum of two thousand (2000) dollars be appropriated for the extension of the Sewerage System and for the purpose of raising the same there be issued two negotiable notes or bonds, the first for one thousand (1000) dollars, payable in the year 1910, and the second for one thousand (1000) dollars, payable in the year 1911, said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof "Sewer Loan of 1909" and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 16 taken up: (Appropriation for Highway Division.)

Voted: That the sum of \$23 326.10 be appropriated for the maintenance and construction of highways during the ensuing year and for payment of unpaid bills, and that the street railway tax now in the Treasury, amounting to \$16,176.10, be hereby appropriated towards the payment thereof, and that the balance of \$7,150.00 be raised by general tax.

Article 17 taken up: (Street water appropriation.)

Voted: by a two-thirds vote: That in addition to such subscriptions as may be obtained for the purpose, an appropriation of \$3500 be made for street-watering or treatment for the prevention of dust on streets; that the sum of \$200 now in the Treasury be hereby appropriated toward the payment thereof; that \$1000 of said sum be raised by general tax, and such balance as may be necessary not exceeding \$2300, be raised by note of the Town for a term not exceeding one year, signed by the Treasurer and approved by the Selectmen; and the receipts from assessments levied in 1909 for street-watering or treatment for the prevention of dust be hereby appropriated toward the payment of said note.

Voted, on motion of Omar W. Whittemore: That the subject matter of street-watering or treatment for the prevention of dust, for the year 1910, be referred to the Joint Board of Selectmen and Board of Public Works, said Board to consider the advisability of establishing a more equitable method of assessments on abutters and report at the next Town Meeting.

Article 18 taken up. (Street-lighting appropriation.)

Voted: That the sum of \$9,440.00 be appropriated for street-lighting for the ensuing year.

Article 20 taken up. (Rental of Lawrence Field.)

Voted: That the sum of \$165 be appropriated for the rental of Lawrence Field, to be used by the school children for athletic purposes, under the direction of the School Committee.

Article 21 taken up. (Grading of Locke School Playground.)

Voted: That the sum of \$400 be appropriated for grading the playground of the Locke School, the same to be expended under the joint direction of the School Committee and the Building Committee of the Locke School Addition.

Article 22 taken up. (Block System for Assessors.)

Voted: That the sum of \$300 be appropriated for the use of the Board of Assessors, the same to be expended under the direction of the Assessors, in the establishment of a block system of plans of the town for assessment purposes.

Article 24 taken up. (Acceptance of Woodland Street.)

Voted, by a two-thirds vote: That the Town accept and establish as a town way the private way known as Woodland Street, extending from Jason Street to Bartlett Avenue, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments; said way being more particularly described in Article 24 of the Warrant; that the sum of \$1350 be appropriated for the construction of Woodland Street; \$350 so appropriated to be raised by general tax in 1909, and the balance, \$1000, be borrowed, and for the purpose of raising the \$1000 there be issued two negotiable notes or bonds, each for the sum of \$500, the first payable in the year 1910, and the second payable in the year 1911; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof "Woodland Street Loan," and to bear interest at a rate not exceeding four per cent. per annum, payable semi-annually.

Article 25 taken up. (Acceptance of Bartlett Avenue Extension.)

Voted, by a two-thirds vote: That the Town accept and establish as a town way the private way known as Bartlett Avenue, extending from Gray Street to Woodland Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, said way being more particularly described in Article 25 of the Warrant, that the sum of \$1750 be appropriated for the construction of Bartlett Avenue from Gray Street to Woodland Street: \$250 so appropriated be raised by general tax in 1909, and the balance, \$1500, be borrowed; and for the purpose of raising the \$1500 there be issued two negotiable notes or bonds, the first for \$1000, and payable in the year 1910, and the other for \$500, payable in the year 1911; said notes or bonds to be signed by the Treasurer, and countersigned by the Selectmen, and to be designated on the face thereof, "Bartlett Avenue Loan," and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 26 taken up. (Proposed extension of Gray Street.)

Voted: That no action be taken at this time under this article.

Article 27 taken up. (Appropriation for storm drain on Bow Street.)

Voted: That the sum of six hundred (600) dollars be appropriated for the construction of a storm drain on Bow Street.

Article 28 taken up. (Renewal of cement-lined water mains.)

Voted, by a two-thirds vote: That the sum of \$5000 be appropriated for the renewal of main pipes, and that the said sum of \$5000 be borrowed, and in payment therefor there be issued ten (10) negotiable notes or bonds, each for the sum of \$500, one payable in the year 1910, and one in each of the nine succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof, "Water Pipe Renewal Loan of 1909" and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 29 taken up. (Gypsy and Brown-Tail Moth Appropriation.)

Voted, by a two-thirds vote: That the sum of \$7000 be appropriated to be expended during the year ending November 30, 1909, under the direction and control of the Selectmen, in suppressing the gypsy and brown-tail moths in the Town of Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905 and amendments thereto. That \$1000 of said sum be raised by general tax in 1909, and the balance, \$6000, be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 30 taken up. (Purchase of land for town purposes.)

Voted, by a two-thirds vote: That the Selectmen be authorized and empowered in the name and behalf of the Town, to purchase by good and sufficient deeds conveying the same, the following described parcel of land: Beginning at a point on the southerly location line of the Boston & Maine Railroad, at the northwesterly corner of land of Commonwealth of Massachusetts: Thence, by said location line of the Boston & Maine Railroad in a northwesterly direction about 285 feet to land of estate of Ira L. Russell; thence in a southwesterly direction by land of said Russell and land of estate of Theodore Schwamb about 330 feet to other land of said estate of Theodore Schwamb; thence, southeasterly by land of said Schwamb and land of John Lloyd about 390 feet, to land of the Commonwealth of Massachusetts; thence, by said land of the Commonwealth of Massachusetts in a northeasterly direction about 325 feet to point of beginning, containing about 2.6 acres. Said land to be used as a Town Yard. That they be authorized and empowered to pay therefor the sum of \$3500.

That the sum of \$3250 and the \$250 already appropriated for the use of the Special Committee and unexpended be appropriated for the purchase of land for a Town Yard; that \$250 so appropriated be raised by general tax in 1909, and that the balance, \$3000, be borrowed, and in payment therefor, there be issued six (6) negotiable notes or bonds, each for the sum of \$500, one payable in the year 1910, and one in each of the five succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof, "Town Yard Loan," and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 7 taken up. (Town expenses, interest, debt and State aid.)

Voted: That the sum of \$12,000 be appropriated for the Sinking Fund, \$10,000 to be taken from the income of the Water Works, and \$2000 to be raised by general tax the current year, said amounts to be paid to the Sinking Fund Commissioners, December 1st.

Voted: That the sum of \$14,450 be appropriated to meet notes maturing in 1909 and that said sum be raised by general tax the current year.

Voted: That \$15,123.12 of the unexpended balances and amounts in the Treasury otherwise unappropriated, together with the sum of \$1,376.88, be appropriated for the payment of interest during the year 1909.

Voted: That the sum of \$6000 (to include payment of unpaid bills) be appropriated for the care of outside poor, and in addition to such sums as the Town may receive from individuals reimbursing it for such care.

Voted: That the sum of \$3,692.75 be appropriated to pay the following overdrafts during the year 1908:—

Abatements	\$193.50
Selectmen's Incidentals	17.18
Interest on Town Debt	152.59
Water Department	2,761.64
Extension of Mains	374.86
Watering Streets	192.98
	<hr/> \$3,692.75

Voted: That the following appropriations be made for the purposes indicated:

Abatements: Seventeen hundred (1700) dollars.

Board of Health (including payment of unpaid bills): Seven hundred seventy-five (775) dollars.

Cemeteries, receipts, except sales and: Eighteen hundred (1800) dollars.

Board of Survey: Five hundred (500) dollars.

Fire Department: Eleven thousand six hundred (11,600) dollars.

Health Department: Five thousand six hundred sixty (5,660) dollars.

Construction of Sawin Street (unpaid bill): Two hundred thirty-five and 31/100 (235.31) dollars.

Incidentals:

Selectmen, two thousand five hundred (2500) dollars.

Assessors, seven hundred (700) dollars.

Auditor, one hundred fifty (150) dollars.

Collector, three hundred thirty (330) dollars.

Town Clerk, three hundred fifty (350) dollars.

Treasurer, one hundred fifty (150) dollars.

Insect Pest Extermination: Two hundred (200) dollars.

Insurance: Two thousand three hundred (2300) dollars.

Military Aid: Fifty (50) dollars.

Park Commission: Three hundred twenty-five (325) dollars.

Police Department: Nine thousand three hundred (9300) dollars.

Premiums for bonding: One hundred fifty (150) dollars.

Soldiers' Relief: Four hundred (400) dollars.

State Aid: Receipts and two hundred (200) dollars.

Telephones: Four hundred fifty (450) dollars.

Town House: Eighteen hundred (1800) dollars.

- Town House Site (care of lot): Three hundred (300) dollars.
 Tree Warden: Three hundred (300) dollars.
 Wire Department: Six hundred fifty (650) dollars.
 Salaries:
 Selectmen, six hundred fifty (650) dollars.
 Town Clerk, fees and twelve hundred (1200) dollars.
 Treasurer, five hundred (500) dollars.
 Treasurer, clerk hire, two hundred (200) dollars.
 Collector, fourteen hundred (1400) dollars.
 Auditor, six hundred (600) dollars.
 Board of Public Works, six hundred fifty (650) dollars.
 Assessors, fifteen hundred (1500) dollars.
 Board of Health, four hundred (400) dollars.
 Tree Warden, one hundred (100) dollars.
 Clerk of Selectmen, nine hundred (900) dollars.

 Clerk, Board of Health, one hundred fifty (150) dollars.
 Voted: That there be appropriated from the income of the Water Department \$3000 for maintenance, \$13,920 for interest on the water debt, \$10,000 for the Sinking Fund, and \$17,000 for the Metropolitan water assessments.
 Article 6 taken up. (Repair of highways and bridges.)
 Voted: That the town ways, highways and bridges be repaired during the ensuing year under the direction of the Board of Public Works.
 Article 8 taken up. (Selectmen to be agents of the Town.)
 Voted: That the Selectmen be appointed agents of the Town, to institute and prosecute actions in favor of the Town to appear and defend suits and legal proceedings against or involving the interests of the Town, with power to employ counsel therein and when necessary, in all other legal matters and business appertaining to town affairs during the year commencing March 1, 1909.
 Article 19 taken up. (Authority of Collector of Taxes.)
 Voted: That the Collector of Taxes be authorized to use all means of collecting taxes for the year 1909 which a Town Treasurer may use when appointed a Collector of Taxes.
 On motion of Frank W. Hodgdon the following vote and resolution was unanimously adopted:—
 Voted: Whereas, Mr. Peter Schwamb, late Chairman of the Board of Public Works, has served the Town for many years on the Board

of Water Commissioners and its successor, the Board of Public Works, for the greater part of the time as Chairman of the Board, and has given a large part of his time to the work, which was very valuable to the Town, as he was enabled to give much expert advice which would otherwise have had to have been secured elsewhere. Now, therefore, be it,

Resolved, That the Town hereby extends its thanks to Mr. Schwamb for the valuable services which he has rendered.

Article 31 taken up. (Special Committee on High School Enlargement.)

Voted: That the subject matter of Article 31 be referred to the Special Committee on High School Enlargement, appointed at the November Town Meeting, to report at a subsequent meeting and that the said committee be given power to fill vacancies which may occur in its membership.

Article 9 taken up. (Committee of Twenty-One and its powers and duties.)

Voted: That a committee be appointed consisting of twenty-one citizens, other than town officers elected by ballot, to serve throughout the ensuing year and until the end of the annual meeting of 1910. The members of said committee to be selected as follows: Nine from the residents of the Russell School District, four from the residents of the Locke School District, four from the residents of the Cutter School District and four from the residents of the Crosby School District. Said Committee shall choose its own officers and have power to fill vacancies.

To this committee, when appointed, are hereby referred all articles calling for an appropriation of money in any town warrant issued during its term of office.

Said committee shall, after due consideration of the subject matter of said articles, report thereon in print or otherwise, such recommendations as it shall deem best.

The following citizens were nominated and elected to serve on said Committee of Twenty-one:

Edward W. Nicoll.....	Clerk.....	10 Montague St.
Bert S. Currier.....	Salesman.....	82 Claremont Ave.
Frank B. Records, Jr.	Architect.....	179 Westminster Ave.
James F. Tilden.....	Asst. Treasurer.....	101 Hillside Ave.
William H. Murray.....	Grocer.....	47 Mt. Vernon St.
Robert J. Kelly.....	Express Agent.....	15 Walnut St.
Henry Finley	Piano Case Maker.....	1125 Mass. Ave.
Oman E. Bennett.....	Farmer.....	Summer St.
George A. Kimball.....	Civil Engineer.....	336 Mystic St.
Arthur D. Hill.....	Farmer.....	253 Pleasant St.
Frank H. Hubbard	Salesman.....	361 Mass. Ave.
George A. Smith.....	Manufacturer.....	47 Academy St.
Francis L. Maguire	Lawyer.....	34 Addison St.
Charles T. Dennen.....	Plumber.....	58 Warren St.
James J. Mahoney.....	Salesman.....	63 Mystic St.
Charles A. Hardy.....	Clerk.....	34 Gray St.
Frank V. Noyes.....	Insurance.....	22 Gray St.
Max H. Meyer.....	Piano Maker.....	69 Henderson St.
John J. Lyons.....	Farmer.....	170 Lake St.
Charles F. Wyman.....	Farmer.....	121 Lake St.
Henry C. Hoyt.....	Bookkeeper.....	17 Teel St.

Article 23 taken up. (In relation to the proposed layout of Gray Street.)

Voted: That it is the sense of this meeting that the Joint Board of Selectmen and Board of Public Works be requested to lay out and establish as a town way a street to be known as Gray Street, extending from the present westerly end of Gray Street to Oakland Avenue, in accordance with the plans showing lines and grades approved by the Board of Survey, now on file in the office of the Town Clerk.

Article 32 taken up. (Town Grant.)

Voted: That the several amounts appropriated at this meeting for the purposes indicated by the various votes, and not otherwise provided for amounting to \$187,523.44, together with the sum of \$4500 appropriated at the November meeting of 1908, making a total of \$192,023.44, be raised by general tax the present year.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the in-coming turnstile No. 3057 and the out-going turnstile No. 3056 respectively, who made a return in writing at the close of the meeting, showing that 184 voters had entered the hall through turnstile No. 3057 and that 71 voters had left the hall through turnstile No. 3056, and from those figures they determined that 113 voters were in attendance at the close of the meeting.

All articles in the warrant calling the meeting having been acted upon, it was

Voted: That this meeting be now dissolved.

Meeting dissolved at 9.40 P. M.

A true record. Attest:

THOMAS J. ROBINSON,

Town Clerk.

TOWN MEETING—MONDAY, JUNE 28, 1909.

AT 8.00 O'CLOCK P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Monday, the twenty-eighth day of June, current, at 8.00 o'clock P. M., then and there to act on the following articles, viz:—

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To hear and act on the reports of any Town officers or committees heretofore appointed.

ART. 3. To see if the Town will vote to erect a building on the Town Yard, recently purchased by the Town for the use of the Board of Health, in the disposal of garbage, make an appropriation therefor and determine in what manner the same shall be raised, or take any action thereon.

(Inserted at the request of the Board of Health.)

ART. 4. To see if the Town will vote to extend Henderson Street, and take and purchase land for said purpose, so as to connect with proposed highway in Somerville, make an appropriation therefor, and determine in what manner the same shall be raised, or take any action thereon.

(Inserted at the request of the Joint Board.)

ART. 5. To see if the Town will vote to allow the Board of Public Works the income from the Town Yard, recently purchased by the Town, said income to be used in the development of the property.

(Inserted at request of the Board of Public Works.)

ART. 6. To see if the Town will vote to shingle and repair the buildings on the Town Yard, recently purchased by the Town, make an appropriation therefor and determine in what manner the same shall be raised and expended.

(Inserted at the request of the Board of Public Works.)

ART. 7. To see if the Town will vote to discontinue as a public way a portion of the public way, known as Pond Lane, or take any action thereon.

(Inserted at request of the Joint Board.)

ART. 8 To appropriate and raise by borrowing or otherwise such sum or sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this fourteenth day of June, in the year of our Lord one thousand nine hundred and nine.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
PHILIP A. HENDRICK,

Selectmen of the Town of Arlington.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, in said Arlington, on Monday, the twenty-eighth day of June, in the year of our Lord one thousand nine hundred and nine, and were called to order in the evening at eight o'clock, by the Town Clerk, who read the Warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants.

Article 1 taken up. (Choice of Moderator.)

John G. Brackett received four (4) votes, and these being all the votes cast, he was declared elected Moderator, and sworn to the faithful performance of his duties.

Article 2 taken up. (Reports of Committees.)

George A. Kimball, Chairman of the Committee of Twenty-One, reported for said committee, and it was,

Voted: That the various articles in the Warrant calling for an appropriation be now taken up.

Article 3 taken up. (Building for garbage.)

Voted: That a building be erected on the Town Yard Lot, recently purchased by the Town, for the use of the Board of Health, in the disposal of garbage, and that the sum of \$1000 be appropriated for that purpose, the building to be located by the Board of Public Works, said sum to be expended under the direction of the Board of Health and to be payable and transferred from the interest receipts.

Article 4 taken up. (Proposed extension of Henderson Street.)

Voted: That no action be taken under this article.

Article 5 taken up. (Income from Town Yard Lot.)

Voted: That no action be taken under this article.

Article 6 taken up. (Repairs to buildings on Town Yard Lot.)

Voted: That the buildings on the Town Yard Lot be shingled and repaired, and that the sum of \$125 be appropriated for that purpose, the same to be expended under the direction of the Board of Public Works, and to be payable and transferred from interest receipts.

Article 7 taken up. (Proposed discontinuance of Pond Lane as a public way.)

Voted: That the subject matter of this article be indefinitely postponed.

Article 8. No action being necessary under this article it was,

Voted: That this meeting be now dissolved. Meeting dissolved at twenty-five minutes after eight o'clock.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3057 and the outgoing turnstile No. 3056 respectively, who made a return in writing at the close of the meeting, showing that 64 voters had entered the hall through the turnstile No. 3057 and that 14 voters had left the hall through turnstile No. 3056, and from these figures they determined that 50 voters were in attendance at the close of the meeting.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—TUESDAY, NOVEMBER 2, 1909.

AT 6.00 O'CLOCK, A. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To either of the Constables of the Town of Arlington. GREETING.

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, qualified as the constitution requires, to vote in elections and town affairs, to assemble in the Town Hall, in said Town, Tuesday, the second day of November, next, it being the Tuesday next after the first Monday in said month, at 6.00 o'clock A. M., then and there to act on the following articles, viz:—

ARTICLE 1. To bring in their votes to the Selectmen for a Governor; a Lieutenant-Governor; a Secretary, a Treasurer and Receiver-General; an Auditor of Accounts; an Attorney-General for the Commonwealth; a Councillor for the Sixth Councillor District; a Senator for the Sixth Middlesex District; a Representative in the General Court for the Twenty-ninth Representative District in the County of Middlesex; a County Commissioner for three years; a County Treasurer for three years.

Also, to vote "Yes" or "No" upon the acceptance of Chapter 285, Acts of 1909, entitled, "An Act relative to the School Committee of the Town of Arlington."

All the above to be voted for on one ballot. The polls will be opened immediately after the organization of the meeting and will be kept open until four o'clock and thirty minutes in the afternoon, and as much longer as the meeting directs, provided the time shall not be after the hour of sunset.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this sixteenth day of October, in the year of our Lord one thousand nine hundred and nine.

J. HOWELL CROSBY,
FREDERICK S. MEAD,
PHILIP A. HENDRICK,

Selectmen of the Town of Arlington.

Arlington, October 30, 1909.

Middlesex County.

By virtue of this Warrant I have notified and warned the inhabitants of the Town of Arlington qualified to vote in elections and Town affairs, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in town, and also by posting an attested copy on the doors of the Town Hall, seven days at least before said day of meeting.

GARRITT BARRY,
Constable of Arlington.

Pursuant to the foregoing Warrant the inhabitants of the Town of Arlington, qualified as the constitution requires, to vote in elections and town affairs, met in the Town Hall in said Arlington on Tuesday, the second day of November in the year of our Lord one thousand nine hundred and nine, it being the first Tuesday after the first Monday in said month, and were called to order by J. Howell Crosby, Chairman of the Board of Selectmen, at six (6) o'clock in the forenoon. The presiding officer read the Warrant calling the meeting and the return thereon, of the Constable who served the same upon the inhabitants.

Selectman J. Howell Crosby took charge of the meeting and performed the duties of presiding officer.

As required by the laws of the Commonwealth, in relation to elections, the Town Hall was fitted up as a polling place, a space railed off and booths provided for the use of voters to examine and mark their ballots. Each booth was supplied with suitable facilities for the purpose and with cards of instructions.

The following citizens had been appointed by the Selectmen as election officers, and were assigned as follows, after being sworn to the faithful discharge of their duties by the Town Clerk:

Ballot Clerks, Edgar Crosby and John J. Mahoney.

Inspectors, Frank F. Russell and Harold Rice.

Tellers, Arthur L. Bridgham and George C. Tewksbury.

At Ballot Box, Horace A. Freeman and George McK. Richardson.

Counters, Frank Y. Wellington, Henry K. Brown, William D. Gran-
nan, William E. Bunton, Frank A. O'Brien, Frank B. Records, Jr.,
Daniel W. O'Brien and Charles B. Hurley.

A sealed package containing 2250 ballots, supplied by the Secretary of the Commonwealth was then delivered by the Town Clerk to the presiding officer, who publicly broke the seal and delivered the ballots to the ballot clerks.

Specimen ballots and cards of instructions were posted in accordance with law, as were also cards of penalties to voters for violations of the law.

The ballot box was examined by the presiding officer and the Town Clerk and was found to be empty and the register set at zero.

A list of registered voters was supplied to the ballot clerks and tellers by the Registrars of Voters.

At five (5) minutes after six (6) o'clock the polls were declared open for the reception of votes, and were kept open until thirty (30) minutes after four (4) o'clock in the afternoon, at which time, after due notice, they were declared closed.

By unanimous consent the ballot-box was opened at 9 o'clock in

the morning and at various times during the day, for the purpose of removing the ballots to be counted, as follows:

At 9 o'clock the ballot box registered 626 votes.

"	1.35	"	"	"	"	"	1012	"
"	3.45	"	"	"	"	"	1219	"

At the close of the polls the ballot box registered twelve hundred seventy-two (1272) votes.

The keys of the ballot box were delivered by the presiding officer, into the custody of Constable Garritt Barry, and remained in his possession until the close of the polls.

The names checked by the ballot clerks and the names checked by the checkers at the ballot box were counted and found to agree with the number registered by the ballot box, twelve hundred and seventy-two (1272).

The unused ballots were enclosed in a package, sealed, and delivered to the Town Clerk after being counted and indorsed by the Ballot Clerks. The number was found to be 978, which added to the number cast, 1272, made the total number received from the Secretary of the Commonwealth, 2250.

The election officers canvassed the votes given in and the whole number was found to be twelve hundred seventy-two (1272), which were sorted, counted and declaration made thereof in open meeting, by Selectman Philip A. Hendrick at twenty (20) minutes after five (5) o'clock, as follows:

Whole number of ballots cast, 1272.

GOVERNOR.

Eben S. Draper of Hopedale had seven hundred eighty-four (784).

John A. Nicholls of Boston had sixteen (16).

Moritz E. Ruther of Holyoke had four (4).

James H. Vahey of Watertown had four hundred twenty-one (421).

Daniel A. White of Brockton had fourteen (14).

Blanks, thirty-three (33).

LIEUTENANT-GOVERNOR.

Eugene N. Foss of Boston had four hundred forty-one (441).

Louis A. Frothingham of Boston had seven hundred seventy-eight (778).

George G. Hall of Boston had ten (10).

Ernest R. Knipe of Holyoke had eight (8).

Lawrence Yates of New Bedford had four (4).

Blanks, thirty-one (31).

SECRETARY.

David T. Clark of Williamstown had three hundred twenty-eight (328).

Harriet D'Orsay of Lynn had eight (8).

Henry C. Hess of Boston had five (5).

William G. Merrill of Malden had twelve (12).

William M. Olin of Boston had eight hundred forty-nine (849).

Blanks, seventy (70).

TREASURER.

James H. Bryan of Westfield had three hundred twenty-seven (327).

James B. Carr of Chelmsford had eleven (11).

David Craig of Milford had five (5).
Daniel Parlin of Worcester had fifteen (15).
Elmer A. Stevens of Somerville had eight hundred forty-six (846).
Blanks, 68.

AUDITOR.

Alexis Boyer, Jr., of Southbridge had three hundred fourteen (314).
Charles A. Chace of Swansea had seventeen (17).
Sylvester J. McBride of Watertown had eleven (11).
Jeremiah P. McNally of Salem had four (4).
Henry E. Turner of Malden had eight hundred thirty-two (832).
Blanks, 94.

ATTORNEY-GENERAL.

Henry M. Dean of Hyde Park had twenty-seven (27).
John A. Fredrikson of Quincy had six (6).
Dana Malone of Greenfield had eight hundred twelve (812).
Harvey N. Shepard of Boston had three hundred thirty-five (335).
John Weaver Sherman of Boston had fourteen (14).
Blanks, 78.

COUNCILLOR.

Henry G. Burke of Lowell had fifteen (15).
Charles H. Callahan of Lowell had three hundred six (306).
Herbert E. Fletcher of Westford had eight hundred thirty-nine (839).
Blanks, 112.

SENATOR SIXTH MIDDLESEX DISTRICT.

John J. Butler of Wakefield had two hundred forty-four (244).
J. Howell Crosby of Arlington had nine hundred sixty-seven (967).
Blanks, 61.

REPRESENTATIVE IN GENERAL COURT.

Edwin A. Bayley of Lexington had nine hundred fifty-five (955).
Blanks, 317.

COUNTY COMMISSIONER.

Patrick Conlon of Lowell had three hundred four (304).
Robert J. Kelly of Lowell had fifteen (15).
Samuel O. Upham of Waltham had eight hundred forty-two (842).
Blanks, 111.

COUNTY TREASURER.

Joseph O. Hayden of Somerville had eight hundred thirty-nine (839).
Anson B. Hobbs of Cambridge had twenty (20).
Dexter C. Whittemore of Carlisle had three hundred eight (308).
Blanks, 105.

On the question: "Shall Chapter 285 of the Acts of the year 1909, being 'An Act relative to the School Committee of the Town of Arlington be accepted?'" three hundred seven (307) voted "Yes," six hundred three (603) voted "No," and there were three hundred sixty-

two (362) blank ballots, and declaration was made in open meeting that the Town had not accepted said Chapter of the Acts of 1909.

The election returns were then filled in to be signed by the Selectmen and countersigned by the Town Clerk, and were delivered to the Town Clerk to be forwarded by him to the several places of destination.

All business calling the meeting having been transacted, the presiding officer, at thirty (30) minutes after five o'clock, declared the meeting dissolved.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

Arlington, November 12, 1909.

Pursuant to law, the Town Clerks of Arlington and Lexington met in the office of the Town Clerk of Arlington on Friday, the twelfth day of November, in the year of our Lord one thousand nine hundred and nine, at twelve o'clock noon, for the purpose of canvassing the votes cast on the second day of November for a Representative to the General Court of the Commonwealth, to represent the Twenty-ninth Middlesex District.

The canvass showed the following result of the votes cast in Arlington and Lexington, there being but one candidate:

Total number of votes case in Arlington, 1272. Edwin A. Bayley had 955. Blanks, 317.

Total number of votes cast in Lexington, 677. Edwin A. Bayley had 560. Blanks, 117.

The canvass showed that Edwin A. Bayley had a majority of the votes cast in both towns.

Two certificates were filled out, signed by the Clerks of both towns, one sent to the Secretary of the Commonwealth, and one delivered to the Town Clerk of Lexington, to be delivered by Constable to Edwin A. Bayley of Lexington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk of Arlington.

GEORGE D. HARRINGTON,
Town Clerk of Lexington.

TOWN MEETING—TUESDAY, NOVEMBER 23, 1909.

AT 7.30 O'CLOCK P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To either of the Constables of the Town of Arlington, in said County.

GREETING :—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, qualified, as the constitution requires, to vote in elections and town affairs, to assemble in the Town Hall, in said Town, on Tuesday, the twenty-third day of November, current, at 7.30 o'clock P. M., then and there to act on the following articles, viz :—

ARTICLE 1. To bring in their votes to the Town Clerk for a Moderator to preside for the transactions of Town business.

ART. 2. To hear and act on the reports of committees heretofore appointed.

ART. 3. To see if the Town will accept a gift of certain real estate from Hattie F. Hornblower and Henry Hornblower, for the purpose of using the same as an athletic field for children attending the public schools of the Town, subject to the conditions in said gift, and take appropriate action in regard thereto.

ART. 4. To see if the Town will make an appropriation to be expended from Nov. 30, 1909, and for the twelve months next ensuing, for suppressing the gypsy and brown-tail moths, in accordance with the provisions of Chapter 381, Acts of 1905, and amendments thereto, and determine in what manner the money shall be raised.

ART. 5. To see what action the Town will take in reference to the enlargement of Fire Station No. 1, at Arlington Heights, and the acquisition of land for that purpose, make an appropriation for the same and determine in what manner the money shall be raised.

(Inserted at request of Wm. E. Lloyd and others.)

ART. 6. To see if the Town will make an appropriation for the purpose of constructing a suitable roadway on the Town Yard giving access to and from the garbage house recently erected for the use of the Board of Health, and determine in what manner the money shall be raised.

(Inserted at the request of the Board of Health.)

ART. 7. To see if the Town will make an additional appropriation to provide more adequate cell and office facilities for the Police Department, and determine in what manner the money shall be raised.

ART. 8. To see what action the Town will take towards repairing and strengthening the cupola on Town Hall Building, make an appropriation for the same, and determine in what manner the money shall be raised, or take any action relative thereto.

ART. 9. To see what action the Town will take to provide additional accommodations in the Russell and Crosby School districts, make an appropriation therefor, and determine in what manner the money shall be raised.

(Inserted at request of School Committee.)

ART. 10. To see if the Town will make an additional appropriation to the Public Library for furniture and fittings for the new reading room in the Locke School Building, and determine in what manner the money shall be raised.

(Inserted at request of the Trustees of the Public Library.)

ART. 11. To see if the Town will make an appropriation for the construction of a storm drain on Appleton Street, and determine in what manner the money shall be raised.

(Inserted at the request of the Board of Public Works.)

ART. 12. To see if the Town will make an appropriation for the purchase of cast-iron water pipe and fittings, and determine in what manner the money shall be raised.

(Inserted at request of the Board of Public Works.)

ART. 13. To see if the Town will vote to discontinue as a public way a portion of the public way, known as Pond Lane, or take any action thereon.

(Inserted at the request of the Joint Board.)

ART. 14. To see if the Town will accept and establish as a town way the private way known as Whittemore Street and Footway extending from Massachusetts Avenue to the southerly side of the location of the Boston & Lowell R. R., as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:—

Beginning at a point on the southwesterly line of Massachusetts Avenue 62.5 feet northerly from a county bound on said southwesterly line of Massachusetts Avenue, said bound being 134.4 feet from the westerly line of Avon Place. The said point is on the centre line of Whittemore Street and is marked "A" on plan approved by the Board of Survey, Oct. 19, 1909, entitled "Plan and Profile of Whittemore Street and Footway, October, 1909, G. E. Ahern, C. E.," thence, at an angle of $89^{\circ} 15'$ with the said southwesterly line of Massachusetts Avenue a distance of 466.5 feet to the easterly location line of the Boston & Lowell Railroad; thence, continuing on said line across said Boston & Lowell R. R. location 72 feet, more or less, to the westerly line of said Boston and Lowell R. R. location. The above described line of Whittemore Street is the centre line of said street and the boundary lines are parallel with and distant therefrom 20 feet on either side between the said southwesterly line of Massachusetts Avenue and the said easterly line of the Boston & Lowell Railroad location, and the above described line across the Boston & Lowell

R. R. location is the centre line of the Footway and the boundary lines are parallel with and distant therefrom 4 feet on either side of said line, as shown on plan above mentioned.

ART. 15. To see if the Town will accept and establish as a town way the private way known as the Extension of Henderson Street, from Cross Street to Alewife Brook, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same, and determine in what manner the money shall be raised. Said way as laid out is described as follows:—

Beginning at a point on the northerly line of Henderson Street at the southwesterly corner of Cross Street (so-called), said point being the end of the acceptance of Henderson Street, March 8, 1891, thence, in an easterly direction on the said northerly line of Henderson Street extended 30 feet; thence, continuing in an easterly direction by a curved line of 135 feet radius about 170 feet to the centre of Alewife Brook and the Somerville line. The above described line is the northerly line of Henderson Street Extension and the southerly line is parallel with and distant therefrom 40 feet. The said extension of Henderson Street is shown on plan and profile made by R. W. Pond, Town Engineer, March, 1906, and approved by the Board of Survey, June 26, 1909, now on file in the office of the Town Clerk.

ART. 16. To see if the Town will authorize the Town Treasurer, under the direction of the Selectmen, to borrow money for any necessary purpose, in anticipation of taxes for the year 1910, the same to be repaid directly from the proceeds of said taxes.

ART. 17. To see if the Town will make an appropriation sufficient to meet the charges for filling deposited on the park lands adjoining Mt. Pleasant Cemetery, in accordance with the vote passed by the Town May 5, 1902, and determine in what manner the money shall be raised.

ART. 18. To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this sixth day of November, in the year of our Lord one thousand nine hundred and nine.

J. HOWELL CROSBY,
PHILIP A. HENDRICK,

Selectmen of the Town of Arlington.

Arlington, Nov. 22, 1909.

Middlesex County.

By virtue of this Warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, to meet at the time and place and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the Town and also by posting an attested copy on the doors of the Town Hall seven days at least before said day of meeting.

GARRITT BARRY,
Constable of Arlington.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, met in the Town Hall in said Arlington on Tuesday, the twenty-third day of November, in the year of our Lord one thousand nine hundred and nine, and were called to order at thirty minutes after seven o'clock in the evening, by the Town Clerk, who read Article 1 of the Warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants. By unanimous consent the reading of the remaining articles in the Warrant was dispensed with, each of the voters present being supplied with printed attested copies.

Article 1 taken up. (Election of Moderator.)

John G. Brackett was unanimously elected Moderator.

Article 3 taken up. (Acceptance of Hornblower gift of playground)

J. Howell Crosby, Chairman of the Board of Selectmen, speaking on this article, stated that after advising with the Town Counsel it was found that owing to conditions in the deed of gift, necessary for the future maintenance of the playground by the Town legislative authority was necessary to enable the Town to make appropriations for such maintenance. As such authority could not be secured until the next session of the General Court, action under the article was indefinitely postponed.

Article 13 taken up. (Discontinuance of part of Pond Lane.)

Voted: That the Town discontinue as a town way the portion of Pond Lane which extends between a line parallel with and distant 25 feet from the westerly line of the Boston & Lowell R. R. location and Spy Pond.

Article 2 taken up. (Reports of Committees.)

Horace A. Freeman for the Committee appointed to revise the Town By-Laws reported progress and asked until the March meeting of 1910 to make a final report.

Voted: That the report of the Committee on By-Laws be accepted as progressive, and that the Committee be given until the March meeting to make its final report.

John W. Bailey for the Special Committee on High School Addition and School Accommodations Throughout the Town, reported for his committee. The report was laid on the table to be later taken up under Article 9. Article 2 was laid on the table.

Article 9 taken up. (Additional school accommodations in the Russell and Crosby School Districts.)

The report as presented by John W. Bailey, was at this time taken up. The report was accepted and the Committee discharged. Report, File No. 657.

Voted, on motion of Frederick A. Bisbee: That a Committee of Five be appointed by the Moderator to secure preliminary plans and estimates for a school building to be so located as to relieve the present congestion in the Russell and Crosby Districts and meet the growing school needs of our rapidly increasing population, or to secure plans and estimates for additions to present school buildings; and that the sum of five hundred (500) dollars be appropriated to meet the expenses of said Committee.

The Moderator appointed the following citizens to serve on this Committee: Howard W. Spurr, Harry G. Porter, Rodney T. Hardy, Edward N. Lacey and William E. Lloyd.

Article 2 was then taken from the table, and under this article George A. Kimball, Chairman of the Committee of Twenty-One, pre-

sented the report of said committee in printed form. File No. 656.

Voted: That the report of the committee be received and that all articles in the Warrant, calling for an appropriation, be now taken up in the order in which they appear in the report of said committee.

Article 14 taken up. (Acceptance of Whittemore Street and Footway.)

Voted: That the Town accept and establish as a town way the private way known as Whittemore Street and Footway, extending from Massachusetts Avenue to the southerly side of the location of the Boston & Lowell R. R., as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments; said way being more particularly described in Article 14 of the Warrant.

Article 15 taken up. (Henderson Street Extension.)

Voted: That no action be taken on this article at this time.

Article 8 taken up. (Repairing cupola on Town Hall Building.)

Voted: That the sum of two hundred fifty (250) dollars be appropriated for repairing the cupola on Town Hall Building, said sum to be expended under the direction of the Selectmen and to be taken from any available funds in the Town Treasury not already provided for.

Article 4 taken up. (Appropriation for Gypsy and Brown-Tail Moths.)

Voted: That the sum of \$4,592 be appropriated, to be expended from Nov. 30, 1909 to Nov. 30, 1910, under the direction and control of the Selectmen, in suppressing the gypsy and brown-tail moths in the Town of Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905, and amendments thereto; said sum to be raised by general tax in 1910.

Article 5 taken up. (Enlargement of Fire Station No. 1.)

Voted: That a Committee of Five be appointed by the Moderator to consider the enlargement of Fire Station No. 1 at Arlington Heights, and acquisition of land for that purpose, and report to the next March meeting.

The Moderator appointed the following citizens to serve on this committee: Frank A. Noyes, Walter H. Peirce, Reuben W. LeBaron, John L. Axtman and William H. McLellan.

Article 6 taken up. (Construction of Roadway to Town Yard.)

Voted: That the sum of \$200 be appropriated for the construction of a roadway on the Town Yard, the same to be expended under the direction of the Board of Public Works; said sum to be taken from any available funds in the Town Treasury not already provided for.

Article 7 taken up. (Accommodations for Police Department.)

Voted: That the sum of \$373, in addition to the \$800 already appropriated to provide more adequate cell and office facilities for the Police Department, the same to be expended under the direction of the Selectmen; said sum to be taken from any available funds in the Town Treasury not already provided for.

Article 10 taken up. (Additional appropriation for Public Library.)

Voted: That the additional sum of \$200 be appropriated for the Public Library, for furniture and fittings for the new reading room in the Locke School building; said sum to be expended under the direction of its Trustees, and to be taken from any available funds in the Town Treasury not already provided for.

Article 11 taken up. (Storm drain on Appleton Street.)

Voted: That the sum of \$600 be appropriated for the construction

of a storm drain on Appleton Street; said sum to be taken from any available funds in the Town treasury not already provided for.

Article 12 taken up. (Purchase of cast-iron water pipe.)

Voted: That no action be taken under this article at this time.

Article 17 taken up. (Charges for filling on park lands.)

Voted: That the sum of \$695.40 be appropriated to meet the charges for filling deposited on the park lands adjoining Mt. Pleasant Cemetery in accordance with the vote of the Town, May 5, 1902; said sum to be taken from any available funds in the Town Treasury not already provided for.

Article 16 taken up. (Treasurer to borrow money.)

Voted: That for the purpose of procuring a temporary loan to and for the Town of Arlington in anticipation of the taxes of the municipal year 1910, the Town Treasurer is hereby authorized and directed to borrow on and after January 1, 1910, from time to time with the approval of the Board of Selectmen, a sum or sums in the aggregate not exceeding one hundred fifty thousand (150,000) dollars, and to execute and deliver therefor the note or notes of the Town bearing the authenticating certificate of such financially responsible institution or corporation doing business in the Commonwealth, as the Board of Selectmen may designate, payable within one year from the time the loan is made. Any debt or debts incurred by a loan or loans to the Town under this vote shall be paid from the taxes of said municipal year.

Article 18. No action being necessary under this article it was

Voted: That this meeting be now dissolved.

Meeting dissolved at ten minutes after nine o'clock. The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of turnstiles at the entrance and exit of the hall, and at the close of the meeting they made a return in writing, sworn to before the Town Clerk, by which the number of citizens attending the meeting was determined to be 135.

A true record. Attest:

S

THOMAS J. ROBINSON,

Town Clerk.

REPORT OF THE BOARD OF SELECTMEN.

The Selectmen submit the following report for the fiscal year ending December 31, 1909.

On March 1, 1909, the new Board of Selectmen, consisting of Frederick S. Mead, J. Howell Crosby and Philip A. Hendrick, having been duly sworn by the Town Clerk, met and organized as follows:

Chairman, J. Howell Crosby.

Clerk, Horace A. Freeman.

STANDING COMMITTEES.

J. Howell Crosby, Police Department and State Aid.

Frederick S. Mead, Fire Department and Public Lands.

Philip A. Hendrick, Outside Poor, Town House and Public Buildings.

The Board of Selectmen consists of three members, elected at the regular annual town meeting held on the first Monday in March, all for the term of one year.

The Board also acts as Overseer of the Poor and as Board for the Suppression of Gypsy and Brown-Tail Moths.

The regular meetings of the Board are held Saturday evenings, in the Selectmen's room, Town Hall, at 7.30 o'clock.

TOWN DEBT AND TAX RATE.

On December 31, 1908, the fixed debt was.....	\$704,248.64
Added during the year.....	\$14,500.00
Paid during the year.....	14,450.00

Increase during the year.....	50.00
-------------------------------	-------

On December 31, 1909, the fixed debt is.....	\$704,298.64
On Dec. 31, 1908, the sinking fund was..	\$139,698.06
On Dec. 31, 1909, the sinking fund is....	157,713.38

Increase during the year.....	\$18,015.32
-------------------------------	-------------

The amount added to the fixed debt during the year is \$14,500. This is made up of \$3,000 for Town Yard; \$2,500 for new streets, namely, Woodland street and Bartlett avenue; \$2,000 for sewer extensions; \$2,000 for extension of water mains; and \$5,000 for the renewal of old cement lined pipe.

All of this added indebtedness is in the form of serial notes maturing from 1910 to 1919, inclusive.

A part of that spent for new streets will be returned to the Treasury in betterment assessments.

The amount of fixed debt maturing during the year and paid is \$50 less than the amount added during the year. The total fixed debt remaining is \$704,298.64, or \$50 more than it was a year ago.

The tax rate for 1909 is \$18.50 on \$1,000, which is 80 cents less than it was in 1908.

It is gratifying to see a reduction in our tax rate, which appears to be owing largely to the increased valuation of property, due to the growth of the town. The total increase in personal and real estate May 1, 1909, as compared with the year before, was \$373,568. Indications point to an unusual number of new buildings another year and for some years to come.

STATE, COUNTY AND METROPOLITAN TAXES.

	1909.	1908.	Increase.
State Tax.....	\$13,635.00	\$16,665.00	*\$3,030.00
County Tax	11,682.45	10,508.38	1,174.07
Metropolitan Sewer Tax...	9,169.53	9,507.38	*337.85
Metropolitan Water Tax...	17,442.46	16,552.50	889.96
Metropolitan Park Tax....	5,253.27	5,129.49	123.78
	<u>\$57,182.71</u>	<u>\$58,362.73</u>	<u>*\$1,180.02</u>

*Decrease.

The total state, county and metropolitan taxes for 1909 is \$57,182.71, or \$1,180.02, less than was the total for 1908.

This decrease makes a difference of about 11 cents on the tax rate.

While the total of these taxes is less than it was the year before, it is likely to be larger in 1910.

No tax has yet been assessed on the town and cities liable for the cost of the purification of the Alewife Brook area, \$125,000 having been appropriated by the State for that purpose. When assessed the town's share will be 24 per cent., or \$30,000.

CORPORATION AND BANK TAXES RECEIVED BY THE TOWN.

	1909.	1908.	Increase.
Corporation Tax	\$6,640.06	\$8,785.61	*\$2,145.55
Bank Tax	3,852.63	5,711.96	*1,859.33
Street Railway Tax.....	14,417.50	13,120.14	1,297.36
Boston Elevated Ry. Tax..	2,719.10	2,668.42	50.68
Boston & North. St. Ry. Tax	329.93	323.14	6.79
Lex. & Bos. St. Ry. Tax...	63.30	64.40	*1.10
	<hr/>	<hr/>	<hr/>
	\$28,022.52	\$30,673.67	*\$2,651.15

*Decrease.

The total receipts, as shown above, for 1909 amount to \$28,022.52, which is \$2,651.15 less than it was in 1908.

This unfavorable difference is due to the falling off in receipts from corporation and bank taxes.

Chapter 614 of the Acts of 1908 provided that one-half of the proportion of taxes collected on shares in the capital stock of domestic corporations should be paid to the cities and towns where the shareholders resided and the other half should be paid to the cities and towns where the business of the corporation was carried on. Previous to this Act the whole of these taxes was paid to the cities and towns where the stockholders resided. The Act went into effect in 1909, and made a difference of about \$2,145.55 corporation receipts coming to Arlington. Our town being residential rather than manufacturing, loses by the amended law.

DEBT MATURING.

In the next five years the fixed debt maturing, as it stands Dec. 31, 1909, amounts to \$235,548.64, divided as follows:

1910	\$18,648.64
1911	16,950.00
1912	105,950.00
1913	80,550.00
1914	13,450.00
	<hr/>
	\$235,548.64

Of this amount \$91,000 water bonds mature in 1912, and \$64,600 high school bonds mature in 1913. Both of these amounts will be taken from the sinking fund; the other amounts are to be met by taxation.

While a large portion of our present fixed debt will be paid in the next five years, no doubt considerable new indebtedness will be added during the same time because of the demand for public buildings, new streets, water and sewer extension.

OVERDRAFTS.

The practice of making special effort to keep expenditures within the appropriation is now followed among all departments. This is very praiseworthy and the Town as a whole reaps the advantage. During the year just closed all of the departments, except three, report a balance. These three are (1) the Incidental Account, which reports an overdraft of \$457.68 because of extraordinary expenses not anticipated growing out of suits, claims, and railroad hearings; (2) Police Department, reporting an overdraft of \$91.52, caused by extra expenses growing out of the Mullens murder case; (3) the Board of Health Account, which reports the large overdraft of \$873.02. This is because of expenses in the care and treatment of contagious diseases, for which the Town was liable, and which could not be well provided for in March.

Perhaps it is well to say here, that under the law as it reads today, the cost to the Town for the care and treatment of contagious diseases is likely to be considerable of an item annually. By reference to the report of the Board of Health may be seen the law in full on this matter as it now reads, and what that Board says relative to the same.

BONDS OF COLLECTOR, TREASURER, AND TOWN CLERK.

The bond of the Collector of Taxes of Arlington is given by the United States Fidelity and Guaranty Company, Baltimore, Md., to the amount of \$10,000 for the municipal year 1909 and 1910, and until his successor in said office is elected and qualified.

The bond of the Town Treasurer of Arlington is given by the American Surety Company of New York to the amount of \$20,000 for the municipal year 1909-1910, and until his successor in said office is elected and qualified. This bond also covers him as Treasurer of Sinking Fund of said Town, and until his successor in the office of Treasurer of said Sinking Fund is chosen and qualified.

The bond of the Town Clerk, Clerk of Departments and Clerk of the Cemetery Commissioners is given by the American Surety Company of New York to the amount of \$1500 for

the municipal year 1909-1910, and until his successor in said office is elected and qualified.

The bonds are in the care of the Board of Selectmen.

REGISTRATION AND CERTIFICATION OF MUNICIPAL LOANS.

The recent occurrences in connection with the finances of the Town of Framingham have forcibly brought to the attention of the people the necessity of reform in issuing municipal loans. As authorized by the Town in Town Meeting held November 23, 1909, the Selectmen have arranged by which loans issued in the name of the Town of Arlington shall be authenticated by registration and certification in the First National Bank of the City of Boston, a financially responsible institution. It is believed that this additional safeguard will be of such material advantage to investors as to cause the loans to sell at a higher price, thus offsetting the extra expense necessary.

The Governor has suggested that some plan be adopted requiring registration and certification in the office of the Bureau of Statistics of all town and city loans. Probably early action will be taken on the matter by the next Legislature.

THE EXCHANGE OF BONDS.

Eighty-four thousand dollars (\$84,000) of coupon bonds issued by Arlington, dated Jan. 1, 1892, and June 1, Nov. 1, and Oct. 1, 1896, due in 1912, 1922, 1926, 1936 and 1946, appear to be held in the sinking funds of the Commonwealth. The State desires to have these exchanged for registered bonds.

Section 4, chapter 73, of the Revised Laws, together with chapter 136 of the Acts of 1909, authorizes the Treasurer to make this exchange without vote of the Town.

Registered certificate blanks made payable to the Commonwealth for eighty-four thousand dollars, the same to cover the coupon bonds referred to above, have been received by Treasurer Taylor, but the exchange will not be made until after Jan. 1, 1910. In the process of this transfer the coupon bonds with the coupons attached will, of course, be properly cancelled.

These coupon bonds appear to be water, sewer and park bonds.

The Act referred to above is as follows:

Chap. 136. An act to provide for the Registration of Bonds and other Securities held by the Commonwealth.

Be it enacted, etc., as follows:

Section 1. A county, city or town or any corporation organized under the laws of this Commonwealth which has issued any bond, promissory note or certificate of indebtedness payable to the bearer, which is held by the Commonwealth, shall, at the request of the Treasurer and Receiver-General, issue in exchange therefor a bond, note or certificate of the same effect, payable to the Commonwealth by name. Provided, that the Commonwealth shall pay all expense necessarily incurred in making such exchange.

Section 2. A county, city, town or corporation which neglects or refuses to issue a bond, note or certificate in accordance with the provisions of this act, when requested so to do by the Treasurer and Receiver-General, shall be subject to a penalty of not more than fifty dollars.

Approved March 3, 1909.

THE HORNBLOWER GIFT.

In a letter from Henry Hornblower and Hattie F. Hornblower, dated October 18, 1909, the Selectmen were informed that it was their intention to give to the Town of Arlington the Athletic Field near the shores of Spy Pond, as soon as the necessary legal formalities could be arranged.

The Field was to be for the use of the children of the citizens of Arlington in the schools of Arlington, and the School Committee was suggested as the proper Board to have the direction and control of the Field:

The matter was referred to the Town Counsel, who was to confer with Mr. James A. Bailey, Jr., Mr. Hornblower's attorney, relative to the legal details necessary to complete the gift.

The Board also acknowledged the receipt of the letter and expressed their appreciation of the kind and generous act of Mr. and Mrs. Hornblower.

At a Town Meeting held Nov. 23, 1909, the matter was to have been brought before the Town for acceptance, an article having been inserted in the warrant for that purpose. It was found, however, that the conditions in the deed of gift were such that special legislative authority was necessary before the Town could appropriate money for the maintenance of the Field. As this authority could not be obtained until the next session of the General Court, action under the article was indefinitely postponed.

A petition and bill for this authority will be drawn and presented forthwith to the Legislature, and upon its enactment the deed of gift will be submitted to the Town at the earliest possible moment.

FIRE DEPARTMENT.

Nothing unusual has transpired in this department during the year just closed. The high standard of efficiency heretofore existing has been sustained and the condition of the apparatus kept up to standard. The Town has been quite free from fires. No material change has been made in the roster of membership and good feeling and co-operation existed.

At the Town Meeting held Nov. 23, 1909, a special committee of five was appointed to investigate the advisability of enlarging Hose House No. 1, at Arlington Heights, for better fire protection. This committee is expected to report at the March meeting.

The prospective growth in the eastern part of the town will before long call for additional fire protection, and when that takes place the question of a central fire station and more up-to-date fire apparatus, including the automobile combination, may have to be considered.

For further detail your attention is directed to the report of Chief Peirce.

POLICE DEPARTMENT.

The demands on this department appear to have been greater than ever before, especially with reference to cases of a serious character. Notwithstanding this, the efficiency of the department has been well sustained without any material changes in the force.

The work of the department has necessitated a slight overdraft in expenditures growing out largely from the Mullens murder case.

For further details of the year's work attention is called to the report of Chief Urquhart.

POLICE OFFICE AND CELL ROOM IMPROVEMENTS.

The changes and repairs in the cell room and office of the police department are now under way and will soon be completed. Eleven hundred and seventy-three dollars were appropriated for this work.

When completed three additional cells will be installed, the plumbing improved, the sanitary conveniences replaced by new and the general construction such as to render the cells and cell room easily washed down and kept clean.

The chief's office is in process of enlargement and will be properly painted, burlaped, refloored and furnished with suitable furniture.

PUBLIC BUILDINGS.

These buildings include Medford Street Estate, Summer Street Estate, Robbins House, house and barn on Town Yard, and the Town House. No unusual expenses have been made on these buildings except papering, painting and repairs on water pipe in Robbins House, and an oak floor in the Town House, laid in the room of the Superintendent of Wires. The repairs on the cupola of the Town House were authorized by special appropriation of \$250, made by the Town, Nov. 23, 1909.

These repairs were much needed, as the supports of the cupola were considerably weakened by decay, rendering the cupola liable to fall in case of heavy storm.

The corner uprights have been replaced and strongly braced and bolted, the tin roof and other outside repairs made. It is believed the cupola is now safe for many years.

The first four estates mentioned above rent as follows:

Medford Street Estate, \$300 per year.

Summer Street Estate, \$300 per year.

Robbins House, \$400 per year.

House and barn, Town Yard, \$246 per year.

Making a total of \$1,246.

The Town pays the water rates on all these estates and bears the expense of repair and maintenance.

If allowance is made for insurance, maintenance and loss by exemption from taxation, there is probably little or no profit to the Town. All of these estates, however, are of prospective value, and, therefore, warrant possession by the Town. The Medford Street Estate may be required later for school purposes, the Summer Street Estate for almshouse purposes, the Robbins House for police or other Town purposes, and the house and barn on Town Yard for use by the Board of Public Works. In the meantime it seems advisable to derive what income can be obtained.

GYPSY AND BROWN-TAIL MOTHS.

The work in this department is now an old story and differs little from year to year. The character of the work changes only in degree, while the location changes only in extent and will continue thus until the entire town is covered. While the streets, parks and private residential portions have received due attention the woodlands have received special consideration for two or three years past.

Tanglefooting, burlaping, treating nests, cutting and burning and spraying have been applied whenever the case demanded. Woodlands on the north part of the town have received the attack this past year.

The two powerful sprayers purchased, one at the end of last year and one at the beginning of this year, enabled the department to cover much more ground in less time and at less expense than formerly. These sprayers are of the Frost pattern and have given good satisfaction. What formerly required thirty men in spraying is now done by eight men by the use of the sprayers. The additional cost in gasoline because of extra power is slight compared with the saving in cost of labor.

Notices have been sent out to all property owners, as usual, and the large number of replies received is very gratifying. These replies simplify and help in laying out the work, and save expense and duplication of work.

The extension of time allowed is for the special benefit of those citizens who just at that time are very busy, but will be at leisure a little later.

The department hopes and believes that this extension of time is appreciated by the recipients.

The work of the department has been in charge of the same local superintendent, namely, Wm. H. Bradley, and the men employed have been the same as those employed for several years.

The work has been very satisfactory to the Board and to the District Superintendent and the State Department has also expressed itself as pleased with the character of the work.

Since our last report the State Department has undergone reorganization. The work of suppressing these moths is now consolidated with the Department of the State Forester, and all material and supplies are hereafter to be furnished by the State from a general storehouse. It is believed that by so doing the department will be managed more economically.

The Selectmen during the year have been in close touch with the State Department, conferences being held from time to time with representatives of the State for the purpose of reporting to and receiving instructions from the same. In this way the work moves along with less friction and with greater satisfaction to all.

At a recent conference, Assistant Forester Worthley authorizes continuing work on the same lines as heretofore until further notice. We shall not know until about the middle of February the full amount of money to be allotted by the State for expenditure in Arlington for next year. The sum already allotted covers the town's liability only.

The attention of the Board has been called by Superintendent Bradley to the ravages of the elm beetle and the leopard moths, the latter being destined to be very destructive to elm trees, because of the character of their eating. Probably the State will make special appropriations for suppressing both of these moths.

Attention is called to Superintendent Bradley's report as Tree Warden, as he in that report has gone somewhat into detail relative to the elm beetle and leopard moth. For detailed expenditure see financial statement attached.

PURIFICATION OF ALEWIFE BROOK AND ADJACENT AREAS.

On Wednesday, June 23, 1909, at the site of the old tide gate on Alewife Brook in Somerville, the Metropolitan Commissioners and representatives of the cities of Cambridge and Somerville, and the towns of Arlington and Belmont met to witness the inauguration of the improvement of Alewife Brook and adjacent areas, for which improvement \$125,000 has been provided. Remarks were made by the Metropolitan Park Commissioners and by different representatives of the various towns and cities, and Mr. William A. Muller, one of our enterprising citizens and largely interested and enthusiastic in the scheme from the first had the honor of lifting the first shovelful of earth. From that time the work has been steadily moving on, and another year will doubtless see the work near completion. When completed, motor and other boats are expected to pass from Spy Pond to the ocean and to Mystic Pond and Charles River. This improved condition must bring into adjoining towns large areas of improved territory both for residential and farming purposes—and the valuation of real estate is necessarily enhanced. City and town authorities will doubtless be called upon to assess betterments as authorized

by Section 7 of Chapter 529 of the Acts of 1906, which reads as follows:

Section 7. Each city and town shall have the same authority within five years after the passage of this act to determine the value of and assess upon real estate in said city or town the amounts of betterments accruing to said real estate by reason of said improvements, as is conferred by chapter fifty of the Revised Laws upon boards of city or town officers authorized to lay out ways, and the provisions of sections one to thirteen, both inclusive, except sections four and eleven of said chapter fifty, shall apply to such assessments.

DEAD TREES.

Notwithstanding the financial outlay and special precaution given for years by the town towards the preservation of our street trees, it was very evident the past year that something unusual was killing many of these trees, especially along the centre of the Town. Believing that the laying of gas mains along the centre by the Arlington Gas Light Company had much to do with the killing of these trees, the Board had the matter investigated by the State Forester and by Professor Geo. C. Stone of Amherst, both experts on such work.

After thorough investigation, both of these gentlemen reported in writing that gas leakage was largely the cause of the injury.

The attention of the Gas Company was called to these reports, and at a conference between representatives of the Company and the Joint Board the damages were satisfactorily adjusted. Under this arrangement the Arlington Gas Light Company agrees to remove certain specified trees and replace them with young trees, and to bear one-half the expense of removing and replacing certain other specified trees—the removal of the old trees and the replacing by new to be done under the direction of our Tree Warden. The Board were much pleased with the fair and considerate spirit displayed by the representatives of the Gas Company.

MAD DOGS.

Mad dogs being at large, biting other dogs, and, therefore, a serious menace to the public, the Board of Selectmen, on the advice of Dr. Austin Peters, Chief of the Cattle Bureau and local physicians, and in accordance with the provisions of law,

passed the following order, at a meeting held March 16, 1909, for the protection of our people:

ORDERED, That any and all dogs within the limits of the Town of Arlington shall be muzzled or restrained from running at large from date to June 16, 1909.

Notices were duly posted and distributed to the inhabitants of the Town. At the expiration of the time there appeared to be no occasion for its extension. The return on the warrant issued to Constable Urquhart showed that 25 dogs had been killed. No persons were reported to the Board as having been bitten.

TOWN YARD.

As authorized and empowered by the Town at the Town Meeting held March 22, 1909, the Board of Selectmen have purchased the land bounded by Hobbs Court, the Metropolitan Pumping Station and the Boston & Maine Railroad near Brattle Street, about 2.6 acres in extent and owned by the Kelley Estate, said land to be used as a Town Yard, the price paid being \$3,500, the sum appropriated therefor by the Town.

Proper papers have been received by the Town, and after being duly recorded in the office of the Register of Deeds, were filed with the Town Clerk.

TOWN FIRE INSURANCE.

The amount of fire insurance carried on property owned by the town has been increased \$40,000, almost all of it being on the Locke School addition.

The total amount carried by the Town, Dec. 31, 1909, is \$350,000 on buildings and \$84,000 on contents, making a grand total of \$434,000.

BOILER INSURANCE.

The boiler insurance expiring Feb. 1, 1909, was renewed for a period of three years, being placed with the Hartford Steam Boiler Inspection and Insurance Company. Seventeen different boilers are covered, the same being located in the various school buildings, town hall, Robbins library, stone crusher, steam roller, and steam drill.

The law relative to the inspection of these boilers appears to be efficiently carried out, thus safeguarding the public.

LIABILITY INSURANCE.

This insurance covering public and employees' liability on certain work in the highway, sewer and water departments expired May 23, 1909, and was renewed, being placed in the Travellers' Insurance Company of Hartford, Conn.

No accident of a serious character, and calling upon the company for adjustment has taken place.

CONTRACT FOR FURNISHING COAL TO TOWN DEPARTMENTS.

Invitations were extended to twelve different coal companies for proposals for furnishing the several departments of the Town with coal for the current year.

Three were received.

Peirce & Winn Co., being the lowest bidder, were awarded the contract. Their prices were as follows:

D. & H. Lackawanna egg, stove and furnace	\$6.13	per	ton
Honey Brook egg	6.88	"	"
Hazelton	6.53	"	"
Wm. Penn or Reading Hard	6.38	"	"
George's Creek, Black Sheridan & Wilson Co.'s	4.32	"	"
New River	3.97	"	"
Stove and nut delivered in half-ton lots, as wanted	7.10	"	"

The several departments furnished were schools, library, water department, highway department, fire department, and outside poor department.

The total amount of coal covered 451 tons egg, 15 tons furnace, 123 tons stove and 415 tons bituminous, making a total of 1,004 tons.

As far as we have heard the coal has been satisfactory to the several departments.

CONTRACT FOR PRINTING THE ANNUAL REPORT.

Five invitations were extended for proposals to print, bind and deliver our annual town reports for the year 1909.

Three proposals were received. John F. Biggs & Co. was the lowest bidder and was awarded the contract.

Extra copies in cloth and separate reports of certain departments are to be supplied as ordered.

JURY LIST.

Under the law the jury list must be revised by the Selectmen on or before the first day of July annually and before the first day of August copies of said list must be delivered to the town clerk and to the clerks and assistant clerks of the supreme, judicial and superior courts of Middlesex County.

This list is made up in season (usually in January) to have the list for the following year printed in the annual town report for the year previous. The list for 1910 appears in the report for 1909 at the close of the Selectmen's report.

OUTSIDE POOR.

The number of persons receiving aid during the year just closed is greater than last year, while the cost is less. This reduced cost is largely because the aid has been reduced in some families and discontinued in others. Several families heretofore helped for several years have become self-supporting on account of the earning power and assistance rendered by their children.

This is very commendable, as it removes these families from the pauper list.

The Board is in close touch with the recipients of town aid, and when conditions warrant, reduce or discontinue further assistance.

The total number of persons of all classes aided during the year is 228, of which 91 were adults and 137 children.

The greatest cost is for the regular list, which includes those whose residence and settlement are in Arlington, and who are aided continuously. Next to this in amount is the cost of board for those in the "City Home," Somerville, formerly inmates of our almshouse.

The financial statement attached herewith gives the receipts and expenditures relative to the various classes aided.

SICK IN HOSPITALS.

This includes those committed to State or city hospitals for medical treatment. In most cases they resided elsewhere, but had settlements in Arlington. Several cases, however, were sent to the State Infirmary, Tewksbury, from Arlington, as state charges.

Most, if not all, of these cases, are such as require special treatment, which cannot be rendered at their homes.

Sending such cases to the hospital is no doubt humane, and a protection to the public. The cost usually falls on the State, or the city or town where the patient has a settlement. Occasionally the cost is reimbursed by the patient or relatives. No doubt cases are taken to the hospital who are fully able to pay for care and treatment and should be made to do so.

CHILDREN.

The Overseers of the Poor have authority to place pauper children who are in their charge and over two years of age in a respectable family in the Commonwealth, or in an asylum therein, to be there supported by the city or town according to the laws relative to the support of the poor until they can be otherwise cared for.

Nine children continue to be thus cared for, all being orphans, and all placed in the care of relatives.

INSANE, EPILEPTIC AND FEEBLE-MINDED.

Formerly the Overseers of the Poor had to do with the insane, the epileptic and the feeble-minded. Since January 1, 1904, the State has assumed the care and expense of the insane, and since Dec. 1, 1908, the care and expense of the epileptic and feeble-minded has been assumed by the Commonwealth. Whether the cost to the Town will be actually less by the change, we are unable to say. The Town pays its share of the general maintenance of these cases, but indirectly, through the State tax.

CRIPPLED AND DEFORMED CHILDREN.

The Massachusetts Hospital School, situated at Canton, Mass., went into commission this year. The school is in charge of the State, and is designed for the education and care of crippled and deformed children. "Such charges as are paid" in this school "by the Commonwealth, or by any city or town, shall not be deemed to have been paid as State or pauper aid, and no person shall be deemed to be a pauper in consequence of his inability to pay for the support of a child in this school."

A crippled child, ten years old, was admitted to the school from Belmont. The child having a legal settlement in Arlington, this Town is liable for the expense.

EXCESSIVE BURIAL EXPENSES.

While the Board highly commends the desire of friends and kin to give deceased friends and relatives a decent and respectable burial, it must enter a protest against excessive funeral expenses

for those who were recipients of town aid at the time of their decease, or for those whose death leave their families entirely destitute and subjects of public or private charity. This practice appears to be of common occurrence. In the opinion of the Board, however, it is a great mistake and should be discouraged. No doubt such ill-advised expenditures tend to lessen the sympathy and charitable disposition of private individuals inclined to aid the poor and unfortunate. In such cases, too, Overseers of the Poor are justified in hesitating as to the character of assistance to be rendered.

Any available funds from life insurance, or otherwise, after allowing a reasonable sum for burial expenses, should be reserved for the relief of the urgent necessities of the living members of the family, and not expended on the dead.

REIMBURSEMENTS.

Reimbursement is always forthcoming from the city or town in which the party aided has a legal settlement, or from the State, if the party aided has no legal settlement in the Commonwealth. It is seldom, however, that reimbursement is received directly from the individual or family aided, though the same is sometimes promised. Occasionally, persons aided voluntarily, settle the bill in order to have their name or family taken from the list of paupers. Such action is very commendable, and is to be encouraged. It is too often that persons receiving town aid misrepresent their real financial condition, and thus impose upon public or private charity. Whenever cases of this character are known "the punishment should meet the crime." The offense may at times justify legal suit by the town for reimbursement. Overseers are constantly on the lookout for such cases. The financial statement shows the character of reimbursements received.

"CITY HOME" INMATES.

Since the discontinuance of our almshouse the "City Home" at Somerville is used as such. Four of our paupers have been inmates here, the same as the year before.

BURIALS.

Under certain conditions the Overseers of the Poor have authority to decently bury certain deceased persons, including unknown persons found dead. When State charges, the State allows \$15 for the funeral expenses of a pauper over twelve years of age,

and \$10 when the pauper is under that age. One case of a deceased person over twelve years of age was so buried.

OVERSEERS OF THE POOR.

The election of Overseers of the Poor by towns was authorized by statute in 1691, although they had existed in England for a century before. When not a separate and distinct board, the Selectmen by law act as Overseers. Their duties are many and varied and so complex that to thoroughly understand them requires years of experience. In general:

"Every city and town shall relieve and support all poor and indigent persons lawfully settled therein, whenever they stand in need thereof.

"The Overseers of the Poor shall have the care and oversight of all such poor and indigent persons so long as they remain at the charge of their respective cities and towns, and shall see that they are suitably relieved, supported, and employed, either in the workhouse or almshouse, or in such other manner as the city or town directs, or otherwise at the discretion of said overseers."

WHO ARE PAUPERS?

In 1832 the Justices of the Supreme Judicial Court said:

"Long before the adoption of the third article of amendment to the Constitution, the word 'paupers' had acquired a precise and technical meaning and was understood to designate persons receiving aid and assistance from the public, under the provision made by law for the support and maintenance of the Poor." See II. Pickering 539.

"Every person is a pauper who receives relief at the public expense, and such as is provided by law for persons standing in need of immediate relief." See *Charlestown vs. Groveland* 15 Gray, page 15.

A State pauper is a pauper who has no legal settlement in any city or town in the Commonwealth, and whose relief is chargeable to the State.

A city or town pauper is a pauper having a legal settlement in some city or town in the Commonwealth and whose relief is chargeable to the city or town in which he has a settlement.

RIGHT TO VOTE.

By Chapter II., Section 12, of the Revised Laws, paupers and persons under guardianship, as well as persons unable to read or to write shall not have the right to vote.

RESPONSIBILITY OF KINDRED.

The mutual liability of parents to maintain their children and of children to maintain their parents was established by law in England in 1597, and soon after this liability was extended to grandfather and grandmother.

In Massachusetts this liability was still further extended so that the Massachusetts statute today reads as follows:

Chap. 81, Sec. 10, Revised Laws.

"The kindred of such poor persons, in the line or degree of father or grandfather, mother or grandmother, children or grandchildren, by consanguinity, living in this Commonwealth, and of sufficient ability, shall be bound to support such poor persons in proportion to their respective ability. The mother shall be under the same legal obligation to support her pauper children as the father, but she shall not be liable to criminal prosecution for the enforcement of such obligation."

In general, relatives are too often indifferent to the pauper list among their own kin. It sometimes occurs that a town is obliged to enter suit against near kin who are financially able and legally bound to aid their poor relatives.

We are very glad to report that several families in Town, formerly aided by the Town, have the past year become self-supporting, because of the earning power of their children.

Some of these children (among them girls) are to be highly commended for the part they have performed.

It is the duty of the Overseers to be in such close touch with the conditions of recipients of town aid as to discontinue said aid whenever the conditions warrant.

THE LAW OF SETTLEMENT.

Whenever a person applies to the Overseers of the Poor for Town aid the history of the case is always taken to determine whether the person or persons should be a town, city or state charge. This is determined by the person's place of settlement, and so complicated is our settlement law that much time of Overseers or their agent is often necessary in search for facts before deciding whether one city or town or another or the state is legally held for and shall bear the expense of aid rendered. Investigations frequently lead back through several generations before the decision is made.

The Law of Settlement is as follows:

(R. L. Ch. 80, Sec. I.) "Legal settlements may be acquired in any city or town in the following manner, and not otherwise":—

"First. A married woman shall follow and have the settlement of her husband, if he has any within the Commonwealth; otherwise she shall retain her own at the time of marriage, if she then had any."

"Second. Legitimate children shall follow and have the settlement of their father, if he has any within the Commonwealth; otherwise, they shall follow and have the settlement of their mother, if she has any."

"Third. Illegitimate children shall have the settlement of their mother at the time of their birth, if she then has any within the Commonwealth."

"Fourth. A person of the age of twenty-one years who has an estate of inheritance or freehold in any place within the Commonwealth, and lives thereon three consecutive years, shall thereby acquire a settlement in such place."

"Fifth. A person of the age of twenty-one years who resides in any place within this Commonwealth for five consecutive years, and within that time pays all State, county, city, or town taxes duly assessed on his poll or estate for any three years within that time, shall thereby acquire a settlement in such place."

"Sixth. A woman at the age of twenty-one years, including a married woman who has no settlement derived by marriage under the provisions of the first clause, and a widow who resides in any place within this Commonwealth for five consecutive years, shall thereby acquire a settlement in such place."

"Seventh. A person who is chosen and actually serves one year or for such period as is included between two successive annual town elections as clerk, treasurer, selectman, overseers of the poor, assessor, constable or collector of taxes in any place shall thereby acquire a settlement therein."

"Eighth. A settled ordained minister of the gospel shall acquire a settlement in the place wherein he is settled as a minister."

"Ninth. A minor who serves an apprenticeship to a lawful trade for four years in any place, and actually sets up such trade therein within one year after the expiration of said term, being then twenty-one years of age, and continues there to carry on the same for five years, other than as a hired journeyman, shall thereby acquire a settlement in such place."

"Tenth. A person who was enlisted and mustered into the military or naval service of the United States, as a part of the quota of a city or town in this commonwealth, under any call of the President of the United States during the war of the rebellion, or who was assigned as a part of the quota thereof after having been enlisted and mustered into said service, and who served for not less than one year, or died or became disabled from wounds or disease received or con-

tracted while engaged in such service, or while a prisoner of the enemy, and his wife or widow and minor children, shall be deemed thereby to have acquired a settlement in such place; and any person who would otherwise be entitled to a settlement under this clause, but who was not a part of the quota of any city or town, shall, if he served as a part of the quota of the Commonwealth, be deemed to have acquired a settlement in the place where he actually resided at the time of his enlistment. But these provisions shall not apply to any person who was enlisted and received a bounty for such enlistment in more than one place unless the second enlistment was made after an honorable discharge from the first term of service, nor to any person who has been proved guilty of wilful desertion, or who left the service otherwise than by reason of disability or an honorable discharge."

"Eleventh, upon the division of a city or town, every person having a legal settlement therein, but being absent at the time of such division, and not having acquired a legal settlement elsewhere, shall have his legal settlement in the city or town containing the last dwelling place or home which he had in the city or town so divided; and if a new city or town, composed of a part of one or more other cities or towns, is incorporated, every person legally settled in the places of which such new city or town is so composed, and who actually dwells and has his home within the bounds of such new city or town at the time of its incorporation, and any person duly qualified as provided in the tenth clause of this section, who, at the time of his settlement, dwelt and had his home within such bounds, shall thereby acquire a legal settlement in such new place; but no person residing in that part of a place which upon such division is incorporated into a new city or town, and who then has no legal settlement therein, shall acquire any by force of such incorporation only; nor shall such incorporation prevent his acquiring a settlement therein within the time and by the means by which he would have gained it there if no such division had been made."

"Section 2. No person shall acquire a settlement, or be in process of acquiring a settlement, while receiving relief as a pauper, unless, within five years after the time of receiving such relief, he reimburses the cost thereof to the city or town furnishing the same."

"Section 3. No person who actually supports himself and his family shall be deemed to be a pauper by reason of the commitment of his wife, child or other relation to an insane hospital or other institution of charity, reform or correction, by order of a court or magistrate, and of his inability to maintain such wife, child or relation therein."

"Section 4. No person who has begun to acquire a settlement by the laws in force at and before the time when this chapter takes effect, in any of the ways in which any period of time is prescribed for a residence, or for the continuance or succession of any other act, shall be prevented or delayed by the provisions hereof; but he shall acquire a settlement by a continuance or succession of the same residence or other

act, in the same time and manner as if the former laws had continued in force."

"Section 5. Except as hereinafter provided, every legal settlement shall continue until it is defeated or lost by the acquisition of a new one within this Commonwealth; and upon the acquisition of such new settlement all former settlements shall be defeated and lost."

"Section 6. Any settlement which was not fully acquired subsequent to the first day of May, in the year eighteen hundred and sixty, is hereby defeated and lost, unless such settlement prevented a subsequent acquisition of settlement in the same place; but if a settlement acquired by marriage is so defeated, the former settlement of the wife, if not also so defeated, shall be revived. A person who is absent from the commonwealth for ten consecutive years shall lose his settlement."

BOSTON, LOWELL & LAWRENCE ELECTRIC RAILWAY COMPANY.

This company petitioned the Board of Railroad Commissioners for a certificate of public convenience and necessity for an interurban railroad connecting Lowell and Lawrence with Boston. The plans showed the locations from which to chose, both extending through Arlington. On this petition a hearing was appointed by said Commissioners for June 14, and other hearings followed, extending into November. On July 3d a Mr. Farley, attorney for said Boston, Lowell & Lawrence Electric Railway Company, appeared before the Board of Selectmen, explaining the purposes of said railway company, and giving what he considered advantages such a railway would be to Arlington.

The Board had already looked carefully into the matter, and after having heard Mr. Farley, believing that such a road within the limits of the Town of Arlington would be of little or no benefit, but of positive and serious injury to the Town, unanimously

VOTED, That it is the opinion of the Board of Selectmen of the Town of Arlington that public convenience and necessity do not require the construction of an electric railway as proposed by the Boston, Lowell & Lawrence Electric Railroad Company; that the same would be detrimental to the Town and that the Town Counsel be instructed to oppose granting a petition for a certificate of exigency now pending before the Board of Railroad Commissioners.

One of the routes contemplated extended the entire length of Arlington from the Lexington line to the Medford line, following Sucker Brook Valley to Medford Street, near Warren, and thence in an easterly direction to the Medford line and

then to Boston. The other route entered Arlington from the Winchester line east of Mystic Street and run parallel with said Mystic Street to Medford Street, near Warren, where it turns east and follows the other route to Boston.

Both of these routes destroy a large amount of real estate, injures adjacent property and are a serious drawback on the true development of nearby territory.

At the various hearings the Board of Selectmen were represented by our Town Counsel, and with prominent citizens of the Town, entered a strong protest against granting a certificate of exigency by the Railroad Commissioners, especially if the location of tracks crossed Arlington territory.

It was clearly shown by our Town Counsel and Engineer Adams, however, that if Lowell and Lawrence merited an interurban railroad, as was claimed, a route entirely outside the limits of Arlington should be laid out. This route would pass through Winchester and Medford, then to Boston, thus eliminating Arlington from the premises. It had the great advantage of being shorter and more direct to Lowell, less destructive to property, less expensive in construction and answered fully the general purpose of the proposed road.

The hearings closed in November, and the Railroad Commissioners have the matter under advisement, not having at this writing, rendered their decision.

THE BLOCKING OF OUR STREETS BY STREET CARS.

In February, 1908, the Boston Elevated Railway Company put into operation the order of the Railroad Commissioners, allowing said Elevated Company to run between the hours of four o'clock and six o'clock P. M., ten additional cars per hour between Dudley Street Station and Arlington Centre. This was for the purpose of relieving the crowded condition of cars en route for Arlington. This method of relief has been in operation to the present time, and while it affords some relief, as was intended, it gives rise to other complaints, namely, the blocking of Massachusetts Avenue at the Centre. It is very natural to expect that ten additional cars per hour entering Arlington Centre most, if not all, making a terminal at Water Street and transferring at this point by switch from an outgoing to an in-going track, will cause serious trouble, especially where the facilities for transfer are inadequate. During this process of transfer cars are delayed on the tracks, blocking and endangering travel and interfering with business.

Complaints have been entered to the Board of this serious

state of affairs, and the attention of the Boston Elevated Railway Company called to the matter, and at a conference recently held in the Selectmen's room with Vice-President C. S. Sergeant and General Manager George W. Tripp an informal discussion of the matter took place. There were also present during the discussion the Board of Public Works, Mr. N. J. Hardy, representing the Business Men's Association, Town Counsel Hardy, and Town Engineer Pond.

After a conference of an hour or more Vice-President Sergeant assured the Board that the matter would receive his serious attention and the situation relieved if possible.

On November 27th a proposition was received from Mr. Sergeant by which under certain conditions and guarantee a left-hand cross-over would be installed by the company. A reply to this proposition has been made by the Board and the matter is still pending.

GRADE CROSSINGS AT WHITTEMORE STREET AND AVON PLACE.

The following is a "copy of the certificate of the Board of Railroad Commissioners relative to the abolition of certain grade crossings of the Boston & Maine Railroad in Arlington."

COMMONWEALTH OF MASSACHUSETTS.

In Board of Railroad Commissioners.

November 4, 1909.

Petition of the Boston & Maine Railroad for certificate relative to abolition of grade crossings in the Town of Arlington.

After notice and hearings and an examination of the proposed plan for abolishing the grade crossings of Whittemore Street and Avon Place and the tracks of the Boston & Maine Railroad in the Town of Arlington, as set forth in the report of the special commission appointed by the Superior Court to consider the matter, it is

Ordered, That the Board hereby certify that in its opinion the adoption of said plan is consistent with the public interests.

Attest:

(Signed) CHAS. E. MANN,
Clerk.

It will be remembered that in 1907 the Board of Selectmen petitioned the Railroad Commissioners for the abolition of these grade crossings. The Board understands the entire

expense is to be borne by the Boston & Maine Railroad, as Avon Place and Whittemore Street are private ways.

GRADE CROSSING AT MASSACHUSETTS AVENUE.

The following is a "copy of the order of the Board of Railroad Commissioners extending the time for maintenance by the West End Street Railway Company of crossing at grade with the Boston & Maine Railroad at Massachusetts Avenue in Arlington":

COMMONWEALTH OF MASSACHUSETTS.

In Board of Railroad Commissioners.

May 11, 1909.

Petition of the West End Street Railway Company, by the Boston Elevated Railway Company, its attorney, for authority to maintain and use an existing grade crossing, heretofore authorized, of railroad and railway in Arlington.

After notice and hearing it is

Ordered, That the petitioners be authorized to maintain and use a crossing of its railway and the Boston & Maine Railroad at the same level at Massachusetts Avenue in Arlington, from the date of this order until December 1, 1910, subject to all provisions of law and to the conditions embodied in the order of the Board, dated April 13, 1900, and to the further condition that any substantial increase in the use of the crossing by the railway or railroad shall be seasonably reported by the petitioner to this Board.

Attest:

(Signed) CHAS. E. MANN,
Clerk.

STATE AID, MILITARY AID, SOLDIERS' RELIEF, ETC.

Questions are frequently asked as to what state aid, military aid and soldiers' relief are, for what purpose they are given and who pays the bill. In view of this fact, perhaps the following may not be out of place.

Massachusetts is said to be more liberal towards its soldiers, sailors and their dependents than any other state. For state and military aid and burial of indigent soldiers, their wives and widows, the State expended during the year 1907, \$856,655

STATE AID. State aid is payable to soldiers and sailors who served in the Civil War, or in the war with Spain, in the army or navy of the United States and to their wives, widows, widowed mothers or dependent children. Army nurses and one or two other classes are also entitled to this aid. All applicants, how-

ever, must meet certain conditions before receiving it. In Towns applications are made to the Board of Selectmen. The papers are filled out under oath and forwarded to the Commissioner of State Aid at the State House, who has full authority to grant the same or not.

The law says:

"A recipient of State Aid shall have a residence, and shall actually reside in the city or town from which such aid is received, shall not receive aid from any other city or town in the Commonwealth, nor from any other State, *shall be in such needy circumstances as to require public assistance.*" Not more than six dollars can be paid a soldier and not more than four dollars to his widow.

Money paid out by a city or town as State Aid will be reimbursed by the Commonwealth the following year.

During the year State aid has been paid to forty-two different persons, divided as follows: eighteen soldiers, twenty-four widows. The total amount paid was \$1,990.00.

In his instructions to the Mayor and Aldermen, or Selectmen, the Commissioner of State Aid and Pensions, says:

"The law of 1877 was abused by the allowance of State Aid to persons of income, to persons depositing it for accumulation in savings banks and elsewhere, and to those abundantly able to provide for themselves. This must be corrected. State aid is not a pension, to which every one disabled in the war is entitled. It is not for the rich and well-to-do in the world, nor is it for the idler, the criminal or the profligate. It is not intended as an encouragement to pauperism nor as a reward to self-ruined manhood. It is not enough that the applicant was faithful in his military or naval service during the war. He must be at the present time a worthy citizen of the Commonwealth, and in such necessitous circumstances as to need assistance. He must be a producer, unless disabled by his service, or by disease, or by the infirmities of age, and contribute his share to the moral and material wealth of the State. The laws make the municipal authorities the watchful guardians of the unfortunate and needy soldiers in their respective localities, and require that they shall be vigilant and humane in their treatment of them.

"Relief is provided only in cases where the person is 'not competent to support himself or herself,' either from earnings or from property or income of any kind. It undertakes to relieve certain defined classes of soldiers and sailors and their dependents, who fall into necessitous circumstances, while they continue in such conditions. The former law has been also abused by paying the maximum amount in all cases. It has been taken for granted that when aid was allowed the largest amount possible was to be given, whether the recipient needed it all or not; but the law is, that not more than certain specified amounts shall be paid. If less will relieve

the person's necessity, the law requires that less be given.

"If in any month the aid is not needed, the law requires that it shall not be paid. The act requires that the money be paid for future benefit. This is to prevent its payment to settle debts or bills incurred for past necessities. It is not to be construed to be for remote future benefit, but to provide means to be used for the beneficiary to relieve his present necessity.

"The amount per month of the pension of each soldier, sailor or dependent relative, on whose account aid is paid, must be stated on the monthly return of payment.

"Under no circumstances must aid be paid, under this law, to any person not actually residing in the city or town where the aid is paid at the time of said payment; and should such recipient remove from one city or town to another, a new application and certificate of reasons must be made, stating where aid was last paid and for which month."

MILITARY AID. Military aid is payable to soldiers and sailors only who served in the Civil War or in the war with Spain and then only under certain conditions.

The law says:

"He shall be poor and indigent and by reason of sickness or other physical disability, in such need as would entitle him to relief under the pauper laws."

He must either reside or have a settlement in the city or town aiding him.

Applications are made for military aid in the same way as for State Aid.

One-half the money paid by cities and towns as military aid is reimbursed by the Commonwealth the following year, except in certain special cases, when the whole is reimbursed.

Military aid is afforded when one's pension and State aid are inadequate for necessary relief.

"No person shall at the same time receive both State and military aid."

Section 13 of the law reads as follows:

"State and Military aid shall be paid to or applied solely for the benefit of the person for whom it is intended, and only so much shall be paid to or for him as may be necessary to afford him reasonable relief or support. It shall not be paid to or for any person who is able to support himself, who is in receipt of income or who owns property sufficient for his support, nor to an amount in excess of such amount as is necessary, in addition to his income and property, for his personal relief or support, nor to or for any soldier, sailor, pensioner, dependent relative or nurse if the necessity therefor is caused by the voluntary idleness or continuous vicious or intemperate habits of the soldier, sailor or pensioner on whose account such aid is sought, nor to or for any person

who has been dishonorably discharged from any national soldiers' or sailors' home, or from the soldiers' home in this Commonwealth, unless the commissioner of State aid, after a hearing, shall otherwise determine. State aid shall not be subject to the trustee process, and no assignment thereof shall be valid. No back State aid shall be paid, nor shall State aid be paid to or for any person convicted of crime unless the municipal authorities and the Commissioner of State Aid otherwise determine, nor shall State or Military aid be paid if the pensioner, soldier or sailor deserted from the service of the United States, either in the war of the rebellion or in the war with Spain, or is wilfully absent from his family and neglects to render them such assistance as he is able to give."

There has been no application for military aid during the year just closed.

BURIAL OF INDIGENT SOLDIERS, ETC.

The burial agent of a city or town appointed for the purpose "shall, under regulations established by the commissioner of State aid, cause properly to be interred the body of any honorably discharged soldier, sailor or marine who served in the army or navy of the United States during the war of the rebellion, or during the war between the United States and Spain after the 14th day of February and prior to the 12th day of August in the year 1898, and the body of his wife, widow or dependent mother, and the bodies of such army nurses, etc., if they die without sufficient means to defray funeral expenses; but no wife, or widow of any soldier, sailor or marine of the Civil War shall be entitled to the benefit of this section unless she was married to him prior to the year 1880, and no wife or widow of any soldier, sailor or marine of the Spanish War unless she was married to him prior to the first day of January, 1901."

The expense of such burial shall not exceed a certain specified amount.

It shall not be made in any cemetery or burial ground which is used exclusively for the burial of the pauper dead, or in any part so used of any cemetery or burial ground.

Applications for such burial must be made to the Burial Agent who forwards the proper papers to the Commissioner of State Aid.

The money paid by a city or town for said burial expenses is reimbursed by the Commonwealth on or before the 10th day of December in the year after the expenditures have been paid.

During the year burial expenses have been allowed in two cases, one a soldier of the Civil War and one a widow of a soldier of the Civil War.

SOLDIERS' RELIEF.

Chapter 79, Revised Laws, relative to Soldiers' Relief, reads as follows:

"Section 18. If a person who served in the army or navy of the United States in the war of the rebellion and received an honorable discharge from all enlistments therein, and who has a legal settlement in a city or town in the Commonwealth, becomes, from any cause except his own criminal or wilful misconduct, poor and entirely or partially unable to provide maintenance for himself, his wife and minor children under the age of sixteen years, or for a dependent father or mother; or if such person dies leaving a widow or such minor children or a dependent father or mother without proper means of support, he or they shall receive such support as may be necessary by the city or town in which they or either of them have a legal settlement. Such relief shall be furnished by the mayor and aldermen or the selectmen or in Boston, subject to the direction of the aldermen thereof as to the amount to be paid to beneficiaries, by the Soldiers' Relief Commissioner, at the home of the beneficiary or at such other place as they may deem proper. A beneficiary shall not be required to receive such relief at an almshouse or public institution unless his physical or mental condition requires it, or unless he or, if he is a minor, his parents or guardian so elects. Printed reports of cities and towns shall designate such expenditures as soldiers' relief."

Section 19. The mayor and aldermen of a city or the selectmen of a town shall furnish such relief without a vote of the city council or of the town authorizing them thereto. Such relief shall be furnished only by, through or under the agency or direction of city or town officers who are authorized to disburse State or military aid. If the mayor and aldermen fail to furnish it, any person who is aggrieved may apply to the commissioners of State aid, who shall forthwith make a thorough investigation of the qualifications and circumstances of the applicant and shall determine the amount of relief, if any, to be given to him. Their decision shall be final, but may at any time be amended or reversed by them."

In dispensing soldiers' relief to soldiers or sailors or their dependents, special precaution must be taken that they are not considered as paupers, and that nothing on the records indicate them to be such. Overseers of the Poor have nothing to do

with dispensing this relief and all expenditures of this character must be designated in printed reports of cities and towns as Soldiers' relief.

Money paid by a city or town as soldiers' relief is not reimbursed by the State,—the city or town having to bear the entire expense.

Five different persons have received soldiers' relief during the year, one a soldier, one the wife of a soldier, and three widows of soldiers.

THE CITIZENS-SOLDIERS' FUND AND THE MILITARY FUND.

These two funds are practically one and the same, as will be seen from the following:

At a public meeting held Sunday evening, April 21, 1861, it was,

Voted, That the Selectmen and the Town Treasurer, with the Selectmen of Belmont, be a Committee to collect and disburse the amount subscribed for the purpose of equipping the company from this Town.

At a Town Meeting held April 29, 1861, ten thousand dollars was appropriated for war purposes, and a committee of nine appointed to report the mode of raising and the manner of distributing the same.

This report recommended, and the same was adopted:

That all unexpended balances of subscription money remaining in the hands of the Selectmen after equipping the company be at the disposal of the Selectmen of West Cambridge and Belmont for the benefit of the soldiers or their families of said town.

Dec. 30, 1861, the balance of this subscription money was \$600, which was invested in a Town note, payable to W. I. Lane, Treasurer of the Military Committee; up to 1865 payments on the note reduced it to \$349.85, from which time it, with its accumulation, has been known as the Citizens-Soldiers' Fund.

The Military Fund, so-called, appears to have been, like the citizens-soldiers' fund, a part of the balance of the subscription money for equipping the company referred to above in 1861.

The balance was \$78.66, and was deposited in the Five Cents Savings Bank, April 26, 1862, and has been added to and drawn from since.

Since 1869, until recently, the interest from the Citizens-Soldiers' Fund, so-called, was deposited in the Savings Bank to the credit of the Military Fund, which fund, Jan. 1, 1888, amounted to nearly \$900.

The money drawn from the Military Fund has been expended for the benefit of needy soldiers and their families.

The fund is now entirely exhausted, the balance having been drawn out for a worthy and destitute soldier this present year.

The Citizens-Soldiers' Fund, however, is still available for the same purpose.

Thinking it might be of special interest to many of our citizens, both old and young, we have printed the following from the Town Records bearing on these funds:

PUBLIC MEETING IN THE TOWN HALL.

SUNDAY EVENING, APRIL 21, 1861.

The Meeting was called by posting the following Notice.

OUR COUNTRY, THE UNION AND THE CONSTITUTION.

The patriotic Citizens of West Cambridge are invited to meet at the Town Hall on Sunday evening, April 21st, at half-past seven o'clock, to consult together upon the distracted condition of our beloved Country and to adopt such measures as may be in our power in the discharge of our duty as loyal and true citizens to uphold the Federal Constitution, the administration of Laws and the lawfully constituted authorities of the Nation.

Washington I. Lane, Samuel Butterfield, Samuel F. Woodbridge, John Schouler, George H. Gray, John Osborn, N. M. Fessenden, Joseph Burrage, William Adams, Abel G. Peck, John Field, Otis Greene, Addison Hill, Wm. E. Parmenter, Jesse Buckman, Reuben Hopkins, Edward Chapman, Daniel R. Stanwood, James Russell, Thomas Russell, George C. Russell, Nathan Robbins, Addison Gage.

WEST CAMBRIDGE, APRIL 20, 1861.

Pursuant to the foregoing notice the inhabitants of West Cambridge and many from Belmont assembled in the Town Hall at the time specified.

Washington I Lane, Esq., Chairman of the Board of Selectmen, called the meeting to order and nominated the following named

persons as officers of the Meeting and they were unanimously chosen as such :

President: WILLIAM E. PARMENTER, Esq.
 Vice-Presidents: COL. THOMAS RUSSELL.
 NATHAN ROBBINS, Esq.
 ADDISON GAGE, Esq.
 SAMUEL BUTTERFIELD, Esq.
 WILLIAM F. HOMER, Esq., of Belmont
 HON. JOHN SCHOULER.
 WASHINGTON I. LANE, Esq.
 GEORGE C. RUSSELL, Esq.
 SAMUEL F. WOODBRIDGE Esq.
 ALBERT WINN, Esq.
 CAPT. REUBEN HOPKINS.
 JOHN OSBORN, Esq.
 N. M. FESSENDEN, Esq.
 OTIS GREENE, Esq.
 Secretaries : ABEL R. PROCTOR.
 ALBERT S. INGALLS, Esq.
 DANIEL R. STANWOOD.
 SAMUEL S. DAVIS.

Prayer was offered by Rev. Daniel R. Cady of the Orthodox Congregational Society.

The President stated that the committee on organization had invited the Hon. James Russell to preside and up to the last moment they were in hopes he would be able to do so, but the feebleness of his health prevented and he sent a letter expressing his sentiments in regard to the present condition of the Country of which the following is a copy.

SUNDAY EVENING, 7 O'CLOCK.

Messrs. Wm. E. Parmenter and W. I. Lane,

Gentlemen :—I regret to say to you that I am too feeble to attend any public meeting especially so exciting as the one contemplated this evening. I will just say my heart is deeply touched at the lamentable condition of our beloved Country. But the Government must be sustained.

Yours truly,
 JAMES RUSSELL.

WEST CAMBRIDGE, APRIL 21, 1861.

The President Submitted the Following Resolutions

Resolved, 1st. That we the Citizens of West Cambridge, in obedience to the sacred duty we owe to our Country, do pledge ourselves to uphold with all the means which God has given us the Federal Union, the Constitution, the Laws and the lawfully constituted authorities of the Nation.

2nd. That with pride and gratitude we applaud the exalted patriotism of those young men of our Town who have been the first among us to enlist as a Military Corps with the intention of joining their brave companions in arms from this Commonwealth who have already gone to the post of duty.

3rd. That we request the Selectmen of this Town to call at the earliest date a legal Town Meeting for the purpose of appropriating the sum of Ten Thousand Dollars, to be expended in aid of the families of those soldiers from this Town who shall be absent and in service.

4th. That a guaranty fund to the amount of Five Thousand Dollars be subscribed by those present against the scarcely possible contingency that the Town shall not make the appropriation recommended.

5th. That the Selectmen be requested to direct that the proceedings of this meeting be recorded with the Town Records and that the Town Clerk be requested to obtain a complete roll of the Military Company now enlisting in this Town, as soon as it is organized, and to transcribe the names of its members upon the Town Records and to record also the names of others of our fellow citizens who now are or who may hereafter be in service.

On motion of Nathan Robbins it was unanimously

Voted, That the sum of ten thousand dollars be inserted in the resolutions for the purpose of maintaining the families of those soldiers who may enlist.

Voted, That the Selectmen and the Town Treasurer of West Cambridge with the Selectmen of Belmont be a committee to collect and disburse the amount subscribed for the purpose of equipping the company from this Town.

Voted, That the sum of Five Thousand dollars be raised for the

Guarantee Fund. The following named Gentlemen immediately subscribed :

ADDISON GAGE	\$1,000.
NATHAN ROBBINS	1,000.
JOHN SCHOULER	1,000.
SAMUEL F. WOODBRIDGE	1,000.
GEORGE C. RUSSELL	1,000.

Francis S. Frost announced that he would give the proceeds from the sale of a picture called "Early Autumn in the West," to the fund in aid of the Company from this town.

The following letter from the Physicians of this Town was read:

WEST CAMBRIDGE, April 21, 1861.

We the undersigned respectfully tender to the families of any of the citizens of West Cambridge who may be called into their Country's service in this time of her peril our professional services and whatever medicines may be needed by them free of charge during the absence of their natural protectors.

RICHARD L. HODGDON.

J. C. HARRIS.

The meeting was eloquently addressed by the President and John Osborn, Esq., Hon. John Schouler, Albert S. Ingalls, Esq., Nathan Robbins, Esq., N. M. Fessenden, Esq., Charles O. Boutelle, Esq., Addison Gage, Esq. and Rev. George Hill.

The Resolutions were unanimously adopted.

On motion of Washington I. Lane, Esq. Voted that the meeting adjourn to Monday evening, the 22nd inst. at 7½ o'clock and continue every evening, Sunday excepted, until further notice.

Adjourned.

TOWN MEETING

April 29th, 1861.

THE WARRANT

MIDDLESEX SS.

COMMONWEALTH OF MASSACHUSETTS

WEST CAMBRIDGE, April 22, 1861.

To John B. Hartwell, a Constable of the Town of West Cambridge,

Greeting: You are hereby required in the name of the Commonwealth of Massachusetts to notify and warn the inhabitants of the Town of West Cambridge qualified by law to vote in Elections and Town affairs to assemble in the Town Hall in said Town on Monday, the twenty-ninth day of April instant, at seven and a half o'clock in the evening of said day, then and there to act on the following articles, to wit:

Article First. To choose a Moderator to preside in said meeting.

Article Second. To determine if the Town will make an appropriation of Ten Thousand Dollars for the maintenance and support of those families whose husbands, fathers or brothers belonging to this Town have enlisted or may hereafter enlist in the military service of their Country during the term of such service, the same to be expended under the direction of the Selectmen.

Article Third. To determine in what manner the said amount of Ten Thousand Dollars shall be raised.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk on or before said day and hour of meeting.

Given under our hands at West Cambridge, this twenty second day of April, in the year of our Lord one thousand eight hundred and sixty-one.

WASHINGTON I. LANE

SAMUEL F. WOODBRIDGE

SAMUEL BUTTERFIELD

Selectmen of West Cambridge.

WEST CAMBRIDGE, April 29, 1861.

Middlesex ss.

Pursuant to the within warrant to me directed I have notified and warned the inhabitants of the Town of West Cambridge qualified to vote in Elections and Town Affairs to meet at the time and place and for the purpose within expressed.

J. B. HARTWELL,

Constable of West Cambridge.

I hereby certify that the foregoing is a true copy of the original which is on file.

Attest, ABEL R. PROCTOR.

Town Clerk.

RECORD OF THE MEETING

Pursuant to the foregoing warrant the inhabitants of the Town of West Cambridge qualified by law to vote in Town Affairs and Elections assembled in the Town Hall in said Town on Monday, the twenty-ninth day of April, 1861, at seven and a half o'clock, on the evening of said day and transacted the business set forth in said warrant as follows:

The meeting was called to order by Abel R. Proctor, Town Clerk, who read the warrant and declared the meeting open and called for

Action under Article First.

The whole number of votes given in for Moderator was thirteen (13); William E. Parmenter, Esq., had thirteen and was declared elected.

Action under Article Second.

The following preamble offered by Wm. E. Parmenter, Esq., and vote moved by Hon. John Schouler, were unanimously adopted by the meeting, to wit:

Whereas our country is now rent with civil discord and the Federal Government has called upon the loyal States of our Union for Military Aid to suppress the rebellion against lawful authority and to uphold the Constitution and the Laws, and whereas it is expedient in our municipal as well as our personal relations as good citizens

of the Commonwealth of Massachusetts to use all means in our power to strengthen the arm of Government to the end that Peace and the Supremacy of Law may be restored.

Therefore on motion, voted, that this Town do appropriate the sum of Ten Thousand Dollars or so much thereof as is necessary for the purpose expressed in article second.

Action taken under Article Third.

On motion of Washington I. Lane, Esq., it was voted that the Moderator appoint a committee of nine to retire and report to the meeting a mode of raising said sum of Ten Thousand Dollars and a plan of distribution of the same.

The Moderator appointed on said committee the following named gentlemen : W. I. Lane, Samuel Butterfield, Samuel F. Woodbridge, Addison Gage, John Schouler, John Field, John Osborn, Nathan Robbins, George C. Russell.

Said committee after retiring for deliberation returned and reported as follows :

The committee recommend that a bounty of Ten Dollars be paid to every soldier who shall be duly enrolled and accepted by the State to be paid at the discretion of the Selectmen.

That every married man or any man having a family dependant upon him for support be paid the sum of Twelve Dollars per month during the term of three months from the time of their enrollment and acceptance unless sooner discharged, to be paid to them at the discretion of the Selectmen.

That the balance of the Company be paid each the sum of Six Dollars per month during the term of three months from the time of their enrollment and acceptance unless sooner discharged, to be paid to them at the discretion of the Selectmen.

That all unexpended balance of subscription money remaining in the hands of the Selectmen, after equipping the Company, be at the disposal of the Selectmen of the Towns of West Cambridge and Belmont, for the benefit of the Soldiers or their families of said Towns.

That the Town Treasurer be authorized to borrow under direction of the Selectmen a sum not exceeding Ten Thousand Dollars and to give the Town's notes therefor in such sums and at such times as they may require to carry out the above votes.

On motion it was voted to accept the report of the committee and adopt their recommendations.

On motion it was voted that all purchases for the Military Company made by Mr. Ingalls or any other persons up to the present time be approved by this meeting.

On motion it was voted to recommend that those having in trust the subscription fund place in the hands of Mr. Ingalls the sum of Three Thousand Dollars for contingent expenses incurred, or that he may incur in behalf of his Company.

On motion, voted to dissolve this meeting.

Pursuant to adjournment, March Meeting was declared open for business.

On motion, voted to adjourn March Meeting to the next Town Meeting.

The foregoing is a true Record.

Attest, ABEL R. PROCTOR,
Town Clerk.

MISCELLANEOUS.

1. The Auditor reports the borrowing capacity of the Town December 31, 1909, as \$110,098.78, not taking the sinking fund into account.

2. The Treasurer's report shows that \$107,000 was borrowed during the year in anticipation of taxes of 1909, and that of this amount \$40,000 was outstanding December 31, 1909. Against this outstanding amount the Collector reports \$60,698.73 uncollected taxes for 1909.

3. In figuring the tax rate, it will be seen that

- (1) The larger the town grant the larger the tax rate.
- (2) The larger the Metropolitan taxes the larger the tax rate.
- (3) The larger the valuation the smaller the tax rate.
- (4) The larger the corporation and bank tax the smaller the tax rate.

4. On the basis of a tax rate of \$18.50 on \$1000 (as this last year), it will be seen that

- (1) \$10,000 saved in appropriation by taxation saves about 90c in the tax rate.
- (2) An increase of \$500,000 in valuation saves about 80c in the tax rate.

5. The balances available for transfer as reported by the Auditor amount to \$15,517.36. Last year it was \$15,123.11.

The Treasurer reports cash on hand December 31, 1909, as \$13,565.95; a year ago it was \$11,363.76.

LICENSES.

Licenses were granted as follows:

VICTUALLERS. C. LaBreque, 606 Massachusetts Avenue; Miss Isabella M. MacDonald, 1406 Massachusetts Avenue; A. O. Sprague, 5 Mystic Street; Charles H. Kimball, 1385 Massachusetts Avenue; N. J. Hardy, 657 Massachusetts Avenue; Elizabeth M. Walsh, 1399 Massachusetts Avenue; Thomas F. Lally, Massachusetts Avenue; Rose Callaghan, 1410-12 Massachusetts Avenue; Ralph E. Milbury, Arlington Heights; Fred G. Oliver, Arlington Heights; John Gallagher, Arlington Heights.

JUNK. Max Rosenfeldt, 1306 Cambridge Street, Cambridge; Joseph Berkman, 319 Elm Street, Cambridge; Frank Segal, 1 Westford Place, Allston; Morris Kaplan, 123 Hibbert Street.

POOL TABLE. Joseph W. Ronco, Post Office Building; Raphae D. Guarente, 612 Massachusetts Avenue; Tony Spadaro, 945 Massachusetts Avenue; Toni Alto, 945 Massachusetts Avenue.

AUCTIONEERS. Arthur J. Hendrick, 99 Medford Street; Frank Y. Wellington, 15 Wellington Street; James H. Shedd, 28 Draper Avenue; Frank V. Noyes, 244 Pleasant Street; George D. Moore, 133 Broadway; F. Alfred Patterson, Arlington Heights; Winthrop Pattee.

INTELLIGENCE OFFICE. Arlington Exchange, Annie F. Nutter, Alice E. Anthony, Manager, Associates Building; Dow & Giles, 633 Massachusetts Avenue.

TO TRANSPORT SPIRITUOUS OR INTOXICATING LIQUORS UNDER PROVISIONS OF CHAPTER 421, ACTS 1906. George W. McClellan, 7 Webster Street; Wood Bros., 1 Water Street; Arthur M. Curtin, 963 Massachusetts Avenue; Jesse C. Fletcher, 32 Sawin Street; American Express Co., railroad station, Arlington; John J. Preston, 319 Massachusetts Avenue.

No sixth class liquor licenses were granted during the year.

Attention is called to the financial statements and comparative tables herewith appended. For further detail of expenditures see Auditor's report.

J. HOWELL CROSBY,

REPORT OF THE CHIEF OF POLICE.

ARLINGTON, MASS., January 1st, 1910.

To the Honorable Board of Selectmen:—

GENTLEMEN:—I have the honor to submit herewith the following report of the police department for the year ending December 31st, 1909.

During the year there were 401 arrests, classified as follows:

Abduction	1
Accessory before the fact, (abduction)	1
Assault and battery	13
Assault with a dangerous weapon	2
Assault with intent to rape	1
Breaking and entering and larceny	6
Capias,	12
Common drunkard	2
Disturbance of the peace	34
Disturbance on a street car	4
Drunkenness	151
Indecent exposure	1
Illegal transportation of liquor	2
Insane	2
Larceny	13
Larceny from building	1
Non-support	4
Rape	4
Receiving stolen property	1
Safe keeping	1
Selling tobacco and cigarettes to minors	4
Selling papers without license	1
Stubborn children	2
Tearing down a legal notice, (registrars notice)	1
Trespass and larceny	4
Vagrancy	9
Violation of probation	2
Violation of the liquor laws	2

VIOLATION OF THE AUTOMOBILE LAWS.

Having no license	4
Having no registration	6
Having no lights	2
Not sounding horn	2
Overspeeding	78
Refusing to stop when signalled by an officer.....	2

VIOLATION OF THE BY-LAWS.

Allowing cows on sidewalk.....	1
Allowing team to obstruct the street.....	1
Discharging fire crackers in the street.....	2
Discharging revolvers in the street	2
Obstructing the sidewalk	2
Playing a hand organ without license	1
Violation of traffic rules	2

VIOLATION OF THE LORD'S DAY.

Being present at a game on the Lord's day.....	7
Gaming on the Lord's day.....	6
Keeping open shop on the Lord's day.....	1
Painting a house on the Lord's day.....	3

Cases were disposed of as follows:

Bound over to the Grand Jury.....	4
Bound over to keep the peace.....	1
Committed to the House of Correction.....	9
Sentenced to the House of Correction and sentence suspended	3
Committed to Danvers Hospital	1
Committed to Foxboro Hospital.....	1
Committed to Lyman School.....	1
Committed to Mass. Reformatory.....	1
Committed to Sherborn.....	1
Committed to State Farm.....	2
Committed to Worcester Hospital	1
Continued cases	2
Defaulted	2
Discharged	22
Delivered to relatives	1
Delivered to out-of-town officers.....	12

Fined	110
Fined and appealed	31
Nol Prossed	7
Placed on file	103
Placed on probation	33
Released from the station	37
Sentenced to the State Farm and appealed.....	2
Sentenced to the State Farm and sentence suspended	1
Sentenced to the House of Correction and appealed.	2

Of the above number, 234 were non-residents, 167 were residents, 28 were juveniles, 14 were females; 23 warrants were served; 153 summons were served; amount of fines imposed by the Court was \$1,483.00.

Persons arrested were of the following nationality:

Belgium	1	New Brunswick	3
Canada	2	Norway	1
Denmark	1	Poland	3
England	5	Prince Edward Island...	5
Germany	1	Russia	14
Ireland	79	Scotland	1
Italy	27	United States	255
		Sweden	2

The above number gave as their residences the following cities and towns:

Arlington	167	Lexington	28
Boston	66	Medford	5
Brookline	2	Malden	6
Beverly	1	Maine	1
Brockton	3	Melrose	2
Buzzards Bay	1	Newton	5
Bedford	2	No Home	10
Cambridge	40	Natick	1
Concord	5	Providence	1
Dracut	1	Somerville	20
Dover	1	St. John, N. B.....	1
Everett	1	Topsfield	1
Great Barrington	1	Woodstock, N. H.....	1
Lincoln	1	Winchester	9
Lynn	1	Waltham	3
Lowell	4	Woburn	5
		Whitman.....	1

MISCELLANEOUS WORK.

Accidents	38
Ambulance calls	47
Buildings reported vacant specially protected.....	80
Cases investigated	559
Dead bodies cared for.....	8
Defective hydrants reported	1
Defective sidewalks or streets reported.....	23
Defective electric lights reported	278
Defective wires reported	27
Defective water pipes reported	4
Defective gas pipes reported	1
Details furnished	7
Dogs killed	25
Disturbances suppressed without arrest.....	31
Fires extinguished without alarm.....	6
Fire alarms given	2
Injured persons assisted	24
Lanterns placed on dangerous places.....	60
Lost children cared for	13
Notices served for Selectmen.....	2000
Notices served for Board of Health.....	64
Officers at fires	31
Obstructions in street removed	1
Runaway teams secured	1
Sick persons assisted	23
Store doors and windows secured.....	87
Stray teams cared for.....	8
Search warrants for liquor served.....	2
Search warrants for stolen property served.....	1
Wagon calls	9
Property found, valued at	\$337.87
Stolen property recovered, valued at.....	434.85

"THE MULLINS CASE." March 28th, 1908, the body of Annie Mullins, a domestic living and employed in Cambridge, was found in Squire's field, Arlington.

On April 2nd, 1909, two arrests were made by the Cambridge police in consequence of a letter received by them from one Elizabeth Delorey, of Carlisle, in March, 1909, in regard to her nephew, Peter Delorey, and a Greek, named James Mantir.

At a trial held at East Cambridge during the month of November, 1909, the jury returned a verdict of guilty for

murder in the second degree against Mantir and a verdict of guilty of manslaughter against Delorey.

A motion for a new trial was filed by counsel for the defendants, and was argued by them before the judges at East Cambridge on Dec. 24, 1909, and the matter taken under advisement.

At this writing the court has denied the motion for a new trial and the defendants will probably be sentenced later.

I wish to take this opportunity to thank Captain Hurley and Inspector Neiland of Cambridge for the conscientious work that was done by them from March 28, 1908, to the time of the arrests, in assisting this department in one of the strangest cases ever brought to the attention of the police in this State.

THE ENFORCEMENT OF THE LIQUOR AND GAMING LAWS. At a Town Meeting held Nov. 16, 1904, it was Voted, That the sum of \$1,000 be appropriated for the suppression of gambling houses, bar rooms, and other nuisances during the years 1904 and 1905, and the prosecution of the proprietors of such places, the same to be expended under the direction of the Selectmen.

On Jan. 1, 1905, I took charge of this department, determined to enforce these laws to the letter, fearlessly and conscientiously.

The results obtained speak for themselves. On Jan. 1, 1906, the sum of \$1,000, which had been appropriated for this purpose, was returned to the Town Treasurer intact. I believe there is no town in this Commonwealth today freer from this curse than the Town of Arlington.

THE POLICE SIGNAL SYSTEM. 25,257 duty calls have been rung in by the officers and 738 telephone calls received from them during the year in regard to the various happenings while on their routes.

Without this system this department would have been unable to perform its duty as well as it has. By its use the officers on their routes are in close touch with the office, and, in cases of emergency they can be sent to a given point in a very short time. It not only registers the time officers arrive at a given point, but also gives them an uninterrupted telephone service with police headquarters. Duty calls are rung in at a given time on every route unless some important matter is being attended to. Officers are not allowed to ring the

same box twice in succession, except in cases of emergency, and are not to follow a certain course or ring a certain box at a fixed time.

There should be three additional boxes put in operation; one near the junction of Florence and Park avenues, one on Lake street, near the railroad station, and one on Summer Street, near Dudley.

Under the watchful care of Superintendent of Wires LeBaron, the system has not been out of commission a minute since it was installed, three years ago.

Boxes are located now as follows:

Box No.	12	Junc. of Henderson and Massachusetts Ave.
	14	Junc. of No. Union and Broadway.
	15	Junc. of Tufts and Massachusetts Ave.
	14I	Junc. of Broadway and Massachusetts Ave.
	21	On Medford St., near Lawrence Field.
	23	Junc. of Mystic and Fairview Aves.
	31	Junc. of Mill and Massachusetts Ave.
	32	Junc. of Gray and Bartlett Aves.
	34	Junc. of Pleasant and Kensington Road.
	41	Junc. of Grove and Massachusetts Ave.
	44	Junc. of Forest and Massachusetts Ave.
	412	Near the car barns at Arlington Heights.
	43I	Junc. of Westminster & Westmoreland Ave.

I would respectfully recommend that the sum of \$450 be appropriated for the purchase of three additional police boxes.

THE POLICE AND AMBULANCE SERVICE. The police have investigated 29 accident cases and the ambulance has been sent out on 24 cases as follows:

Jan.	9	Mrs. F. A. Dadmund, ambulance called for but not used.
Feb.	2	Harry Shaw, Massachusetts General Hospital.
	2	Edward Robitelle, taken to his home.
	2	Edward Robitelle, second call to Massachusetts General Hospital.
	14	E. C. Harrington, Massachusetts General Hospital.
	15	Leo Bornstein, Massachusetts General Hospital.
Mar.	21	Rebecca Silverman, ambulance called for but not used.
Apr.	22	Edward Leary, ambulance called for but not used.
May	6	Emma J. Gleason, Cambridge Hospital.
June	3	F. C. Howe, taken to the station.

- 3 C. H. Kimball, Massachusetts General Hospital.
 - 7 Lemuel Greenland, taken to his home in Everett.
 - 26 Samuel Blesnack, taken to station, later home.
 - Aug. 7 Herbert Clark, taken to his home.
 - Aug. 9 Mrs. Chas. Simmons, taken to her home.
 - 25 John McGovern, Massachusetts General Hospital.
 - 31 John Leary, ambulance called for but not used.
 - 31 John Leary, second call to Massachusetts General Hospital.
 - Sept. 11 Mr. Vickerson, Massachusetts General Hospital.
 - 22 Natille Iagabitte, taken to the station.
 - Oct. 2 Unknown, ambulance called but not used.
 - Nov. 19 Irving Small, from ball field to Dr. Hooker's.
 - Dec. 6 Mrs. Streeter, Homœopathic Hospital.
- There have been 23 calls on this department for assistance and for the use of the ambulance by doctors to remove sick patients to various hospitals and institutions, as follows:
- Jan. 14 Wilbert Moore, Massachusetts General, Dr. Atwood.
 - Feb. 11 LeVerne Holms, Homœopathic, Dr. Percy.
 - 21 Horace A. Merrill, ambulance called but not used, Dr. Percy.
 - Mar. 15 Forrest A. Hobbs, Tewkesbury (assistance only), Dr. Webb.
 - Apr. 4 Mrs. Middleton, Massachusetts General, Dr. Sanford.
 - 14 Mrs. Joe Stingel, ambulance called, not used, Dr. Sanger.
 - May 5 Ellen McHenry, Pauper Institute, Boston, J. McLellan.
 - June 4 M. Brown, Massachusetts General, Dr. Walsh.
 - 8 P. O'Neil, Massachusetts General, Dr. Webb.
 - 13 W. F. Jordan, City Hospital (assistance only), Dr. Ring.
 - July 8 Harry Baxter, Massachusetts General, Dr. Webb.
 - 13 Mrs. Jas. Lowe, Homœopathic, Dr. Webb.
 - 26 William McVicker, Massachusetts General, Dr. Percy.
 - Aug. 9 Fred J. Woolley, Massachusetts General, Dr. Dennett.
 - 28 F. V. Blackman, Tewkesbury (assistance only), Dr. Atwood.
 - Sept. 9 Allan Kennedy, Somerville Hospital, Dr. Champion.
 - Oct. 15 C. Weir, Tewkesbury (assistance only), Dr. Keegan.
 - Nov. 4 John Stanley, Massachusetts General, Dr. Stickney.

- Dec. 4 James Brennan, Tewkesbury (assistance only), Dr. Keegan.
8 M. Ellingwood, ambulance called, not used, Dr. Hooker.
17 James Carter, Tewkesbury (assistance only), Overseer of Poor.
17 M. M. Stewart, Tewkesbury (assistance only), Dr. Stickney.
18 James Furse, Russell to Pleasant Street, Dr. Hooker.

The town owns its ambulance, but owns no horse. The ambulance is kept at Lyon's stable, and a horse is furnished by them. On one or two occasions no horse was to be had, and to save life an automobile was pressed into service.

There has been paid out by this department for team hire and care of the ambulance \$207.93. This includes necessary repairs made on ambulance. For medical supplies and necessities in accident cases \$11.98 has been paid out, making a total of \$219.91.

JUVENILE CASES. Many complaints have been made and investigated in regard to mischievous boys, and the police find this one of its hardest problems to adjust satisfactorily.

It is the policy of this department whenever a serious complaint is made against a juvenile to summon him with his parent to this office to talk the matter over. Unless the charge amounts to a felony the offender is required to report to the Chief at regular stated times, bringing a report from his teacher, and endeavoring to influence him to behave, without registering an arrest and a court complaint against him. He is also instructed as to why by-laws are made for the government of the citizens and why they should not be broken with impunity.

In many cases this has been attended with good results and, while it has made more work for this department, it has been instrumental in keeping many boys in the straight and narrow path, and saved them an arrest and appearance in court.

About half the complaints received by this department are in regard to boys. If people would stop to think a moment before making a complaint against a boy to the police, they would recall that they themselves have been guilty of some of the very same things which they now complain of. How many times our parents have gladly adjusted a complaint of an aggrieved neighbor to their satisfaction and our everlasting sorrow without calling in the police. Only as a last resort should people call upon the police for boyish misdemeanors.

I have great sympathy for an offending boy whose parents allow him to be master of the house. If some parents would

keep a better watch over their children and interest themselves more in their moral welfare there would be less for neighbors to complain about. I believe that, first, instead of complaining to the police about a neighbor's children a person should personally see the offender's parent. If no cessation results from this course, a resort to the police is justifiable.

The calling of the police first tends to create ill-will between those who otherwise would be good neighbors.

On several occasions this department has been criticised for lack of attention given certain sections of the Town by its police. These complaints have been adjusted to the best of my ability, and if these citizens knew the amount of work required of the chief and seven patrolmen of the Town they might be more lenient in their criticism.

That you may know exactly the amount of territory officers have to cover I give the following facts:

The day platoon consists of a chief and two patrolmen, one patrolman having all territory west of the Town Hall and the other all territory east of the Town Hall.

The night platoon consists of an inspector with rank of lieutenant in charge of police headquarters and four patrolmen on the streets.

Route 1 is covered by Officer Irwin from 7 P. M. to 4 A. M., and covers all territory from Forest Street to the Lexington line, including twelve and one-eighth miles of streets, with houses on every street. Included in this route are Aberdeen, Acton, Ariel, Appleton, Appleton place, Arnold, Argyle, Ashland, Bow, Claremont Avenue, Cliff, Crescent Hill Avenue, Dundee Road, Eastern Avenue, Elder Terrace, Elmore, Florence Avenue, Forest, Forest Street Place, Hibbert, Hillside Avenue, Lancaster Road, Lowell, Lowell Street Place, Massachusetts Avenue (from Forest Street to the Lexington line), Montague, Oakland, Park Avenue, Park Circle, Paul Revere Road, Sutherland Road, Sylvia, Tanager, Wauchussetts Avenue, Westmoreland Avenue, Wollaston Avenue and Williams Streets. This, together with anywhere from 25 to 50 thousand people who congregate around the car barns Sundays and holidays in the summer, make this a most difficult route to handle.

Officer Cahalin has Route No. 2 from 7 P. M. to 4 A. M. This route consists of Massachusetts Avenue, from Mill Street to Forest Street, and all intersecting streets. This route is about eight and three-eighths miles long and includes the following streets: Gray, Irving, Lincoln, Bartlett Avenue, Mill, Ravine, Summer, Schouler Court, Grove, Grove Street

Place, Dudley, Brattle, Brattle Street Place, Laurel Avenue, Mt. Vernon, Highland Avenue, Walnut, Walnut Court, Fessenden Road, Robbins Road, Brantwood Road, Jason, Jason Terrace, Kenilworth, Pine and Woodland.

Officer Priest has Route No. 3 from 6 P. M. to 3 A. M. This consists of the business section from the junction of Broadway and Massachusetts Avenue to Mill Street, with all side streets, and is about eight and one-eighth miles in length. Streets under his care are: Pleasant, Maple, Chapman, Spring Lane, Deveraux, Wellington, Lombard Road, Pelham Terrace, Addison, Central, Academy, Court, Bacon, Water, Mystic, Russell, Russell Terrace, Chestnut, Old Mystic, Glen, Fairview, Davis, Pearl, Swan, Swan Street Place, Kensington Road, Lakeview, Prescott, and Massachusetts Avenue from Broadway to Mill Street.

Officer Ryan has Route No. 4 from 7 P. M. to 4 A. M. His route extends from the Medford, Somerville, Cambridge and Belmont lines to the Monument at the junction of Broadway and Massachusetts Avenue.

The route is about eleven and seven-eighth miles long and includes the following streets: Henderson, Cross, Teel, Cottage, Sawin, Marathon, Cleveland, Winter, Monument Place, Tufts, Belknap, Linwood, Wyman, Palmer, Franklin, Whittemore, Avon, Avon Place, Magnolia, Lake, Broadway, Brooks, Barnes, Fremont, Gardner, Fairmount, No. Union, River, Warren, Park, Park Place, Beacon, Lewis, Hamlet, Medford, Orchard Terrace, Pond Lane, Coral, Parallel, Orchard Place, Decatur, Laurel, Moore Place, Norcross, Sunnyside, Webster, Lake Avenue, and Massachusetts Avenue from the Cambridge line to the Monument at the junction of Broadway.

With the constant increase in population and resultant amount of work necessarily involved to give the citizens satisfactory police service, I feel that the time has arrived when the citizens have a right to demand better protection at night than is possible under conditions that now exist. To do this there should be at least three additional men appointed to this department. This would entail an increase in the appropriation of \$2737.50, but would be offset by a better feeling of security than can possibly exist at the present time.

Perhaps at this time, having had charge of this department for five years, a comparison of some of the conditions as they existed from 1900 to 1905 with conditions of the last five years would not be out of place, to show you, the citizens

of Arlington, some of the more important facts which have been overlooked.

With a population of 8,603 in 1900, your police department consisted of a Chief and eight patrolmen, or practically one patrolman for every 1,000 inhabitants. The Chief and two patrolmen were on duty during the day, and six patrolmen during the night, one in charge of the Station and five patrolling the streets. During this time 325 minor cases were investigated and 796 cases brought to the attention of the Court, and the amount of fines from Court proceedings returned to the Town Treasurer was \$1,234.06.

During this period, 1900-1905, the Town maintained at the Poor Farm on Summer Street quarters for the housing of tramps or lodgers. A person desiring lodgings for the night could call at the Police Station and receive from the officer in charge of the Station a ticket which entitled the bearer to admission and a night's lodging; 2,196 persons applied for permits and were taken care of by the Town during this time.

The various offences for which persons were arrested were as follows:—

	1900	1901	1902	1903	1904
Adultery	2
Arson	1	1
Assault on officer	1
Assault	7	10	10	9	6
Attempt to steal	1
Bastardy	2	1	2
Breaking and entering	7	4	5
Capias	2	2	2
Common drunkard	2	1
Conveying leased property	1
Cruelty to animals	1	1
Default	5	3	1	2
Deserter	1	1
Defacing private property	1
Disturbance of the peace	21	19	18	11	11
Dipsomaniac	1
Drunkenness	106	63	60	45	62
Disorderly conduct	1
Disorderly house	1
Disturbance in a public conveyance	1
Escaped prisoner	2	2	1
Evading car fare	3
False pretense	1	1	2	1
Forgery	2
Gaming on the Lord's day	9	2	7
Insane	3	2	3	1

	1905	1906	1907	1908	1909
Larceny.....	14	20	11	9	6
Liquor nuisance.....	1	2
Malicious mischief.....	2	4	1	5	1
Murder.....	1
Manslaughter.....	1
Non-support.....	1	3	2	4	4
Perjury.....	1
Pickpocket.....	1
Rape.....	1
Receiving stolen property.....	1
Riding on sidewalk.....	2
Runaway boys.....	2
Stealing a ride.....	1	2
Stubborn child.....	1
Suspicion.....	3	1
Truancy.....	1	2	4
Trespass.....	35	20	14	4
Tramp.....	2
Vagrant.....	2	3	1
Violation of by-laws.....	9	7	2	2
Violation of the liquor laws.....	3	6	4
Violation of fish and game laws.....	2	1
Walking on railroad tracks.....	1	4
Totals.....	232	151	155	127	131

From 1905, with a known population then of 9,672, to the present time, with a population estimated conservatively at 11,500, the Police Department has consisted of only seven men and a Chief.

During the day the Chief and two patrolmen are on duty, and at night an Inspector, with rank of Lieutenant, is in charge of the Station, with four men patrolling the streets.

Of the thoroughness with which this department has done its work little needs to be said when, with one less in number, three notorious houses were closed at once, 1,821 complaints were received and investigated, 1,582 cases were brought to the attention of the Court, \$3,402.30 in fines have been turned over to your Town Treasurer, and the tramp nuisance abolished.

After issuing 61 permits to tramps, they were warned to keep out of Arlington and have done so. Where dozens were formerly seen, only a stray one can be found nowadays.

The following list shows a table of offences committed and arrests made from 1905 to 1910:—

	1905	1906	1907	1908	1909
Abduction.....					1
Accessory before the fact (abduction).....					1
Accessory after the fact (assault to murder).....				1	
Adultery.....	1			1	
Admitting minors to pool rooms.....	1				
Adulterated milk selling.....		1			
Alien gunning without a license.....		1			
Assault on officer.....	2				
Assault and battery.....	6	10	9	13	13
Assault with dangerous weapon.....		1			2
Assault with intent to murder.....				4	
Assault with intent to rape.....					1
Assault and robbery.....				2	
Assuming to be inn holder.....			1		
Attempt larcency.....				1	
Bastardy.....	1		3	1	
Being present at gaming.....	32				7
Breaking glass.....	1		1		
Breaking and entering.....		8	11	7	6

	1900	1901	1902	1903	1904
Larceny from building.....			3	1
Lewd and lascivious conduct.....				2
Malicious mischief.....	2	1
Malicious injury to personal property.....				2
Non-support.....	3	1	6	4
Neglected children.....		3
Painting house on Lord's day.....					3
Peddling without license.....	3
Placing explosives on track.....			1
Pulling false alarms of fire.....			1
Obstructing a street.....			1
Rape.....					4
Riding on sidewalk.....	2
Receiving stolen property.....	1		1	1
Runaway boys.....	2
Setting fires.....	2
Safe keeping.....	3	2	5	1	1
Stubborn child.....	1		2	2
Selling adulterated cider.....			3
Selling cranberries by liquid measure.....			1
Selling tobacco and cigarettes to minors.....					4
Selling obscene pictures.....				1
Selling newspapers without license.....					1
Slaughtering without license.....				1
Suspicion.....				1
Tearing down legal notice.....					1
Throwing stones at trains.....				
Tramps.....				
Truancy.....	1
Track walking.....	6
Trespass and larceny.....	6	10	4	4	4
Trespass.....	4	5
Using registered milk cans of others.....		2
Unlawful use of milk cans.....			1
Vagrancy.....	2	1	2	2	9
Violation of automobile laws.....	3	14	21	12	94
Violation of Board of Health rules.....	2	2	10	1
Violation of probation.....	2	1	4	3	2
Violation of by-laws.....	1	9	11
Violation of school regulations.....				1
Totals.....	339	246	296	300	401

The amount spent for the maintenance of this department from 1905 to 1910 in round figures was \$46,367.64. from which, if the sum of \$3,402.30 which was received from fines was deducted, would leave a net cost of \$42,965.34.

This shows that in the last five years, with a third more population to care for, with twice the actual business done, with one less patrolman and increased pay for the remainder,

there has been a small saving to the Town over the five years previous.

Complaints received and investigated from 1900 to 1905	325
Complaints received and investigated from 1905 to 1910	1,821
Cases in Court from 1900 to 1905.....	796
Cases in Court from 1905 to 1910.....	1,582

Net cost	\$43,671.58	Net cost.....	\$42,965.34

This particular age seems to be one in which we are apt to say “how can I evade the law” rather than “how can I best obey.”

This has been brought to my mind rather forcibly on numerous occasions, and Police Commissioner O'Meara of Boston in his report has well said that there are certain offences against law which all persons, even those guilty of them, acknowledge to be criminal. Murder, arson, burglary, robbery and the like may be called natural crimes, and not even a professional criminal will argue to the contrary or profess that he in particular should be allowed to commit them.

He will escape if he can, but he never questions the propriety of the most strenuous action on the part of the police to catch him, to procure his punishment, and to prevent others from following his example.

Civilized life requires many laws and ordinances in order to promote comfort, health, safety, and morality of the people. These laws are, however, disputed at every point by persons

that know that they could hardly live without them as a whole, and yet insist upon their right to break such of them as they see fit or find convenient. The man who sells meat and groceries on the Sabbath day and feels injured because he is fined, is a firm friend of the law which punishes the reckless driving of an automobile; but the driver, while disgruntled with auto law and with the police who check his course, believes the man who broke the Sabbath laws was punished less than he deserved.

The owner of a house is angry because a ball in the hands of boys break a pane of glass and demand that the police stop ball playing in the street, but when a policeman asks him to clear the snow and ice off his sidewalk, he considers it an impertinence.

The boy on the other hand, and usually the parents, will regard the matter of the glass as a mere incident to a sport with which, law or no law, the policeman has no right to interfere or interrupt. And so it goes through an infinite variety of clashing private interests and indulgence with the policeman who is doing his duty while standing between two fires.

Our weakness is a lack of respect for the law as law. A citizen will demand of the police a defence of the law which they are enforcing because it is contrary to his interests or pleasure. As a matter of fact, the reason for the law's existence is not the business of the police. Should an officer undertake to invent and enforce laws of his own, the citizens would regard him as a tyrant and say he was crazy, but he is indignant when the police refuse to nullify by neglect the laws enacted and which he is sworn to enforce. We rejoice in moments of exaltation that ours is a government of laws, but when the pinch comes to us we wish it to be a government of policemen—of policemen with eyes and ears closed. When such citizens ask your Chief why the police have done certain things and he answers because it is the law, they act as if insulted. They seem to regard such a reply as a mere quibble on his part—an evasion of the real issue which in their minds, as commonly expressed, is "police interference" with something which they like to do even though contrary to law.

We often hear a remonstrance which might be excused in an agitated woman whose only child the police had just saved from having his head broken by coasting under an electric in a forbidden street. If the police would give less attention to boys coasting or playing ball or stopping reckless auto driving (or whatever particular criticism at the

time may be popular) and more attention to catching thieves and robbers the citizens of the town would appreciate them more. They do not realize that the policeman who does his duty in small matters is more likely to do it when the larger ones comes his way. No organized force needs to be stimulated to catch important criminals or to perform acts of conspicuous bravery, for those are the prizes of police work. Attention to small matters of law, moreover, interferes in no respect with the cares of large matters. There is no time or place in which a criminal may be caught; an officer who looks into an alley to see if the fire escape is clear is quite as likely to catch a thief half-way up as he would have been on the next corner, and an officer while preventing boys from coasting is just as well placed for catching a dangerous runaway as anywhere else on his route.

ONE DAY OFF IN 30 FOR OFFICERS. As is a well known fact by nature of their positions, the officers of this department are compelled to work seven days a week, 52 weeks in the year, winter and summer alike. In rain, snow or sunshine, you find them faithfully looking out for their various routes, never having an evening or holiday they can call their own to enjoy with their families, visit friends, or enjoy a theatre.

For a number of years the permanent men of your Fire Department have enjoyed one day off in eight, and I now ask that your police officers be allowed one day off in 30, that they, too, may enjoy the one night a month free from care and in such pleasures as may be fitting and proper.

Practically all the towns in the State where there is an organized police department, including those surrounding Arlington, and all the cities have granted this request to their police.

The much needed repairs to the Station and Lockup are now being attended to, but will not be completed before another month.

I would recommend that the sum of \$12,035.00 be appropriated for the maintenance of this department for the ensuing year.

Realizing the many needs of the Town and of the many calls and demands upon its taxpayers by the various departments, it has been my policy, and is still, to try to do the best I can with what is given me to do with. Encouraging economy wherever it can be practised without detriment to

the service, it is in that spirit that I present these facts for your serious consideration.

In conclusion I wish to thank your honorable board and all others who have assisted this department in its manifold duties.

Respectfully submitted,

THOMAS O. D. URQUHART,

Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

ARLINGTON, MASS., January 1, 1910.

To the Honorable Board of Selectmen of the Town of Arlington:

GENTLEMEN:—I respectfully submit my annual report of the Arlington Fire Department for the year ending December 31, 1909, giving details of the force, apparatus, record of alarms and fires, with amount of loss and insurance on property endangered, as near as possible to be ascertained; also appropriations and expenditures, together with recommendations and suggestions for the best interests of the department and town.

ORGANIZATION. The number of companies are as follows: One ladder company, three hose companies and one chemical engine company, which is run in connection with Hose Co. No. 2. This is the same as last year.

MANUAL FORCE. The force consists of 50 men assigned as follows:

One Chief Engineer, one First Assistant Engineer, one Second Assistant Engineer and clerk, five permanent drivers, one permanent Captain and driver, three Call Captains, four Call Lieutenants, 29 Call Men, five Substitutes.

SALARIES PAID THE DEPARTMENT.

Chief per year	\$300.00
1st Asst. Chief per year.....	100.00
2nd Asst. Chief and clerk per year.....	125.00
1 Permanent Captain and Driver.....	962.00
5 Permanent Drivers, per year, each	936.00
3 Call Captains, per year, each	85.00
4 Call Lieutenants, per year, each.....	80.00
Call Men, per year, each.....	75.00

APPARATUS. The department has three hose wagons, one relief hose wagon, one ladder truck, one chemical engine, and two exercise wagons. There are ten hand chemicals distributed on the different pieces of apparatus. The outfit is all in good condition. Hose 1 wagon should be painted this coming year.

HOSE. There are 7,850 feet of 2½ in. cotton rubber lined hose in department most of which is in good condition. Some of the older lengths are liable to give out at any time. I believe it to be a good plan to buy each year a small amount of hose, and in this way keep the amount of available hose up to the limit.

HORSES. There are eleven (11) horses in the department, the same as last year. Ten (10) are in active service, and one is used as spare horse, to take the place of any of the regular ones which may be sick or lame. During most of the year this horse has been let out for his keeping. One pair of the horses, the pair used on the chemical, are in bad condition, and will have to be replaced in the near future.

The horses have consumed 1,129 bu. grain, 52,376 lbs. hay, 4,860 lbs. straw, at a cost of \$1,257.48, which makes the cost per week for each horse \$2.40.

HOUSES. The buildings are practically in the same condition as last year. No repairs of any extent have been made. The building at the Heights is in that condition, where the outlay of money for repairs is wasted. At the Town meeting held in November a committee of five were appointed to report on matter of new building. Until that report is received we shall have to let the matter rest. The central fire station needs additional room. A new building for this purpose will have to be built in the near future. The East End of the Town is fast building up and will need better fire protection. All these things should be taken into consideration when the new station is built.

APPROPRIATIONS.

The appropriations for the year ending Dec. 31, 1908:

General appropriations	\$11,600.00
Received for sale of manure	22.00
Received for sale of coupling	1.75
	<hr/>
	\$11,623.75

EXPENDITURES.

Permanent men pay-roll	\$ 5,876.50	
Call men and engineers	3,200.00	
Hay and grain	1,257.48	
Fuel	386.28	
Laundry	44.95	
Light	68.27	
Rent	35.00	
Blacksmith work	205.55	
Repairs	298.16	
Incidentals	179.90	11,587.09
		<hr/>
Balance unexpended		\$36.66

For further detail see Auditor's report.

FIRE ALARMS. There have been 32 bell alarms, 40 still alarms, and 1 out-of-town call for help at Winchester on October 28th, when the Chemical engine was sent. The several companies have performed the following fire duty: Hose 1 has answered 28 bell alarms and 7 still alarms; traveled 61 3-4 miles, on duty 24 1-2 hours, laid 1700 feet hose, used 16 small hand chemicals.

Hose 2 has answered 30 bell alarms and 22 still alarms, traveled 101 miles, on duty 43 3-4 hours, laid 1400 feet hose, used 25 large tanks of chemicals and 35 hand chemicals.

Hose 3 has answered 29 bell alarms, 27 still alarms, traveled 61 miles, on duty 23 1-4 hours, laid 3450 feet hose, used 50 hand chemicals.

Ladder Company 60 has answered 32 bell alarms, traveled 59 3-4 miles, on duty 19 3-4 hours, used 290 feet of ladders, and 11 hand chemicals, used 100 feet of 1 3-4-inch hose for cleaning up fires; on duty 19 3/4 hours, used 290 feet of ladders, and 11 hand chemicals, used 100 feet of 1 3-4-inch hose for cleaning up fires.

The alarms were as follows:

- Jan. 9—Box 71, 7.58 P. M. 97 Sylvia Street. Wooden barn. Owner, Morris E. Finn. Value of building, \$200. Insurance, \$200. Total loss. Insurance paid, \$200. Value of contents, \$241.50. Loss on contents, \$241.50. No insurance.
- Feb. 2—Box 43, 7.03 P. M. Grove Street. Wooden buildings. Owner, Mutual Chemical Co. Value of buildings, \$100,000. Insurance on buildings, \$80,000. Insurance paid on buildings, \$1,800. Value of contents, \$150,000. Insurance on contents, \$113,500. Insurance paid on contents, \$300.
- Feb. 26—Box 56, 10.34 A. M. 11 Oakland Avenue. Grass fire. Owner, Stevens Laurence. No loss.

- Feb. 27—Box 43, 11.45 A. M. Summer Street. Woods in rear of Alms House. No loss.
- Mar. 2—Still alarm, 8.32 P. M. Elevated car on Broadway. No damage.
- Mar. 14—Still alarm, 6.03 P. M. 19 Jason Street. Owner, Lydia M. Tappan. Chimney fire. No loss.
- Mar. 18.—Still alarm, 12.45 P. M. Grass fire. Cutter Bros'. land on Mill Street. No loss.
- Mar. 23.—Still alarm, 4.55 P. M. Grass fire. Mt. Vernon Street. No loss.
- Mar. 24—Still alarm, 11.15 A. M. Grass fire. Bartlett Avenue. No loss.
- Mar. 24—Box 56, 1.39 P. M. Grass fire. Harvard Street. No loss.
- Mar. 28—Still alarm, 10.35 P. M. 190 Pleasant Street. Ash barrel in cellar of house of A. B. Dearborn. No loss.
- Mar. 31—Still alarm, 11.45 P. M. Woods. Menotomy Rocks Park. No loss.
- Apr. 5—Still alarm, 7.40 P. M. Park Avenue. Grass fire. No loss.
- Apr. 5—Box 25, 11.19 P. M. Wooden dwelling on Moore Place. Owned by Geo. D. Moore. Value of building, \$3,700. Insurance on building, \$3,000. Insurance paid on building, \$30. Value of contents, \$1,000. Loss on contents, \$10. No insurance on contents.
- Apr. 5—Still alarm, 11.45 P. M. Grass fire. Park Avenue. No loss.
- Apr. 7—Still alarm, 8.12 P. M. Brush fire off Bow Street. No loss.
- Apr. 8—Still alarm, 9.32 A. M. Dump on Mystic Street. No loss.
- Apr. 8—Still alarm, 10.58 A. M. Grass fire. Rear of Gifford, Woods Co. No loss.
- Apr. 8—Still alarm, 1.21 P. M. Grass fire. Mt. Vernon Street. No loss.
- Apr. 8—Still alarm, 3.13 P. M. Dump off Pond Lane. No loss.
- Apr. 8—Still alarm, 3.54 P. M. Brush and grass. Rear of Geo. & A. D. Hills. Pleasant Street. No loss.
- Apr. 8—Still alarm, 5.54 P. M. Dump, Pond Lane. No loss.
- Apr. 8—Still alarm. 8.15 P. M. Grass fire. River and Decatur Streets. No loss.
- Apr. 10—Still alarm, 4 P. M. Grass fire. Glen Avenue. No loss.
- Apr. 11—Still alarm, 10.46 A. M. Grass fire. Medford Street. No loss.
- Apr. 11—Still alarm, 3.20 P. M. Grass and brush. Forest Street. No loss.
- Apr. 11—Still alarm, 5.10 P. M. Brush and grass. Off Summer Street. No loss.
- Apr. 13—Still alarm, 1.20 P. M. Brush and Grass. Off Williams Street. No loss.
- Apr. 19—Box 52, 3.58 P. M. Brush and grass. Rear of Crescent Hill. No loss.
- Apr. 25—Box 16, 4.50 P. M. Wooden dwelling owned by Mrs. E. A. Fisher. Value of building, \$2,500. Insurance on building, \$2,500. Loss on building, \$35. Value of contents, \$1,000. Insurance on contents, \$500. Loss on contents, \$20.
- Apr. 26—Still alarm, 3.30 P. M. Brush fire. Off Forest Street. No loss.
- Apr. 26—Box 41, 3.44 P. M. Wooden dwelling. Owner estate, Mrs. E. White. Value of building, \$1,400. Insurance on building.

- \$1,000. Insurance paid on building, \$10. Value of contents, \$1,500. No insurance. No loss.
- May 5—Box 36, 1.20 P. M. Wooden building, stores and dwelling. Value of building, \$4,800. Insurance, \$4,000. No loss. Value of contents, \$6,900. Insurance contents, \$4,000. No loss.
- May 10—Still alarm, 11.50 A. M. Grass and brush. Menotomy Rocks Park. No loss.
- May 10—Box 41, 6.53 P. M. Chimney fire. Dwelling house of Richard Kelley, 83 Highland Avenue. Value of building, \$1,000. Insurance, \$1,000. No loss. Value of contents, \$800. No insurance. No loss.
- May 14—Box 36, 12.35 P. M. Wooden building. Massachusetts Avenue, Cor. Water Street. Owned by O. W. Whittemore. Value of building, \$1,000. Insurance on building, \$1,000. Insurance paid, \$35. Value of contents, \$1,000. Insurance on contents, \$750. No loss.
- May 14—Box 162, 2.07 P. M. Wooden dwelling owned by Wm. E. Woods. Value of building, \$5,000. Insurance on building, \$5,000. Loss on building, \$35. Value of contents, \$2,000. Insurance on contents, \$1,000. Loss on contents, \$10.
- June 9—Still alarm, 11.04 A. M. Grass fire. Robbins Road.
- June 9—Box 162, 12.54 P. M. Wooden dwelling owned by J. D. Casey. Smoking stove. No loss.
- June 17—Still alarm, 8.20 P. M. Wooden dwelling owned by Geo. Howland. No loss.
- June 21—Box 43, 2.27 A. M. Wooden dwelling owned by heirs of Thomas Cahalin. Value of building, \$800. Insurance on building, \$1,500. Insurance paid on building, \$415. Value of contents, \$1,600. Insurance on contents, \$1,500. Insurance paid on contents.
- June 29—Still alarm, 2.08 P. M. Grass fire. Off Mill Street. No loss.
- June 29—Box 39, 12.58 P. M. Grass Fire. Mill Street. No loss.
- July 5—Box 27, 2.14 A. M. False alarm.
- July 5—Box 24, 3.45 A. M. Outhouse in street. Cor. Warren and Park Streets. Hauled there by boys and set on fire.
- July 5—Still alarm, 7.40 P. M. Wooden dwelling. Warren Street. Roof fire. No loss.
- July 5—Box 45, 10.10 P. M. Dump of Mutual Chemical Co. No loss.
- July 5—Still alarm, 5.35 A. M. Cor. Warren and Park Streets. No loss.
- July 7—Still alarm, 8.50 P. M. Dump off Mystic Street. No loss.
- July 8—Box 64, 8.45 P. M. Wooden building used as cobbler shop. Owned by Circle Association. No loss.
- July 9—Box 36, 2.50 P. M. Brick building owned by Finance Club. Value of building, \$8,000. Insurance on building, \$6,000. No loss. Value of contents, \$3,100. Insurance on contents, \$1,450. Insurance paid on contents, \$10.
- July 11—Box 43, 2.03 P. M. Grass fire. No loss.
- July 12—Still alarm, 8.29 P. M. Grass fire. Grove Street. No loss.
- July 13—Box 27, 1.07 A. M. False alarm.
- July 14—Box 15, 3.30 P. M.—Grass fire. No loss.
- July 15—Still alarm, 9.28 P. M. Hen house owned by J. W. Brine.
- July 28—Still alarm, 5.25 P. M. Dump back of C. Caterino's. Mystic Street. No loss.

- July 13—Still alarm, 3.12 P. M. Chimney fire. Beacon street. No loss.
- Aug. 9—Still alarm, 11.20 A. M. Dump near Cambridge line. No loss.
- Aug. 12—Still alarm, 11.20 A. M. Grass fire. Walnut Street. No loss.
- Aug. 20—Still alarm, 12.21 P. M. Grass fire.
- Oct. 2—Box 43, 10 A. M. False alarm.
- Oct. 12—Still alarm. Massachusetts Avenue. Uncalled.
- Oct. 15—Box 15, 5.24 P. M. False alarm.
- Oct. 17—Box 512, 10.57 P. M. Lunch cart. Owner, J. Gallagher. Value, \$800. Insurance, \$800. Insurance paid, \$250. Value of contents, \$200. Insurance on contents, \$200. Insurance paid on contents, \$75.
- Oct. 28—Out of Town call for help. Chemical engine sent to Winchester.
- Oct. 29—Still alarm, 4.35 P. M. Dump near Cambridge line.
- Nov. 21—Still alarm, 4.55 P. M. Brush and grass fire. Rear of Summer Street. No loss.
- Nov. 21—Still alarm 6 P. M. Grass fire. Rear Summer Street Ex. No loss.
- Nov. 21—Still alarm, 8.50 P. M. Grass fire off Forest Street.
- Nov. 21—Still alarm, 11.58 P. M. Brush and grass fire off Mystic Street. No loss.
- Nov. 22—Still alarm, 10.55 A. M. Dump on Pond Lane. No loss.
- Nov. 26—Still alarm, 10.50 A. M. Needless. Smoke in house.
- Dec. 5—Still alarm, 12.40 A. M. Cor. Winter and Broadway. Hay. No loss.
- Dec. 5—Still alarm, 2.30 P. M. Grass fire in rear of Cemetery.
- Dec. 10—Box 15, 3.40 P. M. False.
- Dec. 11—Still alarm, 4.50 P. M. Grass fire off Glen Avenue. No loss.
- Dec. 22—Box 36, 11-18 A. M. Wooden building owned by O. B. Marston Co. on Swan Place. Used as carpenter shop. Fire caught from chimney. Value of building, \$1,500. Insurance on building, \$800. Loss paid on building, \$20. Value of contents, \$1,500. Insurance on contents, \$1,100. No loss.
- Dec. 22—Box 64, 12.04 P. M. Cor. Massachusetts Avenue and Park Avenue. Wooden building, stores and dwellings, owned by J. E. Somers. Cause, ash barrel and rags in cellar. Hot ashes. Value of building, \$6,000. Insurance on building, \$4,000. No loss. Value of contents, \$4,300. Insurance on contents, \$1,900. No loss.

Value of buildings endangered.....	\$136,700.00
Insurance on buildings endangered.....	110,800.00
Loss on building	2,830.00
Value of contents	175,141.50
Insurance on contents	125,900.00
Insurance paid on contents	405.00

RECOMMENDATIONS. I recommend the appropriation of \$11,600 for the maintenance of the Fire Department for the

ensuing year. This is the same amount received last year, and is necessary to maintain the department on its present basis.

I shall have to still urge the extension of high water service on Massachusetts avenue. As the east end of the town grows there is more need of this extension in case of fire, and I believe that this is the cheapest protection that we can have.

The improvements which are being made in the Automobile Fire Apparatus every year will mean a complete change in our outfit in the near future. A great many towns and cities are having them built and put in service, and wherever in use have given satisfaction. Arlington should be on the forward march and have one added to her Fire Department.

CONCLUSION. In closing my report I respectfully thank your honorable board for the courteous manner in which they have received me in my official capacity. I also wish to thank all other officials of the town who have so willingly given their services when called upon. To my assistants and members of the department my thanks for the able manner in which they answered all demands made upon them, making the work of the department a great benefit to the town, and a pleasure in commanding such a force.

Respectfully submitted,

WALTER H. PEIRCE,

Chief.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES.

ARLINGTON, MASS., Dec. 31, 1909.

To the Honorable Board of Selectmen:—

GENTLEMEN:—I herewith respectfully submit my third annual report of the services of this department, for the year ending December 31, 1909.

Number of scales, weights and measures sealed.....	2,143
Number of scales, weights and measures condemned.....	77

Total.....	2,220
------------	-------

Number of milk jars sealed.....	16,122
Number of milk jars condemned.....	411

Total.....	16,533
------------	--------

Weights found incorrect and adjusted.....	201
Scales found incorrect and adjusted or repaired.....	63
Pumps having measuring devices adjusted.....	11
Pumps having measuring devices condemned.....	3
Weights condemned.....	17
Scales condemned.....	14
Dry measures condemned.....	9

Total corrections.....	339
------------------------	-----

Number of visits made to stores.....	276
Number of complaints of short weights or measures.....	21
Number of complaints investigated.....	20
Number of packages tested for weight.....	315
Number of inspections of milk jars in use on milk teams.	44
Number of inspections of scales and measures used by junk collectors, hawkers and peddlers.....	63

One thousand and seven scales, weights and measures were inspected at places of business, and statutory fees of \$37.92, were received; the same being paid to the Town Collector. The remainder of the sealing was done at the office, for which no fees were charged, in accordance with Chapter 65, Section 35, of the Revised Laws.

Of the twenty complaints investigated, eleven (mostly ice), were found to be imaginary, four were caused by defective scales, which were promptly adjusted or condemned, while the remaining five were distinct cases of carelessness or dishonesty deserving prosecution, but as is the case in many instances, the complainants were unwilling to allow the use of their names for such a purpose.

The increase in the number of weights adjusted, as compared with previous years, is due to the stringency of the State Inspectors, they allowing but four grains tolerance on a weight of one pound or more.

STORE INSPECTION. Of the three hundred and fifteen packages tested during the year sixty-one were short weight. A large number of these packages were put up by manufacturers outside the town. As many of the packages put up by local dealers were scattered with packages of over weight, advice, rather than stringent methods seemed most called for. This, however, could not be said of a certain brand of butter manufactured by an out of town dealer. A notice of my intention to ask for prosecution through the State Commissioner's office, was sent the dealer, which resulted in such immediate correction, that further action was unnecessary.

In addition, many adjustments of scales and weights were made, which had, through use or neglect, varied beyond the permissible tolerance. These had all been tested, proved and sealed within the year, and in some cases, but a few weeks previous.

COAL INSPECTION.

Number of loads examined.....	211
Number of certificates incorrectly made out.....	9
Number of loads found not properly certified.....	2
Number of weighings made.....	16
Number of loads found short.....	3

The shortage on the latter was well within the permissible variation allowed and consequently too little to warrant the taking of any

further action. Two loads were weighed upon complaint, but showed an error in favor of the purchaser. The above results, as compared with previous years showed the value of the systematic inspection of coal. While the adoption of a system of inspection has proved to be of great value to the public, it should incur no hardships on those dealers who give the question of the correctness of their scales, weights and measures, the attention it deserves.

I would point out that owing to the small tolerance allowed, the fact that certain kinds of scales and weights will vary with atmospheric conditions, the accumulation of dirt and rust on weighing devices; the susceptibility of measuring pumps to imperfect adjustment, and the strict enforcement of the laws by the State Commissioner, merchants should, for their own protection, welcome this extra inspection by the local sealer. They should have such scales, weights and measures as are subject to variation more frequently tested, bearing in mind that they are at all times held responsible for correct weight and measure, whether their scales, weights and measures have been recently sealed or not.

While I am in favor of prosecution in cases of carelessness, as well as fraud, I do not believe in drawing the lines so closely as to include those cases of technical violation in which neither carelessness nor fraud is shown. The intent of the seller and the conditions under which the violation is made should be first passed upon.

A recent opinion of the Attorney General, classed all measuring pumps and slot weighing machines as coming within the meaning of Chapter 62 of the Revised Laws, and consequently they are to be tested and sealed, or condemned.

In conclusion, I wish to express my sincere appreciation to the Town Officials and citizens, who have assisted me in various ways in the discharge of my duties.

Very respectfully submitted,

CHARLES F. DONAHUE

December 31, 1909.

Sealer of Weights and Measures.

REPORT OF INSPECTOR OF BUILDINGS.

ARLINGTON, MASS., Dec. 31, 1909.

To the Honorable Board of Selectmen, Arlington, Mass: —

I herewith submit report of the inspection of buildings for the year 1909. One hundred and thirty-four permits were issued covering work classified as follows:—

Dwellings, one family	33	\$122,950
“ two families	32	148,900
“ three families	9	43,300
Additions and alterations	39	31,825
Stables and sheds	18	16,805
Garage	1	9,000
Block of stores	1	7,500
Hospital	1	30,000
	<hr/> 134	<hr/> \$410,280

Respectfully submitted,

WILLIAM GRATTO,

Inspector of Buildings.

REPORT OF INSPECTOR OF ANIMALS.

ARLINGTON, MASS., January 10, 1910.

To the Honorable Board of Selectmen of the Town of Arlington: —

GENTLEMEN:— I have the honor here in to submit to you my annual report as Inspector of Animals for the year ending December 31, 1909.

During the year I have found three cases of glanders in horses, one case of rabies in a dog, and one case of actinomycosis in a cow.

In making the regular fall inspection, I have inspected one hundred and seventy cows, four hundred and forty-nine hogs, five sheep and three goats. I have also inspected sixty-eight stables in which these animals were stabled. In all cases the proper papers were given to the owners.

Respectfully submitted,

LAURENCE L. PEIRCE,

Inspector of Animals.

REPORT OF INSPECTOR OF MILK.

ARLINGTON, MASS., Dec. 31, 1909.

To the Board of Selectmen: —

Gentlemen:— I have the honor to submit my report as Inspector of Milk for the year ending Dec. 31, 1909.

Have granted five registration Certificates and twenty-three licenses for selling milk and cream. Have collected this year fourteen dollars and paid the same to the Collector. I have collected sixty samples of milk and cream and tested the same and found them up to the state standard. Have not had any complaints reported to me this year. All milk recieved by me has been good quality.

Respectfully submitted,

FRANK P. WINN,

Inspector of Milk.

REPORT OF TOWN PHYSICIAN.

To the Honorable Board of Selectmen : —

Gentlemen : — I have the honor to present the following report as Town Physician for 1909. In order that the record may be complete I have incorporated into my report the cases seen by my predecessor, Dr Sanger, from the first of the year up to April, when I came on service.

Number of house visits.....	53
Number of office calls.....	36
Number of emergency calls at Police Station.....	10

Among the more serious cases treated were two of tuberculosis, two of insanity, one pneumonia, and one of facial paralysis. One patient was removed to Tewksbury because of lack of facilities for home treatment. There were two deaths, one from pulmonary tuberculosis and one where my predecessor was called to certify in the case of a sudden death; this latter case was finally turned over to the Medical Examiner.

I wish to acknowledge the courteous assistance rendered by those whose duty brings them into contact with the Town Physician. I do not think it out of place to record here my warm appreciation of the work of the Clover Lend-a-Hand Club. Their prompt and generous response to requests for help smooths out many difficulties incident to the medical care of the poor.

A similarly beneficent work, it seems to me, would be the one now under consideration, I believe, by the Sowers Lend-a-Hand Club, namely, the establishment of a Day Nursery. It has been suggested that such an institution would lessen the need of town assistance by enabling more of the mothers to support themselves if the care of the small children were off their shoulders during the day. I think this would be the case. At any rate I am certain that it would relieve to a considerable degree the worries of such mothers who are so unfortunate as to become ill, and in that way contribute very materially towards their proper medical care and prompt recovery.

Respectfully submitted,

MERRILL EDWIN CHAMPION, M.D.,

Town Physician.

REPORT OF THE SCHOOL COMMITTEE.

To the Town of Arlington:—

The year covered by this report has been marked by some important changes in the school situation which should command the serious attention of all citizens.

INCREASE IN SCHOOL POPULATION. The warning uttered a year ago regarding our coming problem of increased school population without a corresponding increase in taxable property, came not a moment too soon. The rate of increase has more than doubled during the last two years and is still on the gain. Under the old rate preceding 1908, the school population doubled in less than fifteen years. Under the present rate it will double in about ten years. The seating capacity of our buildings now is 2,639. During the next ten years it will be necessary to provide for at least fifteen hundred more.

SCHOOL BUILDINGS. The State requires, and our own self-respect requires, that we shall furnish opportunity for the education of all of our children, and it is the duty of the Town to face its responsibility promptly and wisely.

The Committee appointed at the last Town Meeting will make a recommendation to provide for the immediate needs in the Russell and Crosby Districts.

Under the present plan of paying by serial notes, we make the future pay its full share if not more, of the expense of Town improvements, and it is only just to the future that it should get value received. That is, in erecting a building which is to be finally paid for in 1930, it is not fair that we should build one which will be wholly inadequate and unfit by 1915.

We should consider that we are now laying the basis for our educational work. Every building we erect should be practically, permanently adequate for the section it occupies, so that in the years to come the Town will have simply to provide for the normal increase of population.

Our present High School building is an illustration. Costing between eighty and ninety thousands of dollars, it is now, after

only fifteen years, inadequate, and built on a plan which makes an addition almost impossible, and is not yet paid for!

EXPENSES. The largest item in the Town budget is for schools and unless carefully watched, it is liable to become a serious burden. In a rapidly growing community the increase in taxable property does not keep pace with the school population and expenses, so it is difficult to determine the point where economy ends and extravagance begins. About the only basis for an estimate is the per capita cost per pupil, or the cost per thousand valuation. The increase in expenses has been rapid during the last few years, and the increase is bound to continue with our increase in population.

The following specifications of the per capita rate, and the rate per thousand valuation, in this and adjoining towns having schools of the same standard as ours will be instructive.

In the last report of the Massachusetts State Board of Education the list of the towns and cities according to the cost per pupil based on an average membership in the schools, Arlington is number 54. That is, 53 cities and towns are paying more. Among these are Lincoln, Weston, Brookline, Milton, Newton, Lexington, Beverly, Bedford, Burlington, Cambridge, Dedham, Lowell, Belmont and Canton.

In the State table showing cost to each thousand dollars of valuation, Arlington stands at No. 160. This means that 159 towns and cities feel the burden of taxation for schools more than Arlington.

OUR TEACHING FORCE. It is the purpose of the Committee to maintain the highest possible standard of education in our schools. To do this it is necessary that we have the highest type of administration, and therefore from the teacher of the primary grade to the Superintendent we are seeking to get the best, and for the best we must pay a good price.

The pay of educators is small at best. More and more are the parents and churches throwing the responsibility for the moral and social training of their children upon the teachers in the public school, and yet they are asked to do this work, which is most vital to the world's happiness and welfare and on which the safety of the Nation rests, for a pitiable price.

We have of necessity made some increase in the amount asked for salaries, part of this being due to the required increase in the number of teachers, and a part because of the necessity of keeping our proven teachers who would be tempted elsewhere by larger pay. Within the last ten years, as in every department of industrial life, there has been a general increase.

Our salaries at the present time in comparison with surrounding towns, place us about on a level with those having schools of the same standard.

The following towns pay less: Watertown, Wakefield, Lexington, Reading and Stoneham.

The following pay the same: Winchester, Everett, Dedham, Malden and Belmont.

The following pay more: Somerville, Milton, Brookline, Newton, Melrose and Medford.

SOME OF THE POLICIES. We have adopted the policy of securing as rapidly as possible male principals for every Grammar school having over eight rooms. We are led to this action by the feeling that the administration of so large a building and the discipline of so large a body of students, is beyond the strength of any but the very exceptional woman, but more particularly because over fifty per cent. of our children finish their schooling with the Grammar school, and going out into the world at this period, we are convinced that they should have come under the influence and discipline of both men and women.

It is the policy of the Committee to try to unify our system of education so as to produce really finished products.

There are two classes of pupils with which we have to deal: First, those who of necessity, stop in their education with the Grammar school; and second, those who finish the course of public instruction by going through the High School.

The members of the first class deserve particular attention because of their limitation of opportunity, that they may receive the best fitting for life the school can give them. And our courses of study in the primary and Grammar grades, which carry them beyond the compulsory age, should be so arranged as to meet their peculiar necessities and give them the best possible fitting for life.

As we cannot assume that any child will not go beyond the Grammar grade, the course should also be so arranged that the best fitting for life is also the best fitting for the advanced study of the High School. That is, the primary and Grammar school course, from first to last, should be related to the High School.

The second class; those who are able to finish the course in the High School, is sub-divided into first, those who finish their education with the High School, and second, those who make the High School but the preparatory school for the college or higher institution of learning.

In the first sub-division of this class, those who finish their educational preparation for life, we find the true product of the

public school system. Here the great majority stop, and whatever educational influence the State has in the formation of its citizens ceases here.

In the second sub-division of this class a small percentage of the whole get a fitting for further education in the college and the higher institutions. And this is a legitimate part of the public school system. The State says it will fit its young citizens for immediate actual life or for the higher education. In the nature of things, the many can never go beyond the High School; they have not the time or the money, whereas those who have the time and money, while deserving equal opportunity and rights, have no occasion to demand more.

As a matter of fact many High Schools, instead of serving the great democratic interests of the many, have been more and more dominated by the college, which by forcing its work back upon the High School, was relieved of much of its burden, but great injustice was done to the large majority of High School students by holding them to college standards rather than to life standards. There is a very general revolt against this domination of the college among public school educators today, and a disposition to exalt the High School as an educational end to at least a level with the High School as a college preparatory school. It is coming to be recognized that it is far more important to prepare seventy-five pupils for life than it is to prepare ten for college.

The standard by which the High School has been judged has been the college entrance examinations. The genius of the public school system demands that the standard by which it is to be judged be not only that, but the practical test of actual life.

This brings the High School back into right relations to the public good, and frees it from the selfish domination of the college. It then serves the general needs of the community as well as the special needs of the few. And furthermore, when it stands for something in and of itself, it increases its appeal to the pupils all down the line through the grammar and primary grades to stick to the school and their class until the finish, and not drop out along the way.

This makes the High School the climax of public instruction in graduating well furnished citizens, not simply the fitting school for college.

But we would not omit or slight the college preparation; we recognize it as an integral part of American life, and for those who can and will pursue the higher walks of education, the High School should furnish them with the fitting, but we do require a more equitable balance of the system which shall in spirit and practice make the High School the end of public in-

struction, fitting not only for further advance along the higher branches of education, but furnishing our coming men and women with those graces of culture, fitting of mind and training of body which make the true American citizen.

It is the intention of the Committee at the earliest practical moment to consider the change of our grading so that the whole public school course shall be completed in twelve grades; eight in the Grammar and four in the High School, with a supplementary grade for those who need or desire it in fitting for college, or for review and finish.

The policy of the Committee is favorable to the development of school athletics and a certain amount of social life, as affording an opportunity for the cultivation of those graces of body and mind which are a part of any complete education, but we would keep these pleasurable functions under as strict discipline and wise supervision as the class room. We believe that substantial progress has been made in these directions during the past year, and we are hopeful for the future, feeling sure that there is being developed a school spirit which will be of incalculable value to the town.

It is the desire of the Committee that there be awakened throughout the Town a keener interest in the schools on the part of the parents. We feel that there should be more hearty co-operation between parents and teachers, and we are confident that far better results would be secured if it was the practice among our people to visit the schools with greater frequency and freedom.

The Committee congratulates the Town upon the high standard which our schools have attained, and we appeal to the citizens to maintain this honorable position.

FREDERICK A. BISBEE,
Chairman.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee of Arlington:

The rules of the School Committee require that the Superintendent shall prepare and present in January to the Board for publication, an annual report of the condition of the schools for the year preceding, together with such suggestions and statistics as he may deem worthy of consideration. In compliance with these rules, I present this, my fifth report, for the school year 1908-1909.

There is, of necessity, a noticeable sameness in the consecutive annual reports of the superintendent of schools in any town or city, because, from year to year, the same subjects are treated. These reports never reach the height of their greatest usefulness because they are not more generally read by the people whom we are most anxious to reach and to interest in the work of the schools. If, however, these reports have no other value, and serve no other purpose, they do constitute a permanent record of changes advocated in the schools, and the trend of educational advancement, which, perhaps, in years to come, may be interesting for comparison. If some of the matters presented seem to you a needless repetition because of conversations and discussions in School Committee meetings, you will understand that they are presented here for the benefit of the public who read this report, and who should be familiar with the work of the schools.

INFLUENCE OF PUBLIC OPINION. To those of us who have the matters of teaching, supervision and administration in our care, no recompense is so satisfying as the assurance that our policies are being approved by a strong public sentiment which demands good schools. The sentiment of this Town has been expressed in the past by the liberal appropriations made, frequently without debate or question. If we are to judge by this, we must conclude that the policy being pursued meets with the approval of the citizens. It is also shown by the constant re-election of the same members of the School Committee as long as such members are willing to serve.

This policy insures a progressiveness of school administration that would be impossible with a constantly changing School Board who must be less thorough in their knowledge of educational needs, and less heartily enlisted in the fulfillment of official duties.

It is not the purpose of this report to discuss at great length the every-day work of the school. I do, however, wish to assure you that this work, which includes the right teaching of elementary school subjects and the testing of the efficiency with which the work is being accomplished, is our chief aim.

ELEMENTARY SUBJECTS. The most important subject taught in these schools is reading, because through this means the way is opened to an understanding of almost every other subject taken up in school life. A distinct improvement has been made in the reading during the past year. Ability to distinguish words, enunciation, expression, and understanding of subject matter have improved. In some of the lower grades the reading is remarkably good. Special attention is being given this year to oral and written language work. The introduction of dramatizing into the lower grades has brought about an improvement in oral composition and expression. Stories and historical incidents have been made real by dramatic action, and in some cases remarkable fluency of expression has developed. Teachers realize that the language work has been a weak point, and are striving to strengthen the work and to secure better results. In my next report, I hope to be able to give as encouraging words in regard to penmanship. While our penmanship is not poor, it is by no means up to the standard which we have set. I feel sure that with the added attention which we hope to give to the subject this year better results will be obtained. The accuracy tests given by the Superintendent at various times show a constant improvement in the use of the fundamental operations in arithmetic. This subject is being better taught and better results obtained than heretofore.

It is difficult to measure the exact gain from year to year, and I shall make no attempt to prove what I believe to be true, namely, that the schools are doing better work in the three R's—Reading, Writing and Arithmetic—than ever before. Perfection does not exist, and probably never will, but we can see encouraging signs of progress and improvement.

CRITICISMS OF SCHOOL SYSTEMS. Criticism of schools and school systems is at present rampant. Scarcely a magazine

or other periodical can be examined without finding the schools more or less severely arraigned. Such a situation is hopeful, for it is by the critical examination bound to result from unfavorable criticism, that we may discover imperfections, and remedies for our weaknesses. In this spirit we welcome all just and constructive criticism. We do not welcome unjust and destructive criticism, but even that is better than no attention at all to the matter of school administration. Much of this criticism comes from people entirely ignorant of what schools are doing, and who judge of the acquisition of pupils from their own adult standard of knowledge, forgetting that the greater part of the present knowledge and accuracy which they possess has been gained by years of experience in business and contact with the world. The most common criticisms are that the schools of today are turning out pupils lacking in accuracy and thoroughness in the essentials of a thorough intellectual training, and that the graduates of our schools are unprepared to adapt themselves to any vocation. I doubt the truth of the former criticism considered in comparison with any previous period, but there is no questioning the latter charge. Some critics declare the public school system to be a failure, and believe that the whole system should be revolutionized. Others are saying that the public schools are partly right, but they are misplacing the emphasis in education by over-emphasizing some things and neglecting equally important things. A third class believes that the public schools are doing all they should be called upon to do, and it is not their province to attempt to cover the whole field of education, but admit that a new type of school is needed.

CHANGES. In making changes in educational methods we must guard carefully against anything approaching revolution. The work of educating boys and girls is one of the most important works man is set to do. Every change is vital. Children are the raw material out of which human achievements are developed. The children of today are the citizens and statesmen of tomorrow. The success or failure of all civilizations has depended upon the kind of children they produced. Those nations have taken the longest step forward that have made a study of the needs of their children and striven to supply those needs. No investment is so richly and surely repaid as an investment in the health, happiness and education of children. We must approach the matter of reform in a conservative manner. The public school

should be modified and supplemented, but not supplanted. The present school system is not, and has not been a failure. The time has come for changes, and educators are at work. This is a critical period of school adjustment. Attempts are being made to readjust the schools, that they may better meet the changed industrial and social conditions of our times. Experiments must be tried, and many mistakes will doubtless be made.

Below the High School there is little call for additional subjects. The curriculum is already over-crowded, but some changes must be made in the matter of correlating the work more directly with the commercial and industrial activities of actual life, and of giving pupils a more intimate and practical knowledge of these activities. The tendency of present-day schools is to educate away from the workshop and the farm. Pupils must be led to feel that all honest labor is honorable, and that education has come to mean a preparation for successful service in that particular sphere of life's activities for which one is best adapted.

INDUSTRIAL COURSES FOR HIGH SCHOOLS. The problem of arranging courses in industrial education in towns of the type of Arlington where there are no great industries is a difficult problem. It must begin with the introduction into the High School course of as much training along industrial lines as can be arranged. Only a limited advance can be made with our present High School accommodations. The public must realize that the new developments mean a large additional outlay of money for equipment and instruction. In large industrial centers, the problem of correlating school work with the work in factories has already been begun. It may be interesting to state at this time some of the developments that have been made.

In our attempt to solve the question, there are three elements operating:

(1) The manufacturer who is seeing commercial supremacy going to other nations.

(2) Educators and students of education who are beginning to realize the defects of a purely bookish education.

(3) The workers who want their children to have an education suited to their needs, but so safe-guarded as not to menace the advantages that have been gained by organization.

In our attempt to solve the question, much may be learned from the experience of Germany. The German system could not be copied in this country if we would, because of our vastly

different social conditions. German experience, however, does show us something of the direction in which we may advance. After the Philadelphia exposition of 1876, the German commissioner returned to his own country and reported to the Emperor the comparative value of German and American manufactures, and showed why German goods could not be sold here. He characterized them as "cheap and nasty." Because of this report, sweeping reforms in State education were gradually put into effect. As a result, at the present time in Berlin, 55 per cent. of boys between the ages of fourteen and sixteen are in industrial schools. In Massachusetts, there are 25,000 children between fourteen and sixteen out of school and not at work. These are two years of great value in industrial training, and these figures show the appeal which trade schools make to the youth of that age. Bavaria, with a population about the same as that of New York City, has 290 trade schools teaching 28 trades and crafts. The German system of continuation schools and of evening schools is equally definite and important. Without going more into detail, it may be said that this general policy is producing very definite commercial results. Between 1900 and 1905, German exports to the United States more than doubled, while American exports to Germany fell off nearly 70 per cent. For these reasons, the manufacturer, seeing our loss of commercial supremacy, has awakened to the necessity for some action if we hope to hold our own in competition with workmen of such training. It should be noted that it took twenty-five years to bring about these results in Germany.

There have been some experiments by far-seeing men, some by private concerns, and some by the State to find some solution of our problem. The General Electric Company of Lynn, and the textile schools of New Bedford and Lowell have organized classes for industrial training. The first evening industrial school established by the State Industrial Commission has been in operation in Cambridge for two years. The Lowell Institute in 1903 established a school for industrial foremen. Lawrence and Fitchburg have arranged courses designed for pupils between the ages of fourteen and sixteen in which half the time is given to school work and half to work in shops of manufacturing plants.

All these plans are possible only in places having large manufacturing industries. It may be easily seen that such plans are not applicable to our community. There is little call or opportunity for development here along trade-school lines. The probable development in High Schools of the type of ours is along the line of an extension of the manual training courses to include, besides the wood-working, mechanical drawing, pattern-

making, forging and machine work. For girls the development tends along the line of domestic science, dressmaking and millinery. With these subjects will be included the mathematics, drawing and English, necessary for a complete practical knowledge and ability to express this knowledge in good language. While this training will not give a boy a trade, it will give him the manual dexterity and grasp of the practical sides of things necessary to quick success in any mechanical pursuit he may enter.

THE HIGH SCHOOL. Our High School is deservedly increasing, both in number of pupils and in the esteem of the citizens. With its carefully arranged program, its able administration and efficient instructors, the high school is an important factor in the life of a community.

The course of study has been thoroughly revised, and the resulting course provides a broader choice of subjects for every year. Suggestive courses are printed for those preparing for college, technical schools, and business pursuits. The provisions are so varied and so liberal that there is no reason why any pupil of ordinary ability should not be able to secure the requisite number of points for a diploma if he does honest, faithful work. The standard of the school has not been lowered by this broadening. On the contrary, the tendency is to raise the standard. The results so far show that pupils do better work in subjects of their own choosing. The selection does not lie entirely in the hands of the pupils. The choice must be approved by the parent, and also by the principal of the school. The principal gives his approval only where the selections form a well-balanced year's work. The choice of subjects by the pupils has been gratifying, both in the variety of subjects and quantity of the work selected. Seventeen points per week is the minimum allowed. Each recitation in a prepared subject counts one point. Each recitation in an unprepared subject (drawing, music type-writing, etc.), counts one-half a point. Only for the best of reasons are pupils allowed to elect subjects aggregating a less number of points.

The following table gives the number of recitations per week elected by the pupils in the various classes of the High School this year. The school week is divided into thirty periods.

Recitation periods per week .	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	Total	Av'r'g per pupil
Senior	1	0	0	1	2	6	3	10	12	1	3	2	3	1	0	45	21.44
Junior	0	0	0	0	2	3	5	3	0	21	2	5	3	0	2	46	22.72
Sophomore	0	0	0	0	6	8	7	29	24	9	0	5	2	1	0	91	21.4
Freshman..	0	0	0	12	28	46	22	3	3	1	1	0	1	1	0	118	19.1
Total.....	1	0	0	13	38	63	37	45	39	32	6	12	9	3	2	300	*21.125

* Whole school.

It will be seen from the above that but one pupil is taking less than the required amount. This pupil is a girl who is in poor health, and has done sufficient work in previous years to entitle her to a diploma with the addition of fourteen points. But thirteen of the remaining two hundred ninety-nine (4 per cent.) have elected seventeen, the minimum number of recitations. The average for the whole school is 21 1-8 per pupil.

The reason that so many in the senior and junior classes are taking twenty-four or more periods is because of college entrance examinations. Some seniors who last year failed in some of their preliminary examinations are obliged to repeat subjects, besides doing the regular senior college work. The juniors are anxious to take as many of the entrance examinations in their preliminary year as possible. The trouble has turned out to be the opposite from what one would naturally expect, in that the principal has found it difficult, in many cases, to convince pupils of the lack of wisdom in selecting too many subjects.

Besides increasing the number of electives, new subjects have been added to the curriculum, the content of several studies increased, more time given to many subjects, especially English, and the time given to modern languages revised. Manual training has been extended into the freshman and sophomore classes, and has been elected by 34 freshmen and 11 sophomores. It will be impossible for the manual training teacher to do all the work required in four days a week next year.

A laboratory course in physical geography for first year students has been added and elected by 40 students. In most High schools, this course is given in the Senior year, but it is our feeling that it is best fitted to form the basis for other science work in the three years to follow. Many subjects are related to, and build upon physical geography. It is the foundation for all other geography, and also for zoology, botany, geology, chemistry, history, civics, and economics. Good enthusiasm is being shown for the work. The course in chemistry has been broadened to include all that is required by the colleges as an entrance requirement. A science club has been organized by the students, and meets once in two weeks for demonstrations and talks by pupils.

During the last school year under the old course of study, thirty-two per cent. of the pupils failed in one or more subjects. This was unreasonably large. We are now sending home deficiency slips at the end of each week for those whose work for the week has not been satisfactory. Every effort is being made in the use of these slips not to worry those pupils who are doing as well as they can, but are still not keeping up. The idea is to keep the home informed with the hope and expectation of the

fullest co-operation. It is hardly necessary to say that in almost all cases we are getting this. The failures up to the present time have been about twelve per cent.—a very satisfactory reduction. Many pupils, especially in the two upper classes have arrearages because of failure to pass certain required subjects in past years. Every effort is being made to help them to clear these up. Pupils with two or more failures registered against them in the past have been classed as special students. Efforts are being made to do away entirely with these “specials.” Every pupil now in school is enrolled in a class with a definite idea of graduation. It is not probable that all members of the present senior class will be able to make up their failures, but all are trying.

In the past, certificates have been granted to pupils who satisfactorily completed seventy-five per cent. of the subjects required for graduation. These certificates presented in connection with the awarding of diplomas have come to be regarded by pupils as of almost equal value to diplomas. With the new arrangement of studies, such certificates are not called for, and should be done away with after the present year. No pupil can be graduated simply because he has been a member of the school for four years. Some on account of immaturity, ill-health, and unavoidable interruptions or neglect of duty, require five or even more years to do the work, while others of unusual ability and application can do it in three. It is a question of work rather than of time. A pupil must have accomplished at least the minimum requirements for graduation. A diploma is never given as a favor, but always as a certificate of a pupil's attainments—a thing which he has earned, and which is his by right. It should always represent work done, power developed, and attainments reached.

We estimate that the school will open next September with a membership of 340 to 350. We shall need the whole building. The spirit shown by the pupils both in their work and conduct is admirable. The school is an orderly, happy place. From 7.30 in the morning till 5 in the evening, busy, interested boys and girls may be seen at recitations, getting individual help from teachers, or working without help in the laboratories and commercial rooms.

Arrangements should be made for serving luncheons for pupils in the building. Children leave home soon after seven o'clock and cannot get home before half-past one at the earliest. This is too long a time to go without nourishing food during the time of busiest brain action. Some bring a little luncheon, while most go to bakeries or lunch carts for refreshments at the recess period beginning at 11.10. As a rule, they get nothing warm or nourishing. Many who are summoned back to make up work or

who come voluntarily for help do not go home until late in the afternoon. It is possible to build a counter in the basement, and to make arrangements for serving good wholesome sandwiches, a soup and hot cocoa, for a very small amount. Pupils would appreciate an arrangement of this kind, and I feel sure it would prove of great benefit.

In athletics, the teams of the High School have been only moderately successful during the year. A good baseball team, a poor hockey team, and a fair football team were the results of the year's efforts. The present hockey team bids fair to win back some of the lost laurels in that sport. The problem of financing the athletic interests of the school is a serious one. Most high schools have enclosed fields for their games which make it possible to charge an admission. For such schools the question of supporting the athletic interests is settled. Our boys and girls have to raise money by subscription, by entertainments, candy sales, etc., which sometimes necessarily detract from the effectiveness of school work. There seems to be no better solution of the problem at present. The management of the athletics of the school, beyond determining the eligibility of candidates for teams, is in the hands of a committee of three boys elected by the athletic association of the school. The time has come for a reorganization of athletic affairs.

BACKWARD PUPILS. During the past decade it has been increasingly realized that the education of children who are backward because of defects which school cannot remedy is a matter of great importance to the State. Many and extensive steps have been taken in this and other countries looking to special care of these children. In my report of 1906 I spoke of the advantages to be gained from segregating these children in a class by themselves. Every child has a right to whatever in the way of education and training he is capable of receiving, whether he be dull or bright, normal or subnormal.

There are about 20 children in our schools who are getting practically no benefit from the classes in which they are now placed and are simply marking time till they become old enough to go to work. They can do little or nothing of the work provided for their classmates among whom they must be placed because there is no other place in which to put them.

Now that we have vacant rooms in the Locke building, it is possible to use one of these rooms for such a class. That special classes for backward children are very valuable has been proven in many places. If such a class is organized along right lines with the right teacher, the success cannot be doubted. The chief

objection to the formation of such a class is the cost, which is bound to be large. A teacher must be employed and she must be the best equipped, most able, conscientious, and sympathetic teacher to be found. The room used must contain sloyd benches and material for various kinds of hand work. The natural objection on the part of parents to have their children put in such a class can be met by personal interviews, and it would seem unwise to force any child to join this class. Beside the good that would result to these children the spirit and scholarship of several classes would be improved by such a segregation.

However, the crux of the matter is not met when we provide for this class. These constitute, at most, not more than one or two per cent. of the school population. The great problem lies in the very much larger class of those, who, while not really defective, do not keep up with their fellows. These, constituting from seven to fifty per cent. of the school population all over this country, can become either successes or failures in life, according to the influence brought to bear upon them in childhood. A careful, systematic investigation of conditions relating to backward children in our cities was made possible by a grant of funds from the Russell Sage Foundation. The results of the investigation have been published under the title, "Laggards in Our Schools." The most important findings of the investigation are: "(1) That the most important causes of retardation of school children can be removed; (2) That the old-fashioned virtues of regularity of attendance and faithfulness are major elements of success; (3) That some cities are already accomplishing excellent results by measures that can be adopted by all; (4) That relatively few children are so defective as to prevent success in school life." In our schools, as has been reported in previous years, special efforts are being made to reduce the number of failures and repeaters. Individual work with pupils has been urged upon teachers, both for the benefits to be derived by the backward and by those of more than ordinary ability. Much good has resulted. The number of failures has grown constantly less, while our standard of what constitutes satisfactory work has been steadily advanced. Success with our plan varies greatly with different teachers, but most are meeting with good success. The smaller the class the greater the chance of success.

PROMOTIONS. Last June, in the Parmenter School, in three of the four classes, every pupil was promoted, while in the first grade two pupils only were kept back. One hundred and eleven in a total of 113 pupils were promoted, while eight pupils were given an extra promotion. The rate of progress therefore in

this school for the year was greater than the natural expectation. Almost as good results were found in some other schools. In the whole town 11.8 per cent. were kept back. The figures for the three preceding years are as follows: 1905-6, 14.4 per cent.; 1906-7, 13.4 per cent.; 1907-8, 12.5 per cent. In the cities of the country as a whole, figures vary from seven per cent. in Medford, Mass., to seventy-five per cent. in Memphis, Tenn. On the average, over 16 per cent. of all the pupils in city public schools of the country are kept back each year. The solution of the problem to my mind lies in *small classes* (35 as a maximum) and *more individual teaching*.

We are trying an interesting experiment in our lower grades. The teachers of Grade I. are obliged to divide their classes into four sections, usually; while the teachers of Grade II. divide their classes into at least three sections. This means that the teacher of Grade I. is working with one-fourth of the class while the other three-fourths are sitting in their seats busying themselves as best they can. The children are under the teacher's immediate instruction only about one-fourth of the time, and are necessarily left to themselves the rest of the time. They can only sit as still as they can or dawdle over their so-called busy work until their turn with the teacher comes. They must not play or make a noise, for that would disturb those at work with the teacher. It is very difficult for a healthy child of that age to sit still for any considerable length of time. He lives and grows through action, but becomes fatigued and dull by sitting still. For him to become tired through normal activity is beneficial because it promotes development, but for him to excite his nerves trying to avoid action retards growth. The pupil's position at the desk tends to compress his chest, prevent free respiration, and interfere with digestion. The blood pressure, therefore, in the head and lungs is too great, while the heart and lower extremities of the body need the pressure caused by activity. Any treatment of the child which tends to check the growth of his heart and lungs, or to impair the alimentary and circulatory systems, strikes at his health and his happiness. If there are to be steady nerves, a clear brain and active muscles, these must be supported by large lungs, good digestion and a strong circulation. We are doing our best to overcome the disadvantages which young children suffer by gymnastics, games and recesses at frequent intervals during the school session, but I still feel that there is a deal of strain upon these little bodies, and anything which tends to reduce the length of time during which they must assume a working position at school desks is of great physical benefit.

Many of the children learn so readily that they can acquire

in half the time or less all that is required of them by the course of study. Teachers have been urged to dismiss the bright children a half hour early in the afternoon that they may have the benefit of unrestricted play in the open air, and that the teachers may give their undivided attention to those children needing extra help. The results thus far have been very gratifying, and have proved to be beneficial both to the bright and to the slow children. If these good results continue, early dismissals during the morning session for the little ones will be logical. Most of the teachers are enthusiastic in their appreciation of the plan.

As I watch these little children in school I am convinced more and more that five years is too young to admit children into school. When our High School accommodations will admit of a change in our elementary course to one of eight years, a change in the age of admission into school should be made to five and one-half or six years.

ARRANGEMENT OF CLASSES. The west end of the Town presents no problem of organization. The ample accommodations offered by the Locke School building, and the unaccountable falling off in numbers at the Cutter School, leave both buildings in a very comfortable condition so far as the size of classes is concerned.

The necessity for two classes in Grade VIII. at the Russell School for next year will make it necessary to retain in the Parmenter building the present fourth grade as a fifth grade. This will oblige us to combine classes in the lower grades. It is, in a measure, unfortunate that we shall have to do away with the ideal conditions that have existed in that school for the past few years.

The probable congestion in the lower grades of the Crosby School can be solved temporarily by dividing the lower grades and giving one session to each part; one-half going in the morning from nine to twelve o'clock, and the other in the afternoon from half-past twelve to half-past three.

HEALTH. Medical inspection has been in force in Arlington for many years. There is no doubt of its effectiveness. Two schools, the High and Locke, have been closed for a limited time during the year because of the presence in the school of pupils who were found to be in a condition of desquamation as a result of scarlet fever. The cases were so light that no physician had been called, and the families were apparently unaware of the danger to which they were exposing other children. Fortunately no secondary cases followed as a result of

the exposure in either school. The advisability of prompt and decisive action in such cases was conclusively shown.

By statute, teachers are obliged to examine the eyes and ears of all pupils during the school year, and the results are reported to the State authorities. Much good has resulted in our Town from these examinations. Many pupils have consulted oculists, and as a result are either wearing glasses or undergoing medical treatment. To complete the physical examination of school children in a satisfactory manner the throat of every child should be examined for enlarged tonsils or adenoid growths. The worst cases are usually discovered by teachers or the medical inspector and word sent home to the parents. Some pay no attention to the warning, while others are very grateful and immediately seek medical advice. There are many cases, however, which can not be easily detected by the teacher or the casual observer where great good would result to the children from the removal of throat obstructions. I wish again to call your attention to a matter spoken of in my last report in regard to the examination of the teeth of pupils. This work has been undertaken by some of the most progressive school systems in this vicinity, and the conditions found indicate need for such action. Over ninety per cent. of the children examined have been found to be afflicted with carious teeth.

The admirable system of gymnastic work with games and aesthetic exercises are of great physical benefit to our children and add to the enjoyment of school life. The girls of the Freshman class are given a careful physical examination after entering the High School. Every year the percentage of curvatures and other physical deformities is growing less, showing that the work in the grades is putting our pupils gradually into better physical condition. A good body is the first requisite for effectiveness in a well-trained mind.

TEACHERS. During the year ten teachers have resigned. Four of these were in the High School and included the Principal, who had been an earnest, faithful worker for seventeen years; three were in the Locke School, and also included the Principal, who had served faithfully for twelve years; two were from the Russell, and one from the Cutter School. Besides filling these places it has been found necessary to add six teachers to our corps—two in the High School, including a sub-master, and four in the Locke. About one-fourth of the teaching force is therefore new this year. Taking this into consideration, it is gratifying that things are going so smoothly and with indications that thorough work is being done.

It may not be surprising that the Superintendent sees what he hopes to see—progress and improvement—yet the demands increase so much more rapidly than the quality of the material on which the teacher works, or the ability of the teacher, that every year a broader preparation, a greater natural gift for teaching and leadership, and a stronger physique are needed.

Our teachers are an earnest body of workers, anxious to do good work, and willing to receive criticisms and suggestions. As your Chairman has pointed out, it is a pity that it is impossible to reward them in a financial way as they deserve. There is a reward, however, richly deserved, which it is within the power of every citizen to give—that is the kindly word of praise and appreciation to which every good teacher is entitled. If always and everywhere teachers were treated with the degree of kindness, courtesy and respect which are their due, it would not add to the school budget, nor would it make the teachers' meagre salary go any further, but it would encourage them to attack their difficulties with more confidence, and make their hearts lighter and tasks easier.

It has been the aim of the Superintendent during the year to make the schools do their full duty and measure up to the best standard of what is meant by "good schools," to retain the largest possible numbers through the full High School course, to make the work of teachers more efficient, to express freely approbation of good work wherever found, and to encourage a progressive professional spirit among our teachers.

I wish to thank all who have seconded by efforts in any way.

Respectfully submitted,

JOHN F. SCULLY,

Superintendent of Schools.

REPORT OF TRUANT OFFICER.

ARLINGTON, MASS., Jan. 1, 1910.

Mr. John F. Scully, Superintendent of Schools :—

Dear Sir :— I herein present my Fourth Annual Report as Truant Officer of the Town of Arlington, Mass., for year ending December 31, 1909.

Number of calls.....	225
Number of truants.....	36
Kept home by sickness.....	150
Taken to school.....	13
No one at home when officer called.....	8
Kept at home by parents.....	34
Kept at home for lack of clothes.....	10

Respectfully submitted,

WM. T. CANNIFF,
Truant Officer.

REPORT OF THE SCHOOL PHYSICIAN.

ARLINGTON, MASS., Jan. 1, 1910.

Mr. John F. Scully Superintendent of Schools :—

I herewith submit my report as school physician for the year ending December 31, 1909.

The total number of pupils examined is 1228. Of these 42 were temporarily excluded from school, for the following causes: One each were suffering from sty, tonsillitis, and fracture of the forearm; one had been intimately exposed to diphtheria; two each had chicken pox, impetigo contagiosa, nausea, conjunctivitis and suspicious sore throat; two refused or persistently neglected to be vaccinated or to furnish a physician's certificate of physical disability; three had itch and three whooping cough; and there were twenty cases of pediculosis. There have been fewer cases of contagious diseases than last year, and every care is exercised by the teachers and myself to detect mild cases which have not been recognized as really ill at all. Most parents are, I think, considerate of the welfare of others and their own as well in keeping at home any child which they have the least reason to think has any communicable disease. Just enough carelessness exists to seem to prove the rule.

On two occasions during the year mild cases of scarlet fever, have been found to be regularly attending school. In both cases the school building was temporarily closed and fumigation and disinfection was carried out by the Board of Health on a large scale. Although we were fearful of an outbreak, the prompt and vigorous methods employed won the day, and not one subsequent case arose.

I feel that during the year all connected with the schools have worked together with me with a single object in view, the good of the schools of the town from a sanitary and medical point of view.

Respectfully,

CHARLES F. ATWOOD, M. D.

School Physician.

REPORT OF THE BUILDING COMMITTEE OF THE LOCKE SCHOOL EXTENSION.

To the Town of Arlington:—

The Committee appointed at the Town Meeting of March, 1908, to procure plans and estimates for an extension to the Locke School, and later reappointed to build the proposed extension, has completed its duties and submits the following report.

The committee organized on the evening of March 20, 1908, the actual work of excavating for the foundation was begun in July of the same year, and the building was practically completed in season for the opening of school in September, 1909. During this time the Committee held over forty meetings of record, besides numerous informal meetings at the building and elsewhere. A public meeting was held at the Heights, with stereoptican views, and the stereoptican was also effectively used at the adjourned Town Meeting, in the Spring of 1908.

Twelve competitive bids for the general contract were received, but none were within the amount set aside by the Committee for this purpose, and consequently all were rejected. Changes in the plans and specifications were then made and submitted to the lowest three bidders, and of the new bids that of the O. B. Marston Co. was the lowest, and that company was awarded the contract. Competitive bids were also received on the other contracts and same were finally awarded as follows: heating, W. B. Ross; plumbing, David Craig; electric clocks, Blodgett Clock Company; electrical appliances, Barnes-Pope Electric Company; grading, Michael Kelly. The architects were Gay & Proctor.

The financial statement is as follows:—

APPROPRIATIONS.

For preliminary plans, estimates, etc.,	\$ 500 00
For erecting building.....	48,000 00
For grading new play-ground.....	400 00

\$48,900 00

EXPENDITURES.

General building contract, etc.....	\$37,151 18	
Heating.....	4,043 45	
Plumbing.....	1,700 30	
Electrical work, clocks, phones and bells,	948 45	
Grading, engineering, water and sewer connections, etc.....	1,316 94	
Furnishings and window shades.....	1,620 75	
Insurance.....	230 00	
Preliminary plans, estimates, and archi- tects fees.....	1,768 84	
		<hr/>
		\$48,779 91
Unexpended balance.....		<hr/>
		\$ 120 09
Amount paid by the Town for additional play-ground was.....	\$ 4,250 00	
Amount paid for addition to Building as above.....	48,779 91	
		<hr/>
Total cost of addition and grounds.....	\$53 029 91	

The sanitariums for the new addition are located on the ground floor in central building away from the class rooms, and rooms have also been provided in this central building for the sanitariums which are now located in the basement of the old building. The committee strongly recommends that the Town make arrangements to have these sanitariums transferred to the new location as soon as possible.

Dedicatory exercises were held on Tuesday evening, October 19th, 1909, in the new assembly hall, and about five hundred residents of the town were present.

Respectfully,

FRANK W. HODGDON,
JACOB R. ESTABROOK,
PETER SCHWAMB,
JOSEPH C. HOLMES,
EDWARD W. GOODWIN.

Committee.

Locke School and the Audience.

REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

To the Town of Arlington :—

The Trustees of the Robbins Library submit their annual report. The circulation of books shows a loss of 241,—44,887 for 1909 as against 45,128 for 1908, and in the Children's Room 12,506 for 1909 as against 12,779 for 1908, a loss of 273. The average daily attendance in the Children's Room has decreased from 30 to 24; that of the Reading Room shows a loss of 49 as against 55 in 1908. The stack room continues to be used by students and scholars, but we note a gain in the number of books taken home for examination,—30,145 as against 29,980 for 1908, and 2,908 periodicals against 3,016 for 1908, a loss of 108.

We have continued to keep books at Arlington Heights, as well as a small supply for the Arlington Heights Study Club. During 1909, 1,091 were delivered as against 792 in 1908.

The long felt need of better accommodations for the branch library at the Heights has been realized by the kindness of the School Committee in permitting us temporarily to occupy one of the unused rooms in the Locke School house, a favor greatly appreciated by the citizens of the Heights. But the removal to this improved and very desirable location only accentuates the need of a larger outlay upon the branch library.

A greater number of reference books, periodicals and other literature should be kept there, and made accessible by the more frequent, and perhaps, daily opening of the library. There is no law of the mind which restricts the desire for knowledge to those hours when the branch library is open. But to increase these facilities and meet the requirements of this rapidly growing section of the Town, a much larger income will be needed. The expense already incurred has materially reduced the funds available for books at the Library in the Centre, and nothing more can be done for the Heights until a larger income is obtained.

We have completed the re-wiring of the Library and made other necessary repairs.

The Trustees regret to call attention to the defective condition of the roof of the Library, which leaks badly at times around the skylights, owing to faulty construction. Temporary repairs have not remedied the evil and a large expenditure will be necessary before the roof is made tight.

The Library has been enriched by gifts of books from State Street Trust Co., Mrs. E. C. Turner, Emmet Densmore, M.D., Geo. L. Raymond, Dr. Nathan E. Wood, Mrs. Harry G. Porter. The editors of the Advocate have continued to send us a file of that paper.

At a special meeting of the Trustees on the 18th of November, the following By-laws were adopted :

ARTICLE 1. The Trustees shall meet annually at the Library on the first Monday in March, to choose a Chairman and Secretary, also to transact any other business that may legally come before them. They shall hold stated meetings on the first Monday of every month.

ARTICLE 2. The Secretary shall keep a fair record of all the proceedings of the Trustees, and shall notify the Trustees of the time of holding their meetings.

ARTICLE 3. The Trustees shall appoint a Librarian, shall have all books in the Library kept in repair, shall make all purchases of books, shall pass upon all bills against the Library, shall examine the books annually, and make a report of their condition to the Town.

ARTICLE 4. The Librarian shall keep a full and accurate catalogue open to inspection of all books belonging to the Library, shall deliver books to such persons as are entitled to use them, shall keep a record of the time of delivering and returning each book, shall report to the Trustees all injuries done to books, shall collect all fines and pay the same to the Town Treasurer before the first day of January in each year.

ARTICLE 5. The use of the Library and Reading Room shall be free to all residents of the Town, of suitable age ; but any person may be forbidden such use for carelessness or misconduct.

ARTICLE 6. Any person temporarily living in town may use the Library on the same conditions as residents, provided that before taking books he shall furnish a satisfactory guaranty, or deposit with the Librarian the sum of three dollars.

ARTICLE 7. The Library and Reading Room shall be open to the public upon such days and during such hours as may be fixed from time to time by the Trustees. The Trustees shall regulate the use of the Library and the distribution of books.

Exhibitions of photographs, etc., have been given in addition to those reported hitherto :

January. No. 92. Exhibit of New Zealand.

February. No. 93. Exhibit of Portraits of the Hundred Most Eminent Men of all time.

February and March. No. 94. Corot, Part II.

March and April. No. 95. Exhibit of Eighteenth Century Color Prints.

April and May. No. 96. Exhibit up the Rhine.

May. No. 97. Rise of Sculpture, Part I.

May and June. No. 98. Rise of Sculpture, Part II.

June and July. No. 99. Modern American Sculpture.

July. No. 100. Yosemite Valley.

September. No. 101. Japan, No. 3., Nikko.

October and November. No. 102. Song of Hiawatha.

November. No. 103. Thirteen Plates of Birds by John James Audubon.

November and December. No. 104. Famous Pictures, No. 6.

Respectfully submitted,

SAMUEL C. BUSHNELL,
E. NELSON BLAKE,
CYRUS E. DALLIN,
CHARLES A. KEEGAN,
JAMES P. PARMENTER,
ARTHUR J. WELLINGTON,

Trustees.

LIBRARIAN'S STATEMENT.

LIBRARY HOURS.

SUNDAY.—*Reading Room*, 2.30 to 5.30 P. M.

REPORT OF JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS.

The Joint Board of Selectmen and Board of Public Works herewith present their sixth annual report for the year 1909.

The Board met March 13, 1909, and organized by electing J. Howell Crosby, Chairman, and Horace A. Freeman, Clerk.

Regular meetings have been held on the evenings of the second and fourth Saturdays of each month, at eight o'clock.

The Board is made up of three members of the Selectmen and three members of the Board of Public Works, sitting jointly.

The duties of this Board are indicated in Section 5 of Chapter 3 of the Acts of 1904, which reads as follows:

"Section 5. Upon the election of said Board of Public Works all the powers, rights, duties and liabilities of the Selectmen in said town, now existing or hereafter created by law, relating to highways, town ways, the laying out and discontinuance of ways, bridges, sidewalks, guide posts, monuments at the termini and angles of roads, public squares, playgrounds, shade trees, sewers, drains, street watering, street lighting, the assessment of damages and betterments, water pipes, gas pipes, conduits, poles, wires, street railways, the granting of locations, rights or licenses for structures upon, under or over highways or other ways, shall be exercised, enjoyed, performed and incurred by a Board consisting of the Selectmen and the Board of Public Works created by this act, sitting jointly as the Board of Survey."

The Act establishing this Board was accepted by the Town February 8, 1904, and the operation of the Board appears to have given good satisfaction to the Town.

STREET WATERING. Bids for street watering for the season of 1909 were received from five different parties, the prices varying from \$85 to \$95 per month.

Contracts were awarded to John L. Pichette, John Kelley and Timothy Ryan for \$85 per month.

Other liquids and materials may be used besides water for sprinkling the streets as authorized by recent enactment of the General Court, which reads as follows:

CHAPTER 289, ACTS OF 1909.

Section 1. Any city or town may sprinkle or spread on its public ways, or parts thereof, water or any liquid or material suitable for laying or preventing dust and preserving the surface thereof, and for sanitary purposes, and all statutes providing for watering such public ways shall apply to the use of such liquids and materials, including the appropriation of money, the expenditure thereof at the expense of the city or of the abutters, the assessment upon abutting estates, and the collection of such assessments and proceedings therefor.

The superintendent of streets has been authorized to use other materials beside water in sprinkling the streets at his discretion and for detail relative to the matter attention is called to his report.

The cost for the year is \$3,700, the same being met by \$1,000 by general tax levy, and the balance, namely, \$2,700, by contribution of \$200 and assessments on the abutters.

The assessment this year is $2\frac{1}{2}$ cents per front foot; last year it was the same. On those streets which were watered only half the time the assessment was placed at $1\frac{1}{4}$ cents per front foot.

STREET LIGHTING. The street lighting during the year appears to have been satisfactory so far as the character of the light is concerned. The usual number of petitions for additional lights have been received and in most cases were granted.

During the year three incandescents have been discontinued and eight added, making a net increase of five. One arc and one 80 c. p. Tungsten incandescent were added.

The number of lights in commission Dec. 31, 1909, is as follows:

Arcs, 425 Watts A.C.....	84
Incandescents, 40 C.P.....	246
“ 80 C. P.	2
	—
Total	332

The Town of Belmont continues to pay for half the cost of the arc at the corner of Lake and Pleasant Streets, and the Arlington Boat Club for half the cost of the arc at the foot of Whittemore Street. As heretofore, the lights are turned on in the early morning when needed by the Highway Dept. for snow ploughing.

The current is reported by Supt. LeBaron as having been up to the required standard during the year.

The appropriation for street lighting for the year was \$9,440, of which \$5,420.64 were expended for arc, \$3,742.61 for incandescents, and \$15 for incidentals, leaving a balance of \$263.34.

PERMANENT SIDEWALKS. For detail relative to the extension and renewal of permanent sidewalks attention is called to the reports of the Town Engineer and Board of Public Works.

Three thousand dollars was appropriated in March for permanent sidewalks, not less than \$1,500 of that amount to be used for extension carried out under the sidewalk Act, Section 43 of Chapter 49 of the Revised Laws. In addition to this \$392.95 were received from abutters and 1,277 other receipts, making grand total of \$3,405.74.

The total amount expended during the year is \$3,362.44, of which \$2,159.35 is for extensions and \$1,203.09 for renewals, leaving balance of \$43.30.

Ten petitions for sidewalk were received and all granted except one. Three were for granolithic, two for edgestone only, and four for brick. In each case the abutter paid his proportion of the cost.

Sidewalk assessments committed to the Collector of Taxes amounted to \$124.21.

The Board continues the policy of installing brick sidewalk where possible. No apportionments of sidewalk assessments are authorized as the statute permitting does not appear to have been accepted by the Town.

All sidewalk construction of whatever character must be done in accordance with Town specifications and to the satisfaction of the Town Engineer.

In the cost of permanent sidewalk the Board allows abutters for tar concrete, one-half the cost; brick, one-half the cost; granolithic, 55 cents per square yard.

POLE LOCATIONS. Nine petitions for pole locations have been granted to the Edison Electric Illuminating Company of Boston, on five of which hearings were given as required by law.

The four petitions granted without hearings were for purposes of relocating and reconstructing existing lines, hearings not being required.

Three petitions for pole locations were granted to the New England Telephone and Telegraph Company of Massachusetts, all without hearings.

For further details as to pole locations attention is called to the report of the Superintendent of Wires.

PLANS APPROVED RELATIVE TO PROPOSED STREETS. Petitions asking for the approval of plans relative to the following streets were received, hearings given and the action of the Board of Survey taken as indicated.

Hilton and Edgar Streets, plans were approved.

Upland Road, Falmouth Road and Langley Road, plans were approved.

Proposed street from Mill Street to Schouler Court, plans were approved.

Henderson Street Extension, plans were approved.

Dudley Street Extension, laid on the table.

Street from Pleasant Street to Jason Street, plans were approved.

Albermarle Street, plans were approved.

Belknap Street, laid on the table.

Harlow, Everett, Grafton, Raleigh and Oxford Streets, plans were approved.

Whittemore Street and Footway, plans were approved.

Orvis, Freeman, Randolph, Newcomb Streets and Brooks Avenue, laid on the table.

NEW STREETS LAID OUT OR CONSTRUCTED. The following streets were laid out by the Joint Board in due form under the provisions of law authorizing the assessment of betterments: Henderson Street Extension, Whittemore Street and Footway.

The following streets have been constructed under the Betterment Act as authorized by the Town appropriation made therefor, namely: Woodland Street, from Jason Street to Bartlett Avenue; Bartlett Avenue, from Gray Street to Woodland Street.

Betterment assessments amounting to \$1470.78 were made arising from the construction of the above named Woodland Street and Bartlett Avenue, and the same committed to the Collector of Taxes for collection.

These assessments were based on the assessed valuation of the land and were equal to one-half the cost of construction.

Taking plans were executed and accepted by the Board in each of the above cases.

The total cost of constructing these two streets was \$2,941.56.

Attention is called to the reports of Town Engineer and the Board of Public Works for further particulars in the construction account.

THE LAYING OF GAS MAINS. For several years the Arlington Gas Light Company have made extensive laying of gas mains through the streets of Arlington. Permits to do this have been petitioned for by the Company and granted by the Joint Board. While investigating the cause of the destruction of many of our trees on Massachusetts Avenue, near the Centre, it was found that there was, or had been, considerable leakage of gas from some of these gas mains, and that many of the trees had been killed thereby. So far as the trees were concerned the matter was very satisfactorily settled with the Gas Company. The Board, however, believed that extra precaution should be made towards preventing further gas leakage, especially from gas mains laid in the future. The attention of the company was called to the matter, and after several conferences the matter was agreeably adjusted on the following basis: "The Town Engineer shall specify the places in said highways where said pipes shall be laid and maintained. All work done by the company, its servants, or agents, shall be done under the supervision and inspection of said engineer, or by some one designated by him for that purpose. Said work shall be done subject to the approval and satisfaction of said Engineer."

Under this arrangement it is hoped and expected that the pipes will be so laid, the joints so calked, and the trench so filled as to reduce the leakage of gas to the minimum. Mr. Roden, Superintendent of the Water Works, has been designated as such inspector for the present by the Town Engineer. Mr. Roden has had considerable experience in such work.

Three petitions of the Arlington Gas Light Company to lay gas mains have been granted during the year and agreements relative to the same duly executed.

UNDERGROUND CONDUITS. The New England Telephone and Telegraph Company of Massachusetts was granted permission to lay and maintain underground conduits and manholes with the wires and cables to be placed therein under the surface of Water Street, from Massachusetts Avenue to the Boston and Maine Railroad.

HENDERSON STREET EXTENSION. At a meeting of the Joint Board, held March 12, 1906, a petition was received from the East Arlington Improvement Association asking for a road and bridge across Alewife Brook, connecting Henderson Street in Arlington with a road from Woodstock Street in Somerville.

The Joint Board, acting as a Board of Survey, appointed a hearing on this petition for March 26, 1906, and advertised the

same in accordance with Section 3 of Chapter 249 of the Acts of 1897.

On March 26, 1906, the hearing as advertised was given, and the sentiment appeared to be that Henderson Street should be extended and a bridge built.

Such connection would give quick inter-communication between Clarendon Hill section in Somerville and Henderson Street section in Arlington, with many advantages to both sections growing therefrom. To obtain this connection required joint action on the part of both Somerville and Arlington authorities.

Under the Board of Survey Act of Arlington a second hearing was necessary for the purpose of acting on plans relative to the extension of Henderson Street, but no such plan could be made at that time because no lines and grade could be determined in view of anticipated changes and improvements to Alewife Brook. It was known that in the purification of Alewife Brook and adjacent areas by the Metropolitan Park Commissioners the location of the brook was likely to be very materially changed, but just what and where these changes would be was not then known. The Board, therefore, instructed the Town Engineer to draw up plans showing lines and grades as soon as sufficient data would be obtained, at which time a second hearing would be appointed. It was evident that this data was likely to be slow in coming. The Board, however, could not well act without it, for when the Board of Survey fixes the lines and grade of a proposed street, these lines and grade form the basis for the laying out of said street later by the Joint Board, and still later of its acceptance and construction by the Town. In fact the Town would not be justified in accepting as a public way or appropriate money for the construction of a street when lines and grade were not of a permanent character. Indeed, by approving plans of such a character the Board of Survey would be doing the very thing it was established to prevent, namely, the indiscriminate and undesirable layout of streets.

Thinking it would facilitate matters if the County Commissioners could be induced to lay out and establish lines and grades for the streets and bridge necessary to connect Henderson Street with Woodstock Street, the Board of Selectmen petitioned said Commissioners relative to the same. The County Commissioners gave a hearing on this petition January 17, 1907.

The next day the Selectmen received a communication from the County Commissioners, in which they say:—

"In the matter of the petition of your Board to lay out an extension of Henderson Street to and across Alewife Brook to some street in Somerville, we are of the opinion, after a hearing, that the way should be laid out.

Owing to the fact that there is a serious question as to our authority to lay out a highway in Somerville, we do not consider it advisable to make a decree at this time which would in terms require the street to be constructed in that city.

The petition will be continued on our docket until such time as may seem proper to take further action.

Enclosed please find copy of portion of Somerville City Charter relating to highways."

Nothing further has been done relative to this petition.

Before the scheme could be carried out it was evident that Somerville and Arlington must act in conjunction, and to this end committees were appointed both by the Board of Aldermen of Somerville and the Joint Board of Arlington.

These committees have been in frequent conferences for the purpose of securing the necessary steps leading to the desired connection of Henderson Street with Woodstock Street.

At this meeting the matter stands as follows: In Somerville the matter of laying out and constructing a street from Woodstock Street to Alewife Brook and the appropriation of a sum of money towards a bridge have been referred to appropriate committees. These committees have not yet reported.

In Arlington plans have been approved by the Board of Survey, and the extension of Henderson Street to Alewife Brook laid out by the Joint Board. These plans and this layout, however, are null and void because of taking of land made on both sides of the Brook by the Metropolitan Park Commissioners.

It appears that no further action can well be taken by either Somerville or Arlington until authority is obtained from the Metropolitan Park Commission to cross the lands which said Commissioners took for park purposes.

For the purpose of conferring with the Metropolitan Park Commissioners relative to this matter Messrs. Crosby, Hayes and Town Engineer Pond were appointed a committee by the Joint Board. This Committee has not yet reported, but it is believed the said Park Commissioners will co-operate and grant whatever rights are necessary for the crossing of their lands.

SUMMER STREET EXTENSION. The Board has under consideration the advisability of extending Summer Street so as to make it, with proper connection, one of the main thoroughfares of the Town, extending from the Medford, Somerville and Winchester lines to the Lexington line and beyond.

Gray Street Extension is also under consideration for a similar purpose.

In the future development of streets in Arlington, the Board believes a systematic and wise policy should be followed so that in time our Town will have a system of streets creditable to the Board and an honor to the Town.

As bearing on this matter the following is quoted from the report of the Metropolitan Improvement Commission:

“The street system of Arlington belongs to that general type illustrated upon page 196. The only through street of the Town is Massachusetts Avenue, which serves local purposes besides connecting Concord, Bedford and Lexington with Boston. For reasons already described at length towns having this primitive street system should take measures to develop as through roads the series of crooked and dead-ended streets which parallel the main road. Arlington should extend and widen Summer Street as a continuation of Lowell Street, past the Almshouse along the north side of the railroad. The eastern end of Summer Street should be connected by a more direct route with Chestnut and Warren Streets and thus form a main trunk road through the Town. So abrupt is the ground on the southern side of Massachusetts Avenue that a through street cannot be developed there. To form a convenient cross-district line from West Medford to Belmont and Arlington River Street should be connected with Lake Street and the latter through Hill Street with Huron Avenue. Mystic and Pleasant Streets should be improved as important cross-district thoroughfares.

Among street improvements of a more local importance may be mentioned the following: extend Devereaux Street along the borders of Spy Pond to connect with Lombard Terrace at one extremity and with Pleasant Street at the other. Without a system of protecting border streets (see plans opposite page 197) Spy Pond property cannot develop conveniently or in a way to avoid unsightly misuse of its shores. A new protective street is also needed from Chestnut Street along the westerly borders of the Mt. Pleasant Cemetery and following the line of Sucker Brook to Orient Avenue. In the future development of the streets of Arlington and Arlington Heights the Town authorities should attempt to control the private subdivision of land by streets of excessive steepness. This undesirable class of public ways has gained a foothold in the Town and should be held in check.”

THE WIDENING OF MEDFORD STREET. The advisability of widening Medford Street is under consideration and the Town Engineer has been instructed to draw plans with this end in view, especially that part east of Hamlet Street. It is possible the County Commissioners may be petitioned relative to the matter.

PLANS ACCOMPANYING PETITION:. As requested by this Board, the Arlington Gas Light Company submit plans with petitions sent in by them asking for permission to lay gas mains.

We now have plans accompanying all petitions from public

service corporations using the public streets and requiring the opening of the same for the laying of pipes, conduits, etc.

These plans are on file for ready reference.

VOTE OF THANKS. In consideration of the services to the Town rendered by Professor Peter Schwamb, the Board felt it proper to pass the following vote February 27, 1909:

Voted: That a vote of thanks be given to Professor Peter Schwamb upon his voluntary retirement as a member of this Board, in recognition of his long and meritorious services as a member of this Board and as an official of the Town; and that a copy of this vote be spread upon the records of the Board.

POLICY OF THE BOARD. The following votes indicating the policy of the Board have been passed.

(a) *Width of Streets.* At a meeting held October 14, 1907, it was

Voted, That it was the sense of the Board of Survey not to approve of plans for the laying out or constructing of streets less than forty feet wide.

(b) *Crosswalks.* At a meeting held October 28, 1907, it was

Voted, That whenever a sidewalk is changed by the construction of a new street the sidewalk, including the new crosswalk, must be relaid in as good and permanent a form as before the change, the cost to be a charge against the party constructing the street. In case the Town desires a higher cost walk than existed before the change was made the additional cost must be made by the Town in case of permanent sidewalks only.

(c) *Rough Grading of Private Streets.* At a meeting held December 9, 1907, it was

Voted, That after January 1, 1908, no water or sewer pipes shall be laid in streets approved by the Board of Survey until such streets, including sidewalks, have been brought to subgrade satisfactory to the Town Engineer.

Joint Board of Selectmen and Board of Public Works.

REPORT OF TOWN COUNSEL.

To the Joint Board of Selectmen and Board of Public Works:

Gentlemen:—I submit herewith my report as Town Counsel for the year 1909.

Final judgment for the Town has been entered in the Superior Court in the suit of Nathan Robbins, which was a claim of \$3,285, to recover back taxes alleged to have been illegally assessed and collected.

The claims of Arthur Birch and Martha W. Birch, for damages arising by reason of the change of grade of Wollaston Avenue, flowage from Bow Street, sewer takings, widening of Bow Street and injury to artificial pond occasioned by the construction and maintenance of storm drain, have been settled for \$200.

On the petition of your Board, filed in 1907, for the abolition of grade crossings over the Boston and Maine Railroad at Avon Place and Whittemore Street, a commission was appointed, public notice given, hearings held in Arlington and Boston, and early in November a final decree was entered abolishing the grade crossings, the entire expense to be borne by the railroad, Avon Place and Whittemore Street being private ways.

Hearings were held by a special commission and the Town represented, in the matter of the apportionment of the cost of constructing a new bridge on Mystic Avenue, Charlestown, among certain corporations and cities and towns. Under the final decree Arlington was not called upon to contribute to the cost of construction, although it was argued that Arlington did derive some benefit therefrom.

In the matter of the petition of the Boston and Lowell and Lawrence Railroad for a certificate that public convenience and necessity required the construction of an interurban railroad through various cities and towns, including Arlington, from Boston to Lowell and Lawrence, the Town was represented at the hearings before the Railroad Commissioners. Two routes through Arlington were suggested, both of which would result in great individual property damage, would decrease the taxable property and would impair the development of property in the Town. In

opposition the Town offered an alternative plan showing a route which eliminated Arlington as one of the towns through which the contemplated road would pass. No finding has as yet been made on the petition by the Railroad Commissioners.

The legal work of the various Town departments has been attended to.

Respectfully submitted,

HORACE D. HARDY,

Town Counsel.

REPORT OF THE TOWN ENGINEER AND SUPERINTENDENT OF STREETS.

ARLINGTON, MASS., Jan. 24, 1910.

To the Joint Board of Selectmen and Board of Public Works:

Gentlemen:—Herewith is respectfully presented a report concerning work under my charge for the year 1909.

The organization and character of work has been the same as last year.

ENGINEERING. There is no separate appropriation for engineering, therefore the expense is charged each week to the Department or Appropriation for which services are rendered.

The classification is shown in the same form as in previous years, so that comparison can easily be made.

Highway Division: For marking all lines and grades, making plans, profiles, estimates, locations and records of work done and in contemplation by the division	\$645.53
Sewer Division: For all surveys, plans, profiles, lines, grades and records, including superintendence on cleaning and flushing sewers.....	276.18
Superintendence and inspection on sewer construction	308.82
Superintendence and inspection on particular sewer construction	173.13
Water Division: For all lines for new mains and locations and records of gates, hydrants, specials, service boxes, work on registration data and office records, and reading meters.....	440.38
New Streets: For all engineering work required in the construction of new streets by Highway Division under Special Appropriations.....	66.36
Sidewalks: For all lines, grades, measurements of edgestone, concrete, brick and artificial stone walks, data for assessments, etc.....	69.77

Board of Survey: For all surveys, plans and profiles of streets laid out by the Board, and studies in connection with the street locations under consideration by the Board	37.07
Storm Drains: For all surveys, plans, grades and superintendence on construction	113.26
Cemetery Trustees: For all plans, surveys, grades, etc., in connection with new travelway construction, grading and locating additional areas	5.08
Miscellaneous: Copying plans and deeds from Registry at East Cambridge, description of real estate and tax titles, street numbering plans, work for Park Commissioners, and all miscellaneous work for the various boards and committees.....	68.85
Total	<hr/> \$2204.43

It should be understood from the above classification that the amounts charged to engineering include about \$500 for clerical work in the Board of Public Works office.

BOARD OF PUBLIC WORKS. For details of work under the direction of the Board concerning locations, costs, quantites, etc., reference is made to the statistical tables contained in their report.

HIGHWAY DIVISION. The greater part of the work of the Highway Division for the year has been the general maintenance of streets and sidewalks, and all matters relating thereto.

It has been the aim of the Division to maintain a general standard of conditions throughout the Town, giving special attention to those portions of the highways where the greatest travel occurs.

Massachusetts Avenue throughout its entire length is perhaps more heavily traveled than any other of our thoroughfares, and consequently requires the largest expenditure for maintenance. Particularly is this true between Water Street and Arlington Heights, where the street is narrow and where the travel is more congested.

It is expected that the Boston Elevated Railway Company will make extensive repairs to their track; in fact, will probably relay the same on Massachusetts Avenue above Water Street during 1910, which will require a readjustment of the street surface by the Town. With this contemplated work in mind, only such re-

pairs to the street as seemed positively necessary were made during the year. It is hoped when this track is relaid that a new grade for the avenue may be secured which will result in improved drainage conditions. It will, however, be impossible to maintain this section of the street by any method except some form of permanent pavement, without considerable yearly repair.

Massachusetts Avenue, between Winter Street and Arlington Centre on the northerly side, and between Avon Place and Pleasant Street on the southerly side, was in very poor condition because of not having been resurfaced for some years, although the Boston Elevated Railway Company's track had been relaid to a permanent grade as far as Medford Street. It therefore seemed wise to complete this portion of the street during the past year. In this construction several different methods of tar and macadam were used, and I believe good results have been obtained. There were 16,230 square yards of resurfacing done in this work at an average cost per square yard of 53 cents for both tar and macadam construction. A similar reconstruction was used on a portion of Mystic Street, near Old Mystic Street, which had become almost entirely worn out.

Pleasant Street, Mystic Street, Medford Street and Broadway, where depressions, caused by wear and settlement, occurred, were patched with tar and stone during the past two years with success. By this process a considerable amount of labor and material have been saved. Mystic Street, from Summer Street to the Winchester line, which had been treated with Tarvia for the preservation of the street surface and in substitution for street watering in 1908, was again treated this year, with the result that very little wear is indicated on the surface of the street; and there has been absolutely no street watering required. The same treatment was applied to portions of Broadway, Lake Street and Medford Street, with the same effect. Pleasant Street throughout its entire length, portions of Mystic Street, Medford Street and adjacent streets were treated with oil (Terrecolia and Standard) and the street watering service withdrawn, with, I believe, satisfaction to the owners of abutting estates and the general public. The cost of these treatments is \$2,291.78; equal to about 2½ cents per square yard for area treated.

I think from the results obtained that these treatments should be continued and extended. In fact, the treatment of street surfaces for the prevention of dust has become imperative under present travel conditions, and I recommend that the street watering service be practically abolished, and appropriations made to allow for the extended use of dust preventatives. The use of water in a sufficient quantity to lay the dust under the travel of the present day is so great that serious injury must result to any

street surface, for in order that street watering may be effective, enough water must be used to at all times keep the street surfaces wet or damp. This softens the surface of the street and hastens to a great degree the speedy disintegration of the surfacing material.

I recommend for 1910 the resurfacing of the following streets now of macadam construction: Massachusetts Avenue, from Lake Street easterly on both sides; Massachusetts Avenue, near the Lexington line, on both sides; Water Street, Warren Street and Pleasant Street; portions of Brattle Street, Claremont Avenue, Franklin Street and Hillside Avenue, now of gravel construction, should be macadamized.

STORM DRAINAGE: An 18-inch drain was built from Bow Street across the location of the Boston and Lowell Railroad to connect with Mill Brook at Forest Street Place. This drain was to take the place of a former pipe which discharged into the Railroad ditch near the factory of Arthur Birch, Esq. Provision was made in this work not only for the present requirements of Bow Street, but for the future drainage area of the easterly portion of the Crescent Hill district.

At the November Town meeting an appropriation of \$600.00 was made for the construction of a storm drain in Appleton Street, between Park Avenue and Hillside Avenue.

Four new catch basins were connected with this drain at the corner of Hillside Avenue and Appleton Street, including the outlet of one catch basin at the corner of Park Avenue. A considerable expense was caused from washouts at this point for many years, owing to the large drainage area tributary to this section of the street, which the construction of this drain has remedied.

It is very necessary that the storm drainage system of the Town be extended in several localities. As the area of the Town is developed by building, the need of better storm drainage in the streets is greatly increased. I, therefore, particularly refer to the recommendations made last year, namely, the construction of storm drains in Academy Street, between Massachusetts Avenue and Maple Street; in Massachusetts Avenue, from Barnes Lane to Tufts Street, and between Franklin Street and Wyman Street; also in Hutchinson Road, near Old Mystic Street, and the installation of additional gratings in Boston Elevated Railway Company's tracks at several changes of grade.

PAVED GUTTERS AND CROSSWALKS. About 300 yards of new granite block paving in gutters were laid; 172 square yards of tar

concrete crosswalks were laid on Massachusetts Avenue, Jason Street and Park Avenue.

The use of tar and oil in new street construction will eliminate the need of crosswalks to a large extent, and in consequence a great annoyance to the occupants of passing vehicles can be avoided.

SIDEWALKS. Tar concrete sidewalks were resurfaced on portions of the following streets: Massachusetts Avenue, Park Avenue, Pelham Terrace, Medford, Pleasant, Brattle, Ashland, Walnut and Gray Streets, amounting to 3396 square yards.

Brick sidewalks were laid under petition of the owners of abutting estates on Massachusetts Avenue at the new block near Park Avenue; at the corner of Massachusetts Avenue and Bartlett Avenue; opposite No. 44 Academy Street; also at No. 72 Westminster Avenue. Brick sidewalks were laid by order of the Joint Board of Selectmen and Board of Public Works on the southerly side of Irving Street, near Ravine Street, to prevent damage caused by washouts; also on Park Avenue, near Paul Revere Road, and on Park Avenue, near Appleton Street.

Artificial stone walks were laid on Bartlett Avenue under petition of the abutting owners.

I again recommend that the Town extend the construction of permanent sidewalks, especially along the avenues of through travel. It is particularly necessary that a permanent sidewalk be extended to Arlington Heights on Massachusetts Avenue, and on one side, at least, of Mystic Street, and on Broadway.

NEW STREETS. Under a special appropriation made by the Town at the March annual meeting, Woodland Street, between Jason Street and Bartlett Avenue, was accepted and an appropriation of \$1,350 for its construction made. Also at the same time Bartlett Avenue, from Gray Street to Woodland Street, was accepted, and an appropriation of \$1,750 for construction made.

In accordance therewith these streets have been built and constructed with edgestones, paved gutters and macadam surfacing.

At the Town meeting in November, Whittemore Street was accepted from Massachusetts Avenue to the Railroad location, although no appropriation for the reconstruction of the street was made at this time, owing to the lateness of the season. The acceptance of this street was in connection with the construction of a proposed Footway ordered under the decree of the Superior Court, to be built by the Boston and Maine Railroad. This decree also abolished the grade crossing at Avon Place and established a new right of way between Pond Lane to Avon Place on the southerly side of the railroad.

The addition of these streets makes the number of accepted streets in the Town 101, representing a total length of $33\frac{1}{4}$ miles.

SEWER DIVISION. Comparatively little sewer construction was done during 1909; 1,747 feet of sewer was laid in the following streets: Albermarle Street, Appleton Street, Francis Avenue, Harvard Street, Wachusett Avenue and Walnut Street. The total mileage of sewers now is 27.61 miles.

There were 67 sewer connections made and the usual maintenance requirements were attended to. It would appear from the applications now received that several large extensions will be required the coming year.

COLLECTION OF OFFAL AND ASHES. The methods formerly applied in this department have been continued. The work is constantly increasing and the amount of ashes and paper is now so great that I believe it would be more advantageous and economical to employ a permanent force of men and teams each day of the week to make the collection, as in the case of the offal collections.

The practice of using several of the Highway Division teams from two to three days each week conflicts with the work of that division, and oftentimes results in delays and unsatisfactory service.

About 300 cords of offal, 3,000 loads of ashes, 500 loads of paper were collected.

Under a special appropriation of \$1,000 a building has been erected in the Town yard, designed especially for the transfer of offal from the teams in which it is collected by the department to the teams of the contractor. This building is completed and will be put into operation early in the Spring.

EQUIPMENT. The equipments of the Highway and Sewer Divisions are in good condition, with the exception of the crushing plant. I think that it is no longer advisable to take stone from the crusher ledge. The farther the excavations go the more uneven the grade of stone becomes. And I do not believe that a farther outlay of money on this ledge would be warranted, taking into consideration also the unsightly appearance and injury to the surrounding property which would result if the work were continued.

The crushing plant itself, as mentioned in the previous years, is entirely inadequate and extensive repairs will have to be made before the machinery can be used again. From experience in the purchase of stone during 1909, I think the Town can save money

by making contracts for delivering crushed stone at the new Town yard. If arrangements for the proper handling of crushed stone were made at the yard, by the construction of storage bins, no further expense would be needed for crushing machinery until the time arrives when a portable crushing plant becomes a necessity. The portable plant would be used wherever the department was making large ledge excavations and could easily be run with power from the steam roller, or portable engine. In the meantime, the present plant can be put into shape to crush what surplus material is obtained from excavations made by the departments in their work.

Twelve hundred and three tons of crushed stone were purchased and 3,409 tons were crushed at Arlington in 1909.

BOARD OF SURVEY. Twelve plans were examined on which hearings under petition for locations and grades were to be held by the Board. Of this number two plans were not approved.

Studies were made during the early Spring for the location of a street from the junction of the new Boulevard at Medford Street, extending around the shores of Mystic Lake, and through a portion of the park lands, owned by the Town, to Summer Street; thence continuing through Summer Street, in accordance with the line of the street established by the Board of Survey several years ago, to Brattle Street; thence through private lands to the junction of Forest Street and Bow Street, and thence through Bow Street to Lowell Street and Park Avenue. No hearings as yet have been given on this layout. The plan contemplated includes a street fifty feet wide for the entire length, and ultimately an extension from the junction of Lowell Street and Park Avenue through Lowell Street and private lands, or Maple Street, Lexington, to make connection with the State Road at East Lexington, thereby establishing a new through thoroughfare for travel over the new boulevards from Cambridge, Somerville, Medford and Winchester to Lexington, Concord and towns beyond. This proposed street, if built, will relieve the congestion on Massachusetts Avenue, between Arlington Centre and Arlington Heights, and open the way for the development of the northerly part of the Town.

Preliminary plans for the widening of Medford Street to 75 feet have been made with the intention of taking the matter before the Town at the March meeting.

GENERAL: The several highway bridges are in good condition, the railing only having to be renewed on the River Street bridge.

June 23, 1909, work was begun by the Metropolitan Park Com-

mission on the new channel of Alewife Brook, from Mystic River to Spy Pond. The locks at Craddock Bridge, Medford, are now in commission, and it is expected that this splendid project will be completed by July, 1910.

In the construction of the new channel the old channels under the Broadway and Massachusetts Avenue bridges have been excavated, and the foundation walls lowered to conform to the new grade of the brook, the widening of the arches being left for a future date. At the B. & M. R. R. bridge it was necessary to siphon the Town sewer where connection is made with the Metropolitan sewer. This work was done by the Commonwealth with the consent of the Board of Public Works.

The details of construction for a bridge across the new channel of Alewife Brook, at the foot of Henderson Street, to connect Henderson Street with Woodstock Street, Somerville, are being considered with the Metropolitan Park Commission. This bridge is necessary for the convenience of the residents of the vicinity in both Arlington and Somerville.

Seventy permits were granted to the various public service corporations to open streets for repairs and extension of service.

At the Town House site a gravel path has been built diagonally across the lot from Massachusetts Avenue to Academy Street for the convenience of the High School and residents of the vicinity. Additional shrubs and trees have been set out on this lot, and also at Wellington Park.

At Russell Park the tar concrete walks have been extended so that all the walks across the park are now of a permanent nature.

The work on a new set of Assessors' plans of the Town, for which an appropriation was made in March, 1909, will be carried forward during the Spring months of 1910. This work is most important, and if small appropriations are made each year the plans can be systematically completed and kept up to date.

ROBT. W. POND,

Town Engineer and Supt. of Streets and Sewers.

REPORT OF THE SUPERINTENDENT OF WIRES.

Arlington, December 31, 1909.

To the Honorable Board of Selectmen and Board of Public Works:—

GENTLEMEN :—I respectfully submit my tenth annual report as Superintendent of Wires for the year ending December 31, 1909:

INSPECTION OF WIRES IN BUILDINGS. The rapid increase in the use of electricity for illumination, power and other electrical devices increases the inspection work each year of wiring and other fittings used for this class of service. Each year shows marked improvement in the fittings and workmanship furnished for electrical construction. Careful attention has to be given in the inspections of an electrical installation to see that all requirements have been complied with. Numerous small defects are found which are in many cases not intentional but which are overlooked by the contractors in the rush to complete the work. The Rules and Requirements of the National Electrical Code are strictly enforced and no permit will be issued for service where defects exist until requirements have been fulfilled.

The following schedule is a summary of the work done on Interior Inspection during the year 1909.

Contractors' Applications received.....	268
Number of Inspections made.....	433
Incandescent Lights wired for.....	3,386
Motors wired for, 1-2 to 7 1-2 H. P.....	6
Total H. P. of Motors wired for above 1-2 H. P.	28.5
Dynamos Installed (private installation)...	1, 3 K. W.
Mercury Arc Rectifier Installed.....	1, 30 Ampere
Total number of Permits issued for service to build- ings	354
Total Incandescent Lights installed as per Permits	4,049
Total H. P. of Motors installed as per Permits (above .5 H. P.)	21
Mercury Arc Rectifier Installed for Charging Stor- age Batteries	1, 30 Ampere

POLES AND WIRES ON STREETS. Seventeen (17) Poles were set in new locations. These new locations being granted the companies filing petitions after hearings were held in accordance with Chapter 237, Acts 1903, as follows:

Petitioner Co.	Street.	Poles.	Date Plan.	Date Granted.
Edison E. I. Co.,	Wollaston Av. at Tanager St.,	1	Nov. 23, 1908	Nov. 23, 1908
Edison E. I. Co.,	Wollaston Av.,	2	Nov. 23, 1908	Nov. 23, 1908

N. E. T. & T. Co.,	Mass. Av. opp Medford St.	1	Mar. 19, 1909	Apr. 10, 1909

Permits were granted the Edison Company to relocate one pole on Medford Street, near Metropolitan Boulevard, also to remove two poles on Wollaston Avenue. Permits were granted the New England Tel. & Tel. Company to relocate one pole on River Street, near Metropolitan Boulevard, and to remove four poles on Linwood Street and one pole on Massachusetts Avenue, opposite Medford Street. All poles removed being necessary on account of new locations granted to properly equalize distance between poles as required by the Wire Department. Thirty permits were granted to replace sixty-four poles found unsafe, as follows:

EDSON E. I. Co. Broadway, 4; Crescent Hill Avenue, 1; Decatur Street, 3; Forest Street, 5; North Union Street, 14; Oakland Avenue, 5; Park Street, 2; Park Avenue, 3; Pelham Terrace, 3; Winslow Street, 1; total, 41 poles replaced.

NEW ENGLAND TEL. & TEL. Co. Broadway, 3; Hillside Avenue, 1; Medford Street, 2; Massachusetts Avenue, 4; Mystic Street, 4; Park Avenue, 2; Pleasant Street, 1; Summer Street, 4; Wollaston Avenue, 2; total, 23 poles replaced.

All poles replaced with numbers are on record at the Wire Department Headquarters.

The class of pole and wire construction built by companies owning locations in the Town has been very satisfactory during the past year and all local requirements have been complied with. The Edison Company and the New England Tel. & Tel. Co. were requested to paint all poles throughout the Town that had not been recently painted. A uniform system of stenciling was

decided on between these companies and the Wire Department which, when fully completed, will give the Town one of the best systems of this kind in use in any municipality. One thousand and seventy-five poles were repainted. Five hundred and eighty-one (581) by the New England Tel. & Tel. Co., and four hundred and ninety-four (494) by the Edison Company. The general appearance of the pole lines in our Town at the present time will compare most favorably with any city or town in New England.

STREET LIGHTING. The Street Lighting System has given good satisfaction during the past year and the new Tungsten Incandescent Lamps are an improvement over other types of lamps used heretofore. The only serious interruption to the street lighting service during the year was caused by the severe storm on December 26th. Owing to the breakage of poles and wires caused by this storm it became necessary to order all current shut off from the Town early in the morning of that date. The dangerous condition that wires were in on many streets made it imperative for the public safety that no risk should be taken from a life or fire standpoint. Permission was given by this Department on the morning of December 28th to the Edison Company to turn on current on its commercial, power and street lighting circuits as soon as these circuits were absolutely cleared of contact with other wires, etc. The commercial and one street lighting circuits were re-established that night between 7.30 and 8.30 P. M. The other street lighting circuits were put in commission on the night of December 29th. Your Superintendent has none but the highest words of commendation to give the construction crews of the Edison Company who worked hard under most trying conditions to repair damage done by this storm. These men were the ones who *did the work* and knew what conditions were electrically in our Town. To some of the heads of departments and employees it would be well in a future case of this kind if they, as representatives of the Edison Company, would thoroughly inform themselves as to existing conditions before sending out reports to the public through the press and otherwise that they were ready to furnish service, but could not do so as the current had been ordered off by the Town Wire Superintendent. The current was turned off of the Town of Arlington for the safety of the public, as it will be again whenever it is deemed necessary, and your Superintendent is and always will be ready to shoulder any responsibility in this line when it is up to him, as he is in this case.

The following additions and changes have been made in the street lighting system for the year 1909:

NEW STREET LIGHTS INSTALLED.

Street	Location	Pole No.	Inc.	Arc.	Date of Installation
Gray St.,	250 ft. southeast from Ravine St., N. E.	T. Co.	1		Jan. 1, 1909
Brattle St.	cor. Laurel St.,	810-2	1		Jan. 1, 1909

STREET LIGHTS REMOVED, 1909.

Street.	Location.	Pole No.	Inc.	Date removed.
Mass. Ave.,	near Amsden St.,	847-11	1	Jan. 1, 1909
Appleton Pl.	near Mass. Ave.	804-1	1	Sept. 1, 1909
Ashland St.,	near Elmore St.,	805-3	1	Oct. 28, 1909
Totals			3	

One additional incandescent light is to be installed on Robbins Road on or soon after Jan. 1, 1910, as per vote passed Dec. 13, 1909. The two additional incandescent lights authorized Nov. 23, 1908, to be installed, one on Henderson Street and one on Teel Street, have not, as yet, been put in commission. The delay in installing these lights being due to changes in pole lines to be made on these streets in accordance with new locations granted, and which up to Dec. 31, 1909, have not been made by the companies petitioning for said locations.

SUMMARY OF STREET LIGHTS FOR 1909.

Total number of lights in use Dec. 31.....	332
Incandescent Lights, 40 candle power	246
Incandescent Lights, 80 candle power	2
Arc Lights, 1200 candle power	84
Totals	332

FIRE ALARM SYSTEM. The operation of this system has been satisfactory during the past year and no trouble of a serious nature was experienced in the maintenance of same. Three breaks occurred in the aerial wires of system; one on April 8th

being caused by the breaking off of a large tree on Massachusetts Avenue, near Lowell Street; two breaks occurred on December 26th, caused by the severe storm on that date. These broken wires were repaired and at no time during this storm was the Fire Alarm System out of service. The circuits broken were repaired as quickly as possible considering the severe conditions existing at that time. At all times every Fire Station in the Town was connected by other circuits in commission with the Fire Alarm Headquarters and Air Whistle in Town Hall Building. The Fire Alarm System is divided into four outside and one inside circuit and if every circuit on the streets were put out of commission by a storm or otherwise the Air Whistle at top of Town Hall Building would be in commission to sound a Fire Alarm. This whistle is sufficiently powerful to be heard in all parts of the Town under any conditions that might exist. The system has been carefully repaired and strengthened during the past year and new additions were made as follows: One new signal box, No. 64, was placed on Hose No. 1 House, Park Avenue, and Box No. 54, located on the Station, was placed at corner of Park Avenue and Lowell Street. Box No. 56 on Appleton Street was changed to Box No. 65. These changes were made on June 1st. With the change in numbers the boxes in the fifties are now located north of Massachusetts Avenue in the Crescent Hill Section, and all boxes numbered in the sixties are located in the Heights section of the Town. One six-inch gong was placed in commission on June 4th in the Metropolitan Pumping Station, off Brattle Street. The installing of a gong in this station is an additional safeguard from a fire standpoint, as the engineers stationed there are always informed of a fire alarm and are ready to increase the pressure on water mains as required. One hundred and ninety-two feet of three-inch iron pipe was laid on Franklin Street from Massachusetts Avenue to basement of Hose No. 3 House (Central Fire Station). This conduit is to replace one now in use which is too small to allow installing additional underground wires. One manhole was built in Franklin Street as a junction for underground wires now entering Station from Massachusetts Avenue and to allow for additional wires that will be installed from Broadway at a later date. Iron, fire-proof cabinets have been purchased for terminating all wires entering the Central Fire Station from the Fire Alarm Circuits. These cabinets will also be used as testing points of all fire alarm and other signal wires entering this building. Six hundred and fifteen feet of No. 14 lead-covered Duplex Cable has been purchased to replace wires now connecting the Central Station from Massachusetts Avenue conduit system. Three special signal boxes were purchased for switchboards in the Fire Stations for sounding

still alarms on Tower Bells of their stations. These boxes are numbered 6, and when operated strike six blows on the Tower Bell of the station where located without sounding an alarm elsewhere. Two of these boxes are now in commission, one at Hose No. 2 and one at the Central Station. The Whistle Machine in tower of Town Hall and Hose No. 3 Bell Striker were taken apart and thoroughly cleaned. A copper flange was placed around the Air Whistle to replace galvanized iron flange in use in the past. All Fire Alarm Boxes were painted during the summer, also the roof over Bell Striker No. 1 at Arlington Heights and Bell Striker No. 4 in the Henderson Street District. No wires were purchased other than specified above for the extension of underground or to replace old aerial wires, as the appropriation would not permit such purchases. With material now on hand and with the 1910 appropriation additions to the system can be made in a most advantageous manner.

POLICE SIGNAL SYSTEM. This system has continued to give good satisfaction at a very small operating expense. New batteries were placed in all of the Signal Boxes for operating telephones. Police Box No. 12, located at corner of Massachusetts Avenue, was out of commission twice during the year by breakage of aerial wires. These breaks occurred on August 17th and December 26th. The wires to the box broken on December 26th were entirely put out of commission below Lake and Henderson Streets, so severe was the effect of the storm in this part of the Town. The electric light and telephone wires were also completely disabled, which were on same poles with the Police wires in this part of the Town. All other Signal Boxes of the Police System were in commission at all times on this date. The Police Signal is a valuable auxiliary to the Fire Alarm System as same can, in many cases, be used for sounding an alarm of fire in case any section of the Fire Alarm is out of commission. I would recommend that a direct connection be made between the Police Station and the Central Fire Station of this system, as much time could be saved in giving notice of a fire which might be reported over the Police Signal and not have to use the telephone service as now. The delay in getting the Central Telephone Office, especially in the night, might be of a serious nature, as the response from this office is not always as prompt as it should be.

RECOMMENDATIONS. I would respectfully recommend that at least two additional Fire Alarm Boxes be purchased the coming year, as there are many sections of the Town which should be protected by this system. A liberal appropriation should be

made for extensions of underground wires of the Fire Alarm and Police Signal. With wires underground added security is given to the whole community from a fire and police standpoint, and in time of severe storms these systems are ready for service. If trouble is to occur to poles and wires it is more liable to happen in the time of a severe storm, and at such times the Fire Alarm and Police Signals should be ready for instant operation. The more wires placed underground the more efficient will be the service of these systems.

CONCLUSION. Thanking your Honorable Board for the many courtesies shown me in the discharge of my duties and to the members of the Fire and Police Departments I wish to tender my thanks for assistance given, I remain,

Yours respectfully,

R. W. LE BARON,

Superintendent of Wires.

BOARD OF PARK COMMISSIONERS.

ARLINGTON, MASS., January 14, 1910.

The Park Commissioners submit the following report for the year 1909:

Meetings have been held at various times during the year to carry on the general work necessary for the care of the park areas under our supervision. On account of the very small appropriation given this Board, comparatively little could be accomplished. It would seem to your Commission that all the public grounds should be controlled by the Board of Park Commissioners and that one appropriation should be made for the care of the same. At the present time responsibility is greatly divided, making it impossible for much of the work to be carried on to the best advantage.

MENOTOMY ROCKS PARK.

At Menotomy Rocks Park it was considered advisable not to employ a patrolman, and arrangements were made with the Chief of Police to send one of the Town police to the park if his services were required. By dispensing with the park patrolmen much expense has been saved and has been spent for other purposes which seemed necessary for the care of the grounds in our charge.

Three thousand small pine trees have been planted in the park, the entrance from Jason Street has been beautified by the planting of bulbs and flowers, the mowing of the grass and more or less work on the walks. The roadway by the Devil's Den has been regraded and gutters built in order to prevent washing. Owing to the large number of dead trees, arrangements were made early in the spring with the superintendent for the suppression of gypsy and brown-tail moths for removing this dead wood and also for fighting the brown-tail and gypsy moths. The greater part of the trees in this park have either been killed or have very little life left in them, so that we would recommend re-planting the entire area with immune trees

as rapidly as possible. At the present time there are very few wooded areas in Arlington, and if this park can be thoroughly planted it should become of much more value, both as a wooded park area, and as a resting point for the citizens. Under these conditions this should be considered a valuable asset to the Town as it could be made to largely take care of itself.

RUSSELL PARK.

This park has had the usual care as during previous years. The grading of the cross walks has been completed and are being used by a great many travelers. During the coming year it is hoped that the grass along the edge of the walks may be made to grow as there will be no reason for travelers encroaching on the side areas. Estimates have been secured and accepted for the planting of a row of trees on the entire south side and will be finished early in the spring of 1910.

MEDFORD STREET TRIANGLES AND WELLINGTON PARK.

These areas have been kept mowed and in good condition throughout the entire season.

MEADOW BROOK PARK.

A fair amount of filling has been put in this park and shows an appreciable increase. The work of caring for the grass plots and flower beds was let out by contract in the spring of 1909 and proved very satisfactory. In this way quite an amount of money was saved and the contractor has carried along his work very well.

Respectfully submitted :

C. H. GANNETT, Chairman

H. L. FROST

W. E. LLOYD.

REPORT OF TREE WARDEN.

To the Honorable Board of Selectmen:—

I respectfully submit my report as Tree Warden for the year ending December 31, 1909:

We have about 3500 shade or street trees. The Town has become accustomed to appropriating the sum of \$300, which amount is entirely inadequate for the care and preservation of this number of trees. There are a number of old and worthless trees on the streets, a few of which should be removed each year and be replaced by young trees. There were a number of requests made by property owners on this department for the planting of trees on the highway in front of their property. All could not be attended to, and a great many had to go unheeded, owing to lack of funds. I should, therefore, respectfully request that the sum of \$700 be appropriated for this department for the ensuing year.

TREE PLANTING.—There is opportunity on several streets in the Town for the planting of young trees, which would enhance the beauty and make such streets more attractive. Property owners desiring to plant trees on the public highways adjoining their property should consult the Tree Warden as to the species of tree to be planted, and also as to the location. In past years, before the office of Tree Warden was established, any and all kinds of trees were planted, regardless of conditions or the natural development of different species of trees. This has brought about a condition on sections of some streets, particularly on Pleasant street, where the trees have been planted so close that their natural development has never been attained, thus causing, in many instances, to be unsightly, ugly or ill shaped what would otherwise have been a fully-developed, ornamental and useful tree.

INSECT ENEMIES OF TREES.—Trees at present have more insect enemies than have heretofore been known, or at least noticed. Perhaps the first and the ones with which the citizens are most familiar, are the Gypsy and Brown-tail Moths. These pests, through the liberal appropriations made by the Town and State, have been kept in check and are not so noticeable on our trees as in previous years.

ELM LEAF BEETLE.—This pest differs from the Gypsy and Brown-tails in that it is not a foliage-eating insect. While the latter eats the entire leaf, the Elm Leaf Beetle in the caterpillar or slug form is of the sucking species; making a very slight opening on the under side of the leaf it will then suck the sap therefrom, causing the leaf to turn brown and fall off, and oftentimes where the infestation is bad, the trees are denuded of their foliage in mid-summer. This, of course, causes serious damage and a few successive strippings means the death of the tree. The only effective method thus far known in combating this pest is spraying with arsenate of lead, and this to be effective particular care must be taken to spray the under side of each leaf, otherwise good results cannot be obtained.

LEOPARD MOTH.—This pest while comparatively new in this section, is, according to experts, the most dangerous and causes more injury to the trees than any or all the other insects. It differs from the above-mentioned pests in that it is neither a foliage-eating or sucking insect. On the contrary, it is of the boring species, gaining its sustenance by boring beneath the bark of the limb, and continuing in an irregular circle and emerging very near the hole in which it entered. This cuts off the flow of sap, which is the life blood of the tree, and causes each limb so girdled to die.

Owing to the fact that the presence of this pest is not noticed until that part of the tree which has been attacked shows signs of decline, and by which time it is almost certain that the slug has departed therefrom, makes it a rather difficult problem to combat this particular pest with any degree of success. The poling back of the trees, that is, cutting the limbs back to or almost to the trunk, has been tried in some places as an experiment. This would be rather severe treatment on our street trees, and should not be attempted only as a last resort.

ENEMIES OF THE TREES OTHER THAN INSECTS.—The overhead electric light wires cause a considerable amount of damage to the street trees by burning off the limbs. They are also a menace to the life and limb, and the cause of much anxiety among tree workers. While we have been very fortunate in having no serious accidents thus far from this source, other sections have not fared so well, as many accidents and fatalities occur each year among tree workers coming in contact with live wires. Telephone and feed wires for trolley cars, while not dangerous for men to handle except while crossed by a live electric light wire, are to a certain extent injurious to the street trees from the fact

that they are almost constantly swaying, causing the wires to wear through, thus killing many limbs. While the corporation owning the wires running through the Town have always been prompt in answering calls to alleviate any trouble from this source, the fact remains that the wires are injurious to the trees, and are the most dangerous enemies that men caring for the trees have to contend with.

GAS PIPES LAID IN THE PUBLIC STREETS.—Many of our street trees have undoubtedly been either killed or affected by leaking gas pipes. This matter has probably been remedied, as all gas pipes laid in the streets in the future will be laid under the supervision of a Town Inspector.

MODERN HIGHWAYS—STREET TREES.—The construction of the highways enters largely into the material welfare of the street trees. With the advent of the macadamized and oiled road-beds, paved gutters, brick concrete or asphalt sidewalks, the rain, the natural water supply of the trees, is denied them, as under the present conditions the greater portion flows into the catch-basins, very little, if any, perhaps, reaching the roots of the trees. While it is undoubtedly essential that we should have the modern construction of our highways, it can hardly be expected that the trees will thrive under such conditions.

HORSES—STREET TREES.—The street trees were never intended and should not be used for hitching-posts for horses. Through the carelessness of drivers in allowing them to stand unweighted, and unattended, horses do a great deal of damage in cribbing the bark off of street trees. This is a matter that with reasonable care could be avoided, and I would call the attention of owners of horses to the fact that there is a severe penalty for each offence of this kind.

Respectfully,

WILLIAM H. BRADLEY,

Local Superintendent.

REPORT OF THE BOARD OF HEALTH.

The Board of Health respectfully submits the following report for the year ending December 31, 1909:

The present Board, consisting of Dr. Laurence L. Peirce, Alfred H. Knowles and Dr. Guy E. Sanger, met March 5th, and organized with Dr. Peirce as chairman and Mr. Horace A. Freeman as Clerk.

The appointments made by the Board may be found in the list of Town officials.

The general health of the Town in regard to contagious diseases has been exceptionally good, and although it has been deemed necessary that the Board recommend the closing, for a few days, of the High and Locke Schools, it has been for the purpose of fumigating the buildings rather than because of any extensive outbreak of scarlet fever or other contagious diseases.

COLLECTION OF ASHES AND OFFAL. Under this head, it can be readily seen that as the Town grows more or less rapidly, that the expense of this department must necessarily increase. This past year we have been able to keep within the appropriation, as can be seen per tabulation and comparison with the previous year.

	1909			1908		
	Labor	Horses	Total	Labor	Horses	Total
Offal.....	\$1657 44	\$ 540 06	\$2197 50	\$1620 70	\$ 705 31	\$2326 01
Ashes.....	2231 02	960 01	3191 03	2164 56	809 23	2973 59
New Offal Cart.....	225 00
Repairs and Supplies..	210 23	270 79
			\$5598 76			\$5795 39
Unexpended balance..	61 24	89 61
			\$5660 00			\$5885 00

DISPOSITION OF TOWN OFFAL. June 30, 1909, the five-year contract between the Town and Mr. W. W. Rawson terminated, and the Board advertised for bids for the disposal of the Town Offal. Five bids were received and the contract was awarded to

Mr. John Runkle of Cambridge, the highest bidder, for a term of five years, for the sum of \$950 a year, said offal to be called for daily and used outside of the Town limits. This new contract brings to the Town an increase of \$450 over the old one.

GARBAGE PLANT. The disposition of the offal to an out-of-town party necessitated the building of a station or garbage plant where the offal could be deposited until called for. Accordingly, the Board asked for and received from the Town, the sum of \$1000 for the erection of a garbage plant on the land recently purchased by the Town for town purposes. This plant is now complete and ready for use. It is a two-story brick and cement building, built with two levels, the bottom level being for the contractor's wagon, and the top level for the collection wagons, the offal being dumped through an opening directly from one wagon into the other. After the building was completed we found it necessary to ask for an additional sum of \$200 in order to grade and build a roadbed to the same.

BY-LAW RELATING TO THE COLLECTION OF OFFAL. At a meeting of the Board held May 17th, the following By-Law was adopted in order to protect Mr. Runkle, the contractor for the offal:

"No person shall collect garbage within the limits of the Town without a permit from the Board of Health."

Several parties have since applied for permits to collect, but in all cases the same have been refused.

SANITARY CONDITIONS. We feel that the present sanitary conditions of the Town are good and with the gradual extension of the sewers, will be even better in the future. We refer you to the report of the Inspector of Plumbing.

LIABILITY OF THE TOWN FOR CONTAGIOUS DISEASES. By an act of the Legislature which as amended reads as follows:

CHAPTER 213, ACTS OF 1902, AS AMENDED.

SECTION 1. Reasonable expenses incurred by the Board of Health of a city or town or by the Commonwealth in making the provision required by law for persons infected with smallpox or other disease dangerous to public health shall be paid by such person or his parents, if he or they be able to pay, otherwise by the city or town in which he has a legal settlement, upon the approval of the bill by the Board of Health of such city or town, or by the State Board of Charity; and such settlements shall be determined by the

Overseers of the Poor,, and by the State Board of Charity in cases cared for by the Commonwealth. If the person has no settlement such expenses shall be paid by the Commonwealth, upon the approval of bills therefor by the State Board of Charity. In all cases of persons having settlements, a written notice sent within the time required in the case of aid given to paupers, shall be sent by the Board of health, or by the officer or board having the powers of a Board of Health in the city or town where the sick person is, to the Board of Health, or to the officer or board having the powers of a Board of Health in the city or town in which such person has a settlement, who shall forthwith transmit a copy thereof to the Overseers of the Poor of the place of settlement. In case the person has no settlement, such notice shall be given to the State Board of Health, in accordance with the provisions of Section fifty-two of Chapter seventy-five of the Revised Laws, and also in any case liable to be maintained by the Commonwealth when public aid has been rendered to such sick person, a written notice shall be sent to the State Board of Charlty, containing such information as will show that the person named therein is a proper charge to the Commonwealth, and reimbursement shall be made for the reasonable expenses incurred within five days next before such notice is mailed, and thereafter until such sick person is removed under the provisions of Chapter three hundred and ninety-five of the acts of the year nineteen hundred and four, or is able to be so removed without endangering his or the public health.

SEC. 2. No person for whose care and maintenance a city or town or the Commonwealth has incurred expenses in consequence of smallpox, scarlet fever, diphtheria, tuberculosis, dog bite, requiring anti-rabic treatment, or other diseases dangerous to the public health, shall be deemed to be a pauper by reason of such expenditure.

The Town has become responsible for eighteen cases of contagious diseases, including diphtheria, scarlet fever and tuberculosis, the cost for which is in the near neighborhood of \$800. These cases include claims not only in Arlington, but Cambridge, Somerville, Newton and Boston. It can readily be seen that in the future these claims are bound to increase. Physicians of today, recognizing that epidemics arise more frequently among the poorer classes, take the earliest opportunity of sending such cases to the nearest contagious hospital, to insure proper treatment and caution. Observation of the next few years will be the only means of determining what proportion of expense this legislation will cost the Town.

SMALL POX HOSPITAL. A communication was received early in the year from the Board of Health of the city of Somerville, asking that we co-operate with several of the nearby cities and towns in the purchasing and maintaining of a small pox pest

house, against an emergency for the same arising. The Board did not wish to take any action in regard to this matter until a more definite plan could be presented, possibly in the future.

FUMIGATION. In regard to fumigation, we refer you to the report of the Fumigator, whose services have in every way been extremely satisfactory.

EXAMINATION OF PLUMBERS. Heretofore it has been the duty of the Board to appoint each year an Examining Board, consisting of three members, to examine and issue licenses to persons wishing to become master and journeyman plumbers. In accordance with recent legislation this matter now comes under the State.

CIRCULARS OF INFORMATION. Circulars of instruction for the general care of patients, suggesting means for preventing the spread of diphtheria, scarlet fever, typhoid fever, measles and consumption or tuberculosis, have been printed, to be sent to families in which any of said diseases occur.

FUMIGATION. A more thorough system of fumigation has been adopted, and on the recovery or death of each case of diphtheria, scarlet fever, and tuberculosis the Board attends immediately to the fumigation of the premises. The expense is met by the Town, except where extra fumigation is requested.

REPORTABLE DISEASES. The Board has adjudged the diseases known as scarlet fever, measles, typhoid fever, diphtheria, small-pox, membranous croup, cholera, yellow fever, typhus fever, cerebro-spinal meningitis, hydrophobia, malignant pustule, leprosy, trichinosis, tuberculosis, ophthalmia of the newly born, actinomycosis, glanders, tetanus, varicella, whooping-cough as infectious or contagious, and dangerous to the public health and safety within the meaning of the Statutes. Physicians are required to report immediately to the Board every case of either of these diseases coming under their care, and postal cards conveniently printed and addressed are supplied to them for this purpose. On receipt of a card from a physician the Superintendent of Schools, Principal of High School, Trustees of Robbins Library, and School Physician are notified. Mr. Charles T. Hartwell acts as fumigator in behalf of the Board.

CULTURE STATIONS. Culture tubes for diphtheria, sputum bottles for suspected tuberculosis, and anti-toxin are provided by the State Board of Health and placed by this Board with H. A. Perham, druggist, for the use of physicians.

MISCELLANEOUS—BOARD OF INFANTS. The Board has given its approval to applications for licenses to board infants or children as follows: Rosa Simmonds, 32 Appleton street; S. A. Gilpatrick, 14 Teele Street place; Mary E. Smith, 16 Walnut place; Mary E. Hallice, 43 Massachusetts avenue; Georgiana A. Fouquet, 51 Teele street; Sarah Scanlon, 41 Teele street; Emma Hill, 17 Cottage avenue; Flora A. Hill, 13 Cottage avenue; Jennie H. Goodwin, 928 Massachusetts avenue.

REPORTS OF OFFICERS OF THE BOARD. The reports of the several officers of the Board are appended, to which attention is called.

FINANCIAL. For detail as to expenditures reference is made to the report of the Auditor.

LICENSES. Licenses have been granted as follows:

STABLES. George Clark, 30 Mystic street; John Lyons, Bucknam court; Mary A. Law, Mill street.

UNDERTAKERS. J. Henry Hartwell & Son, Medford street; Daniel W. Grannan, and William D. Grannan, 378 Massachusetts avenue; James P. Daley, 20 Franklin street.

SLAUGHTERING. William Borman, rear 27 Broadway.

PLUMBING. Joseph A. Tole, 30 Lewis avenue; Andrew Bain, 49 Lowell street; George M. Bruce, Frank E. Gallagher, Charles F. Burton, Mathew H. Rowe.

LAWRENCE L. PEIRCE, M.D.V.,

ALFRED H. KNOWLES.

GUY E. SANGER, M.D.,

Board of Health.

Attention is called to the following regulations of the Board of Health and extracts from the Revised Laws:

DISEASES DANGEROUS TO THE PUBLIC HEALTH.

From Regulation of Board of Health.

SECTION 3. Upon the outside of every house in which there is a person sick with smallpox, diphtheria, membranous croup, measles or scarlet fever shall be placed a suitable placard with the name of the disease. The Board of Health may in special cases permit the placard to be placed

upon interior apartments only. This placard shall not be defaced or removed by any person without authority of the Board of Health.

SEC. 4. No person shall remove or permit to be removed from any house or apartment upon which a placard has been placed, as provided in Section 3, any clothing, books or other property without a permit from the Board of Health; nor after a house is established as a hospital, under provisions of Chapter 80 of the Public Statutes, shall any occupant of such house take up a residence elsewhere without such permit. No public or circulating library book shall be taken into any house or apartment whereon a placard has been placed, as provided in Section 3, before the authorized removal of said placard. All books, papers, toys and other articles in a room where there is a person sick with scarlet fever or diphtheria which cannot be thoroughly disinfected must be destroyed.

SEC. 5. No person living in a house or interior apartment upon which a placard has been placed, as provided in Section 3, shall attend or visit any school in the Town without a permit from the Board of Health.

SEC. 6. No person who has visited a house in which there was at the time a case of smallpox, diphtheria, membranous croup, or scarlet fever, shall attend school until the expiration of two weeks from such visit.

SEC. 7. Danger of conveying small-pox, diphtheria and scarlet fever shall not be considered to have passed until two weeks have expired after the rooms occupied by a person who has been sick with either of said diseases, and the articles used by him have been disinfected to the satisfaction of the Board of Health.

SEC. 8. In case of the removal of a child from the house where a person is sick with any of the diseases mentioned in Section 11 of Chapter 496 of the Acts of the year 1898, two weeks must elapse before such child is allowed to attend school.

SEC. 9. No case of diphtheria shall be considered recovered until a negative culture has twice been obtained, at not less than three days' interval, from such patient.

SEC. 10. No case of scarlet fever shall be considered recovered until desquamation is complete on every part of the body.

SEC. 11. No child having chicken-pox or mumps shall be allowed to attend any school in this Town.

EXTRACTS FROM THE REVISED LAWS AS AMENDED.

Contagious Diseases.

[CHAPTER 480, ACTS OF 1907.]

An Act to Provide for the Compulsory Notification and Registration of Tuberculosis and Other Diseases Dangerous to the Public Health.

Be it enacted, etc., as follows:

SECTION 1. Sections forty-nine and fifty of Chapter seventy-five of the Revised Laws, as amended by Chapter two

hundred and fifty-one of the Acts of the year nineteen hundred and five, and Section fifty-two of said Chapter seventy-five are hereby amended by inserting after the word "disease," wherever it may occur in said sections, the words:—declared by the State Board of Health to be,—so as to read as follows:—Section 49. A householder who knows that a person in his family or house is sick of small-pox, diphtheria, scarlet fever or any other infectious or contagious disease declared by the State Board of Health to be dangerous to the public health shall forthwith give notice thereof to the Board of Health of the city or town in which he dwells. Upon the death, recovery or removal of such person, the householder shall disinfect to the satisfaction of the board such rooms of his house and articles therein as, in the opinion of the board, have been exposed to infection or contagion. Should one or both eyes of an infant become inflamed, swollen and red, and show an unnatural discharge at any time within two weeks after its birth, it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the Board of Health of the city or town in which the parents of the infant reside, the fact that such inflammation, swelling and redness of the eyes and unnatural discharge exist. On receipt of such report, or of notice of the same symptoms given by a physician as provided by the following section, the Board of Health shall take such immediate action as it may deem necessary in order that blindness may be prevented. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars. Section 50. If a physician knows that a person whom he is called to visit is infected with small-pox, diphtheria, scarlet fever or any other disease declared by the State Board of Health to be dangerous to the public health, or if one or both eyes of an infant whom or whose mother he is called to visit become inflamed, swollen or red, and show an unnatural discharge within two weeks after the birth of such infant, he shall immediately give notice thereof in writing over his own signature to the Selectmen or Board of Health of the town; and if he refuses or neglects to give such notice, he shall forfeit not less than fifty or more than two hundred dollars for each offense. Section 52. If the Board of Health of a city or town has had notice of a case of small-pox, diphtheria, scarlet fever or any other disease declared by the State Board of Health to be dangerous to the public health therein, it shall within twenty-four hours thereafter give notice thereof to the State Board of Health stating the name and location of the patient so afflicted, and the secretary thereof shall forthwith transmit a copy of such notice to the State Board of Charity.

SEC. 2. This act shall take effect upon its passage.
[Approved June 6, 1907.]

VACCINATION.—CHAP. 75, SEC. 136. A parent or guardian who neglects to cause his child or ward to be vaccinated before the child or ward attains the age of two years, except as provided

in section one hundred and thirty-nine,* shall forfeit five dollars for every year during which such neglect continues.

CHAP. 75, SEC. 137. The Board of Health of a city or town if in its opinion, it is necessary for the public health or safety, shall require and enforce the vaccination and re-vaccination of all the inhabitants thereof and shall provide them with the means of free vaccination. Whoever, being over twenty-one years of age and not under guardianship, refuses or neglects to comply with such requirement shall forfeit five dollars.

CHAP. 44, SEC. 6. [Revised Laws, as amended by Chap. 371, Acts of 1906.] A child who has not been vaccinated shall not be admitted to a public school except upon presentation of a certificate signed by a regular practicing physician that he is not a fit subject for vaccination. A child who is a member of a household in which a person is ill with small-pox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the Board of Health of the city or town, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

Note—Section 139, referred to above, exempts children who present a certificate signed by a registered physician that they are unfit subjects for vaccination. Application for free vaccination by persons who are unable to pay for it, may be made to the Clerk or Agent of the Board of Health.

REPORT OF THE SANITARY INSPECTOR.

ARLINGTON, MASS., December 31, 1909.

Board of Health:—

GENTLEMEN:—I have the honor to submit my report as Sanitary Inspector for the year ending December 31, 1909.

The character of work of this office has been about the same as that of previous years.

All complaints have been given consideration and thoroughly investigated.

Where an actual nuisance or unhealthful conditions were found to exist the same have been abated.

Satisfactory adjustments have been made to all complaints.

Respectfully submitted,

CHARLES T. HARTWELL.

Sanitary Inspector

REPORT OF THE FUMIGATOR.

ARLINGTON, MASS., December 31, 1909.

Board of Health:

GENTLEMEN:—I have the honor to submit my report as Fumigator for the year ending December 31, 1909.

Whole number of cases fumigated seventy-two (72).

Thirty-nine(39) cases of scarlet fever, requiring the fumigation of one hundred and twenty-one (121) rooms.

Thirty-two (32) cases of diphtheria requiring the fumigation of sixty-nine (69) rooms.

One (1) case of tuberculosis requiring the fumigation of one (1) room.

Halls, stairways and closets whenever necessary.

Respectfully submitted,

CHARLES T. HARTWELL.

Fumigator.

REPORT OF THE INSPECTOR OF PLUMBING.

LEXINGTON, MASS., January 1, 1910.

To the Board of Health of the Town of Arlington :

GENTLEMEN : — Below please find the report of your Inspector for the year ending with this date.

Total calls made.....	403
Total applications received for which permits were granted.....	141
Total number of certificates issued.....	141
Certificates issued for work which permits were issued previous to my taking up the work	3
Number of permits issued for which no certifi- cates have yet been granted.....	17

These last are for jobs which are at present not completed.

The hearty co-operation accorded to the Inspector by the Board and the plumbers of the Town have made the work almost a pleasure and in regard to their work I cannot but speak in the highest commendation.

Respectfully submitted,

GEO. W. DAY.

REPORT OF THE INSPECTOR OF SLAUGHTERING.

ARLINGTON, MASS., December 31, 1909.

To the Board of Health:—

GENTLEMEN:—I have the honor to submit my report as inspector of slaughtering for the year ending December 31, 1909.

Licenses have been granted to William Bowman and Frank Bowman to slaughter in the Town of Arlington.

They have well kept houses to slaughter in.

I have made the usual number of visits to the slaughter houses during the year. Have inspected 3,624 veal, fifty-seven pigs, two lambs and five cows, and have found them all of good quality.

Respectfully submitted,

FRANK P. WINN,

Inspector of Slaughtering

REPORT OF REGISTRARS OF VOTERS.

ARLINGTON, DECEMBER 31, 1909.

The Board of Registrars of Voters herewith submit their report for the year ending December 31, 1909.

During the year the Board held six sessions, as required by law, five of which were held at the Town Hall and one at Union Hall, Arlington Heights. The custom has been, for a number of years, to hold two meetings at the Heights, one in the spring and one in the fall, but this year the meeting in the fall had to be omitted owing to the fact that there was no available meeting place.

The total number of registered voters as reported January 1, 1909, was 2002.

Whole number males.....	1884	
Whole number females.....	118	
		2002

During the year 165 names were stricken from the list for death, removal or other causes.

At the various meetings held during the year the number added was as follows:

Town Hall, Feb. 20, 1909.....	3	
Town Hall, Sept. 20, 1909.....	6	
Town Hall, Oct. 12, 1909.....	20	
Town Hall, October 23, 1909.....	110	
		139

Making a total registration for the year of 139.

The list as revised to Jan. 1, 1910, is as follows:

Whole number registered.....	1973	
Whole number men.....	1855	
Whole number women.....	118	
		1973

JOHN W. BAILEY,
WINTHROP PATTEE,
EBEN F. DEWING,
THOMAS J. ROBINSON.
Registrars of Voters.

REPORT OF BOARD OF PUBLIC WORKS.

The Board of Public Works herewith submits its annual report for the year ending December 31, 1909:

The first meeting of the Board was held on March 8, 1909, the organization resulting in the election of William N. Winn as Chairman. Forty-four meetings were held during the year.

APPOINTMENTS. At a meeting held March 29, 1909, Charles C. Lothrop was appointed Clerk and Water Registrar, Thomas Roden was appointed Superintendent of the Water Division and Robert W. Pond was appointed Superintendent of the Sewer Division, all appointments holding for one year.

The following appropriations were expended under the direction of the Board.

	Amount Appropriated.	Net Amount Expended.
Highway Division	\$23,326.10	\$24,164.44
Sewer Extensions	2,000.00	2,000.00
Sewer Maintenance	1,900.00	1,176.78
Water Extensions	2,000.00	2,000.00
Water Maintenance	46,500.00	50,543.62
Renewal of Mains.....	5,977.80	1,075.46
Permanent Sidewalks	3,000.00	3,372.12
Bow Street Storm Drain.....	600.00	554.14
Appleton Street Storm Drain.....	600.00	599.98
Improvement of buildings at Town Yard..	125.00	101.34
Construction of Roadway at Town Yard..	200.00	200.00
Construction of Woodland Street.....	1,350.00	1,302.51
Construction of Bartlett Avenue.....	1,750.00	1,639.04
Total	\$89,328.90	\$88,729.43

HIGHWAY DIVISION. The work of this Division has been of general character and distributed over the Town, with the single exception of resurfacing Massachusetts Avenue on the north side from Winter Street to Pleasant Street, which cost \$8,075.66.

For more detailed report of the work of this Division and for recommendations see the report of Town Engineer.

EXPENDITURES. A financial statement, showing a summary of all expenditures and costs, is given in Table I, while Table II shows detail of all special appropriations. Table III gives in detail the cost of permanent sidewalks and renewal of same. The

		<hr/>
		\$16,505.84

Stock in Charge of Highway Division, but Owned by Other
Departments.

Health Department	\$1,997.50
Street Watering Department.....	1,840.70

SEWER DIVISION. During the year 1700 feet of 8-inch sewer has been built at an expense of \$2000. Forty-seven feet of 8-inch sewer was abandoned on Cottage Avenue. This sewer came within the area taken by the Metropolitan Park Commission for the improvement of Alewife Brook.

Seventy connections have been made with the main sewer at a total cost of \$2,203.68.

The necessary flushing and cleaning of the system has been done.

A detail statement giving costs of sewers built in 1909, including particular sewers, is shown in Table IV. A summary of all expenditures is shown in Table V. Table VI shows the cost of the system, also the amount of assessment on same to date.

The value of property in this division on January 1, 1910, was as follows:

Horses and vehicles	\$217.40	
Tools and storehouse	1,008.50	
Engineering instruments etc	521.00	
	<hr/>	\$1,746.90
Materials available for new work.....		274.37
		<hr/>
Total		\$2,021.27

SUMMARY OF SEWERAGE STATISTICS.

(In form recommended by Sanitary Section of Boston Society Civil Engineers.)

For the Year Ending December 31, 1909.

Arlington, Mass.

GENERAL.

Population by census of 1905, 9,668.

Total area of city or town, 5.5 square miles.

Area served by sewerage system, 1.8 square miles.

Collection System.

For sewage only, 27.61 miles.*

For sewage and surface water, 0 miles.

For surface water only 7.0 miles.

Method of disposal: Sewerage into Metropolitan Sewer, surface water into brooks.

*Includes 3.47 miles local Metropolitan Sewer.

COLLECTION.

Mains. (Everything but house and catch basin connection.)

	For Sewage only.	For surface water only.
1. Lineal feet stone.....		
2. " " brick		
3. " " concrete		
4. " " pipe	145,750 ft.	36,841 ft.
5. " " ext'd'd during year.	170 "	781 "
6. Number of invested siphons..	2	
7. " " manholes	559	
8. Method of flushing. Water service at manholes end of lateral lines.		
9. Method of cleaning. By special brush drawn from manhole to manhole.		
10. Number of automatic flushing tanks	0	
11. Number of direct connections with water mains for flushing	64	
12. Number of flushings of entire system during year.....	4	
13. Cost of flushing per mile.....	\$2.00 estimated	
14. Cost of cleaning per mile....	\$2.00 estimated	
15. Number of stoppages.....	0	
16. Method of ventilation.....	Manhole Covers

		<u>\$3,141.09</u>

WATER DIVISION.

EXTENSION OF STREET MAINS. In all there have been laid 528 feet of 8-inch and 1211 feet of 6-inch pipe, to extend the high and low service systems at a total cost of \$2,000.00. Fifty feet of 6-inch main was abandoned in Cottage Avenue. This main was within the area taken for Alewife Brook Parkway.

RENEWAL OF STREET MAINS. In all 1200 feet of 6-inch cast-iron pipe has been laid in Park Street to replace cement-lined pipe. The total cost of this work was \$1,075.46. There was available for this purpose \$5,977.80, leaving a balance unexpended of \$4,902.34. We recommend that this balance be re-appropriated for the same purpose, as on account of age of this pipe renewal may become necessary at any time.

The detail costs of extensions and renewals are shown in Table VII and a summary of all expenditures is shown in Table VIII.

MAINS. The lengths and sizes of cement-lined and iron pipe in use January 1, 1909, together with the number of hydrants and gates on both the high and low service systems are shown in the following table:

LOW SERVICE SYSTEM.

	Size, Inches.	Length, Feet.	Hydrants	Gates
Cement-lined pipe.....	12	8,530		
“ “	6	1,240		
“ “	4	9,312		
Total.....		19,082	26	19
Iron pipe.....	12	6,771		
“ “	10	6,977		
“ “	8	17,781		
“ “	6	34,062		
“ “	4	11,794		
Total.....		77,385	151	125
Total both kinds....		96,467 18.28 miles	177	144

HIGH SERVICE SYSTEM.

	Size, Inches.	Length, Feet.	Hydrants	Gates.
Iron pipe.....	12	16,503		
“ “	10	14,644		
“ “	8	14,244		
“ “	6	51,477		
“ “	4	1,497		
Total.....		98,365 18.63 miles	207	174

The total of both systems is 36.91 miles of pipe, 384 hydrants and 318 gates. In addition there are 4,448 feet of smaller pipes, 2-inch to 1¼-inch laid in places where hydrants were not needed, and the amount of water required was small.

SERVICES. Seventy-seven new services have been added during the year. Forty-two on the high service and thirty-five on the low service system. One service has been changed from the low to the high system. There are 1244 services on the low and 834 on the high service system, 64 in use by the Sewer Division for flushing sewers and 27 services for street watering standpipes.

REPAIRS ON SERVICES. Many complaints have been received of insufficient pressure, which upon investigation have been found to be due to pipes filling with rust on the premises of the consumer. Thirty-three of these services have been renewed at the expense of the owners.

RE:ERVOIR. The nests of the brown-tail moths have been removed, the underbrush cleared up, the fences repaired and the brook cleaned.

HYDRANTS. The hydrants have been repaired and all have been oiled and painted, and are now in good condition.

TABLE VII.

		<hr/>
Balance		\$1,192.87

During the year 1909 the Town purchased land adjacent to the railroad, formerly owned by the Kelley Heirs, for the use of the departments under the control of this Board.

We recommend that this property be developed as rapidly as money can be spared for the purpose.

We also recommend that a substantial appropriation be made the coming year for this purpose.

There is evidence of considerable building the coming year which will cause a demand for the construction of a large amount of sewer and water mains. We believe the time has come when a more liberal policy toward these necessities should be adopted.

Respectfully submitted,

WILLIAM N. WINN,
H. W. HAYES,
RODNEY T. HARDY,

Board of Public Works.

SUMMARY OF STATISTICS.

For the Year Ending December 31, 1909.
In form recommended by the New England Water Works Association.

ARLINGTON WATER WORKS.

Arlington, Middlesex County, Mass.

Population by Census of 1905, 9,668.

Date of Construction, low service, 1872; high service, 1894.

By whom owned, Town of Arlington.

Source of supply, Metropolitan Water System.

CONSUMPTION.

1. Estimated total population at date, 11,500.
2. Estimated population on lines of pipe, 10,600.
3. Estimated population supplied, 10,500.
4. Total consumption for the year, 309,762,205 gallons.
5. Passed through meters, 107,491,602 gallons.
6. Percentage of consumption metered, 34.7 per cent.
7. Average daily consumption, 848,417 gallons.
8. Gallons per day to each inhabitant, 74.
9. Gallons per day to each consumer, 81.
10. Gallons per day to each tap, 418.

DISTRIBUTION.

Mains.

1. Kind of pipe, cast-iron and cement.
2. Sizes, from 4-inch to 12-inch.

3. Extended feet during the year, 1739.
4. Discontinued———feet during year.
5. Total now in use, 36.91 miles.
6. Cost of repairs per mile, \$1.40.
8. Length of pipe less than four inches diam., 4,448 ft.
9. Number of hydrants added during year (public), 4.
10. Number of hydrants (public and private) now in use, 384.
11. Number of stop gates added during year, 3.
12. Number of stop gates now in use, 319.
15. Average pressure on mains at centre of Town, 90 lbs. high system; 50 lbs. low system.

Services.

16. Kind of pipe, cement-lined, galvanized, cast-iron.
17. Sizes, $\frac{5}{8}$ -inch to 6-inch.
21. Number of service taps added during year, 77.
22. Number now in use, 2032.
24. Average cost of service for the year, 17.26.
25. Number of meters added, 129.
26. Number now in use, 1121.
27. Percentage of services metered, 55 per cent.
28. Percentage of receipts from metered water ($B \div C$), 62.2 per cent.
30. Number of motors in use, 4.

HARVEY S. SEARS,

Collector of Taxes.

December 31, 1909.

I have examined the accounts of Harvey S. Sears, Collector of Taxes for the Town of Arlington, Mass., and find the same correct, agreeing with the Auditor's Books.

GEORGE McK. RICHARDSON,

Auditor.

December 31, 1909.

AUDITOR'S REPORT.

For the Financial Year ending December, 31, 1909.

The books and accounts of the Treasurer and Collector have been examined and found correct, and the balance of cash on hand as reported has been verified.

A list of all unpaid assessments at this date is on file in this office.

The accounts of the Cemetery Department, Town Clerk, Sealer of Weights and Measures, and Inspector of Milk have all been examined and agree with the Auditor's books.

The accounts of the following Trust Funds have been examined and found correct, and the Investments on hand as reported by the Trustees of the various funds:

Elbridge Farmer Fund.

Nathan Pratt Library Fund.

Nathan Pratt High School Fund.

Nathan Pratt Poor Widow's Fund.

High School Income Fund.

Sinking Fund.

Martha M. W. Russell School Fund.

Martha M. W. Russell Poor Widows' Fund.

Mary Cutter Poor Widows' Fund.

Income Poor Widows' Funds.

William Cutter School Fund.

E. Nelson Blake, Jr., Memorial Fund.

Henry Mott Library Fund.

Timothy Wellington Fund.

Julia Fillebrown Fund.

Citizens Soldiers' Fund.

Soldiers' Monument Fund.

Robbins Fund.

Samuel C. Buckman Fund.

Cemetery Perpetual Care Fund.

Income Cemetery Perpetual Care Funds.

During the year the Military Fund has been closed as shown in the accounts.

OVERDRAFTS. The overdrafts shown on Police, Incidentals, and Board of Health were all authorized by the Board of Selectmen.

BOARD OF HEALTH. This was occasioned by large expenditures on account of Contagious Diseases.

INCIDENTALS. This was occasioned by unforeseen expenses in connection with the Lowell & Suburban Railroad matter.

POLICE. This was largely due to extra expenses at the time of the trial in the Mullins' case.

The overdraft on Suppression of Gypsy and Brown Tail Moth account was occasioned by the Reimbursements not being sufficient to offset the authorized borrowings, the difference being charged back to this account.

The deficit in Corporation and Bank Tax was on account of an overestimate by the Assessors when making their tax levy.

No unpaid bills have been reported.

Respectfully submitted,

GEO. McK. RICHARDSON,

Auditor.
